There are now in this city upwards of five. hundred insolvents, most of whom have families, and are suffering every privation and distress, whilst the pampered, unrelenting creditor is revelling in luxury, Hardened must be the heart of that man, and little .influenced by the precepts of our holy religion, whio can give his sanc. dipped in blue, becomes of an elegant green. tion to the imprisonment of the unfortunate debtor after he lias got from him all he possesses, or is satisfied he has nothing more to give. Yet such there are in this city, niany of whom, to the discredit of our country, are permitted to retain their seats at the boards, not only of our monied, hut religious institutions.

The Calcutta papers mention the establishment umder flattering suspices, of a news had just arrived there of the surrender of college at Serampore, for the instruction Pensacola to the Spanish authorities. of Asiatic Christian and other youth in Oriental and European literature. It is in. tended to secure instruction, among other branches, in the Sanscript, Arabic and Persian Languages, for which the ablest native teachers are to be provided. Provision is also to be made for the English, Latin and Greek Languages, and it is proposed that there shall be two European professors, and an English teacher. Hindon and Mussulman youth are to be admitted without restriction. The society of missionaries at Serampore have devoted to it 20,000 rupees from their own funds, and donations are solicited from all quarters o the globe. Bank of the United States.

Mr. Johnson of Va. yesterday moved resolution directing the judiciary com nittee to bring in a bill to repeal the law stablishing the Bank of the United States This resolution, together with that offer d by Mr. Trimble, directing an immediate ssue of scirefacias, and that offered by Ar. Duelling.

You are no doubt acquainted with the act, that a savage like duel was, on Satur lay last, fought with muskets in the leighborhood of this place in which Gen Armstead T. Mason, of Va. was killed or the spot, by a Mr. M'Carty, of Alexan dria:—From the circumstance of the fol lowing resolution, offered in the Senati by Mr. Morril, I infer that some of the officers of the Army or Navy were con cerned in the transaction.

Observing some remarks over the signa ture of "A Farmer," in the Whig of ih 26th inst. intended as acriticism on the few remarks made by "A Subscriber;" and a it is but charitable to suppose that trut and information rather than victory are hi objects, it may not be improper to investi gate the subject a little further, so that er ror wherever found may be exposed. It is to be regretted that in discussions of thi kind, the angry passions should ever be en listed, that severity should even be mista ken for wit or assertion for argument; bu they may have their use in warning others and like the Israelites of old who "bor rowed of the Egyptians jewels of silver an jewels of gold: so if we are wise, me ma extract something useful from the faults c

our neightbours.

It mag not be improper in this place t remove **some** misapprehension in relatiu to the assertion, that no attribute or qualit can exist without existing in some forn Γο disprove this principle the following aigument is used by "A Farmer," "Is no: the thinking power of man, an attribute a man? Has it any form? Must thought hav thought is an attribute of man, and that frequently comes forth without form having neither head, nor body, nor eye norfeet; or admitting that it spring fort like Minerva from the head of Jupiter, per fect in form and feature, yet this does no in the least affect the question, for sti thought must have a thinking or breathin frame in which to reside, and this fram must have some form. Who ever heard (a thought or any other attribute, existing abstractedly or independently of any subject? But not only is it necessary that attributes should have a form in which to re side, bat the quality of the attribute deter mines the form, otherwise you might a well look for a rational soul in any othe animal as in man! The will and under standing are the two constituent principles of man, the former is receptive of love, the latter of wisdom or truth from the Lord; as man is the only creature endowed with these high and distinguished qualities, therefore he is the only creature possessed of a human form! How admirably adapted this form is, to bring into use and operation the combined powers of the will and understanding need not here be mentioned! If we view only the human hand in this rela-

ishment at the wonderful diversity of its

If then, the human is the most perfect form of which we can conceive, it this form the residence of the powers of raplace a our blessed Lord, and was conse-crated by the pre ence of the fulness of the God-head; wh should we start at the idea of God exis irig in a human form.?
This surely canno sound new or strange with his Bible; there the Supreme Being is constantly exhibited to our view under the form of a man; in proof of which I adduce a few passages out of very many. "And above the firmament that was over their heads was the likeness of a throng as the appearance of a Sapphire-stone: n upon the likeness of the throne, was the likeness as the appearhnce of a MAN above upon it." Ez. 1. 26. And in the 28th verse of the same chapter, it is said, this " was the appearance of the likeness of the glory of the Lord." Again, "the Lord is a man of war," &c. Ex. 15.

3. Again, "And the Lord speaks to Moses face to face, as a man speaketh to his friend. 'Ex33. 11. And again, "Lo, I see four men loose, walking in the midst of the fire, and they have no hurt; and the fork of the fourth is like the Son of God." Dan'.

Thus we perceive that attributing a hu man form to God, is neither absurd nor unscriptural. How much more rational thus to conceive of God, how much more comprehensible to the eye of faith! to believe that lie resides in the centre of the universe, is omnipresent in every part, regulating the whole, even as the soul is omnipresent in the body, *regulating all its motions; how much more satisfactory thaii to suppose that **He** is infinitely extended throughout space, thus existing in the form of vapour, an airy nothing! Is not this to worship an unknown God?

It is difficult to conceive how the following inference could be deduced from the premises laid down: "A Farmer" asks, are we prepared with this writer to be lieve there was no God, till Jesus Christ took the form of a man; antl was born of the virgin?" And does it follow, that because Jehovah in the fulness of time, clothed himself with a veil of flesh, and took upon him human nature, for the purpose of redeeming man; that He did not exist before the incarnation? Surely the Divine Love from which all things in the universe exist, and the divine wisdom by which they exist, must have been from eternity, nay they must have existed in the form of a man even before the incarnation! love and wisdom can reside in no other form; for il we 'believe our Bible we must believe in spiritual form and spiritua! existences as well as natural.

The spiritual angelic beings seen prophets and holy men, as recorded in the scriptures, all of whom I believe to have been once men like ourselves, and many of whom we know to have been, are uni formly presented to us in the form of men Witness Moses and Elias who were seen talking with our Lord :at-His transfiguration; witness the angel whom John saw in tlie Rev. of whom it is thus written: "And he measured the walls thereof, an hundred and forty and tour cubits, according to the measure of a man, that is of the an gel." Rev. 21. 17.

But what most of all I'sincerely la ment to see, is the opposition, and angry feeling which appear to be excited in the breast of "A Farmer," when Jesus Christ is mentioned as *God*, and **as** the only legitimate object; of worship; and when we would ascribe glory and honor and paw. ei to **Him**, at whose feet the four and twen. ty elders cast their crowns, me are charged with absurdity, and as wanting common sense!!

would in the spirit of christian charity and love recommend a reconsideration of those passages already adduced in my former piece upon this subject, not however from a principle of self-derived intelligence, not from a desire to support any favorite system, but from a sincere love of the truth, and you will find that this great truth; viz. the fulness of divinity residing in the person of our blessed Lord, is a truth which pervades the Bible from tht beginning to the end; and that the divinity of the Bible consists solely in this circum throughout. "Search the Scriptures, for they are they which testify of ME."

The Lord said to his disciples on a cer tain occasion, "I have yet many things to 'say unto you, but ye cannot hear then now," John 16.12.; which words imply tha in some future state of the church we should hands, and feet antl eyes, \$c. to be permitted to have a clearer view of History. Now although we admit that that the church and kingdom, than the church in its infancy was capable of receiving.— There ran be no doubt that one o those great truth reserved for the future church, was a fuller disclosure of his own divine nature: since we find this was the rock of offence among the Jews; and the

intimations which, the Lord gives **them** o it, **was** considered blasphemous, and sub jecfed him 'to the hazard of being stoned The voice of prophecy also strengthen this position, for it is clearly intimated that the time was to come when there should be one fold and one shepherd; and that the Lord shall be King over all the earth, in that day shall there be one Lord and his name one. Zach. 14. 9.

A letter from Washington City, of the Ilstinst. ststes that on the preceding night, the stage in which the writer arrived from this city, was robbed of all its baggage, and it was only owing to the precaution of one of the passengers, a French gentleman, that it was not lost. Apprehending danger he had , fixed a string to one of the trunks. and tied the other end to his hands, which soon received such a jirk as caused him to cry out. The timely alarm enabled the passengers to pursue the robbers so closely that they were compelled to drop their booty and flee to the neighbouring bushes.
