Choice Poetry.

For the West Jersey Pioneer. THE SONG OF WINTER. BY ESTELLA MAUBICE.

The long bright Summer I've dreamed away, Where scarcely is felt the sun's warm ray, I've dwelt in a place of ice and snow

Lit up by the bright sky's varying glow. . And now I come o'er the mountains gray, I come in my dark and sombre array, I ride on the storm-king's mighty wing

And my banner of clouds o'or the sky I fling. I am sweeping onward with my train Of ice and snow, of wind, hail and rain; Ye may hear my voice as I hurry past, In the hollow roar of the rushing blast.

I breathe on the earth, it becomes as stone, I bind the streams with a frozen zone; The icy chill of my piercing breath Doometh all things levely and fair to death.

I bring want and woe to the poor man's hearth, I check his young children's joyous mirth, They shrink from my coming, in sadness and fear For I bring to their desolate home, no cheer.

Heap the good faggots upon the fire, Let the red flame mount higher and higher! And when I knock rudely at your door Remember the woes of the suffering poor. Shiloh, Nov. 1852.

MORAE.

ADDRESS Of the Yearly Meeting of the Religious Society of Friends, held in the City of New York, to the Professors of Christianity in the United States: BY REQUEST.

The religious Society of Friends is known to the commuity as a people entertaining a conscientious conviction of the incompatibility of Slavery with the spirit and precepts of the Gospel; and under this conviction they have at different times appeared before the public in advocacy of the cause of liberty as the inalienable right of all men.

We feel engaged once more to invite the attention of our fellow-citizens-professors of the benign religion of Jesus Christ, whose office it was prophetically declared should be "to bind up the broken hearted, to proclaim liberty to the captives, and the opening of the prison to them that are bound," to a serious consideration of this subject.

There can be no doubt that the Church of Christ is designed to occupy a very elevated position as relates to purity and uprightness. and to exert through its teaching and example a purifying influence in the world; that the members of it should be distinguished by a scrupulous observance of the moral and social duties, agreeably to the language of prophecy-"He hath showed thee, O man, what is good; and what doth the Lord require of thee, but to do justly, and to love mercy, and to walk humbly with thy God?"

Our Holy Redeemer, in his public minis trations while on the earth, was engaged impressively to set before his followers the high position in which they were to stand and the weight of responsibility that would rest upon them. "Ye are the light of the world," said he. "A city that is set upon a hill cannot be hid. Neither do men light a candle, and put it under a bushel, but on a candlestick and it giveth light unto all that are in the house. Let your light so shine before men, that they may see your good works, and glorify your father which is in Heaven."

It becomes then a very interesting inquiry,

whether the Christian Church, in the present day, does indeed stand in that clevated posiwhich it diffuses is of that pure and holy character, that will induce others to glorify

our "Father which is in Heaven?" If such an inquiry scrupulously conducted. can leave on our minds the impression that the members of the Christian Church are in such a state that it may be truly said of them. in the language of the Apostle, that they " walk as children of light, proving what is acceptable unto the Lord, and have no fellowship with the unfruitful works of darkfor its sake. For we are instructed by the highest authority to believe that the members of the Church, if standing in their proper allotments, "are the salt of the

But, if the proposed review should result in the conviction that the Church, in the present day, has, in some degree, fallen below the standing of its bright original; and that practices at variance with the principles of justice and mercy are tolerated in it; then is there not cause that it should be earnestly engaged to return to its first love, and to do again its first works?

all things whatsoever ye would that men should do to you, do ye even so to them, for

this is the law and the prophets.' brought to bear upon ourselves and our greatest possible calamity -an act of oppression to heavy to be borne. And if we judge ly favored but revolting people, showing that thus in our own case, by what rule as Christians should we judge in the case of others? the children of men;" and these things are We are warned in the sacred Scriptures against allowing our judgement to be warped by considerations of self-interest or popularity .evil; neither shalt thou speak in a cause to decline after many to wrest judgement."

That all makind are the decendents of a common ancestor, that God "hath made of one blood all nations of men for to dwell on dom. all the face of the earth;" and that He is no be based,—that all men are created equal; that they are endowed with certain inalienable rights; and that among these are, life, liberty and the pursuit of happiness. Happy, indeed would it have been for our beloved country had this immutable principles been fully carried into practice. It appears strikingly inconsistent that our free form of government and its liberal institutions, should be linked with slavery; and there is the plainest evidence that they do not harmonize. If we trace to their source- the dissensions which have disturbed the tranquillity of our govern-

ment, and even threatened its dissolution, it will be obvious to all that slavery has been fruitful source of those troubles. Amongst the measures latterly adopted to allay the excitement, and remove the discontent existing in some portions of our country, was the enactment of the stringont law for the ecovery of those who escape from bondage. The execution of this law has been attended with circumstances, from the contemplation of which humanity shrinks: -yet the discontent has not been allayed. But we would seriously ask, has not an additional weight of accountability, in the sight of our Omniscient

Judge, been incurred? Patriotism in its purest form may lead us to regard every country as our country, and every man as our brother; and may prompt the desire to promote the happiness of all, to enlighten the uniformed, to assist the needy and to relieve the oppressed: and popular outbursts of this nature are not unfrequently manifested. But it belongs to religion to enlarge and perfect this generous feeling. Reigion founds the sentiment, not alone on the circumstances of a common Creator, or common ancestry, but also upon the interesting truth, that all are alike objects of the love of a common Redeemer, who gave himself a ran-som for all. He has taught us to regard him alone as our master, and that we are brethren designed alike for a happy immortality, to be

enjoyed in His holy presence. Then how can Christians seize upon a por ion of their fellow-men, consign them to state of bondage that is to end only with their lives, shut out in a large measure the light of knowledge from their understanding, and reduce them to the state of chattels, to be bought and sold at the option of the master; thus scvering the tenderest ties of human nature? - | To Thomas H. Whitney, Gloucester coun-How can Christians do this, and still stand tion, which is represented by the figure of 'a How can Christians do this, and still stand city that is set on a hill?" Whether the light approved in the sight of that Gracious Being whose ear is open to the cries of the poor and the oppressed, and whom we acknowledge to be our Lord?

To bring slavery to the test of the precepts of our Lord Jesus Christ, let us suppose ourselves, our children, our parents, our brothers ing a reconnoissance of a proposed Railroad and sisters, in the position of the slave. Let from Camden to Cape Island, I performed us ask ourselves what course of conduct we that duty in August last, accompanied by the should, in this condition, desire and expect greater number of your Committee, tegether from the followers of Him who was sent "to proclaim liberty to the captives, and the openness," then may we be comforted in the hope ing of the prison to them that are bound;" that the blessing of the Lord will rest upon and who enjoined his disciples to do to others the Church, and upon our beloved country as they would that others should do to them? Should we not expect that Christian freemen would raise their voices to plead our cause? that Christian legislators would employ their power to loosen rather than strengthen our bond?—that Christian masters would feel constrained to remove the heavy burden, break

every yoke, and let the oppressed go free? We speak of slavery as constituting a national sin; and when we reflect upon the millions of our fellow creatures who are subjected to the blighting influence, the subject as sumes a magnitude that may well affect us also be called t with deep concern. It cannot be supposed that such is be the permanently established Camden and Woodbury Railroad track ato

It is true that slavery is confined to a sec-

fore be thought that the responsibility must mit: thence southerly, it passes on the east rest upon the section in which the institution side of Maurice river, following the ridge of is fostered. But permit us to ask if the statesye did it not to one of the feast of these, ye did it not to me."

It will readily be admitted that all who take upon them the name of Christ are called to chains of slavery, and to extend the area of it, and the citizen who supports that statesman, have no connection with the system? And to the members of our own body, in common sin is a repreach to any people," is language full of truth. The Deity is represented in Gespel, we would address the inquiries—the Hely Sagintures as a Reiner infinite in ourselves, in fact, a party to the system; and whether we shall be justified in the sight of

We call upon the professors of Christianity throughout the length and breadth of our land seriously to consider in what manner, as fol-Now, if we compare the practice of enslaving our fellow men with this rule, and try it by this test, it is evident that the undesitating verdict of conscience must be against it. If bution is consistent with the attributes of the posterity, we should certainly regard it as the Deity. In sacred history we may trace the visitations of Divine displeasure upon a high-

recorded for our warning.

We would respectfully invite those who claim to stand as pastors to the people, to re-"Thou shalt not follow a multitude to do fleet upon the importance of the station they occupy, and the weight of obligation resting upon them, faithfully to discharge the duty they have assumed, and cast the weight of their influence on the side of justice and free-

It is interesting to reflect upon the effect respecter of persons, are truths prominently set forth in Holy Writ; and they appear to have been fully recognized in the Declaration on which our form of government claims to mortality—how, through the reforming influenced by the preaching of the Gospel in the primitive age of the Church, upon a people sunk in Pagan darkness and Pagan immortality—how, through the reforming influenced by the preaching of the Gospel in the primitive age of the Church, upon a people sunk in Pagan darkness and Pagan immortality—how, through the reforming influenced by the preaching of the Gospel in the primitive age of the Church, upon a people sunk in Pagan darkness and Pagan immortality—how, through the reforming influenced by the preaching of the Gospel in the primitive age of the Church, upon a people sunk in Pagan darkness and Pagan immortality—how, through the reforming influenced by the preaching of the Gospel in the primitive age of the Church, upon a people sunk in Pagan darkness and Pagan immortality—how, through the reforming influenced by the preaching of the Gospel in the primitive age of the Church, upon a people sunk in Pagan darkness and Pagan immortality—how, through the reforming influenced by the preaching of the Gospel in the primitive age of the Church, upon a people sunk in Pagan darkness and Pagan immortality—how, through the reforming influenced by the produced by the preaching of the Gospel in the primitive age of the Church, upon a people sunk in Pagan darkness and Pagan immortality—how in produced by the preaching of the Gospel in the primitive age of the Church, upon a people sunk in Pagan darkness and Pagan immortality—how in produced by the preaching of the Gospel in the primitive age of the Church, upon a people sunk in Pagan darkness and Pagan immortality—how in produced by the preaching of the Gospel in the primitive age of the Church, upon a people sunk in Pagan darkness and Pagan immortality—how in produced by the produced by the primitive age of the Church, upon a people sunk in Pagan darkness a ence of this ministry, they were drawn to forsake the evil of their ways, and to "walk in newness of life." And though these converts of the Christian faith were despised and persecuted, yet, unprotected by any earthly power, their numbers and their influence increased until at length the towering institution of Paganism yielded to the force of truth.

And doubtless it was, and is, the design the Great Head of the Church, that this Christian influence should prevail against every system, the tendency of which is to obstruct the coming of his Kingdom, until, through its prevalence, the kingdoms of this world shall become the kingdoms of our Lord and of his Christ.

In the transporting view of this renovated condition of the world, beheld in vision by the prophet, he, personating the Most High uttered the language, "They shall not hurt nor destroy in all my holy meuntain; for the earth shall be full of the knowledge of the Lord, as the waters cover the sea. And in that day there shall be a root of Jesse; which shall stand for an ensign of the poople; to it shall the Gentiles seek, and his rest shall be

May it be our united engagement so to live in conformity with the spirit of the Gospel-so to labor in our separate allotments, in the cause of our Holy Redeemer, as to hasten the coming of this happy day—that at the solemn close of life, when called to account for the occupancy of the talents committed to us, we may be favored to receive the answer of "Well done, good and faithful servant; thou hast been faithful over a few things: I will make thee ruler over many things: enter thou into the joy of thy Lord."

Signed in behalf and by the direction of the Yearly Meeting of the Religious Society of Friends, held in New-York, in the Sixth Month. 1852.

RICHARD CARPENTER, Clerk.

MISCELLANEOUS

CAMDEN & CAPE ISLAND RAILROAD.

Report of the Engineer.

PRINCETON, N. J. Nov. 1st, 1852. ty; George M. Ward, Salem county; Abraham Browning, Camden county; David Potter, Gumberland county; D. E. Estell, Atlantic Co.; Joshua Swain,

Jr., Gape May county, Committee. GENTLEMEN-Having had the honor of being selected by you, for the purpose of mak

with the Hon. Richard P. Thompson. In pursuance of this object, I passed over he various routes suggested; commencing at Camden and proceeding through Woodbury, Carpenter's Landing, Glassborough, Malaga, Port Elizabeth, Dennisyille, and Cape May Court House, to Cape Island; thence returning through Millville, Bridgeton, Allowaystown, Quintin's Bridge, to Salem; thence by Woodstown, Glassborough, and Union Cross-

roads, to Woodbury.

I propose for your consideration three diffcrent lines, parts of which will be common to

This being the shortest of the three, might also be called the direct route.

Commencing at Gamden, it occupies the

915.7, 121-120 July 12. 1.0

and Mantua creck; thence it follows up the valley of Mantua creek to some point east of tion of our country, and is not under the con- Glassborough, which is near the head of the ing of deeds of mercy from even the lowest trol of National Government; and it may there- stream, and upon the high ground or sum-

land between that river and Menantico creek, leaves Port Elizabeth to the west, crosses Manamuskin creek in the direction of Den-nis creek, above the Bridge at Denniaville; or, it may prove upon survey, that it would be better to cross the creek below the town, near the Bay, unless the drawbridge, neccessary to be constructed, should be objectionadesirable.

SECOND ROUIE.

This route would continue the same as the first almost to Glassborough, when it would diverge in a southwesterly direction towards Upion and Hardingville, following the ridge west of Maurice river towards Pittstown; thence passing west of Muddy Run, in the direction of Bridgeton, to near Carllsburg; thence bearing in a south-easterly direction towards Millville, crossing Maurice river above tidewater, and continuing in that direc-Of the precepts uttered by By Him, the following has been distinguished by the appellation of the golden rule:"—"Therefore, are weighed?

whether we shall be justified in the sight of above indewater, and continuing in that direct following has been distinguished by the appellation of the golden rule:"—"Therefore, are weighed?

whether we shall be justified in the sight of the until it intersected the first, or direct line, southeast of Millville; thence continuing by the first or direct route to Cape Island. THIRD ROUTE.

> This line will leave the direct route in the valley of Mantua Creek, near Glassborough, and thence diverge in a southwesterly direction, until it reaches the valley of Salem creek; thence, following the valley of that

stream, it will pass south of Woodstownthence, nearly in a direct line to the town of Salem—thence, in an easterly course to Allowaystown—thence, in a southeasterly di-rection, crossing the ridge between Alloways taining their supplis; besides contributing and Cohansey creeks, crossing those creeks to Carllsburg, intersecting the second route at, or near that place, whence it is common to the second route to Cape Island.

It may be asked, why deviate from the direct route from Woodbury to Salem? This question may be readily answered by saying, that such a route would be much more expensive than one more circuitous. I have been enabled to procure a profile of the turnpike road from Woodbury to Mullica Hill, and I find that "cuts" and fills" of from 40 to 50 Again, it may be said, why not follow the

valley of the river? By so doing it would be necessary to cross a number of navigable streams, requiring draw-bridges; the expense would be the same, perhaps greater, and no distance would be saved. Besides which, the river affords facilities

for transportation not possessed by the interior; wherefore the interior route would have the larger patronage.
You, of course, will understand that the

estimate of the cost of grading the different routes are nearly approximate, and not made from actual survey; but I shall endeavor to give you what I consider to be the full cost of the grading and superstructure. Estimate of the Cost of Grading, Bridging,

S.c., on the First or Direct Roule. miles grading and bridging of Woodbury Railroad, at \$500 per \$3,500 00 mile, 9 miles from Woodbury R. R. to near Glassborough, at \$5000 per Bridges and Culverts, 24 miles to east of Millville, at \$2000 48,000 00 per mile, Bridges and Culverts, 38 miles to Cape Island, at \$3000 per mile, Bridges and Culverts, \$235,000 00 8 miles, 5 miles grading for turnouts, at 5,000 00 \$210,000 00

Total for grading, etc., \$210,000 Estimate of one mile of Railway Superstructure. 80 tons of iron rails, at \$50 · \$1000 00 per ton, \$1000 2000 cross-sleepers, at 30 cts. 600.00 each, 600 chairs, 600 wooden wedges, 80 00 200 00 Laying rails.

78 miles of superstructure at \$5,600 00 \$436,800 28,000 00 464,800 00 Total for superstructure, \$704,800 00 Add 10 per cent. for contingencies 70,480 00 \$775,280 00 Total cost of Railroad, SECOND ROUTE. 16 miles from Camden to near Glassborough, (as per first route) 18 miles to Carllsburg, at \$2500 per \$62,500 00 mile, Bridges and Culverts, 13 miles to southeast of Millville to intersection of first route, at 52,000 CC \$4000 per mile. 7.000 00 ter Tanks &c., 114,000 00

Bridges and Culverts, 38 miles to Cape Island, at \$3000 per mile, Bridges and Culverts, 85 miles of grading and bridging, 5 miles, grading turnouts, at\$1000,-\$291,000 00 \$296,000 00 Total. miles superstructue at \$5600 per \$800,000 00 dd 10 per cent for contingencies 80,000 00 Potal cost of Railroad, THIRD ROUTE. 6 miles from Camden to near Glassborough, (as per first route) 1 miles to Salem, grading at \$4000 84,000 00 per mile, Bridges and Culverta, 7½ miles (B) Carllaturg, (uniting with second route) at \$6000 per mile,

Bridges and Culverts, 51 miles (as pefore) to Cape Island,

8458,000 00 1054 miles of superstructure at \$5,000 00 per mile, 64 miles of do. for turnouts, 690,800 00 80,600 00 \$1,074,400 00

Add 10 per cent for contingencies Total cost of Railroad.

\$1,181,840 00 Knowing the interest shown in the different routes, I have felt called upon to be more ninute than might have appeared to be necessary. At the same time, you, gentlemen, know much better than I can, the policy of dopting the one or the other route.

107,440 00

By the foregoing estimates, you have the cost of each route, and it may now be proper to offer some remarks with regard to these ble. From Dennisville to Cape Island a different lines, and come to some conclusion middle line of the county would perhaps be different lines, and come to some conclusion as to which of them should be recommended by me, as best answering all the purposes for which the work would be undertaken.

The line from Camden to Glassborough passes through a very fine agricultural district, and over the marl region that traverses New Jersey from northeast to southwest, enabling the farmer to raise the maximum of produce.—thence, on the first or direct route lies a wooded country as far as Millville; the soil is good and susceptible of improvement to high degree; thence to Cape Island, it traverses some wooded country, on either side of which, at a short distance from the proposed railroad, the land is highly cultivated.

The establishment of a railroad on this route, would open to the market a new and valuable agricultural country, abounding in ccdar swamps, and timber of various kinds; would enable farmers to obtain marl lime, and other manures, which would increase the value of land some four-fold or more.

The glassworks and other manufactories situated in the vicinity of this route, would be greatly benefitted by the increased facili-

largely to the revenues of the railroad. Route No. 2-From Glassborough to Milville, traverses much good country, more thickly populated than that on the first route. It passes near Bridgeton, which contains a large population, and whose vicinity embraces one of the most productive parts of the State: of course the road would create a considerable advance in the value of land. As before, the Factories on and near this route, especially those in the neighborhood of Bridgeton, would both be highly benefitted by the con-struction of this road, and greatly increase its

Route No. 3-Passes through a remarkamiles from Allowaystown to Bridgeton. The Section from Woodstown to Allowaystown, through Salem, is in a fine state of cultivation, and is capable of producing for the market the largest amount of wheat, corn and potatoes per acre, for its extent, of any other in the

After carefully weighing all the considerations that can be brought to bear upon the lifferent routes, I have concluded that Route No. 2, with a branch to Salem, from some point near Glassborough, would be the one which would produce the greatest income, accommodate the largest portion of the community, and best accomplish the purpose for which the road is contemplated, that is, for a West Jersey Railroad. Of this route, therefore, I will endeavor to give you an estimate.

ESTIMATE. Grading, Bridging and Superstructure, (as before given) . in the estimate for the Se-\$880,000 00 cond Route, 6 Locomotive Engines, at 45,000 00 \$7,500 each, 6 first class Passenger Cars, 13,200 00 at \$2,200, each, 2 second class do. at \$1000. 2,000 00 20 Transportation Box Cars, 10,000 00 eight wheels,) at \$500, 10 do. net like two's or five's of this bank.

passengers at \$3, would give the additional increase to your revenues of \$5,000 dollars, or about 2 per cent additional. Another source of profit will arise from

passengers going to sea, and returning to Philadelphia by vessels, as a certain class of passengers would take the cars at Camden to meet the vessel at the Breakwater, and also return by railroad to Camden, instead of by the tedious passage up the river.

Again, you may confidently expect a large trade from the lower part of the State of Delaware. I have been informed that the lower county gives a bonus of 5000 dollars to a steamboat for the purpose of affording facilities for communication with Philadelphia. This object might be much more readily attained by having a ferry boat to cross the bay twice a day to any point deemed most convanient, thus relieving the county from its present tax, and turning its travel and transportation in a direction favorable to your inter-

In estimating the outfit for the contemplated road, I have only provided for the business necessary to be done, in order to produce the income already stated, with a large allowance for contingencies. And here it may be proper to gay to you, that the road contemplated in this report, will be one of the best in the country, capable of doing any amount of business, by increasing the power, number of cars.

and other needful appendages.

I feel well assured that if the people will give the matter due consideration, you will have but little difficulty in obtaining the means necessary for the construction of your road. In addition to individual subscriptions, I think the separate counties might advantageously subscribe to the stock, as a means of greatly advancing the wealth of those counties, securing a good interest on their investment, and conferring a signal benefit upon

West Jersey.

All of which is respectfully submitted.

WM. COOK, Engineer Camden and Amboy Railroad

From Arthur's Home Gazette. GETTING THE HALF CENT.

Among certain small dealers, buyers as rell as sellers, much adroitness is exhibited in so giving change, or paying down the price of an article, as to retain the fractional part of a cent out of the eighth or sixteenth of a 11,800 00 dollar, Spanish currency. We have known 45,000 00 frequent instances where a dime and two cents were refused for an article, the price of 6,500 00 which was twelve-and-a-half cents, or a New York shilling; and yet the same persons, if \$126,850 00 called on to give change for a quarter-of-a-Deduct 50 per ct. for expenses, 63,425 00 dollar, would, most likely, tender two dimes and four cents, and refuse to give anything

more. A notable instance of this close dealing created among the passengers in an omnibus last week, in which we happened to be riding. the water communication for certain articles | Most of the lines that run north have, recently, reduced their fare to three cents; some of the stages that go to Girard College excepted. \$7,800 00 We were riding in one of these stages, when an old lady, plainly dressed, and indicating in her whole appearance not only one who had renounced the love of worldly things, but who wished the world to give her credit for said renunciation, gave our driver the sign that she wished to ride. Before entering, however, she called out to him-

"Is this a three cent omnibus? What the reply was, we did not hear. It emed to be satisfactory to the old lady, for she immediately entered. After riding some thirteen or fourteen square; she pulled the check string with a decided jerk. As soon as the vehicle stopped, she handed the driver a twelve-and-a-half cent piece, saying: "You can give me ten cents, if you choose;

or nine"—the nine was spoken—half to herself, as if she did not mean it should reach I have estimated the receipts as upon the the driver's cars, but rather intended it for the

> "Isn't this a three-cent omnibus?" enquir-"No." said the driver. "Oh, well." And she turned and bustled

If two cents had been the price of a ride,

A day or two ago we happened in a confectioner's where a woman was chaffering and scolding about a cent which she demanded in ronds is well known, and we cannot place any change. She had bought a cent candy, and limits to its progress in this highly favored in paying for it, had given the confectioner, region, when the great markets of New York as we understood it, a quarter of a dollar.—
The change was a twelve-and-a half cent piece, a ten-cent piece, and one penny, makoperation, the way freight, or produce, from ing in all twenty-three-and-a-half cents. The Camden to Amboy, was carried in one car, woman said another cent was due her, which and has since been steadily increasing, until the confectioner refused to give, as that would latterly, three trains of cars are required for leave him only half a cent for his candy; and, its transportation. Perhaps the more recent moreover he considered an eleven-penny-bit experiment of the railroad from Trenton to and eleven cents the best change that could Lambertsville, may better illustrate this won- be made. The woman, however, rather than derful increase; before the railroad was com- not get the change demanded, gave, back the

candy, took her quarter, and departed. "It isn't the first time she's done that," remarked the confounder, as the woman re-tired,—"It was only a trick to get the cardy for nothing. I've humored her several times,

A Huge Man of War!—The English are busily employed in introducing storew propelment will be better than mine; but I presume this road would not pay at all, instead of lers into their men of war; and so far as their ment will be better than mine; but I presume this road would not pay at any instead of the cost will be very slight, as the great advantages to the property lying upon the road 28,000 00 will more than compensate those through whose land it may pass.

Having given you all the data with regard this road would not pay at any instead of the pay at any instead of the pay at any instead of the first year. From such results, I feel well satisfied that your road road will pay well at the beginning, and its revenue continue standily increasing.

FRANKLIN DEVEREUX,

"Our Ell's" favor will appear next week.

THANKSGIVING DAY was observed in becoming manner by our citizens generally. A Sabbath-like stillness pervaded the town, business operations were generally suspended and appropriate religious exercises were ob-

served in most of the places of worship. We are pleased to notice the growing manifestations of attention to the observance greater degree the smiles of Heaven. While others have suffered by external wars or intestine commotion-by dearth, famine or pestilence-we have been preserved from external violence, and from serious dissensions within; general health has prevailed; the carth has yielded her wonted abundance; prosperity has rewarded all the departments of labor, and want is a comparative stranger to our land. Verily then it becometh us as a people to "give thanks unto the Lord for he is good, and his mercy endureth forever."

The 23d anniversary of the New Jersey Baptist State Convention was held at Burlington on Friday of last week. The report of the Education Society presents a prosperous state of affairs, fourteen young men now receiving its benefactions, and nine more making applications. The two Baptist churches of Newark raised 1,100 dollars for this object during the year. The annual sermon was through philosophy and vain deceit, after the tradition rudiments of the world and not after Christ. Other addresses were made during the different sessions by Rev. Messrs. Nice of Somerville. Shradrack of Pennsylvania, Hill of Plainfield, Park of Paterson, and Fish of Newark.

THANKS .- Our Friend Eli Dolton, will please accept our thanks for a handsome beet, only a few days of pleasant weather are now weighing ten pounds, a present to the Printer. What! with Beets, Potatoes, Turnips and other Edibles presented we should be pretty well supplied for Christmas fixins. if we only had the Turkeys. It is time enough | Term of this Institution, occurs on the 1st, yet however, we only mention it to remind 2d, and 3d, of December next. our friends that there is a pair of us to share their munificence.

Who wasts to be immortalized?

DEERFIELD AHEAD .- We have in our office a brace of Turnips that excel in size the one noticed a short time since—one weighing ten the other eight pounds. These are the product of Dr. J. W. Ludlams farm in Deerfield and may be regarded as some Turnips. We shall keep them until the Turkeys arrive before testing their quality.

APPLICATIONS TO THE N. J. LEGISLATURE. Public Notice is given that application will Rhetorical Classes. All are invited to attend. be made at the ensuing session of the Legisauthorizing the construction of a Rail-road from Camden to Bridgeton, through the counties of Gloucester and Salem; an act incorporating a company with a capital of \$2,000,000 and authorizing the construction of a Railroad from Camden to Cape Island, with such branches as may be necessary; to incorporate a company with a capital of 4,000,000 dollars to build a rail-road from a point- on Raritan Bay, at or near Keyport, to Delaware Bay, south of Alloways creek; to incorporate a company to construct a turnpike from Bridgeton to Millville, with a capital of 15.000 dollars; to incorporate a company to be called the "Bridgeton Gas Light Company" with a capital of 25,000 dollars, -location, Bridge-

From the above and at least a column of other applications from different parts of the State, it may be inferred that the forth-coming session will not be an idle one.

Cumberland Bank.

COUNTY TEMPERANCE CONVENTION .- A County Temperance Convention, will be held at the Court House, Bridgeton, on Thursday the 9th of December next, at one o'clock P. M

It is hoped that each Township in the county, will be fully represented. E. W. Jackson, the agent of the State Central Commit tee, will be present.

Mr. Jackson has labored in the cause in Maine, and clsewhere and will be able to give much interesting information about the "Maine Law" and its effects-he will also explain the course of proceeding, recommended by the State Central Committee.

The public are invited to attend. EPHRAIM BUCK. Cor. member of State Central Committee. THE RAIL ROAD.

attentive perusal. The report, after calculatng the cost of construction and equipments, and the probable receipts, which we are satisfied are not over estimated, and leaving a arge margin for contingencies, demonstrates onclusively that a clear profit of six per cent. on the outlay of capital will be realized by the Stockholders on the first years business, and that, without any estimate of the amount of ncome-certain to be realized-from the large and increasing summer travel between Philadelphia and Cape Island, an item that may be safely set down at two per cent additional. Then if we make any allowance for an increase of business proportionate to the increase of facilities of travel and transportation, a result that is proved a certainty by the history of all similar enterprises, it will be seen that the one in contemplation offers inducements to capitalists seldom met with.

It promises benefits to this part of our State that can hardly be too highly estimated. After carefully and impartially weighing all the considerations bearing upon the different routes proposed and surveyed, the report concludes that the middle, or route No. 2, with a branch to Salem, "would produce the greatest income, accommodate the largest porof this time-honoured custom, for verily no tion of the community, and best accomplish Nation has greater reasons for the exercise of the purpose for which the road is contemplatgratitude to the great Disposer of events- ed, that is, for a West Jersey Railroad." none are more exalted in Political and Relig- This route we have from the first, considered ious privilege-nor have any enjoyed in a preferable to either of the others, but as we care more for the road than the route, we say let the road be built. Let it indeed be a West Jersey Road, built by West Jersey capital, and controlled by West Jerseys for West Jersey benefit.

There need be no apprehensions about obaining the means necessary to complete this undertaking if the matter receives that consideration, from those who are interested, that its manifest importance demands. If the individual subscriptions to the stock should be insufficient, the counties along the route, as the Report suggests, might well afford to make liberal subscriptions thereto, "as a neans of greatly advancing their wealth, sccuring a good interest on their investment, and conferring a signal benefit upon West

WEST JERSEY PRESBYTERIAL ACADEMY. The walls of this building are now np, and the workmen are engaged in pointing and finpreached by Rev. Dr. Hague, who considered | ishing their outer surface. Mr. Polk's Proposition to Purchase Cuba The Ledger publishes from authentic documents, the confirmation of the rumor started purchase Cuba. The offer, it appears by these official papers just come to light, was made on the President's own responsibility, and that the sum fixed as a maximum was one needed to the success of this overture but a lacter. willingness on the part of the Government of Spain to part with this richest jewel of its crown. The proposition, was promptly, courteously, but absolutely declined. The documents which contained this correspondence, to a specific call, but such was the indifference of that body, that this Presidential Message lay on the table for six or seven weeks without being opened, and, when opened, it was without any examination of its contents, bers. Such was the state of the printing question in Congress at that time that the House might, for any information that it would afford, as well have condemned the documents rangement for doing the printing of Congress this document has at last, and only recently,

issued, from the Congressional press. The other documents which accompany American statesmen (Adams, Clay, Van Buing, and the frame of the Cupela are up, and ren, &c.,) upon this important subject. They only a few days of pleasant, weather are now all agree that the island is valuable to the United States—that it is an important military and naval station—that it would increase our revenues, and give us the command of the

A meeting of the New Jersey Colonization Society was held in the Burlington City Hall, on Thursday last, at which addresses of a very interesting character were delivered by Dr. Goble of this city, and Dr. Maclean, Vice On the evening previous to the first day of President of Princeton College. The speakers presented, in a very able manner, the claims of the Society, and gave many valuable statistics in reference to the history and progress of the Society. The plan of coloniz-ing the free colored population of this country originated with a Jerseyman, the Rev. Robert Finley, and the treaty for the purchase of a portion of the Western Coast of Africa for location of the Colony, was cousummated

Navy. - Newark Mercury. Surplus National Revenue - The Journal of Commerce says, there is no doubt the surplus revenue will be at least equal to twenty millions. It is more confidently asserted than ever, that Secretary Corwin will recommend that the surplus be devoted to the purchase of U. S. stocks. The influence of the Administration will be used for this cud.-The Democrats are coming into power with a cry of currency and retrenchment. Mr. Benton says the expenditure must be reduced one-half. Thus no party can resist the proposition to take the surplus revenue for the payment of public debts. One argument in favor of buying the United States stock, even money might otherwise be thrown away or misspent. Another is, that it is better to pay twenty or thirty per cent premium than to pay interest till 1867.

Florence an Keyport Company .- The Di rectors of this Company, yesterday invited the stock holders and a number of other gentlemen to visit and examine the property, previous to the sale, which is to take place in a few days. The lands comprising about 1000 acres, are in Monmouth County, N. J., and situated at Middletown Point, on Raritan Bay, and are within one and a half hours STOVES ARE DOWN.—On Thursday night sail of the city. The situation is command-last, some persons, to gratify a malicious proing, having a fine sweep of the Bay of three & Pogue's, Stove ware rooms, and tumbled which will jut into the quay several hundred them into the gutter, where several of them feet, and enable vessels of large burthen to tion. The dyeing and drying rooms, two buildings, each 100 feet long, attached to the new bleaching establishment at Gloucester, New Jersey, were entirely destroyed by fire last evening. Losses \$20,000. Insured princijust been built, and put into operation. The ately over the boiler.

Application will be made to the next Legis- | The Liquor Law in New Hampshire; Opinion of the Supreme Court Judges.

> CONCORD, N. H., Nov. 20. The following is the opinion of Judges Bell, Eastman, Gilchrist and Woods, of the Superior Court, respecting the unconstitutionality of the Liquor Bill:

I. The Bill confers on justices an extent of authority the Constitution does not sanction, particularly in respect to the power is gives them to pronounce sentence of forfeiture of liquors seized for a violation of the law. II. The Bill provides for no trial by jury,

or for appeal and trial by jury before a higher court. The Constitution provides that in all controversies concerning property, the parties have a right to a trial by jury. III. The seventh section of the act conflicts

directly with the Constitution of the United States. This section provides that no action an be maintained in any Court in-the State, GRAHAM'S MAGAZINE-for December we either in whole or in part, for intoxicating or spirituous liquors sold in any other State or county. No law of this State can deprive a citizen of the United States of the right to cnforce a claim of debt before the tribunals of

IV. Liquors are property. The law, in recognizing them as such in the fourth section, when in the hands of town authorities for sale few phrases, make property lose its chareter | merce Street. when in other custody.

V. Double or increased penaltics in cases of conviction under appeal, because it operates as a penalty upon the party claiming appeal conflicts with his right to an appeal, and can not be supported by the Constitution.

VI. The bill is designed by its provisions to demand excessive bail and render it difficult for the accused to procure sureties. If t had been added that the accused should not have the benefit of connsel to defend him, the parallel between the present law and the practice in England in former days, would have been complete.

VII. The conviction of a principal through any act of one agent, is held to be unconstitutional. The accused should be confronted with the witnesses against him, says the Constitution; but the Liquor Bill says no, and i therefore opposed to the constitutional ights of the citizens.

VIII. The people have a right to be secured against all unreasonable search of their dwellings, &c., and all such search-warrants some years ago, that Mr. Polk had offered to must be under oath, according to the Constitution; but searches and arrests may be made according to the bill without warrants on oath. and it is thus unconstitutional.

In conclusion, the Judges state that some hundred millions of dollars. Nothing was of the objections are of the most serious char-

General Banking Law .- The amendments made by the last legislature in our General Banking Law, have given great satisfaction to the people of the State, and exerted were sent to the House of Congress in reply a most salutary influence upon the character of the circulating notes issued under that law. That these amendments should curtail the amount of these notes was a matter of course; for the State was flooded with them, and it was impossible to raise their credit by ordered to be printed for the use of the mem- any means which would not diminish their amount.

We see it intimated in some quarters, that an effort will be made by the New York brokers to obtain from our next legislature the reto the flames. Under the more recent ar- peal of the amendments to the General Banking Law, which have produced these salutary effects. These gentry, it is suggested, really hope that our people can be deluded into this measure, so entirely against their own interthe message, and not yet published by the In- ests, and so clearly adapted to the single end carpenters are forwarding their work as fast telligencer, contain the views of a number of of enabling these shavers to depredate upon the people, by issuing at par a paper curren cy, practically irredcemable except at a loss In other words they mean to ask our Legis lators to be kind enough to break down the barrier which has been found absolutely necessary to protect their constituents from these self-same brokers.

We opine they will find themselves mista ken. Doubtless they are much sharper than our plain and honest people or their legisla tors; but we in New Jersey are not so green as they imagine; and do not prefer 90 cents to a dollar, nor an irredeemable currency to one that can be converted into gold and silver. We predict that if they make the effort, they will fail.—State Gazette.

Camden and Atlantic Railroad.-The surveys of the route of the proposed Camden and Atlantic Railroad have been completed It is ascertained that the road will be abou fifty-seven miles long, at least forty of which will be straight, and twenty-three of the for by another Jerseyman, the Hon. Robert F. ty in a continuous line; while it is thought Stockton, who was at the time an officer of the that in no portion of the route need a curvature occur of less radius than a mile. On twelve miles the gradients will not exceed twenty feet; on twenty they will not be more than eight feet per mile; on twenty-two miles they will be either horizontal or not over five feet to the mile; while in no part will they rise above twenty-five feet, of which there will not be more than five miles in detached portions. The total elevation above mean ow water to the Long-a-Coming summit, is

ne hundred and eighty-one reet.

Its estimated cost, with a single track, and outfit for the first year's business, is only \$693,000; while the revenue for the same period, calculated on the present state of the rade it would accommodate, would be \$124, 750, yielding, with working expenses deduc ted. about ten per cent. on the outlay.

The beach at Absecom affords elegant and safe bathing grounds, and its harbor is never ice-bound, and enjoys great advantages as a port of entry. - State Gazette.

Delaware College .- Fifty thousand dol ars have been recently subscribed, mainly by he farmers of Delaware, to endow their Co lege at Newark. It is conditioned that a Professorship of Agriculture shall be at once established, which is to go into operation the present winter. Delaware, in this, has shown enlarged views and a noble generosity.

Sudden Deuth .- On Saturday morning Miss Angeline Boise, of Absecom, N. urchased a ticket at New York for Philadel hia by railroad, foot of Cortlandt street, and few minutes before the time of starting, she expired, as it was supposed, from disease of he heart.

ENERGY OF CHARACTER. A bold vigorous man-what a tone he gives to the company he may be in, to the society in which he lives, to the nation wherin inst, being four days later than our last advihe is born! Men seem inebriated with the ces, arrived at her warf at 7 o'clock this evenatmosphere around him, so completely are ing. they overcome by his presence. He is never weary or languid; nothing enervating falls from him in action or speech. He strengthens and arouses: he sets men of no confidence steamer America,, and created the most proon their feet, not purposely but by his own found sensations. example. They see him one of themselves, the boy they went to school with expanded large portion of their columns to editorials into a man, and drawing all after him in the vortex in which he moves. He is a perpetual reproach to the sluggard, and joy to the are very favorable. timid, those who want confidence, and who fancy they are by temperament of situation precluded from possessing or manifesting the during, animating power. Energy of character is continually renovating society—eleva-ting men to a level whence they see how casy it is, or seems, to become great and joyful, as strong and vigorous as he who, by act or thought, lifted them up. It is animating to see men press on in the race of emulation, in- of the Empire, and also that of the Senatus spired by some noble fellows, who figures in | Consultum, which is in substance as follows:the past, or present among them. The enthusiasm one man can create by bold and ear- Napolen shall be Emperor, under the name dent among us, will often upset or invigorate a clique of friends completely trained, inured thusiasm of the moment overbears all our tum shall appoint the Emperor. preconceived notions of order, our silent and respectful decorum; our fear of giving offence, all that is not contrary to the present Sonathat pitiful but common vice, which makes us careful, even to folly, in what we say, is us careful, even to folly, in what we say, is by the current of this man's spirit, rolling for the re-establishment of the Empire. through us and forcing up ours, swept away; and the night, the day, the time, whenever it is, forms a bright spot in our history. It is from this, public meetings derive their interest, and public opinion its force. We are sure of meeting some earnest men that will communicate the fire of their own minds to deemed unsatisfactory. every man; until the powerful energy awakens the dormant intellect.

SPIRIT OF CATHOLICISM. The Freeman's Journal, the organ of Cath-

olicism in New-York has published the following threatening article, which has been endorsed by other Catholic papers in this coun-

"England is mad, and there are tens of What says the millions of French Catholics to the blood and slavery of their brothren in England? What thinks Catholic Austria?-Catholic Spain? . . . Oh, it is time for Europe to think and feel that England is no longer humane. She is possessed bodily by the Devil; and as she insanely rages against every thing good and holy, so, in the name of God and man, it is a duty the world owes to put her down.

".... Whoever, among the princes of Europe, will make war upon England, may be sure of the prayers of millions of Catholics for his success, and of aid, in money or in

"If Louis Napoleon wishes to rule in the of Mexico. If he wants skilful engineers, there are enough of the very flower of the officers of our army who are Catholies, and who, in such a cause, would hasten to his standards. If France does not furnish him with money enough, the contributions they will lumber, the machinery of electors. raise in the United States, and wherever else they are, will fill his coffers. Let him, then, gainst the tranquillity of Europe, strike her a blow that will strike her to the dust.

"But if not so, Irishmen learn in America more and more nearly on the seas. Year by year the Irish are becoming more and more powerful in America. At length the propitious time will come; some accidental, sudden collision, and a Presidential campaign close at hand. We will use then the very profligacy of our politicians for our purposes .-They will want to buy the Irish vote, and we will tell them how they can buy it in a lump, from Maine to California: by declaring war on Great Britain, and wiping off at the same time the stains of concessions and dishonors that our Websters, and men of his kind have permitted to be heaped upon the American flag by the insolence of British agents."

Louis Napoleon in New York City. - The Brooklyn Daily Advertiser, moralizing upon the rapid rise of Louis Napoleon from positive Mr. John A Cole, of St. Paul's M. E. Church poverty to superlative grandeur and power, recalls some reminiscences of his sojourn in for a school of that denomination. This cre-New York City. The Editor says:-

street, then kept by a gentleman who now cocupies a high official position under the French Government. At that time he was very poor, and very dissipated. Notoriously profligate in his habits, and without the pecupiary ability to indulge to the full bent of his inclination the culpable propensities which characterized him, he was frequently expelled meat, flour, onions, net, knapsacks, in short, from certain places in which he obtruded him self, and more than a dozen times was the octuber of them cupant of a cell at the old Jail in the Park, long since torn down.

committed by him at the disreputable house of a woman whose establishment he often visited, and the writer of this article was employed professionally by him to save him from election, a locomotive, on the Connecticut the threatened consequences of his reckless-ness and indiscretion. We but little suppos-making six stops on the way. On the Wested, at that time, that the thoughtless, gay crn (Massachusetts) Road, a locomotive ran young man who was then our client, (and who 54 miles in an hour and a half, including one ed. at that time. that the thoughtless, gay is still indebted to us for counsel fees and stop for wood and water. disbursements) would become Emperor of France. Such, however, is now his "manifest destiny,' although we believe that the realization of his ambitious hopes and aspirations will but hasten the fearful doom which unquestionably impends over him.

California contains four hundred thousand square miles. This would give eight states as large as New York state, fifty as large as New Jersey, and fifty-seven as large as Massachusetts. With a population equal per square mile to that of New Jersey, California would support eighteen millions of inhabit-unts, if equal to New York, twenty millions; taken the "Repository of that place for fifty-

Both have We knew him whilst he was residing in been referred to the School Committee, and New York, at a lodging house in Rheade the settlement of the question may be of in-

The Whigs of Gettysburg stole a march upon their Democratic friends. Finding the latter intended to celebrate their victory, the Whigs got up in advance a procession to Salt River. They had their roosters, their jugs, had their wives and little ones. The whole affair was well got up, and produced a great deal of good feeling on all sides, and was Not long prior to his leaving the United deal of good feeling on all sides, and was States, he was arrested for a misdemeanor quite a damper upon the Pierce "jollifica-

> Great Speed .- In collecting the election returns in Massachusetts, at the late State

An Old Bible.—A bible printed in the city of Venice, in the year 1482, was last week presented to the Grand Lodge of Maryland Free Masons, by Col. Anthony Kimmel of Linganore, Md., which he purchased last experienced workman.

Bridgeton, Oct. 16, 1852.

It is estimated that no less than one hundred thousand dollars have been lost and won on the recent election, in Louisville.

Two citizens of Chambersburg, Pa., who voted on Tuesday week for President, voted and if equal to Massachusetts, forty millions six years, and invariably paid the price of subscription in advance. What an example population of the entire United States.

Important Information for Rheumatics.

Haddonfield, March 28th, 1852. Dr. Steelling-Dear Sir-Some time since I was attacked with a severe Inflammatory Rheumatian, was entirely bedridden, and could get no relief, until I made trial of your Rheumatic Liniment, which entirely cured me, after I used two bottles of it. I would observe that before using your Liniment, I had a physician, but derived no benefit from his medicines. I have also been cured of a severe attack of Lumbago by the same Limment. My wife had a severe attack of Rheumatism, which entirely deprived her of the use of one of her hip joints; she used two bottles of your Liniment and was entirely cured.

I could also relate several other cases of Rheumatism, where I have recommended it, which were also cured by Steelling's Liniment.

Yours truly, JOHN S. CATHCART. Price 25 cts.—For sale generally by country storekeepers.
Principal Wholesale Office No. 422 North 5th

Street, Philadelphia. THE CHIEF SUPPORT Of the Nations of the Earth, IS derived from the Soil. But the soil overtasked becomes weary of production, and finally refuses to yield her increase

The best restorative for worn out Soil, is

Great Attraction in Salem! GUSTAVUS JACOBY

OULD respectfully announce to the Ladies of Salem and the surrounding country, and to the public generally, that he has opened a new plain, Vestings, Trimmings, &c., which will be Dark Ottoman Silks. Fancy and Staple Dry Goods, Trimmings and Jewelry Store,

No. 2, Broadway, [STAR BUILDING,] Salem, Where he will be happy to receive his old friends

and a great many new customers. R. JACOBY being wholly acquainted with the wants and tastes of the New Jersey pcopeople, has, with much care, selected such a stock of Goods as to suit the most fastidious; and he is fully convinced that no one will leave his store dissatisfied. Through my connexion with the first jobbing and importing houses in the cities of New York and Philadelphia, and by buying a great many goods at auction, and all entirely for Cash, I am enabled to sell goods at least 25 per ct. cheaper than they are usually sold here. As my stock is heavy, and I intend to do a large business, I shall be obliged to offer goods at much Lower rates than any other house in this vicinity.

By keeping a complete assortment of any kind of Dry Goods, Trimmings and Jewelry,—I herewith name only a few of the leading articles, as CHAWLS—Fine Bay State and Empire Mills long and square, black, colored and embroidered, Thibet and Merino, Palm Leaf, Cashmere, Stradella, Damask and printed shawls. The latest imported & seasonable Dress Goops: Black, figured and changeable silks and satins; French, English and Saxony Merinoes, Coburg Queen's, Parametta Cloth, Alpacas of all colors; Lustre, French and American de laines, Ginghams, and an endless variety of prints.

A magnificent selection of Mantillas, Visettes My stock of Domestic Goods, such as Flannels, sheetings, shirtings, &c., together with my assortment of hosiery, gloves, fringes, gimps, laces, embroideries, buttons, and other kinds of trimmings, will not be surpassed by any establishment of 50

The choice of Jewelry I keep on hand will tell its own story when you come to look at it. Come and see, and convince yourselves. No charge for showing goods at GUSTAVUS JACOBY'S

Cheap Store, No. 2 Broadway, Salem, N. J. Oct. 9, 1852.

PULMONARY SYRUP.

Dr. STEELING'S THE GREATEST REMEDY

For the Cure of Coughs, Colds, Asthma, Croup, Whooping Cough, Measles, Pleurisy, Incipient Consumption, Spitting of Blood, and all Diseases of the Lungs,

Throat, and Breast.

Large bottles 37½ cts. Small bottles 25 cts.
Philadelphia, Nov. 2, 1851. DR .STEELING—Dear Sir:—In compliance with your request, that I should express my opinion of of your Pulmonary Syrup, I am happy to say that having very frequently used it in my family for various pulmonary complaints, for several years past, and particularly for croup amongst our chillren, to which they have been more or less subject, we have always found the most beneficial results from its use. Upon the appearance of this diseacs we apply at once to your Pulmonary Syrup; and when the symptoms are severe, we double, and sometimes treble the dose recommended in your printed directions, which speedily produces sick-ness and vomiting, after which the system becomes relaxed, perspiration ensues, the alarming symp-toms are removed, and, through the blessing of Providence upon the means used, the sufferer is on restored to health. Knowing you to be an old and experienced physician, your Pulmonary Syrup is, doubtless, the result of much labor and experience; and as it has been a kind friend in my family, I do most cordially recommend it to the notice of all, but most particularly to mothers, who might save their children many a severe pang, by always keeping, a supply of your Syrup on hand, and giving it immediately upon the first appearance of any of those diseases for which it is recommended. David: W. Bartine,
Pastor of the 5th st. Methodist E. Cliurch, Phila.

Motice to the World.

s the only medicine for which the Government of the United States has ever granted a patent because they considered it the greatest discovery in medicine ever made: and that it was destined to save the lives of millions of the human family.-This decision alone should be sufficient to remove all doubt from the minds of every one as to its superlative excellence in conquering disease, and its transcendant power to heal

By Purifying the Blood,
It will cure Scrofula, Salt Rheum, Erysipelas, Scald
Head, White Swellings, Measles, Ulcers, Sores,
Biles, Eruptions, Blotches, and all cutaneous dis-

By Regulating and Cleansing the Stomach & Bowels It cures Inflammation, Indigestion, Dyspepsis Sick Headache, Vomiting, Loss of Appetite, Fainting, Costiveness, Looseness, Piles, &c. By Strengthening the Digestive, and Regulating th

It cures all Billious diseases, or Bilious or Intermittent Fevers, chills and fover, ague and fever, heartburn stranguary and other painful disorder. of the kidneys and bladder.

By Quieting the Nervous System, It cures Neuralgia, Hysterics, Palsy, Epilepsy an all other Nervous diseases. It is also unrivalled in the cure of '

Female Complaints. t works wonders in cases of Fluor Albus or whites, Falling of the womb, obstructed, suppressed, or painful Mensis, irregularity of the Mensirual Perids and the like, and it is as effectual in curing all

forms of Kidney Disease and Liver Complaint. From the powerful alterative properties of this modification it is well coloulated for discusses of the Liver, which is the great centre of the bile, and is the seat of a variety of diseases peculiar to that or-gan, and when diseased or obstructed is the excit-ing cause of many ailments which are of frequent occurrence, such as jaundice, bilious disorders. costiveness, piles, headache, drowsiness, pain in

the side, sickness of the stomach, indigestion. Diseases of Children. To no class of human beings is Dr. Houck's Panacea a greaten blessing, a more convenient, salutary, bland and appropriate medicine, than to infants and children. Now we hesitate not to declare, that

Children need not Die More than others, if they are sustained by suitable nourishment, and that medicine which is best adapted to their delicate organs and tender years. Mothers, if you wish to preserve the lives of your children; if you wish to give them a medicine which you may be absolutely certain will not, cannot do them injury, which will infallibly and speedily cure them; if anything on earth can do it, Dr. Houck's Panacea will. Fail not to use it ere it be

Diseases of the Lungs, As Coughs, Colds, Asthma, Catarrh, Pneumonia, Bronchitis, Consumption. This Great Remedy Is composed of rare and valuable herbs, the proper-

ties of which act in harmony with the functions of the human system, calming the nerves, allaying all irritation and pain, dispelling inflammation, and diffusing its Healing & Soothing Properties to every part of the body. The estimation entertained of it by medical men may be inferred from the extensive use they make of it in many diseases, for which they possessed no reliable remedy until it was found in

DR. HOUCK'S PANACEA. Dr. Houck, at the carnest solicitation of thou sands, has determined to reduce the price of this great and good medicine to ONE DOLLAR PER NOT-TLE, thereby placing it within the reach of all.— His only desire is that it may have a range as universal as it is competent to arrest the whole cataogue of diseases with which humanity is afflicted. He will then be content, because he will be sure that, its virtues are widely spread, and the family of man receiving a benefit and enjoying a blessing to which it has heretofore been a stranger, and in that belief his philanthropy will be gratified and happiness complete.

All letters on business, or orders from druggista, merchants, traders, agents and dealers in medicine must be addressed to Dr. F. Houck, N. York city.
