

BRIDGETON: Saturday Morning, Aug. 27. THE PAPER HAVING THE LARGEST CIRCULATION IN WEST JERSEY. Only \$1 00 per Year.

FRANKLIN BRISTOL, } EDITORS. JOSEPH A. MILLER, }

Agricultural Societies and Fairs.

The columns of our exchanges remind us that the season for the display of agricultural products at the annual state and county fairs, is approaching.

In most of the farming portions of the northern sections of the Union, including the states just emerging from Indian rule, the citizens seem to enter into these exhibitions with a spirit that promises to make them extensively useful.

Much of the benefit of the School is lost, by the irregular attendance of scholars. Neglect in that particular is not only injurious to the scholar himself, but also has a tendency to derange the order and discipline of the school.

It is important that those children designing to attend through the winter term, should be present on the first day of school in order to be properly classified.

Medical and other aid was promptly rendered. When sufficiently recovered he was conveyed to his own residence, where he still lies in a critical situation.

He has for some time past, been in poor health, which with the heat of the sun, is supposed to have caused the occurrence.

On Wednesday afternoon at 2 o'clock, Mr. John Peir, was suddenly taken with a fit and fell on the timbers in the bottom of the vessel.

By means of the press, the awards given for the best products offered at these exhibitions, together with the names of the producers, are made public and thus the stock or produce of the successful individual is extensively and largely advertised.

This again is an inducement for others to compete with them at the succeeding fairs, and thus the agricultural skill of the community is much increased.

By means of the press, the awards given for the best products offered at these exhibitions, together with the names of the producers, are made public and thus the stock or produce of the successful individual is extensively and largely advertised.

to immediately organized and placed in active operation. There are surely objects of interest enough in the county to warrant the establishment of an annual fair.

The surveyors of the Camden and Cape Island railroad passed through on Saturday. On Monday they completed their survey to Millville.

We understand that it is the design of the company to survey one or two more routes. In the meantime they are procuring material for constructing the road, so that we may expect before long to have the iron horse travelling through lower Jersey.

We learn that the measured distance from this place to Glassboro by the public road is about twenty miles, and from the corner of Pearl and Commerce Streets Bridgeton to the bridge at Millville ten and a half.

The Bridgeton Public School will commence on Monday next.

It is important that those children designing to attend through the winter term, should be present on the first day of school in order to be properly classified.

The Temperance men propose holding a mass meeting in Trenton on the 31st inst., several distinguished speakers are advertised to be present.

Sixteen Days Later from California. By a very rapid passage from San Francisco, over the San Juan route California news to the last inst., has been received.

An exchange says a very extraordinary experiment has been made at L'Orient, France, which promises to be successful.

Railroad Precautions.—The Southern Michigan Railroad Company have adopted a system of signaling along their road similar to that of the Hudson River railroad.

A terrific thunder storm passed over this place on Wednesday afternoon last, doing considerable damage.

New Comet Visible.—During the present clear nights our citizens may be gratified with a view of a new comet.

The New Comet.—Editors of the Traveler—the comet discovered on the 10th of June, by Mr. Klinkerfus, is now visible to the naked eye.

Its nucleus is of the brightness of a star of the third magnitude—a tail of one or two degrees in length can be distinguished.

BRIDGETON PRICES CURRENT. Corrected every Friday.

Table with 2 columns: Commodity and Price. Includes items like Wheat, Corn, Oats, Potatoes, and various oils.

PHILADELPHIA MARKETS. Grain.—There is more inquiry for Wheat, mostly for milling, and 7,000 bushels sold.

On the 18th inst by the Rev. J. W. McDougall, Mr. ALLEN H. WALKER, to Miss MARTHA B. VAIL all of Millville.

In Pittstown, on the 17th inst., Mrs. MARY ANN ROSSELL, wife of William Rossell, aged 35. For 9 years she was a consistent member of the M. E. Church.

In Millville on the 12th inst. Moses infant son of Aaron and Eliza Riley, aged 17 months and one day.

Also farewell to our dear Boy. We lay thy body in the earth, We're not all dead yet more;

THE subscriber having neatly fitted up his store at 216 South Street, opposite Charles E. Elmer, where he has just received and opened a handsome variety of

THE subscribers respectfully announce to the inhabitants of Greenwich and vicinity that he has purchased the entire stock and fixtures of the old established store at the Head of Greenwich, where he is keeping constantly on hand an extensive assortment of cheap

THE Ladies are particularly invited to call and examine his new stock of superior fashionable Dress Goods, Dressing Trimmings, Ribbons, Silks, Satins, Calicoes, Hosiery, &c., &c., for fall and winter wear.

THE City of Glasgow.—The fine steamship City of Glasgow, Capt. Wylie sailed for Liverpool on Saturday morning.

Bayard Taylor, formerly of Pennsylvania, the traveling correspondent of the Tribune, in China, according to last advices had joined the expedition to Japan.

Forty-four fatal cases of cholera are reported to have occurred at Cumberland, Md., since Wednesday last. The disease which is declared to be subsiding is supposed to have been produced by the overflow of a canal which runs through a portion of the town.

Accounts from Mobile, which are declared reliable, report the fever to be on the increase, though the authorities and press endeavor to keep the matter as silent as possible.

Turnpike from Mt. Holly to Camden.—We understand that the turnpike from this place to Camden is entirely completed.

The great majority of our travelling community, who have fine horses will, pleasantly avail themselves of this excellent and agreeable route to Camden.

An exchange says a very extraordinary experiment has been made at L'Orient, France, which promises to be successful.

LATER FROM EUROPE.

The British steamer Arabia, Capt. Judkins, arrived at Jersey City about half past 7 o'clock on Monday morning, having left Liverpool on the 18th inst. She has thus made an extraordinary short passage of nine days and eighteen hours. The steamer Pacific, Capt. Nye, of the Collins line, sailed from Liverpool for New York on her regular day, the 10th inst.—three days previous to the departure of the Arabia, but nothing has been heard of her yet. A steamer is reported to be ashore on Nantucket Shoals, which has been taken for the Pacific, this is considered doubtful by well informed persons. The steamer Franklin, from New York for Havre arrived at Cowes on the 10th.

The Great Britain steamship sailed from Liverpool at 4 o'clock, Thursday 11th, with 370 passengers for Melbourne and Sydney. The G. B. had very little specie on freight but a considerable quantity of plate and jewelry. Large bets are pending as to whether or not she will make the passage in sixty days. Offers were freely taken that the clipper Sovereign of the Seas will make the fastest passage. On the other hand, Gibbs, Bright & Co., owners of the Great Britain, undertake to return a portion of the freight if the passage extends over sixty days.

The Eastern Question. The following despatch, which was telegraphed from London to Liverpool just as the Arabia was leaving contains the highly important intelligence of the acceptance of the propositions made by the combined powers.

London, Saturday Morning, Aug. 13th. The Morning Post states that a despatch from St. Petersburg dated the 5th inst., has been received in Paris, bringing the important intelligence that the Emperor had definitely accepted the proposals submitted to him by the Four Powers.

The formal reply of the Emperor was expected to reach Paris on the 15th inst. A despatch from Trieste which appears in the Courrier de France, announces that the Porte had accepted in all its text and without any modifications, the proposals drawn up by the Ambassador at Vienna, and submitted to him for his approval. "This acceptance," adds the despatch, "is made with courtesy."

An extraordinary Ambassador had been appointed to carry to the Czar his acceptance of the proposals, but it is stated that he will not proceed for St. Petersburg until the Russian troops evacuate the invaded territory.

The Sultan's desires are quite in conformity with the English and French Governments. The Times of this morning contains a telegram dated Vienna 6th inst.

Important to Turkey. Constantinople, July 31st.—The excitement here is of the most alarming nature. The Hospodars of Moldavia and Wallachia, who were summoned to proceed immediately to Constantinople, refused to obey. This caused such an effect upon the old Turkish party that serious fears are entertained for the safety of Constantinople, and a revolution is even now believed to be on the eve of breaking out.

The flattering prospects of the harvest also caused a decline in wheat of 2s. to 4s. per quarter. Flour has also declined. Money was largely in demand at previous rates. Cholera was still violent in St. Petersburg, Helmsing, &c. In Copenhagen it was on the decrease.

Advices from Oless of the 5th inst., state that large quantities of corn are being shipped for France and Italy.

India and China. A telegraph despatch from Trieste on the 10th inst. announces the arrival there of the steamship Calcutta, 111 hours from Alexandria, Egypt.

The American steamship Monumental City, was wrecked on the 15th of May, on her passage from Port Phillip to Sydney, and thirty five persons perished.

From China advices state that the imperial army was preparing to re-take Amoy, but without much chance of success. The most serious forces were sent against the city. Canton had not been attacked.

Private telegraphic accounts are said to indicate further success on the part of the insurgents. They are stated to have beaten back the Imperial fleet from Nankin.

The Pestilence at New Orleans—Mortality increasing.—The Old Residents attacked. New Orleans, Aug. 21.—The yellow fever is increasing here every hour, and the alarm is becoming universal. No one appears to be exempt from its attacks, and many of our most respectable citizens are now suffering.

Hot and Cold Weather.—It is a fact known to science that when we have a warm season in this country, the reverse is experienced in Europe. While it has been so hot and sultry here for the last few weeks, in England it has been cold and inclement.

Relief for the New Orleans Sufferers.—The annexed amounts have been collected for the sufferers by yellow fever at New Orleans. New York, \$30,000; Mobile, \$2,000; Philadelphia, 12,000; Charleston, 2,000; Baltimore, 6,000; Savannah, 2,000; Boston, 4,000; Total, \$60,000.

Excursion from London to Niagara. We see by the papers that Edwards, Sandford & Co., foreign agents in London, propose an excursion from London to Niagara Falls, by the rail route, by way of Boston, and by either route from New York to the point of the traveller—for eighty pounds sterling.

Cuba and the Cholera.—The latest news received from Cuba represents the cholera as making the most fearful ravages among the slaves of the plantations. Some estates are reported as having lost half their effective forces in four or five days. The disease appears to be almost entirely confined to the interior, and among the overworked, badly fed and unaccustomed Africans, is said to be most malignant and fatal than the cholera of 32 and '33.—Mercury.

Gough in Europe.—Mr. John Cassel, one of the most eloquent of Temperance orators, is about to leave England for N. York, where he will arrive in season to attend the World's Temperance Convention early in September. A letter received from Mr. Cassel by Rev. John Marsh contains an allusion to Mr. John Cassel's intention to leave in the Atlantic on the 24th, to attend a great Convention on the 6th of September. I am happy to inform you that Mr. Gough has met with an enthusiastic reception in London. I presided, last night, over a crowded meeting in Exeter Hall, and never, in the whole period of my life have I seen an audience so stirred up as was the one last night by the oration of Mr. Gough.

Protestant Missionaries in China.—A recent number of the Chinese Repository says that since 1805, one hundred and fifty Protestant missionaries have labored in China, of whom seventy-three are still living, and remain in active labor, while five are absent from ill health, or other causes. Of the remaining seventy-three, twenty-five died in the field of labor, or on the passage home, including four who were drowned, and three who met a violent death at the hands of the natives. Forty-eight have retired—most of them on account of their own ill-health, or other engagements, but not a few through discouragement at the little progress they made in learning the Chinese language.

An Outrageous Case.—About a month ago, a complaint was entered at Mayor's office against a woman, who had thrown a can of boiling water on the forehead of a young girl, who she stated as follows: In the house there lived two families. The family upstairs were sub tenants of those below. The woman living in the lower story was sick and in bed and hearing a noise up stairs she deliberately got out of bed, went up stairs with a can of boiling water on her shoulder, and on the first floor, and being at the time envious, fears were entertained that serious consequences would follow. The woman who committed the deed immediately afterwards went to bed again, and being unable to attend at the Mayor's office, her husband went bail for her appearance when she had been sick, and if not, to appear in court to answer the complaint.—Trenton State Gazette.

Something to Cause Sorrow.—We great of an old acquaintance yesterday on Noyades street, when we had not seen for a fortnight before. He had a care worn and troubled countenance; his eyes were sunken and his cheeks were hollow, and care had left its foot prints on his brow—he looked at least ten years older than when we last saw him. We asked if he had been sick, and if not, to explain the cause of this great change. "Alas!" he replied, "a few days ago, and I was happy in the possession of a father, a mother, and three loved sisters; but I am alone now—I buried the last one yesterday." We were darkened. It was indeed, enough to turn the darkest hearts to snowy whiteness. And yet it was but one instance out of many which daily occur in our midst.

Steam Navigation between California and China.—We are indebted to Senator Everett for a copy of a map, indicating the proposed route of the steam navigation between San Francisco and Shanghai. The map is published, we presume, by authority of Congress, and is useful and interesting, as showing at a glance with what facility China, Japan and the islands of the Pacific may be, commercially, annexed to the U. States.

Death in a Church.—On Sunday evening last, while the congregation of the South Ward M. E. Church, were at prayer, Mrs. Abbott, an elderly lady, while on her knees suddenly lost all consciousness, fell over, and expired, almost immediately.

A Locomotive Village.—The Illinois Journal says that a new plan of accommodating laborers on railroad improvements is practiced on the Chicago and Mississippi railroad. The entire working force on this line is one hundred persons, who live in cottages for the purpose of boarding the men and are pushed along as the rails are laid—thus securing the advantage of having the men always near their work. This locomotive boarding house, or village, comprises fifteen large covered cars, with all the necessary conveniences for cooking, and sleeping.

Hot and Cold Weather.—It is a fact known to science that when we have a warm season in this country, the reverse is experienced in Europe. While it has been so hot and sultry here for the last few weeks, in England it has been cold and inclement.

Relief for the New Orleans Sufferers.—The annexed amounts have been collected for the sufferers by yellow fever at New Orleans. New York, \$30,000; Mobile, \$2,000; Philadelphia, 12,000; Charleston, 2,000; Baltimore, 6,000; Savannah, 2,000; Boston, 4,000; Total, \$60,000.

Excursion from London to Niagara. We see by the papers that Edwards, Sandford & Co., foreign agents in London, propose an excursion from London to Niagara Falls, by the rail route, by way of Boston, and by either route from New York to the point of the traveller—for eighty pounds sterling.

Cuba and the Cholera.—The latest news received from Cuba represents the cholera as making the most fearful ravages among the slaves of the plantations. Some estates are reported as having lost half their effective forces in four or five days. The disease appears to be almost entirely confined to the interior, and among the overworked, badly fed and unaccustomed Africans, is said to be most malignant and fatal than the cholera of 32 and '33.—Mercury.

UNION ACADEMY. C. ROLLIN BURDICK, A. M., graduate of Rochester University, N. Y.,—Principal. THIS institution located at SHILOH, Cumberland county, N. J., three and a half miles from Bridgeton, the county seat, will open its first term for the year 1853-4, on Wednesday, August 31st, and continue for four months. The Teachers favor themselves that they can give satisfactory instruction in all the branches usually taught in Academies. Students preparing for College can here fit themselves for an advanced standing.

Teachers Classes will be formed at the opening of this term. Those intending to teach District Schools are invited to attend the course of instruction. Special attention will be given to the common English branches and to familiar lectures and discussions on school teaching. A class will also be formed, for this term, to whom lessons on Chemistry will be delivered, amply illustrated by an extensive scientific apparatus, with abundant material adapted to a full development of the science.

Carriage Making. THE subscriber would respectfully announce to his friends and the public, that he still continues at the Old Stand, formerly occupied by E. G. Conover, and is now ready to receive orders, where they will be prepared to manufacture. Of the most approved styles and patterns, such as Buggies, CARRIAGES, Square bodies and Market Wagons. Attention will also be given to repairing, binding water and other carriage work. By strict attention to business, he hopes to merit and receive a liberal share of the public patronage. SMITH M. WARE, Bridgeton, July 23, 1853.—3m

NEW SPERM. J. M. R. G. ROPAC & Co. would respectfully inform the public, that they have taken the stand formerly occupied by Roper, Lanning, & Co. in the best manner, at the corner of the hall, where they are now prepared to supply every want in their line. They also and improved Wares. Of all descriptions—useful, fancy and toilet—of the best quality, and in any desired quantity, in quality equal to any, and at prices as low as the lowest.

THE CUMBERLAND COOK STOVE. A newly improved and very superior article. It has been tested by the best authorities, and is found to be a most economical, independent, Liberty, and Girard Cook Stoves—adapted to either wood or coal.

Woolen Manufactory. THE subscribers would inform the public, that they have fitted their Factory with new machinery, and are now ready to manufacture Woolen Goods, such as Sattinetts, Blankets, Flannels, Stockings and Carpet Yarn. Also—Wool Carded, Spun, and all of which will be done according to order in the best style.

Wool. 5,000 lbs Wool wanted for Manufacturing. The highest Cash price will be paid by S. P. KIRKBRIDE, Bridgeton, May 28, 1853.

New Spring and Summer Goods. THE subscribers have now their spring stock of Goods on hand which they are selling very low for cash or on very reasonable terms for produce or credit. We have Ladies dress goods of a great many styles and qualities, too tedious to enumerate. Men and Boys wear, a large assortment. We will not tell the name of all our goods, for it would swell the advertisement and make it too long. Come and see for yourselves, and we will show you a large and well selected stock of goods and sell them low too. Fairmont May 11. SWING & TOMLINSON.

Beauty, Health, and Cheapness. SAMUEL F. FITHIAN has on hand and for sale a large lot of Zinc Paints as follows: Zinc Pure Zinc White No. 1, 2 & 3; Brown Zinc, Black Zinc, Zinc Dyeer and Demar varnish. The Zinc Paints in their improved state have now been in use for a number of years and fully tested side by side with the best Pure White Lead and Lead Oil in the country. Beauty, Cheapness, and Cheapness. From experiments it has been found that 100 lbs best White Zinc will cover when applied to a surface as much as 100 lbs of the best White Lead. The Zinc will cover more than twice as much as the Lead, and will last twice as long. It is equally applicable to inside or outside work, for the bottom of vessels or in any other place where paint is necessary. The reason above given, where it should satisfy any one who is desirous of getting the best for the least money, and we think we can fully satisfy them of their superiority for Beauty, Durability, Health, and Cheapness. SAMUEL F. FITHIAN, April 23, '53. Opposite E. Davis & Son's Hotel.

Pennington Female Institute. THIS INSTITUTE, located in the village of Pennington, Mercer county, N. J., (directly opposite the Conference Seminary) will close its present Session at the end of the month of July. The next session will commence on the FIRST DAY OF SEPTEMBER, following. Extensive arrangements have been made for the ensuing year, and the efforts will be made to make the Institute stand (as it has stood) in the first rank for educational advantages and literary excellence. The subscribers will have associated with themselves as PRINCIPAL CHARLES W. BURN, A. B., an experienced teacher and graduate of Yale College; and a corps of other Teachers, fully qualified to fill the positions assigned them. All branches usually taught in Female Seminaries can be successfully pursued in the Institute, viz: Common and Higher English and Mathematics, Ancient and Modern Languages, including French, German, Italian and Spanish; DRAWING and PAINTING in all their varieties, together with music on the Piano, Guitar, Viololin, or Seraphin. The success of the Institute during the past year has enabled those interested in its affairs, to put the Terms for Tuition, &c., lower than any Scholarship Terms offered in New Jersey. FAVORITES in all the Common and higher English branches, including Board, Room Rent, Furniture, Bed and Bedding, and Fuel, twenty-five dollars per quarter. The subscribers will have associated with themselves for the ensuing year, including the above only twenty-five dollars per quarter or above twenty and FORTY DOLLARS per year, for Tuition and Light. Tuition quarterly in advance. AUTHORIZED DIRECTOR OF THE INSTITUTE, JOSEPH BUNY, Proprietor. Pennington, June 11, 1853.—my 18-63 wt
