LATER FROM EUROPE.

Increased Probabilities of a General European War—Great Advance in Breadstuffs—Decline in Consols—Colton Market Firm.

The Royal Mail steamship Niagara, Capt. Leitch, from Liverpool on Saturday afternoon the 7th inst., on route for Boston arrived at this port this forenoon, and reports unusually heavy weather during her passage, which has been prolonged to nearly 16 days. She will be due at Boston at an early hour on Wednesday forenoon.

Great Britain, France and Belgium had been visited with the heaviest snow storm ever known in many years past, and apprehensions were entertained of destructive floods from the melting snow and rain.

The Collins steamship Atlantic, from New York, Saturday, Dec. 24, arrived at Liverpool at 2 o'clock P. M. on Thursday, the 5th inst.

The screw steamship Andes, from the South York Dec. 17, arrived at Liverpool at noon on Sunday, the 1st inst.

The intelligence from Constantinople and St. Petersburg continues to be so contradictory as to leave in the estimation of the public scarcely any hope that the Ottomans will accept the last proposition of the Western powers, and this view of the matter is almost universally entertained at Constantinople.

As a natural consequence of the greatly increased probabilities of a general European war, the English stock and Breadstuffs markets have been greatly excited, and Consols closed on Friday at a decline of 7-8 to 1 per cent, on the last day of the year.

The Breadstuffs markets throughout Great Britain had been more excited than at any previous time since the famine in Ireland, and prices had largely advanced.

The advance on flour for the week is quoted by some respectable commercial houses at three shillings per barrel, and some quote the actual advance at less than two shillings.

What has also advanced almost beyond precedent, from ten to fourteen pence a bushel of 70 pounds.

The market for Indian corn was less excited than the flour and wheat markets, but prices have been advanced since the sailing of the Europa from London 1s. 5d to 2s. per quarter of 480 pounds.

The provision markets continue quiet and without any material change in prices.

Proclamation by the President.—Whereas, information has been received by me that an unlawful expedition has been fitted out in the state of California; with a view to invade Mexico, a nation maintaining friendly relations with the United States, and that other expeditions are organizing within the United States for the same unlawful purpose; and whereas certain citizens and inhabitants of this country, unmindful of their obligations and duties, and of the rights of a friendly power, have participated, and are about to participate, in such enterprises so derogatory to our national character and so menacing to our tranquility, and are thereby incurring the severe penalties imposed by law against such offenders.

Now, therefore, I, Franklin Pierce, President of the United States, have issued this my Proclamation, warning all persons who shall connect themselves with any such enterprise or expedition, that the penalties of the law denounced against such criminal conduct will be rigidly enforced. And I exhort all good citizens, as they regard our national character, and the peace and tranquility of our country—as they value the blessings of peace and the welfare of the country—to discontinue, and by all lawful means to prevent, such criminal enterprises. And I call upon all officers of this government, civil and military, to use any efforts which may be in their power to arrest for trial and punishment every such offender. Franklin Pierce.

Lights at Cape May and Haddon.—A new and improved revolving illuminating apparatus has been recently placed in Cape May Light House. This light, being eighty-four feet above the level of the sea, should be seen under favorable circumstances, from the deck of a vessel ten feet above the water at a distance of nineteen nautical miles.

Donation Visit.—The numerous friends of the Rev. William H. Jeffreys, had a social gathering at his house, on the evening of the 12th. The house was filled up with stairs and ladders, all coming to enjoy themselves to the greatest degree, and make themselves useful as the worthy Pastor and his accomplished lady happy, by leaving some very substantial tokens of their regard, in the shape of "material aid." The persons having in charge the arrangements of the affair, are entitled to much credit for the perfect and tasteful manner in which everything was arranged and conducted. We were also happy to see so many of the young ladies and gentlemen of our vicinity present, the effect was pleasant and salutary. Mantaville.

The U. S. Soldiers on Board the San Francisco.—It is said that every soldier on board the San Francisco is now accounted for; but three; and that the whole number lost will not exceed 160. Those who have arrived at New York are now comfortably quartered at Bedloe's Island, and, though exhibiting plain marks of hard service and exhaustion and privation, are yet getting on very comfortably and gaining in spirits. The care which has been taken of them, and the kindness shown them, seem to be fully appreciated by them.

Eric, Jan. 21, 1854. The mob last night hung in effigy Mr. J. H. Walker, Director of the Erie and North-east Railroad accompanying the net with shouts and yells like infuriated fiends. The mad and drunken excitement knows no bounds.

The effigy which is labelled the "Father of the Guage Laws" yet yangles from the limb of the tree on which it was hung.

St. Louis, Jan. 10. The weather is very cold here and the river is frozen over so that teams cross it safely.

About 200 boats are waiting at Cairo for the river to open, and a large number of emigrants are there in a destitute condition.

Providence, Jan. 20. The bill to repeal the Liquor Law, and substitute a license system with no liquor to be drunk on the premises, was laid on the table in the Senate this morning by a test vote of 17 to 7.

All honor is being done to the rescuers of the San Francisco passengers in Boston.—Nearly five thousand dollars have been raised in that city for presentation to the noble seamen through whose instrumentality so many persons were enabled to return to their friends.

A bill has been introduced into Congress providing that there shall be paid to each of the officers, non-commissioned officers and privates who were on board the San Francisco, a sum equal to their pay and allowance for every month; and in case of their death to the heirs and assigns of such parties.
