- Softly the brilliant light of day Faded o'er Gallilee, And the fair moon shone brightly down Upon the sleeping sea.
- It was the solemn evening hour, All mild, and cool, and calm, And scarce a whispering zephyr stole
- Through the tall feathery palm. And a low voice, a pleading tone Rose on the silent air,
- From the dark mountain's lovely top, Where Jesus knelt in prayer.
- Ah! who can tell the holy thoughts Which filled his spirit then, The earnest, agonizing prayers Poured forth for sinful men.
- And who can know the sacred joy Which cheered the Saviour there, He poured his soul in pinyer.
- And sounding from the cloudless sky Did not the Father's voice Utter kind words of peace and love,
- Making his heart rejoice. Ah! would that oftener from life's woes, Its tumults and its care.
- Our souls would turn from earth to heaven. And find relief in prayer. Shiloh, 1854.

# AMERICAN CARRIAGES.

The well known coach manufactories of the Messrs. Abbott and Lewis Downing, at Concord, N. H., employ 300 men, and turn out each year about one hundred and fifty stages, and nine hundred express and other wagons.
These are ordered from every part of the U. States, and eyen South America and Austra-lia—the greatest demand being from the newly settled States of our Great West .-Through the agency of the Messrs. Abbott. 3 by the undermining waters of a brook-had esteem the glittering gold of a widow's for- stage company has been formed to run a daily line of coaches between the cities of Valparaiso and Santiago, in Chili, and in their establishment are several stages, elegantly finished intended for this route.

# PREDESTINATION.

"Do you believe in predestination?" said the captain of a Mississippi steamer to a cler-gymen who happened to be travelling with

"Of course I do." "And you also believe that what is to be, will be?"

"Certainly." "Well, I am glad to hear it."

"Why?" "Because, I intend to pass that boat ahead a fifteen consecutive minutes, if there be any virtue in pine knots and loaded safety valves: So don't be alarmed, for if the boiler aint to

burst, then it wou't?"

Here the divine began putting on his hat, and looked very much like backing out, which the captain observing, he said:

"I thought you said you believed in pre-destination, and what is to be will be."

"Sol do, but I prefer being a little nearer the stern when it takes place"

## THE EASTERN WAR.

We, in common with most others, predicted that the war between Russia and Turkey, assisted by France and England, would be both bloody and protracted. Our prediction that sire to excel is laudable and praiseworthy and it would be a sanguinary war, seems likely, so far, to prove an error, at least so far as the armies of France and England are concerned, there has been, it is true some gullant battles, objects of the Society by contributing to the some glorious victories, some destruction of human life, but these have occurred where the Turks only were the party engaged against the Russians: the allies have yet been in a great measure guiltless of blood or carnage.

That this war will be protracted to an indefinite period is still probable, it has evidentconcerned; Russia intent upon her ambitious projects of territorial extension and unlimited branch and courted negotiation, still actively extended her encrosehments and increased her means of carrying on a war; Turkey, imrelled by the necessity of self preservation. has, while willing to make reasonable sacrifices, prepared for war; while England and France, though averse to war at this time, and anxious to avoid it by negotiations, have through fear of the growing power of the Russians, been forced into the contest; negotiauntil either Russia shall be humbled, or shall neither contingency can be reasonably looked for without a long struggle. So far there has been little of interest excited by the progress of this war-war without bloodshed or wholesale destruction and death, is too tame an affair to satisfy depraved appetites of mankind for excitement. A general disappointment has been felt and manifested in consequence received only accounts of bloodless manævreing and quiet blockades. How long the renowned Generals and Admirals of the combined forces will continue to deprive a wonder-loving people of their anticipated gratification, merely to satisfy the dictates of prudence and their own judgments of the proper manner of carrying on the war is uncertain, nothing short of an attempt to capture Cron-

for excitement. The rapidity with which our Generals Tay- or ler. lor and Scott hurried on the late war with Mexico and obtained their brilliant conquests, has spoiled our people and prepared them to feel that nothing should delay the progress of an army in the accomplishment of its purpose.

The capture of Cronstadt, which is the key to St. Petersburg, would seem to be the first and great object of the war: The descriptions which we have of this fortress, represent this it is, and defended by such immense arrays of powerful batteries, abundantly supplied with all the appliances of war, it would seem to be an utter improbability for any fleet however strong, commanded by men however brave or skillful, to reach or disturb it in its security. We presume that open attacks from the ordinary approaches will never be successful, but that more will be accomplished by strategem and by approaching it in unexpected ways, than by any direct attack: to do this will require time and preparation, and before this preparation can be made, the winter may set in, and nature interpose a barrier to further operations until another season; we must therefore prepare ourselves for a longer period of apparently inactive warfare, and any of its predecessors. We advise all who look elsewhere for something to satisfy our are fond of good reading to take the "Nationlonging for excitement.

We are strangely constituted creatures .we can mourn over the death of an individual, at S. Parker's Book Store, Bridgeton. we are struck with horror at the recital of a catastrophe which has involved in its consequences the destruction of the lives of two or three of whom we have some knowledge, and at the same time can read with composure the account of battles in which thousands and tens of thousands have fallen victims to the reluntless cruelty of savage warfare; and what is still stranger and more inconsistent, we

tragedice, and experience a feeling of disapsal Yankee nation had invented and furnished the Russian monarch with a machine with which to blow up the allied fleet, and send thousands in a moment to their last account, instead of produced horror has seemed to produce an anxious looking for of a trial of the experiment.

The Agricultural Exhibition.

We wish particularly to call the attention of the people of our county to the coming exhibition of the Cumberland Co Agricultural Society; we are persuaded that if our farmers manufacturers and mechanics, and our ladies too enter into the spirit of the thing and exert themselves to do what they can, we shall be able to make a creditable display. This is our first attempt and as much should not be expected of us as from those who have had more experience in such matters. We have less fears of failure from want of material to make up the fair, than we have from the disposition to undervalue our own productions. and a fear that what we have may not be considered by others as of aufficient importance to find a place in the exhibition. All who contribute cannot expect premiums, but that should not be the only inducement, the deto obtain the premiums of the Society should be considered an object worth contending for, but the disposition to aid in furthering the collection even when a premiura is not anti-

cipated is not less laudable. The drought which has shortened the pasture and will probably prevent Stock from making so good an appearance as they otherwise would do, will we fear discourage some of our farmers from bringing out animals ly been entered unwillingly by all the parties which in themselves are good; we hope this will not be so, for allowance must necessarily be made for such circumstances as cannot be power, has, while she has held out the olive avoided. -PERHAM'S 100,000 GIFTS. Chicial Proceedings of the Shure

Holders in Perham's 3d Gift Enterprize; IN MASS MEETING HELD AT Academy Hall: 663 Broadway, New York;

On Thursday Evening, July 27th, 1854. At 8 o'clock the meeting was called to order by by Hall, where S. S. Adams, Esq., was nominated an I manimously elected Chairman, and Robert Beatty, Jr., Esq., appointed Secretary. The first business in order being the selection of a Committee of five persons to receive and dis-

pose of the Gift Property, it was on motion Resolved, that we now proceed to the commution and The election being gone into, resulted in the choice of the following named genflemen:-Kobert Beatty, Jr., J. Lathrop, Ira Bucknian, Jr., B. S. Adams, H. P. Barker.

Justice Lathrop offered the following Resolution: Resolved-That the committee have power to fill vacancies, from a neglect to serve or to fulfil the requirements of a member.—theries The Secretary then read the following: Resolved-That the Committee be authorized to' receive from Mr. Perham the Gift Property, or

take from him bonds for its derivery as called for; call and examine his new and well selected and hold the same in trust for the Shareholders-On inquiry, it was ascertained that Mr. Perham had sold about 46,000 out of the 100,000 Gift Tickets; when the following resolutions were offered

and unanimously adopted:

Resolved—That so soon as it is ascertained the \$ 80,000 of the Gift Tickets issued by Mr. Perham in his third enterprise are sold, the committee shall call the Shareholders together at the most convenient place, for the purpose of instructing said committee in regard to the manner of disposing of the Gift Property, amongst those holding Share Tickets
Resolved—That in order to close the enterprise

at the earliest possible moment, this meeting re-commends all persons now holding Share Tickets, to use their influence in obtaining subscriptions and advance the interest of the whole body. and advance the interess.
On motion, adjourned.
B. S. ADAMS, Chairman.

MR. PERHAM'S CARD.

Accompanying, you have submitted the official proceedings of the Share Holders in Mass Meeting, convened on the evening of the 27th inst., for the purpose of selecting a Committee, and taking into consideration other matters affecting the interests of all ticket holders in my Third Gift Enterprise. It will be seen that a committee have been ap-pointed, and instructions given them as to the course to be pursued up to a certain stage of pro-gression in the enterprise. For the information of absent share holders, I here beg leave to state, that the number of tickets sold up to the present time is about 46,000. I rom this you will perceive that so soon as 34,000 more are sold, they will acvise the whole body of share holders of the fact and ask of them, in general meeting assembled for tie purpose, instructions as to the final disposition of the Gift property, with which they are entrusted. That these 34,000 tickets may be sold in the shortest possible time, the undersigned makes the tollowing propositions, unequalled for liberality:

Lach person who gets up a cluo of ten subserabers, and forwards (10) ten dollars to this office,

will receive by return mail or other conveyances levon tickets. Luch person who sends (at one time) one hundred dollars, will have sent in like manner, one houdred and fifteen tickets.

Each person who shall send (at one time) five nundred

dollars, will have sont in like manner six hundred tickets. And for all larger sums in exact proportion. And for an integer sums in value in operation.

It is thus, ladies and gentlemen, that I hope to secure your hearty co-operation in bringing this enterprise to a speedy, and I hope to all, a satis-

factory termination With great considerations of respect, July 28th, 1854. J. PERHAM.

100,000 TICKETS ONLY AT 1,00 BACH WILL BE SOLD. All orders for Tickets by Mail, should be ad-

dressed to Josiah Ferham, Academy Hell, 668 Broadway, N. Y.

If it should happen that all the tickets are sold when the order is received, the money will be re-turned at our expense for postage. Correspondents will please write distinctly their names residences. County and State, to prevent errors. Or, if convenient, enclose an envelope with their direcion of the Russian Empire." For further particu- tions on it in full—in which such tickets as they may order will be returned.

Another Budget of News .- The simultaneous arrival of Steamers has given us another budget of news from the most interesting points, Europe and California: The European intelligence, like a great portion of that which has preceded it, is chiefly confined to that which is to be done in future. It is however officially announced that the Danubian Provinces are to be entirely evacuated by the Russians, and it now appears that Austria is to occupy them merely as a neutral power. The most active efforts are being made at Varna for an attack on Sebastopol, and the Russians are preparing to resist it with equal energy. The roads to it in every direction are being mined, entrenched, intersected and planked with redoubts. It will be seen that there is a perfect agreement between England and Franco as to the terms of peace. The latter power had announced to the Czar that it could only be effected by an absolute relinquishment of all claim to exercise authority over the free from all sects and dogmas. The branches of the mouth of the Danube, and a curtailment of the Russian power in the Black Sea. There appears to be no disposition to yield on the part of Russia, and it is reported that the Czar has offered to Persia the restitution of all Russian provinces which formerly belonged to Persia, on condition that her armies are instantly marched against Turkey.

Fromtother parts of Europe we glean some interesting particulars. In accordance with the demands of France, the Swedish Ministry has consented to keep their fleet upon a war basis, and the Danish Government shows signs of giving way to the demands of the allies. The King of Saxony was killed by his carriage being overthrown, and his brother is King. From Spain we have intelligence of a strong and bitter feeling on the part of the populace against Queen Christiana.

The intelligence from California fully confirms the news of a terrible quarrel in the ranks of the Democracy and the formation of llats, Caps, Trunks. Umbrellas, Valices, Carpet two tickets, which will probably give the State to the Whice. The mining and farm-State to the Whigs. The mining and farming news is of a highly successful character, but the market is overstocked with every description of goods from the Atlantic States .-The Chinese are having an independent war on their own book, and are flocking to Cali fornia ia immense numbers.

Later from Mexico. - By the arrival of the steamer Orazibe, at New Orleans, we have later intelligence from Veri Cruz and the City of mexico. There is nothing reliable concerning the insurrection under Alvarez -although it was the impression among many that it would yet prove successful Discontent and revolution were increasing to an alarming extent, but the strict consorship exercised over the press, renders it almost impossible to get at the facts as they really exist. Several arrests of Cons, irators has been made by order of Government. The Mexican papers record the occurrence of a number of deaths in Chimahua, Chiapas and other places from actual starvation. The crops in nearly one half the States were a complete failure, and unless speedy relief was procured, the loss of life from famine would be frightful. Measures were being would be frightful. Measures were being has been in the oyster trade. If not sold by the taken by the Government for the relief of the 26th of August, will then be sold at public sale, districts suffering from hunger. In addition to these calamities the Indians had appeared in other portions of the country, causing great alarm and the flight of many of the inhabitants. It is estimated that twenty whites have been sacrificed by them within the preceding week. Count Rousset and several French officers have been ordered to be shot. The cholera and fever had pretty nearly dis-

Invasion of the Crimea -The British Ministerial journals tell us that the allied are my will certainly invade the Crimea with an army of 100,000 men. The proportion of troops engaged is said to be 25,000 Freuch, and 25,000 Turks. There are in or near the shores of the Euxine as many soldiers as above enumerated, and means for the conveyance by sea to the Guir of Perekop, or the sea of Azofi, at whatever side of the Isthmus it may be proposed to land. One hundred thousand men once landed on the north side of the peninsula, their march to within a few miles of Sebastopol, could be resisted only by field fighting, and as there can be scarced, more than 100,000 Russians in the Crimea. there can be little doubt of the event of a field bailpaigu. The works of Sebastopol, on the land side, are very strong; but commanded by heights of which an overwhelming invading force could obtain possession. The Rus-Sian forces in the Crimea consist principalty of two divisions of 70,000 men, exclusive of the marines and dock-yard battalions existing above reward. CHARLES L. W. Head of Greenwich, July 22, 1854. have been; and will be made, to merease this force, but, in the absoluce of communication by sea; a vast extent of steppes and marshes lias to be traversed before the parrow Ischmus of Crisica can be reached at all from the interior of itussian Generals charged with the defence of Sebastopol; will; no doubt, leave to sufficient garrison there, and the rest of the army, with the cavalry and field artillery, will probably occupy a position in the country; and it will be necessary for the allied armies to be equally prepared to invest Sebastopol on the one hand, and to guard against the movements of the Russian army in the field on the other.

Another Shooting .- On Thursday afternoon, about six o'clock quite a tragic affair occurred some six miles from Camden, on the Westfield road, by which it is thought a fad named Green will lose his life. From Consisting of Coats, Pants, Vests &c., together the circumstances of the case, as far as we were able to fearn them, it appears that the orchards and farm of a Mr. Plum have been flundered on several occasions, and in the present instance he had sent an apprentice buy into the orchard to defend it in case any one should enter to abstract the fruit. The boy was armed with a gun, and he had been in the field but a few moments when he saw young Green coming along the road. Under the apprehension that he wanted to rob the orchard, the boy pointed his gun in the direc-tion of Green, when it, by some means or other went off and the entire charge was lodged in the abdomen of the boy. He was taken into the house, and medical aid sent for. Doctors Rowland and Cullen dressed the wounds, but are of opinion that he can never recover .-The boy who fired the gun was taken into custody, and locked up for a hearing.

A New U. S. Coin .- There is at the Trea sury Department a new American dollar coin sent to the Secretary from the Mint at Philadelphia for his sanction, it not being adopted. lu size it is about that of a five cent piece; on one side it has an Indian head with a crown of feathers, such as one sees at times on tobacco boxes. The head is surrounded by the words "United States of America." On the reverse side, there is an open wreath composed of the principal staple agricultural productions of the country-wheat, corn, cotton, tobacco and rice. This wreath surrounds the words "1 Dollar, 1854." In appearance, on this side especially, it precisely resembles the 8 dollar coin. It is a beautiful thing, and its dollar coin. It is a beautiful thing, and its greater diameter will be likely to make it much more generally acceptable than the dollar coin now in circulation, which has proved of a Justice for collection. very inconvenient indeed, on account of its too small diameter,

Brewster's Cholera Mixture.

N a great majority of cases the cholera is preceeded by Diarrhoen or looseness of of the owels; which being neglected under the false but too common opinion, that it will work its own cure by a little abstinence, has resulted fatally in

numerous cases.

Thousands of persons in New Jersey and throughout the United States have borne testimony to the efficacy of Brewster's Cholera Mixture as remedy for Diarrhoea, Bowel complaints and Cholera Morbus, the premonitory symptoms of Asiatic Cholera. The proprietor is constantly receiving testimo-

nials of cures performed by this mixture. During the last eight years it has been very extensively used, nearly two thousand bottles have been sold within a month past, we have no hesitation therefore in recommending it as a safe and effectual remedy if administered in the early stages of the disease. according to the directions on the bottle, every family and vessel, as well as travellers should have a bottle of it, to be ready for sudden attacks.

Mechanics, Inventors and Manufacturers. 6570. IN CASH PRIZES. \$570.

Volume Ten of the "Scientific American" commences on the 16th of September. It is chiefly devoted to the advancement of the interests of Mechanics, Inventors, Manufacturers and Farmers, and is edited by men practically skilled in the arts and sciences. Probably no other journal of the same character is so extensively circulated, or so generally esteemed for its practical ability.— Nearly all the Valuable Patents which issue weekly from the Patent Office are illustrated with Engravings, and the claims of all the Patents are published regularly in its columns as they are is sued, thus making it a perfect Scientific and Me-chanical Encyclopedia of information upon the sub-jects of Mechanical Improvements, Chemistry, Engineering and Sciences generally. It is pub-lished weekly in quarto form suitable for binding, and each volume contains Four Hundred and Six-teen Pages of Reading Matter, Several Hundred Engravings, with a full and complete Index. Its circulation on the last Volume exceeded 23,000 copies per week, and the practical receipts in one volume are worth to any family much more than the subscription price.

The following Cash Prizes are offered by the

Publishers for the fourteen largest lists of subscribers sent in by the 1st of January, 1855;—\$100 will be given for the largest list; \$75 for the second; \$65 for the third; \$55 for the fourth; \$50 for the fifth; \$45 for the sixth; \$40 for the several the second to th enth; \$35 for the eighth; \$30 for the ninth; \$25 for the tenth; \$20 for the eleventh; \$15 for the twelfth; \$10 for the thirteenth; and \$5 for the fourteenth. The cash will be paid to the order of

the successful competitor immediately after the 1st of January, 1855. Teams:—One copy, one year, \$2; one copy, six months, \$1; five copies, six months, \$4; ten copies six months, \$4; ten copies six months, \$8; ten copies, twelve months, \$15; fifteen copies, twelve months, \$22; twenty copies, twelve months, \$28 in advance. No number of subscriptions above twenty can no taken at less than \$1,40 each. Names can be

sent in at different times and from different Pos Southern and Western money taken for subcriptions. Letters should be directed, post-paid, to Muns & Co. 128 Fulton-Street, N. Y.

Messrs. Munn & Co. are extensively engaged in procuring patents for new inventions, and will

advise inventors, without charge, in regard to the novelty of their improvements, NOTICE. LL persons indebted to the subscribers are hereby netified to settle or they will have an extra to pay in the shape of costs. MAUL & BROTHER. Greenwich, Aug. 15, 1854.

PARE TO Self Shurpening Yankee FEED CUTTERS.

I IIIS Cutter is superior to any now in use, for strength, durability and simplicity of construction; it cuts taster, and is the only self-sharpening Hay, Straw and Corn Stalk Cutter ever made. It has but one stratout knife, which any person can grind and set with ease; but in ordi pary cases is ground in the Machine. . Thousands have already been sold, and the demand is daily increasing. In most cases an examination is sufficient to convince one of its superiority. No one after a short trial would part with it for any other.

SAMUEL L. FITHIAN, Sign of the big Mortar.

Ritter's Compound Syrup of Tar & Wild Cherry. TS the safest, cheapest, and best of all Cough Medicines now in use. Of this fact a single trial will convince the most skeptical. It contains no mineral or narcotic ingredients, and causes no inconvenience during its administration; is very palatable, will be taken freely by the youngest children, and will afford instant relief in croup and whooping cough, if given according to the directions. A few doses will allay the irritation of the bronchial tube, incident to cough and sore throat, and by removing the cause will in a short time produce the effect desired—a permanent cure.—One bottle, the price of which is 25 cents, will in nearly every instance cure a cough, however in veterate and of however long standing.

For sale by storekeepers generally in this and adjoining counties, and wholesale by the proprietor.
