CIRCULATION 1,300

Only \$1 00 per Year!

FRANKLIN FERGUSON, } EDITORS.
JAMES B. FERGUSON, }

Notice to Agents and Advertisers.

WE ARE PREPARED TO SHOW THAT

The West Jersey Pioneer

Has a Circulation of at least 300 more than any

other paper printed in Cumberland County.

Its Circulation, (in the County), is nearly double

that of any other paper.

This notice is called for in self-defence. The

"Baltimore Chronicle" falsely conveying the

impression, that its Circulation is larger than

that of the Pioneer.

A Word About Progress.

The progress of our world has hitherto been

slow but steady and certain, and we have every

reason to believe that a like progress will

mark the wide future that lies before it, for, as

one justly remarks, "progress is the great law

of the Universe." To what startling

events and strange discoveries has the

lapse of past ages and centuries given birth!

And reasoning from the past to the future,

we may conclude that our world is yet to witness

events equally startling, and discoveries

equally strange.

What a change, for example, has taken

place in England, in respect to dwellings and

furniture, since the days of Queen Elizabeth,

who reigned from 1558 to 1602. Down to

that period the greater part of the houses had

no chimneys, the fire was kindled against the

wall, and the smoke found its way out as well

as it could by the roof, the doors or the

windows. The floors were of earth, strewed,

in families of distinction, with rushes and the

beds were only straw pallets, with a log

of wood for a pillow. In this respect, even the

king fared no better than his subjects, for in

the time of Henry the Eighth, (father of El-

izabeth) we find directions to examine every

night the straw of the King's bed, that no

doggers might be concealed therein. How

do our readers suppose the kings of the present

day would fancy sleeping on straw pallets

and wooden pillows? It is presumed that

our President at the White House has better

sleeping accommodations than these!

But barbarous as were the customs thus al-

luded to, they were not changed to other and

better ones without opposition. A writer in

1577, speaking of the progress of luxury,

mentions three things especially, that were

"marvelously altered for the worse in Eng-

land," the multitude of chimneys lately erect-

ed, the increase of lodgings, and the ex-

change of tereen platters into pewter, and

wooden spoons into silver and tin, and he

complains bitterly that oak instead of willows

was employed for the building of houses—

Thus there were croakers then as well as now.

Various other facts might be stated, serv-

ing to illustrate the slow but steady march

of improvement. Many centuries of the

Christian era had passed away, before any-

thing better than splinters of wood was used

and then they were considered as luxuries.—

A few centuries only have gone by since

knives and forks were used in eating; since

hats were worn in lieu of cloth hoods and knit

caps; and since knit stockings were introduced

in the room of cloth hose.

But the century last past, has probably

witnessed more striking and more important

unfoldings in the movement of human pro-

THE EXCURSION.

It has been so long since our citizens have

been favored with an excursion to Cape Isl-

and, such as the ladies could attend, that a

large number will doubtless avail themselves

of the opportunity to be afforded on the 26th

inst., to enjoy the varied and beautiful recre-

ations which such an excursion only can give.

The unexcused fashion of getting up pleasure

parties exclusively of men to spend days in

drifting about the Bay, in a sailing vessel,

gunning, fishing or bathing as fancy dictates,

while the ladies must stay at home, broiling

over the hot fire or scrubbing out their finger

ends on dirty shirts, has reigned predominant

long enough, and it is time for the ladies to

maintain their rights and insist upon their

privilege of taking an occasional dip in old

ocean. This excursion has been got up with

an eye to the pleasure as well as comfort of

all who may choose to have a day's enjoyment.

A fine Band of Music has been engaged espe-

cially for the entertainment of the party, and

as a part of the return will be (clouds per-

mitting) by bright moonlight, the twofold

ICE CREAM.—Our old friend, John White,

who keeps an Ice Cream and Confectionary

Establishment in Broad Street, a few doors

above Franklin, called in our office a few days

ago and invited us to come and partake of

some Ice Cream, (*gratis*), manufactured by

him. We rather promised him we would call

the next evening, there being four kinds

prepared at that time, but as business comes

before enjoyment—bread and butter before

luxuries—we deferred our visit until some

sands of the human race, both in and out

of the United States, well versed in the

principles of law and justice, that they are

just as worthy of the halber, as was Andre,

of revolutionary renown, and as sworn ene-

emies and spies in our country. It would be

for the best interests of our beloved country

if every inhabitant of it would inform him-

self in relation to the institution of the so-

ciety of Jesuits, its origin, purposes, designs,

obligations, oaths, doings, &c., where they

will discover the very personification of all

that is vile, deceitful, selfish, unholly, and

calculated to injure and destroy the human

race in all their interest, both for time and

for eternity. It is also interesting to know

something of the secret plottings for the over-

throw of thrones, rulers, institutions, &c.,

with a view to the establishment of the sys-

tem of Popery, as well as of its expulsion

from some of the most decidedly Popish

countries in Europe. Look at the attempt,

THREE DAYS LATER FROM EUROPE.
ARRIVAL OF THE AMERICA.

Stage at Sebastopol—Great Slaughter!!

The Allies have made an unsuccessful attempt to storm Sebastopol. The most sinister rumors prevail in regard to the transaction. By some accounts the English loss is set down at 4,000 men, but the report is believed to be much exaggerated.

The following are the only official notifications of the event:—

Lord Panmure regrets to have to announce that he has received information that the English troops attacked the Redan, and the British the Malakoff towers, at daylight on the morning of the 18th, without success, which has hitherto attended our efforts. Both the French and ourselves have suffered considerably. The names of the officers who have fallen will be forwarded immediately, but it will be impossible to receive complete returns of all the casualties before the 30th of June at the earliest.

The Montreux announces that the Government has received two despatches from General Polissier—the first dated the 17th, informs of operations conducted between the General and his allies, and that the Turks and Chasseurs made a reconnaissance towards Aitdar, General Bosquet occupying the Tchernaya. The next day at daybreak, the French and English were to attack the Malakoff Tower. The second despatch, dated the 17th, announces that the troops had shewed the greatest ardor, and gained a footing in the Malakoff Tower, General Polissier was obliged to order their retirement into the parallel. This was effected with order, and without molestation by the enemy.

Private accounts published in the London Standard, say the loss of British officers, is killed and wounded, amounts to not less than seventy. Among the killed and wounded are General Sir J. Campbell, Col. Yen, and Col. Sibthorp. From the obstinacy and courage with which the combat was maintained by British at the Redan, and the necessity of eventually retiring from the attack, the slaughter on all sides has been immense, and if the information be correct, the loss in killed and wounded, of the British alone, amounts to very little short of four thousand.

The greatest portion of the loss was experienced in a ravine, where a powerful and unexpected battery was opened on the troops.—There is a reason to fear that the loss has been very great; but Lord Palmerston said on Friday, night no additional information had arrived. The Allies lost terribly by the Russians springing a mine, and during the confusion, they (the Russian) recaptured the Mamelon Tower.

Previous advices were to the 17th, stating that there had been smart firing on both sides but without any result of importance.

A despatch from Bucharest, via Vienna, confirms the report that an expedition has been undertaken against the telegraphic messages Napoleon sends him. He is reported to have recently replied that when anything occurs he will let the Emperor know, but that he has not time to act as a telegraph operator. This according to rumor, accounts for the recent absence of news in the Montreux.

ONE WEEK LATER FROM EUROPE.
ARRIVAL OF THE PACIFIC.

The steamship Pacific arrived at New York on Wednesday, bringing Liverpool dates to the 30th ult. The English and French reciprocally blame each other for the disaster at Sebastopol.

The Allies retain possession of the Round Tower, the Cemeteries and the Mamelon. The cholera had broken out among the French troops.

A despatch from the Baltic states that the fire of the Allies had become weak; and that the troops that crossed the Tchernaya had returned.

A despatch states that Swaborg has been bombarded and all the stores there destroyed. Hangar had also been bombarded.

London, Saturday, June 30.—The Times states that the Russian Emperor Alexander is seriously ill.

The king of Prussia has also been for some time ill, and his reign is probably drawing to a close.

Latest Despatches from the Crimea.

Lord Panmure has transmitted to the papers the following intelligence, which reached him the 20th.

LOOK OUT FOR THE LOCOMOTIVE.

There has been some considerable excitement for some time past about the Railroad connecting through Millville, but I want to create a far greater one by letting the people know about the cheap Hat and Cap Store, that I have just opened in Millville, where I am selling out goods every day, cheaper than any other establishment in the place, and if the people do not believe it, I will show them. I have come along with their quilts and for themselves and know that I am the cheapest man in the town. My stock consists of all the various styles and patterns of the day, such as silk and mohair hats of the latest styles, together with a good assortment of spring and summer hats, such as Panama, Peattie Braid, Canton, Leghorn, Campercha and various other patterns, together with

CHILDREN'S HATS, Of various styles and sizes. Also, a good assortment of trunks, valises, carpet bags, umbrellas, &c., constantly on hand and for a little lower than any other establishment in the place. I will show you just what I will sell you for cheap. As I want to close out my Summer Stock, to make room for the Winter trade.

Some come along Farmers both great and small. As I would like to have the attention of all to examine my stock for winter and fall, which I will sell you at prices so very small.

SAMUEL L. FITHIAN, BRIDGETON, June 16, 1856. Druggist & Chemist.

Economy Combined with beauty & Service, SAMUEL L. FITHIAN, HAVING purchased the right of making, coloring and selling Cyanide dyes for all mixtures, would hereby offer it for sale to the citizens of Bridgeton and vicinity, having used and experimented with the mixture, I feel perfectly sure in saying, it is decidedly to be preferred to any preparation having painting done up to it. The mixture being a new article to the Public, I do not expect or ask them to use it in their own colors, but an article in every instance, which if used according to direction) to warrant it; if at the end of two years after the paint is put on, the person using it is not satisfied, I will repaid at my own expense, with either pure or best Zinc, at their own option. Will not the advantages, to a person using it as follows, viz—First, they save paying cost for a first coat. Second, the paint mixture gives the paint color. Third, they last from two to three years longer than painting done in the old way. Fourthly and last they run very little or no risk.

ALL further inquiries will be given by calling at SAMUEL L. FITHIAN'S Drug & Chemical Store, sign of the Water Wheel, nearly opposite E. Davis & Son's Hotel, where will always be found a large assortment of White Lead, Snow White Zinc, ground in oil or Denar Varnish, Paris Green, ground in oil, or in various colors, Lamp Black, Chrome Yellow, Prussian Blue, Venetian Red, Yellow Ochre, Iron and Silvers Mineral paints, Linned Oil, &c. Dr. Morgridge's Family Medicines.

The success of the medicines in the treatment of Diarrhoea of the Bowels, on botanical principles, during the last twenty years, and especially that of Cholera at Millville in 1849, where more than thirty losses were cured under his direction without a failure, has induced him to prepare a set of medicines from innocent vegetable substances for the cure of this class of diseases.

These medicines have become so popular in every section of country where they have been introduced. Within the last two years they have been placed in the hands of hundreds of families for the purpose of curing Cholera, throughly tested; and the result has been most satisfactory. I have called personally on hundreds of these families to ascertain the success of my medicines, and have found that wherever they have been fairly tried they have given entire satisfaction.

They seem to act as a specific in Dysentery as well as in all the family of Cholera Complaints. In my travels during the last two Summers, for the purpose of introducing and testing my medicines, I prescribed them in numerous cases of Dysentery with great success; many were cured, and I have not known of a single failure where my medicines alone were used and persevered in according to directions.

The articles principally relied on in the cure of Cholera, Cholera Infantum, Diarrhoea, Dysentery, Bowel Complaints, Cholera Infantum, and the Summer Complaints of Children, are Dr. Morgridge's Anti-Dysentery Mixture, Cholera Syrup, Cholera Plaster, Cholera Pills, for adults and children's Bowel Corrector, Children's Cordial and Aperient for Children. These will be sufficient in all ordinary cases; but there are some violent attacks of cholera, which require more powerful Remedies. Dr. Morgridge's Emetic Syrup and Carminative Tincture are employed. For further particulars on this subject see full of directions accompanying each of the medicines.

For the cure of several other forms of disease the following compounds, viz— Dr. Morgridge's Cough Syrup, Dr. Morgridge's Asthma and Croup Syrup, Dr. Morgridge's Whooping-cough, &c., in children. Dr. Morgridge's Carminative Tincture. This excels in wind, cramps, Colic, Cramps, &c. Dr. Morgridge's Spasmodic Syrup, for Cholera, for all violent attacks and critical cases of disease. These as well as my Bowed Medicines have been tested for years, and have won for themselves a reputation which will readily be attested.

For sale, wholesale and retail, at my office in Commerce Street, next door east of the Cumberland Bank, Bridgeton, N. J. Prices 25 cents per bottle or box.

A liberal discount will be given to wholesale dealers. Merchants would do well to lay in a stock of my Remedies early in the season, as individuals are already sending for their family supply for the Summer, from every direction where a knowledge of them has gone.

RECOMMENDATIONS, WE the undersigned, having used Dr. Morgridge's "Family Medicines" more or less in our families within the last few years, have no hesitations in recommending them to the public as the most efficacious in the cure of the different forms of disease for which they are recommended, and decidedly the best we have ever used. And believing as we do, that they are the best medicines now in use, and that their general use would prove a great blessing to the community, we cordially give the above testimonial for the benefit of our friends and the public.

BARBER'S

New Jersey Combined Mowing and Reaping Machine!

THIS Machine is simple, light draught and not liable to get out of order and will cut all kinds of Grass and Grain equally well as any other Combined machine ever in this region. It is so constructed, that all side draught, (which is so great a fault in most machines) is done away, and some machines four horses to do the work of two) is entirely overcome and seldom, if ever requiring two horses in any kind of grass or press.

An Extra Pair of Cast Iron Saws, which the gowels can be laid at the side, entirely clear, when the Machine comes around and obviates the necessity of binding after it.

This Machine has been tested the last harvest, by a number of practical Farmers and quite sufficient to prove its complete adaptation to Mowing as well as Reaping. It is so constructed, that it can be engaged in every season, and Mowing Machine, and then again altered back for Reaping, in the same time. It leaves the stubble from twelve to fourteen inches high.

With this Machine you can mow an acre per hour, the whole day, though with but two horses, and with the same ease for the team, as ploughing and grading, in the same manner as well as fresh, and work well in the Salt Marsh as on an Orchard.

These Machines are Manufactured at Bridgeton, by the Subscriber, and can be purchased at done at Short Notice. An extra knife, with each Machine.

Persons wishing to purchase, can apply to the subscriber, at Bridgeton, or by mail.
