For the West Jersey Pioneer. Thoughts in a room of Sickness.

BY SARAH S. SOCWELL. I hear the rushing of the stream Through the lone forest glade, I see its sparkling waters gleam

Forth frem the willow shade. I hear the drowsy hum of wings, Where sports the insect bright, Darting in swiftly circling rings, Quick glancing in the light.

I hear the wild birds gushing song Of rich sweet harmony, Borne on the summer air along In bursts of melody.

I see the water-lillies gleam In the clear flashing light, Which quivers on the flowing stream.

Like wreaths of jewels bright. I feel the gentle fragrant breeze, Fanning my fevered brow,

And sighing through the drooping trees-O' could I be there now! () could I leave this bed of pain. E'en for a few brief hours,

To wander 'mid those scenes again, Those lovely woodland bowers: And stand where the young willows wave In the soft sunlight's gleam,

These burning hands and forehead lave In the cool rippling stream; How would new life my weak frame fill, Now faint with wearying pain;

And Nature's joy my spirit thrill With happiness again! Shiloh, August, 1855.

DIDERAIL.

From the Christian Observer. PRAYER.

"Out of the abundance of the heart the month speaketh

This is true when affirmed of fervent prayer, if we regard the heart as the affectious. -If we consider the word heart as synonymous with mind, then is it equally true of formal and of fervent prayer that out of the abundance of the heart the mouth speaketh. This distinction is not applicable to the Christian who loves God "with all his heart, soul, strength, might and mind." His prayers are the expressions of the thoughts of his mind and the feelings of his heart; and yet it is necessary to keep up the distinction between the heart and the mind, in reference to the prayers of the Christian.

In public prayer there is a greater effort of the mind than there is in private prayer .his God, we may charitably suppose that the to the throne of grace, the prayer of the pasthan he does in the sanctuary. A more simwhich they would ask, and as the Saviour has prey to the spoiler. - Washington Irving. promised, it should be done unto them. This is not an untried nor an an unsuccessful experiment. In these associations individuals have been made subjects of prayer, and they have felt the influence of the prayers on their behalf, have been led to serious reflection, and have been converted. Although for years, the waves of its sweet motion. You hear it an ear to the large and loud sound of prayer, you hear it in moments of busy thought, it yet the still small voice of God thus reaches | comes into your soul without waking its con-

These meetings need not be known to the pastor, until he finds that some unknown to the pastor, until he finds that some unknown Aarons and Hurs are holding up his hands. He will be the first to discover this, in an awakened interest on the subject of religion among the people of his charge, or perhaps in his own heart. The measure proposed might be condemned by some as new; the telegraph is also comparitively new and so are railroads. Shall man bury his talents in regard to the progress of religion, whilst he improves them n all other sciences? Is there any science which so murh demands attention, and is so entitled to our study as that of religion?— Surely, there is none so ennobling; and in all

### EDUCATION.

ABOUT COMMON SCHOOLS.

Common School as in an Academy? There are complaints often made by pahas a wish to show his parents that he has made beneficial in fitting immortal spirits for ferent with those who attend a Common School: they are liable to be taken from school any day; and not only that, but what

come one week and not the following. Now, is not such a shiftless way of doing business, (if I may so call it ) destructive to the interest of the child as a scholar?

No mechanic would take a boy as an ap. prentice to learn the trade, if his parents were to keep him home whenever they chose, or diseard the idea of making him a proficient

But you may say this is not an analogous case and that the teacher has - right to complain. I say they are perfectly analagous, and that the teacher has a right to complain of it as a grievous evil, which ought to be remidied. He cannot make any plans for the onward progress of the school, if a dozen who, perchance, might be in school to day, are kept

out to-morrow, and perhaps for the next week. Parents ought to remember that by keeping lose two: for when they come again to school. they know not where the lessons are-therefore, they are not prepared to recite. They must lose the lessons while they are away, and by not keeping up with their class, they to leave the school.

But I hear some fond parent say," It does not make any difference-my child is young: has plenty of time to go to school. Be not so hasty!" I blame not that child who can persuade you to let it stay home to-day-oh no; it is but acting out the prompting of his nature. But I blame the parent that yields to such persuasions, or keeps it home for some petty private interest, in which she could do as well without the child as with.

This inconstancy in attendance is the cause of the low state of Common Schools-is the cause why the system of education is not higher, and is the chief cause why a good teacher I hope these few words will enable many to

see their duty. A Friend of Common Schools.

Accept everything for its worth, and the needful will never impair the excellence of the beautiful.

tem I have adopted in planting my trees—
There are many men who trust wholly to luck, instead of having some confidence in their own or others' ability and judgment.— Such a man is our neighbor. At one time my faith in luck was as strong as his, but bitter experience in the shape of repeated I resolved to trust to it no more, but try what effect the practical application of a few plain common sense rules would have upon the growth of my young trees. In the first place t became very apparent that I had never exercised sufficient care in taking up trees for conveniently spared for the purpose; all that was conceived necessary, being the getting the trees out of the ground. A very slight investigation of the principles of vegetable physiology taught me to know that it was through the roots that the tree derived its nourishment, and that injury to them, must result in injury to the entire tree. Thenceforth, I attended to the digging myself .-When dug, the roots were carefully protected from the sun, by immediately covering lightly with moist earth or straw, and keeping them covered till ready to be set out again. The preservation of the roots led to another discovery, which was, that a large hole was required to receive them, and as my own common sense had taught me that the tender rootlets of the tree would penetrate a mellow

diameter than the space the roots had formerly occupied, became very apparent. I accardingly dug large holes, in which, after an extent as was requirite to secure the tree at its original depth, with rich compost. The roots were then placed in as nearly their natural position as possible, and covered carefully

was then filled with earth, which was pressed | The Ohio is quite low at this season of the compactly, but not too hard, with the foot, | year, and as the Cumberland Falls are close Why do not children improve as fast in just so that the tree stood firm. FRANKLIN FERGUSON, EDITORS.

#### A VISIT TO DOYLESTOWN, Pa.

Having received many pressing invitations from some of our best friends in Doylestown, to spend a portion of the Summer with them in that beautiful town, we embraced the opportunity of doing so while the "Universal Industrial & Agricultural Exhibition" was open in that place and which continued from the 21st to the 25th ult., from nine A. M. until ten P. M, being lit up in the evening with the most brilliant gas, manufactured for

On the 18th ult., at three o'clock in the morning, we started from Bridgeton and arrived in Salem soon after six; at half-past six we left Salem for Philadelphia, on board the Major Reybold, one of the fastest and best commanded Steamboats on the Delaware.-She arrived in the city about ten o'clock and at six in the afternoon of the same day, we took the North Pennsylvania Cars, and by half-past seven, arrived safely at Gwynned, about twenty miles from Philadelphia and ten from Doylestown. The cars on this road are of the first class, and were it not for the many stations at which they stop, they would make quick time. It was nearly eight o'clock when we left Gwynned, and did not arrive in Doybad-rough, hilly, creoked and dusty. The on wheels, than any thing we can imagine.-The driver dry-and in no hurry to leave any in running order, &c., we arrived at last at | This ended, the invitation was given to par-

of the glorious doctrine, (a free salvation to all the Ladies and committee of the occasion. - ing may be expected. Business of Interest mankind,) by the Pastor, Rev. Mr. Andrews, This bountiful supply disposed of, then came to the Temperance cause, will be brought be gregation but by all with whom he is known. In the evening we heard a discourse from the Pastor of the Methodist Church of that town. He is a young man of bright intellect and promises well for the future. His congregation appreciate his arduous labors in behalf the rooms, but our space will not permit. of sinners. Rev. Mr. Andrews of the Presbyterian Church, deserves much credit for his valuable services, tendered so freely to the Methodist congregation, whenever opportunity offers and circumstances permit.

On Monday morning "bright and early, with guns upon our shoulders, we rambled over green fields and through the shady woods, | ment, and verified the fact, that they are and before noon we succeeded in making a man's chief solace. respectable show in the game bag.

The next morning being the first day of the grand Exhibition, the streets were soon crowded with vehicles of almost every description, from a small carriage and Shetland pony, to a New York four horse omnibus, and the juicy, sweet peach, of large size and well town was rapidly becoming filled with persons | worthy the notice of Peach growers. The from various parts of the country. Three o'clock in the afternoon was the hour designated for the first address to be delivered by Mr. McLacn, as you are aware, has been for Horace Greeley, the far famed Editor of the several years engaged in procuring the choic-New York Tribune. He was introduced by est varieties of Peach, Apple, Pear, Plum. the President, Mr. Charles Huffnagle, who made a few appropriate remarks, after which | being able to say to his friends, "You may Mr. Greeley delivered an able and lengthy | rely upon the trees which you get at my Nuraddress. His subject was, Industrial Prog. | sery, producing such fruit as are representress, showing the rapid strides in improve- ed. ment both in the mechanic arts and in Agriculture. The address was listened to with much attention by those who could get near enough to hear it. Greeley is undoubtedly, one of the ablest men in our country, and has done much for the promotion of Agricultural advancement.

was so full of visitors that they could not all has been very destructive in his garden. be accommodated with comfortable lodgings; many slept in carriages, sheds &c., while others went into the country for a night's rest.-

. Among the many Jerseymen we met, some were from Bridgeton, and one of them informed us that he should not remain long, as he had a "hard time" to get accommodated

at the best hotel, with a bed on the floor! This was the day announced for the exhibition of the "Rising Generation in Arms."-Premiums of from fifty to five hundred dollars was to be awarded to the largest and handsomest child between the age of one and

five years. Among the number was the baby of Useful and Fancy articles, Refreshments. that took the premium at Barnum's Baby Show in New York. There were others much handsomer, though not so large, nor half as and continue through the day and evening of some of this material. old. One very large well proportioned boy, two years old, with blue eyes, curly hair, rosy cheeks and pleasant countenance, met with much admiration and applause from the thousands who witnessed the exhibition.

Friday was the day for the female equestrians to show their skill. Six graceful riders on noble prancing steeds, entered the course and at the sound of the bugle, started for the prize. Two of them were from Boston, one fines. from Lambertville, N. J., 1 from Norristown,

one from Motgomery co. and one from Doylesown or vicinity. One of the riders while going at a rapid gait, was thrown some distance beyond the horse's head, caused by the stumbling of her horse; in an instant she was up and ready to mount and try it again .-The contest was not to be for the greatest speed, but for the most graceful riding and best horsemanship; it was not long however, before the horses were put to their utmost speed, when Mrs. Aaron of Norristown, and a young lady from the neighborhood of Doylesown, took the two highest premiums; the former being a saddle, valued at seventy-five dollars, and the latter a gold watch, worth one hundred and fifty dollars. The trial of speed among the horses being kept up during each day, gave additional interest to the Exhibition. A larger and better display of trained horses is seldom witnessed on such occasions. Lady Byron, owned by Edward Hart of Philadelphia, took a prize of fifty dollars for the fastest trotting horse.

The cattle, though not what might have been exhibited by the farmers of Bucks Co., were very creditable. Agricultural and Mechanical implements in great variety, from an apple pearer to a reaping & mowing machine, were upon exhibition. The display of fancy articles, with almost every conceivable article ever exhibited in Agricultural or Industrial Fairs, was on exhibition. The fruit department was greatly enhanced by 107 varieties of pears, from the nursery of Thomas Hancock, of Burlington County N. J.

The building is a beautiful frame, 150 by 250 feet shaped very much like the Crystal Palace in New York, and when completed; and the dome creeted, it will be one of the largest and handsomest frame buildings in the Union; it is situated about half a mile from the town, in the centre of a thirty acre lot, enclosed with a high tight fence. The ground, building, sheds, fence &c., is estimated to have cost about thirty thousand dollars.

During the four days, tickets were sold t the amount of about ten thousand dollars, and at least twenty thousand persons visited the

Frightful Catastrophe on the Camden and Amboy Railroad. GREAT LOSS OF LIFE.

Twenty-three killed and many wounded. We have been enabled to collect the folowing facts obtained by our reporter, who romptly despatched to the scene of disaster. It appears that the 10 o'clock A. M. train from Philadelphia proceeded as usual on the way until they got about a mile above Burlington, N. J., when they discovered the train from New York coming down at full speed. The eastward bound train then atempted to back on to a sideling to let the New York train pass, when the track was crossed by a carriage and two horses, driven by Dr. Hannigan, of Columbus, N. J. The forses were caught by the hindermost ear, knocked down and crushed to death. The Doctor was thrown out and made a very narrow escape, the carriage being smashed to pieces. This collision caused the rear car to be thrown off the track and dragged some disance, smashing it up, and dragging after it the emigrant car, wnich was smashed to pieces. The major part of the passengers in all the five cars were instantly killed or seriously injured. The scene after the accident occurred beggars all description. Among the number killed, were Mrs. Ma-

ry Prescott, of Salem N. J., Charles Bottom, of Trenton, N. J., and Jacob Fisler, of Fisler-

The Bridgeton Public School will open its Winter Session, on Monday next.

A CAMP MEETING

Will be held near the road leading from Penns' Grove to Sharpstown, Salem county, about three miles from the former place, to commence, Monday September 10th, and close the following Saturday. Brethren in in the Ministry and Membership are invited

The Salem Steamboats all stop at the Grove, on their trips to and from Philad. P. S. No Huckstering will be allowed on the ground during the meeting. The Grove \$1 60a1 91 per bushel; sales of Pennsylvafor the meeting is beautiful and no pains will be spared to make the meeting interesting and profitable to those who attend.

By order of the Com. of Arrangement B. WEED Preacher in Charge.

through the day free of charge. By order of the Executive Committee. Address EDWARD REEVE, Secretary. Bridgeton, Aug. 18, 1855,-4w.

Fire. - Considerable excitement was raised in our city one evening this week, by the burning of a load of bay which had been put under the "Arcade" for safe keeping. Our friend of the Phanix came near being a sufferer, and would have been, but for the time. ly assistance of some of the neighbors, who ran the wagon into Federal Street, where it was upset and the fire extinguished. Camden Democrat.

Arrest of a Counterfeiter.-High Consta bles Buckly and Somers having warrants for the arrest of certain parties who were supposed to be at the fair held at Doylestown last week. proceeded there a few days since, where they found Tobacco Jack and Jack Gibson, both notorious theives, who departed on seeing the officers. Officer Somers detected a fellow named Cornelius Pelty, of Lambertsville, N. J., in the act of passing a counterfeit \$10 bill on the bank of Montgomery county, and forthwith arrested him. After searching the prisoner the officer found five different counfeits in the lining of his hat. He was handed over to the Sheriff of the county, who committed him to prison, where he made an unsuccessful attempt to escape by setting the

Interesting to the Ladies .- The Paris Bulleton of Fashion, anticipating August, says:--" A material for dresses has made its appearance, which is attracting general attention. It is made from a plant which grows luxuriantly in the South of France and Germany the fibre of which is of so exquisite a fineness that one thread measuring one mile in length weighed less than four grains. A complete dress for August, made for the Empress Eugenie, with double skirt and all the appurtenances, weighed less than one ounce! It is firm and wonderfully strong, and proves cheaper in the end than any other material for the ladies yet known." The ladies on this side of the water will be impatient to see

Deaths.—There were 6853 deaths in this State last year, of which number over 1000 were by consumption. The number of those who died under 5 years of age was 2667.-There were 365 between 70 and 80: 208 between 80 and 90; 57 between 80 and 100, and 3 over 100.

On the 17th inst., the War Department at Washington came very near being destroyed by fire, in consequence of a lot of loose paper in the attic becoming ignited. The flames were extinguished before any material damage was done..

The Mercer Standard, a large, handsome and in every respect an excellent weekly paper, is edited and published by a young gentlemen eighteen years of age. The entire labor upon the paper is performed by himself, boy fourteen years of age, and a girl upon those head but twelve Summers have showered their glories. That these three persons will occupy useful and honorable postions in society, no one can doubt who believes in that philosophy which teaches that industry welldirected, never fails to reap a glorious harvest. Are there not some young men in our community who might profit by the example of

those to whom reference is herein made.

Newark Mercury.

The Downfall of Santa Anna .- The news from Mexico under our Telegraphic head is of the most important character, denoting an other change in the Mexican Empire or Re public, whichever it may be termed. The clements in opposition to Santa Anna have at length become so formidable that he found bimself unable to maintain his government, and accordingly, abdicating the supreme power which he has exercised with so much arrogance, he has left Mexico and is now safely in Havana. This event has been expected for many months, and, in view of the volcanic condition of Mexico. the only wonder is, that it did not take place long ago. It is evident Santa Anna intended to fall with dignity.— He was escorted in his flight by 2,500 troops; but shortly after leaving the capital one-third of them revolted, killed several of the officers, and then joined the revolutionists. On arriv ing at Vera Cruz another revolt broke out; but a single regiment continued faithful to To the heirs at law of Edward Stone, dec. their fallen chief, and the mutineers, vanquished, fled in confusion. With regard to the re-construction of the government, our intelligence is very brief. It appears however, that the plan of Alvarez has been adopted and that General Carro is Provisional President, and General La Vega Commander-in chief of the army. - Mercury.

PHILADELPHIA MARKET. GRAIN.-There is a fair amount of Wheat offering, but the demand is limited. Sales of 4,000 bushels good and prime Delaware and Pennsylvania red \$1 50al 75, and white at nia Rye at \$1 10al 12; and a large lot to arrive from Missouri at 96c. Corn is searcesales of 2,200 bushels yellow at 97c affoat. -Oats are scarce, good Southern sold at 41cts.

To Physicians and to all Women!

per bushel.

Do you know the danger of taking drastic purcatives. All Doctors who know anything of the opular medicines, know that Dr. Smiths "Sugar Coated Pills" are the only Pills that do not in the east irritate the stomach and howels, then why give drastic physics to children and delicate perons? These Pills are highly recommended by Doctors and many members of Congress. FRANKLIN DARE is the wholesale agert for Cape May, Cumberland, Atlantic and Salem Co's.

Gough, the great Temperance Lecturer, is engaged to lecture in this State during the there is no engagement which renders his ap- with a call. pearance in our State a matter of inevitable certainty. We are informed that an effort will be made to raise a fund with a view to a positive engagement, but unless this is done, he will not lecture, at least generally, in our render them assistance, therefore, in their ef- favored. forts against the Rum traffic, they should at once set about raising the means necessary to secure his services.

Tomato Preserves .- As the season is at hand for the housewife to prepare for preserves, and as the tomato now forms an almost indispensable article in this line of delicacies, the following receipt may not be without service .: - The yellow tomato is said to be the best. Take of this variety, as soon as ripe, scald and peal; and to every seven pounds of the fruit, add an equal quantity of white sugar, and boil the syrup, removing the scum. Put in the tomatoes, and boil gently twenty minutes; remove the fruit again, and boil the syrup until it thickens. On its cooling, put the fruit into jars and pour the syrup over it, adding a few slices of lemon to each jar, and you will have a preserve at once healthy, and most pleasing to the taste.

A Curiosity.-Mr. Samuel Jobes, of our city, showed us, a day or two since, "twincantelopes," the most perfect of anything of the kind we ever saw. They were raised on the farm of Mr. Jacob Estlack, near Bridgeton. They can be seen at the hotel of Parsons & Woolston for the present.

sirable goods for Spring and Summer wear, to which he would respectfully solicit the citizens of Bridgeton and surrounding country. And though I may regret I have said it; I am going to sell for cash, barter or short approved credit. Thus insuring my customers that they may always depend on what goods they buy of me shall be of the constantly on hand, and manufactured to round the shortest notice. Fluid, oil and the surrounding country, that he is at all times prepared, and will be happy to furnish them with every article that can be manufactured from tin, sheet iron, zinc, copper &c. An assortment of the different varieties of tin ware constantly on hand, and manufactured to roder at the shortest notice. Fluid, oil and the very lowest prices, knowing that persons who give long long credits must necessarily get higher prices for their goods besides losing a great deal by bad debts. (and as all trades must pay or there could be no trade) and a round a content of Japanned Ware, together with a good supply of Hardware, for Housekeepcould be no trade,) good paying customers must ing purposes. pay for the losses by bad ones. Or in other words, if Mr. A. fails to pay his bill, you must charge Mr. B. increased prices for the goods he buys; so you see, Mr. B. has to redouble his efforts to make up for the fraud of Mr. A., which are the evils of the long credit system.

H. R. MERSEILLES,

July 1865.

Dr. Morgridge's Family Medicines.

THE success of the subscriber in the treatment of Diseases of the Bowels, on botanic principles, during the last twenty years, and especially in that of Cholera at Millville in 1849, where more than thirty cases were cured under his direction without a failure, has induced him to prepare a set of medicines from innocent vegetable subilances, for the cure of this class of diseases.

These medicines have become exceedingly popular in every section of country where they have been introduced. Within the last two years they have been placed in the hands of hundreds of families for the purpose of having them thoroughter tested, and the result has been past satisfactor. ly tested; and the result has been most satisfactory. I have called personally on hundreds of those families to ascertain the success of my medicines, and have found that wherever they have been fairly tried they have given entire satisfaction. They seem to act as a specific in Dysentery as well as in all the family of Bowel Complaints. In my travels during the last two Summers, for the purpose of introducing and testing my medicines, prescribed them in numerous cases of Dysentery with great success; many were cured, and I have not heard of a single failure where my medicines lone were used and persevered in according to

The articles principally relied on in the cure of Cholera, Cholera Morbus, Diarrhea, Dysentery, Bowel Consumption, Cholera Infantum, and the Summer Complaints of Children, are Dr. Mon-ORIDGE'S Anti-Dyspeptic Mixture, Cholera Syrup, Cholera Pills and Anti-Bilious Pills for adults, and his Bowel Corrector, Childrens Cordial and Aperient for Children. These will be sufficient in all ordinary cases, but there are some violent atacks of disease, and some critical cases in which DR. Mongridge's Emetic Syrup and Carminative Tincture are employed. For further particulars n this subject see bill of directions accompanying each set of the medicines.

For the cure of sundry other forms of disease are the following compounds, viz:—
Dr. Morgridge's Cough Syrup and Pectoral Elixir,
for Coughs, and all affections of the throat, breast and lungs.
Dr. Morgridge's Liniment and Elixir, for Rhums-

tism, Sprains, Tumors, &c. Dr. Morgridge's Alterative Pills and Elixir, for Dr. Morgridge's Atterative trite and Ettarr, for affections of the heart, liver, kidneys, &c. Dr. Morgridge's Anti-Dyspeptic Mixture and Pills, for Dyspepsia with all its distressing symptoms. Dr. Morgridge's Hyve Sgrup, for Croup, Asthma, Hooping-cough, &c., in children.

Dr. Morgridge's Carminative Tincture. This oxnels wind cures pains Colins. Cramps, &c.

pels wind, cures pains. Colics, Cramps, &c.

Dr. Morgridge's Anti-Spasmodic or Emetic Syrup,
for all violent attacks and critical cases of disease. These as well as my Bowel Medicines have been ested for years, and have won for themselves a eputation which will not easily be effaced. For sale, wholesale and retail, at my office in Commerce Street, next door east of the Cumberand Bank, Bridgeton N. J.

Price 25 cents per bottle or box. A liberal discount will be given to wholesale dealers. Merchants would do well to lay in a stock of my Bowel Medicines early in the season, as individuals are already sending for their family supply for the Summer, from every direction where a knowledge of them has gone. All orders accompanying the cash will receive prompt attention RECOMMENDATIONS:

WE the undersigned, having used Dr. Mor-GRIDGE'S "Family Medicines" more or less in our families within the last few years, have found them exceedingly efficacious in the cure of the different forms of disease for which they are recommended, and decidedly the best we have ever used. And believing as we do, that they are the best medicines now in use, and that their general use would prove a great blessing to the community, we cordially give the above testimonial for the benefit of our friends and the public. reduced price of three dollars! Also, a large assortment of Gentlemens Furnishing Goods, which he will sell as cheap as can be obtained anywhere. Call and examine before purchasing elsewhere.

MORRIS HAAS, Commerce st., opposite the Post Office. Bridgeton, May 19, 1854

Patent Air-tight Corpse-Preserver. E were shown the subscriber's Patent Airand features of a departed relative or friend is cash. preserved without the usual mode so repugnant which cold air is the medium used, acting as a preservative in the warmest weather, for any length of time before burial; at the same time the body is entirely secure from nocturnal depradations, while a glass reveals at any moment the features of the departed; thus arranged it can be conveyed hundreds of miles with perfect safety and in a good state of preservation. This valuable article has been used in some of the most respectable families in Philad'a to whom as also to

Physicians references can be given when required. After examining the above Patent we were fully satisfied that it is admirably adapted for the purpose to which it is intended, and it reflects at credit upon the Inventor thereof; and to which we would call the attention of our friends and the public in general, it being in our opinion one of the greatest inventions of the present age. The subscriber begs leave to refer to the following gentlemen:-Dr. Samuel Jackson, Eight St., w Spruce; Dr. Gillingham, 354 Chestnut St., Dr. Harris, 398 Spruce St., Dr. McClennan, 10th St., above Locust; Dr. Kitchen, Spruce St., above 7th; Dr. R. Gardner, Spruce below 10th. N. B. Will furnish all things appertaining to

my line of business at a moderate price and of good quality, Hearses and Carriages; lead, mahogany and other coffins. The Corpse Preserver is for sale to Undestakers. J. GOOD,

SAMUEL L. FITHIAN, Bridgeton, June 16, '55. Druggist & Chemist Economy Combined with beauty & Service SAMUEL L. FITHIAN.

AVING purchased the right of making, using and selling Company using and selling, Cyrus Buler's patent paint mixture; would hereby offer it for sale to the citizens of Bridgeton and vicinity, having used and experimented with the mixture, I feel perfectly safe in saying, that it is decidedly to the advantage of any person having painting done to use it. The mixture being a new article to the Public, I do not expect or ask them to use it at their own risk; but am willing in every instance (where it is used according to direction) to warrant it; and if at the end of two years after the paint is put on, the person using it is not satisfied, I will re-paint at my own expense, with either Pure Lead or the best Zine, at their own option. Now the advantages, to a person using it are as follows, viz:—First, they save 33 per cent on the first cost. Second, the paint mixture gives the paint Third, it will last from two to three years longer than painting done in the old way of mixing.— Fourthly and last they run very little or no risk. All further necessary information will be given by calling at SAMUEL L. FITHIAN'S Drug & Chemical Store, sign of the Big Mortar, nearly opposite E. Ap. 28, 1855.-1y. NEWTON & POGUE.

ICE, ICE, ICE! FINIE subscriber respectfully informs the pub lic, that in order to supply the increasing de mand for ice, he erected last Fall a large house near Mr. J. Elmer's beautiful Spring Water Pond, and filled it during the past Winter with very superior Ice, from four to five inches thick, free is Green, ground or dry, Mincral Green, Verdigeris, Lamp Black, Chrome Yellow, Prussian Blue, to three hundred pounds; which with his former house, contains more Ice than has ever been put away in B idgeton during any previous year.

Every necessary precaution has been taken to preserve it from melting; he therefore feels confident that he will be able to supply all who may wish Ice during the Whole Year. Ice cream saloons, Hotels, Families and all others, will be supplied every morning (except Sundays) by applying at the Drug Store of the Subscriber. Al who commence early in the season will not be subject to the advance in price later in the Summer.

F. G. BREWSTER.

Bridgeton, April 14, 1855. MEXICAN GUANO. FITHE attention of Farmers is requested to the following Analysis and statements of thi valuable manure. It is the richest Mexican Guand that has been brought to this country in Phosphates. Phosphoric Acid is the valuable elemen of all manures, and this Guano contains nearly 3. per cent., being much stronger than the Peruvian Guano. The peculiarities of this Guano, are: It is not injured by the sun, and is not washed out of the soil by the rains, in less than 30 years. | Port Monnaies, It will double the crop of Corn, if Phosphorie | Pocket Books, Acid is deficient in the soil. It cheaper, more permanent, and more certain | Note Holders,

than Peruvian Guano. On land already surfeited Port Folios, by too frequent applications of ammonia in Peruvian Guano, the Mexican Guano, by its great abun- Dressing Cases, dance of Phosphates, will restore health and vigor. For sale by J. B. A. & S. ALLEN, No. 7 & 8 South Wharves, below Market Street. Philadelphia, June 9, 1855.-2m.-c.

miration of the scientific and curious. Sep 30, 1854. MATCHES! MATCHES!

JOHN DONNELLY, Manufacturer and Inventor of Safety Patent Squar Upright Wood Box Matches, No. 106 North Fourth St. (above Race), Philada. ATCHES having become an indispensable article in housekeeping, the subscriber, afa great sacrifice of time and money, is enabled to offer to the public an article at once combining Utility and Cheapness. The inventor knowing the danger apprehended on account of the flimsy manner in which Matches are generally packed in paper, has by the aid of new steam machinery of his own invention, succeeded in getting up a Safety Patent Square Upright Wood Box; this box is far preferrable, inasmuch that it occupies no more room than the old round wood box, and contains at least Two Hundred per cent more matches, which, to Shippers, is considerable advantage. It is entirely new, and secure against moisture and spontaneous combustion, and dispels all danger on

transportation by means of railroad, steamboat or any other mode of conveyance. These matches are packed so that one gress or more may be shipped to any part of the world with perfect safety. They are the most desirable article for home consumption, and the Southern and Western markets, that have ever been invented. Dealers and Shippers will do well to call and ex-

amine for themselves. These Matches are WARRANTED to be superior to anything heretefore offered to the public.
