Office-Brick Building, Corner of Commerce and Pearl Streets.

For the West Jersey Pioneer. A Trivial Fact with a Truthful Moral.

There was a little grizzly mouse Hid from the Winter's storm Within a parlor warm: He chose the best place in the house. No one could eatch this grizzly mouse Hid from the Winter's storn Within a parlor warm-

That chose the best place in the house. The ladies were afraid to try-For ladies it would seem Must always start and scream If but a little mouse pass by.

But mice must live like other things In spite of pussy cat-All are alike for that For appetite its nibbling brings So thought the mouse 'tis evident

For fancy articles Were gnawed to particles And mischief done where're he went. At length refinement ruined him-High life made him a fool-For in a music-stool

He took apartments neat and trim. 'Twis here he found him in a box, And running round about-To try to get a passage out,

He thrust his legs into the stocks. In vain he struggled, squeaked and cried, The master without fail Siezed grav-beard by the tail-But would not have him scarified. So turned him out into the snow To let the rascal see How in adversity With human auteasts matters go

Hard by there stood a dreary jail, He ran about awhlie In the capering style-Then ran to hide beneath a rail. And finding out a tiny hole. He slipped into the place-

Nor heeded the disgrace-So out of sight at once he stole With mice-like men 'tis even so-Observing this, thought I-In mischief when they're high, In degredation when they're low.

MORAR

### REVOLUTION AND REFORMATION.

GILLETT'S Lecture before the Bridgeton Ly. "Mene Tekel." ccum, on Tuesday Evening the 22d ult:-In noticing the means to be used to revolu-

tionize and reform the world, the sperker remarked: - The obstacles in the way are various, so are the means by which they will be ted with astonishing rapidity. The editor Britain, where it was first introduced, is but met and successfully overcome. National judgments and public calamities, will be as

been overthrown by the engines of destruction and cruel tyrants often fall. To preside over ments swept its destructive influence throughout her entire domain, and from that time until now she has been bleeding at every vain, and in the midst of her death struggles, gasp- cducated. Advantages will be equal to all, ally, by the blessing of God, revolutionize ing for existence. As expressed by a certain and ignorance will no longer be a misfortune, the whole continent of Africa. #### EDUCATION.

"The youth of both sexes of our Scottish peasantry have been educated together, and, as a whole, the Scots are the most moral knowledge, and ripening into goodness. And These are but several parts of the great people on the face of the globe. Education in England is given separately, and we have never heard form practical men that any benefit has arisen from this arrangement. Some influential individuals there mourn over the number of girls turn out badly who have been educated alone until they attain the age of maturity, than of those who have been otherwise brought up—the separation of the sexes has been found to be injurious. It is stated on the best authority that of those girls educated in the schools of convents, apart from boys, the great majority go wrong within a month after being let loose on society and meeting the other sex. They can not, it is said, resist the slightest compliment or flattery. The separation is intended to keep them strictly moral, but this unnatural seeltsion actually generates the very princilples desired to be avoided.

We may repeat that it is impossible to raise girls as high, intellectually, without boys as with them; and it is impossible to raise boys morally as high without girls .-The girls morally elevate the boys, and the boys intellectually clevate the girls. But more than this-girls themselves are morally elevated by the presence of boys, and boys are intellectually elevated by the presence of girls. Girls brought up with boys are more positively moral, and boys brought in school with girls are more positively intellectual by the softening influence of the female charac-

In the Normal Seminary at Glasgow the most beneficial effects have resulted from the more natural course. Boys and girls: from the age of two or three years to fourteen or fifteen, have been trained in the same classrooms, galleries, and play-grounds without impropriety; and they are not separated except at needlework.'

Profusion of Foreign Fruit. - The Havana fruit trade, which is now drawing to a close, has been larger during the present season than at any time during the last fifteen years,; the orange plantations in Cuba having recovered from the disastrous year of 1844, when insects, storms, and other adverse influences almost annihilated them. The quality of the fruit is quite good. The total importations from Havana have been about 6,000,-000, of which 2,000,000 were brought in steamers - there having been twenty-five arrivals, each bringing, on an average 800,000 oranges. Fruit brought in this expedicious manner receives the preference in the market. on account of its freshness and superior flavor.

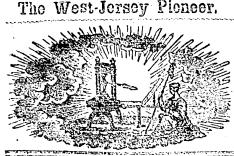

About an equal quantity is received here by schooners, and 2,000,000 more as deckloads of sailing packets. There were six cargoes by schooners, averaging 300,000 each cargo. A few oranges are brought from Porto Rico and Mantanzas. Cuba oranges have sold, on an average, for \$8 per box: though some have sold as low as \$5.50, and some as high as \$13-according to quality and supply. The common belief is, that Havana oranges are always sweet; but those first received, in the Autumn, being picked before fully matured, are invariably sour, and it is only in January, February, March and April. that the orange is in its best condition. Later in the season than this, it is dry and spongy. The total value of the importations of Havana fruit this season is estimated at \$100,-

Fortunately, when the supply of oranges fails in the West Indies, large cargoes begin to arrive from the Mediterranean, and the rade from that direction is by far the most important. The latter description of fruit is already becoming abundant in our market, so that there are now eight or nine cargoes in port unsold, and boxes were sold yesterday at the remarkably low rate of forty four cents (3s. 6d.) Vessels have recently made long passages, and the fruit is often in bad condition. When in prime order, \$2.75, or \$3 is realized. The best Mediterrenean fruit is received about the last of April or early in May. It is judged by one of our largest importers, that about fifty cargoes will be received at But the eyes of the community are athave already arrived, and that the total importations will amount to 200,000 boxes. mostly from Messina and Palermo. About one third of this quantity is lemons. The total valuation of this fruit exceeds \$500,000. A large deduction has to be made for losses from decay. Supplies of fruit from the Medterranean continue until about the time the lomestic fruit trade commences in the Fall: but it is finest about the first of May, when the Havana fruit fuil .- Journal of Com-

The West Jersey Ferry Company have adopted an excellent plan for the safety of passengers from fire, or the sinking of the boats. The benches in the cabins of their large boats. which are divided off into seats, are each to be supplied with cushions stuffed with cork, in quantity sufficient to sustain 200 pounds, so that, in the event of fire, each passenger will only require the cushion upon which he has be two chests, one at each end of the boat, sengers generally crossing at one time. State far from fertile, utterly unable to hope for any great degree of prosperity from agriculture, achieving wealth and power by energetically devoting her whole strength to manufacture. There are many branches of manufacture pursued at present here and there, in many places, which a single city or village might make its own and afford better and cheaper than the present rates, if it so choose. It is very frequently or very generally the case, that in New England, where a town has succeeded in one special branch of manufacture, it has almost invariably been owing to the energy of a very few individuals, or even of a single one-a degree of enterprise which is, however, not without fre-

quent parallel in every part of the country. A thorough history of the rise and progress of manufactures in the United States, would be invaluable from the indications which it would afford for their future protection. It would-if properly written-supply material which would leave but little ground for the puerile fancies of the free trade men, and F the CUMBERLAND COUNTY AGRICULTURAL SOCIETY, will be held at Bridgeton, on WED- would abundantly prove that there is a wide field still open for numerous branches of manufacture, which are at present far from being perfected.

#### PHYSIOLOGY.

The people of this age seldem think of the many advantages they possess which were dehands in the manufacture and sale of Boots & duing the wilderness, in cutting down and J.) out a much more desirable object than he Shoes. It is next to an impossibility to give clearing away the forests which encumber the really was. As our friend, "R. J." has the number of pairs manufactured and the land, and in destroying the savage beasts thus exposed us, we think it no more than amount of sales in this place, during the past which threaten their safety. #### MATRIMONIAL.

The advertisement inserted in the Pioneer some weeks since by Mr. R. J., for a wife, called forth more love letters from the fair sex than any one old bachelor deserved to have the reading of, "and still they come." For the information of those who are still writing at this late date, we would say, there's no use." The bacheler who adverised for a wife, has gone out West, and if he did not succeed in securing one suited to his mind, out of such a large bevy of fair ones, who were anxious to leave the "present state." then he did not deserve to have "such a blessing." It was enough to excite the the fire has been extinguished. sympathy of any single person, to read some of the loving letters addressed to this adventurer, but from what we can learn, the most lovely of them were not shown to any one, but returned to the authors with respectful replys. We accidentally heard of one or two such, and while in the city of Camden, not long since, a young lady informed us that she too, (being smitten by the advertisement) had addressed a billet-doux to Mr. R. J., and received in reply, her own letter, accompanied with a very polito note, stating that he knew he would not make a suitable husband for such a loving and perfect being as she had represented herself to be. He stated (what we did not like to hear) that his friend, the printer, was over anxious for him to have a nied to their forefathers. The first settlers wife, and in writing his advertisement, had of a new country are fully occupied in sub- overdrawn the picture, making him (Mr. R. his love-letters, received at this office since he left for the West. We shall give no names this State. The letter being unsealed, the was revealed.

We shall forward a copy to our friend "R. J." and one to the address of the fair one who wrote the following letter. She deserves a better husband than he who exposed "his friend the printer," by saying that " he had could do anything wrong?

our blessings than a contemplation of the

That the present is an age of suffering is too obvious to need proof, and instead of being regarded as the result of a transgression of the laws of nature, it is thought to be an unavoidable calamity.

the aches and pains of disease?

Being at a protracted meeting one evening during the past winter, where the house was somewhat crowded, and feeling dis-inclined to inhale the air, which had already been breath ed several times, I thought it best to retire, but as I had company with me from some distance I had to remain out of doors until so sick as hardly to be able to stand. conversing with them I found that they all ing too warm, though the house in reality was of our Summer days. The sexton on one occasion made his appearance, and was found to be of the same opinion as those who were suffering. He could conceive of nothing but too much heat that could make so many sick, but, said he " I can't see why the house is so

very hot, there is no fire in the stoves." Now that church has tolerable advantages at least for letting the bad air escape but the advantages are not appreciated for want of a knowledge of the laws of health.

An evening or two after the above I was at another church, where was every convenience for admitting pure and letting the bad air escape. The house being very full found it necessary again to leave the roam While there twelve persons came out of the more left, because they did no think they would be sufficiently benefitted by the preach- the youth of a country are devoid of reveratmosphere.

Now why should people suffer so much from breathing impure air when the remedy is it hand, viz: ventilate. But many person are afraid to let any fresh air into the room where they may be sitting, lest they should take cold, while some have other objections so that few ef our churches or school rooms are-dull, stupid and sleepy congregations, is to be regretted that many of our tenchers are deficient in this respect, and do not attend to ventilating their rooms, even where they are provided with the means.

In view of the above, would it not be wise for us to make the study of Physiology and the laws of health one of the indispensable branches of our Common School education? ticular, and see if "Young America" cannot Let the study of Natural History have an important place in all our Schools, but let the first lesson be "that most wonderful and interesting of all animals-man."

Yours, &c., Rusticus. Cape May, N. J.

Prof. Harvey of the Female Medical College of Pennsylvania, is delivering lectures in this town, on Physiology, Anatomy, &c.

Accidedt on the Delaware-Proceeding. against the Camden and Philadelphia Steam Ferry Company and its Employees. -On Wednesday afternoon upon the affidavit Mr. George M. Fox to Miss Rebecca Vanneter, of Mr. Francis Fullerton, father of Miss all of Deerfield. Elizabeth Fullerton, one of the victims of the burning of the steamboat New Jersey, Justice Shivers, of Camden, caused the arrest of the President. Directors and Supintendent of the Camden and Philadelphia Steam Ferry Co., and of the Captain, Pilot, engineer and fireman, of the ill-fated steamer, upon the charge of manslaughter.

The parties were all taken into custody, and the Justice committed them without bail to answer. Subsequently the case was brought to the attention of Judge Potts, of the Supreme Court of New Jersey, and the accused were liberated upon entering security in the sum of \$3000 each, to appear and answer the charge. These proceeding caused much excitement in Camden.

A New Project for a Pacific Railroad .-The projects for a Pacific Railroad multiply. There are already feasible routes surveyed by order of the Government, and official reports office. of the respective surveys have been submitted to Congress and ordered published. The plans for constructing the Road on these several routes are almost without number. The last project is that of Mr. Weller, which was contains, in addition to the choicest editorials introduced into the Senate on Friday, accom- correspondence, news, etc., from the Daily, a large panied by a speech explaining and advoca- amount of original literary matter, procured at ting its provisions. Mr. W.'s bill makas no provision for the construction of the work aim of the publishers to make the Dollar TIMES through the States. Mr. Weller mail subscribers at \$6 00 per annum, in advance. estimated the revenue from the Road as equal to thirteen po cent. on its cost, stating the One subscriber, one year, saving of time and expenditure at \$11,000,-

fornia and the Eastern States.

#### TERRIBLE RIOT AT PANAMA. Desperate Conflict between the American Passengers and the Natives. Thirty Americans reported killed, and

twenty to forty wounded. This unfortunate affray that occurred at Panama on the evening and night of the 15th of April last, originated with a drunken man from New Orleans, who arrived at Aspinwall by the Philadelphia, called "New York Jack," and who had been some time strolling around the suburbs of the city, insulting all he met. Stopping at a fruit stand a few yards south of the depot, he got into a quarre!, about a watermelen, with a native who sold fruit. A pistol was drawn by the rowdy; and the native flourished a knife in defence,

pitted against the natives. Soon a general row was awakened, and loss of life and property was the consequence .-The hotels were broken open and those who fied to them for safety, were brutally beaten and robbed by the natives; the police joining with the mob. The amount of plunder is estimated at \$50,000.

and the friends of the drunken man were soon

Among those who lost money or valuables, we find the name of Mr. John Hanthorn, son of John Hanthorn of this town. He escaped without any other injury and is expected home in a few days.

Improved Shoc. - The Philadelphia Ledgr describes a newly invented shoe, which is we should think, a very decided improvement in the heavy, inconvenient, and unhealthy India rubber over-shoe. The shoe is made entirely of gutta percha, the shoe otherwise being like the ordinary shoe. The sole is applied to the upper part by pressure. The in ner sole and upper portion, when stretched over the last, is first punctured by a punch. The gutta percha, in a soft state, is then pressed, by mechanical means, upon this inner sole, the material is forced through the punch holes, and the shoe is held together as if it they were ready to go. While I waited, no had been pegged, though much more securely, less than four persons came out of the house for the gutta percha fills entirely the punch hole, and even forms a sort of rivet head on the inside of the shoe. These shoes, the Ledger is informed, can be made thirty per o thought their sickness owing to the house be- cheaper than the leather soled shoes, the price of leather having recently gone up very high. They are as serviceable to wear, and are, of refer to them:
course, entirely impervious to water. They WALTER R. JOHNSON, Commissioner of Patents not more than 75°, which is less than many | They are as serviceable to wear, and are, of may be wern like leather soled shoes, any se: son of the year, without inconvenience.

Partial Abandonment of the Peach Tree New England .- Except in certain favored localities, the peach tree his not, of late years proved a profitable investment to New England fruit growers. The severity of our winters and the disease to which it is subject, has led many to remove this tree from their orchards, and sustitute for it the pear and other varieties of fruit, with much better Bridgeton. I have one particular style of sum reasonet of a fair remuneration for their 11- mer flats that I would like the public to see; my prospect of a fair remuneration for their libor. Last year a great proportion of the peaches in our market came from the South (chiefly from New Jersey), and we shall robably receive the larger part of our supolies from that quarter this season. - Boston

Young America .-- The youth of this country are soon to hold its destiny in their hands; and as they are now governed will they hereafter govern. Niebuhr says in his Let ters: "Freedom is quite impossible when ence and modesty." We confess we have ometimes feared for the future of our land, when we consider the character of the rising condition. As to reverence and modesty, key are terms entirely unknown to the boys of the present generation. By their manner bearing, they seem to recognize no superior either at home or abroad. In lin the essentials of industry, fidelity and integrity, they seem to be as equally deficient. It is next o impossible to get a "good boy," -one that is steady and trustworthy in any department of trade or business. It is the universal complaint of men who are compelled to employ the services of boys, that it is the most difficult and troublesome part of their business to look after them, and to find those that are of the least value. If the old adage is true, "like boy like man," what is to be the character of the next generation of men? Cannot something be done to improve the manners, habits and principles of the boys? Let parents, teachers and ministers make one honest and combined effort at referm in this par-

Doors open at 7, Lecture to commence at 8.

Millville, May 3, 1856.

Lightning Rods, ARMITAGE'S PATENT. TIME subscriber calls the attention of the publie to his superior Electric Magnet Lightng Rods. It is now fully admitted on all hands

that every building to be secure from the destruct tive influences of Lightning, should be provided with a good conductor.

The large number of worthless Rods that are put up makes it necessary for purchasers to examine the merits of the different rods offered fo

rinciples on which my reds are constructed. I have put up nearly 6,000 RODS, and have never heard of the loss of one dollar's worth of property by Lightning, in any building to which ne of my rods has been attached. I therefore, feel great confidence in recommending them, no only as the best, but as the only safe roll in use The following gentlemen having examined these rods and given them their unqualified approbation, have kindly given me their permission to

States Navy. WHEREAS, Commodore Charles Stewart, an eminent citizen of this State, by the action bay, near Cape May. of a board created under the act of Congress, passed February twenty-eighth, "An act to promote the efficiency of the of these resolutions and preamble. navy," has been deposed from his wellthe retired list authorised by said act; and whereas, the said action of said board has been approved by the President of the United States, but Commodore Stewart has appealed from the same to the representatives of the American people in congress assembled; and whereas, in the judg ment of this legislature the said action of said board is grossly unjust to Commodore Stewart, and against the wishes and sense of justice of a large majority of his fellow citizens of this state; therefore,

1. Be it resolved by the Scuate and General Assembly of the State of New-Jersey, That our Senators and representatives in congress be requested to obtain from congress such legislation or action as may be necessary and proper to reverse the said action of the said board and the approval thereof by the President of the United States, and to restore the said Commodore Charles Stewart to his late position of senior post captain of the

2. And be it resolvd, That the Governor be requested to transmit a copy of this reso Aution to the President of the United States, to Commodore Charles Stewart, and to eacl of our senators and representatives in congress. Passed Feb. 7, 1856.

JOINT RESOLUTION relative to the distribution of Nixon's Digest.

1. Be it resolved by the Senate and General Assembly of the State of New Jersey, That the governor of this state be authorised t cause copies of "Nixon's Digest" to be dis tributed as follows, viz: To the President of the United States, and to the heads of the executive departments of the general government, for the use of the offices over which they preside, each one copy; to the librarian of the congressional library, for the use of said library, four copies; to the executives of the states and territories within the United States, for the use of said library, four copies; to the executives of the states and territories within the United States, for the use of such state and territory, each one copy; to each of the senators and representatives of this state in the congress of the United States, one copy; to the librarian of the New Jersey Historical Society one copy, for the use of said society; copies, for the use of the said colleges and the literary societies thereof; and that the state treasurer be authorised to deliver to the state librarian, to be kept in the state library for the use of the legislature and courts of this state, twenty copies. Passed February 6, 1855.

JOINT RESOLUTIONS in commendation of Dr. E. K. Kana, of the United States Navy, and others.

WHEREAS, Dr. Elisha K. Kane, by his explorations and discoveries in the Arctic regions, his indomitable perseverance and skill, in conducting the expedition in search of Sir John Franklin, and the valwith additions he has made to science, has founded a claim upon the commendation of his countrymen; therefore, 1. Do it resolved by the Senate and Gener-

al Assembly of the Frote of New Jorsey. That we in common with foreign governments and other states of the Union which have especially acknowledge I his eminent services do hereby tender our thanks to Dr. Kane and to the officers and crew under his command in said expedition.

2. And be it resolved, that the governor be requested to transmit a copy of these resolutions to Dr. Kane, and through him to his efficers and crew. Passed February 26, 1856.

JOINT RESOLUTIONS relative to the casof William R. Montgowery, late a Brevet Lieutenant Colonel in the United States

WHEREAS, Wm. R. Montgomery, a native of this state, late a Brovet Colonel in the United States Army, was recently dismissed the service, upon conviction by a court martial, on certain charges preferred against him and whereas, it is represented that said William R. Montgomery is in possession of evidence which he was unable to produce on the trial of his case, competent and sufficient to establish his innocence of said charges; and that he is endeavoring to ob tain reinstatement in the service, and a new trial; therefore,

1. Be it resolved, by the Senate and General Assembly of the State of New Jersey. That the Senators and Representatives in Congress from this State, be requested to use their best efforts to obtain from the President of the United States an order reinstating said William R. Montgomery in the army, and a new trial of his case. 2. And be it resolved, That the Governor

be requested to transmit a copy of the above preamble and resolution to each of our Senators and Representatives in Congress. Passed March 14, 1856.

JOINT RESOLUTIONS relative to the construction of a breakwater at Cape May.

WHEREAS, certain resolutions were passed by the legislature of this state in the session of eighteen hundred and fifty-three, and at other sessions prior thereto, requesting our senators and representatives in eengress to use their efforts to obtain an appropriation towards the construction of a breakwater harbor at Cape May, which have thus far resulted in no measures on the part of the general government in furtherance of that all-important object; and whereas, the coasting trade connected with the river Delaware has materially increased since the time, referred to, and still continues thus to do and it is positive that the amount of vessel property engaged in the coal carrying business alone, would fully warrant such an appropriation, from the fact that there is a greater amount of tonnage engaged in this business than in any or all others taken together, and whereas, the construction of a breakwater near Cape May could be made at a cost not exceeding one-fourth of the amount already expended on the breakwater near Cape Henlopen, (as by reference to the survey made by Major Bache, of the topographical engineer corps, in the year eighteen hundred and thirty-six, will more fully appear), and that said breakwater would afford a more ample and important harbor, not only to vessels entering and departing from the Delaware bay, but also to those passing along our coast in tempestuous weather, and is imperiously called for by our fellow citizens along the whole Atlantic coast of the United States interested in the coasting trade, and out of the track of coasting vessels north of Cape May, and very difficult of access in thick and stor-

my weather; therefore,

1. Be it resolved by the Senate and General Assembly of the State of New Jersey, That out senators and representatives in congress be once more carnestly requested to use their utmost exertions to obtain during the present or the next sessions of congress, an appropriation for the commencement of a breakwater harbor on Crow Shoal, in the Delawaro

2. And be it resolved, That the secretary of state be directed to forward to each of our eighteen hundred and fifty-five, entitled | senators and representatives in congress a copy

3. And be it resolved. That the governor carned position of senior post-captain of of this state be requested to communicate the United States navy, and placed upon the same to the governors of Maine, Massa- and fancy colored clothes, black and fancy cassichusets, Connecticut, Rhode Island, New York, Pennsylvania, Delaware, and Maryland also a very large assortment of light colored silk desiring them to lay the same before their res- vesting, silk and linea do., and a splendid lot or pective legislatures, respectfully soliciting their co-operation in this measure. Passed March 6, 1856.

> JOINT RESOLUTIONS for the better presdy Hook and Cape May.

WHEREAS, the government of the United States has, from time to time, made appropriations for promoting the safety of commerce and the preservation of life and property on the sea coast of this state, thereby acknowledging the constitutionality and obligation of such appropriations, and while the state of New Jersey fully appreciates the appropriations thus made, relieving the state in part of the oppressive burden it has been laboring under too long; yet, the large and increasing number of emigrants, and amount of government property cast annually upon our shores by shipwreek, with adequate means might be saved, demand still larger and regular appropiations; from all the other states and from foreign ports, wrecked apon the New Jersey coast, is about as one to eight, that is to say, out of every one hundred vessels wrecked, only about eight or ten properly belongs to New Jersey, by which an unjust and heavy tax is imposed upon the state, in saving life and burying the dead from all other nations; and whereas, Hon. John R. Thompson, United States Senator from this state, has nish the brittania points. introduced a resolution, enquiring "whether | any and what means in addition to those already adopted are advisable, more promptly and effectually to afford aid to shipwrecked vessels" on the coast of New Jersey;

therefore, 1. Be it resolved, by the Senate and Gen-That our Senators and representatives in con- with or without boilers. The newest style Parlor gress be respectfully requested to urgo the stoves, such as the Star, Etna, Starley, Ensign, Cottage, Union, and in fact almost all kinds in the passage of an act making such appropriations. for the better preservation of life and projand to the College of New Jersey, Rutger's erry, and the interment of the dead east upon College, and Burlington College, each three the shores of this state by shipwreek, as will

\$25,480 00 2. And be it resolved, That the governor of this state be respectfully requested to transmit to each of our senators and representatives in congress a copy of the above resolutions and preamble. Passed March 14, 1856.

JOINT RESOLUTION relative to the prevention of the sale of adulterated and im-

pure guano. Wheneas, it is represented great imposition

and fraud is practised upon our agriculturalists by the sale of adulterated and impure guano, the genuine being manufactured and mixed with foreign substances, to the great whereas, it is desirable that the purchasers of guano should be protected from fraud: therefore, 1. Be it resolved by the Senate and Gener-

al Assembly of the State of New Jersey, That our sanators are hereby instructed, and our representatives in congress requested, to have inspectors, competent chemists, appointed by Patent and chain Pumps and Hydraulic Rams put the government, at the different ports of entry up to order and warranted to work Also Lightwhose duty it shall be to inspect and mark the properties and value of each ton that is sold, and to examine and analyse any that may have been sold, to determine its quality, and to further promote the passage of a law ma-king it a misdemeanor to mix foreign sub-stances with guano. stances with guano.

Passed February 29, 1856.

Can't Stand Temptation .- Mr. Greeley while in New York, adopts an exclusively vegetarian diet. We fear, however, that the flesh-pots of the nation have overcome his Cottage, Union, and in fact almost all kinds in the habits of abstemiousness, for it is said that his physical proportions are acquiring an aldermanic rotundity; while we are also told that at a levce the other night, the astute philosopher actually indulged in the mazy evolutions of a cuidrille, in company with a lady with blue eyes, satin slippers, and a style of hair that flowed about her neck like a rivulet of sherry. It's hard to sit glued to an armed chair under such circumstances or to decline canvass back duck and woodcock at the invitation of a lady.

### "The best laid plans of men and mice

Gang aft aghee." A County Work House .- The Hudson County Board of Freeholders have regarded as expedient and are about to establish a Work House, so that convicts may not only earn their board, but pay fines and costs of court, sometimes imposed upon them, instead of indulging in idleness, as at present. A Committee of the board have ascertained that on Blackwell's Island the labors of convicts is worth fifty cents per day, as laborers in getting out stone, and from 20 to 30 conts per working by contract at different trades. The expense of boarding convicts on Blackwell's Island is ninety-one cents per week, with three meals per day, while in the Hudson County Jail it costs \$2,17 per week for two meals.

Bates' Fashionable Clething and Tailoring establishment one of the largest and best selected assortment of black Marseilles vesting, entire new patterns, &c., suitable for spring and summer wear, which will be sold as low as can be purchased in Philadelphia or elsewhere and will be made up in a neat and fashionable style by the subscriber on short notice. OINT RESOLUTIONS for the better pres-cryation of life and property, and the more ing which which will be sold cheap for cash. Toeffective working of the government appar- gether with gentlemens' Furnishing Goods of eveatus on the New Jersey coast, between San- ry description, such as white and colored shirts, silk under shirts and drawers, shirt collars, stocks, neck ties, searfs, hosiery, gloves, suspenders, contloops. Call and examine. April 19. A T Bates' Hall of Fashion, an entire new ar-

ticle of silk neck tie for Spring and Summer year; also, a new style of French suspenders, prices from 25 cts. to a dollar and seventy-five cts. Bridgeton, April 19.

WANTED. MIHE public to know, that J. Bates has on hand the largest and best stock of Spring ths, cassimeres and vestings to be found in Bridgeton. BATES, Merchant Tailor.

At the Old Stand!

MIII Co-Partnership heretofore existing b tween Newton & Pouge, having been dissolv-the subscriber would respectfully inform his friends and the public in general, that he will and where is, the proportion of vessels be- still continue to carry on the business in all its longing to this state, compared with those various branches, at the old established Stand, fornorly occupied by them, where he will be happy to-accommodate all who may favor him with the ROOFING AND SPOUTING

Done at short notice, in the best manner, of the best materials, by experienced workmen, and at moderate prices. Patent and chain pumps and Hydraulic Rams put up to order and warranted to work. Also, Lightning rods put up to order.— My points are copper and plated with silver, and I think are the best now in use. I also fur STOVES -- Of almost all styles and patterns such as the New World, Vernon, Annexation, Independent, Liberty, Jenny Lind, Astor, Girard

Buck's Improved, Albany, William Penn, Thatcher, Hot Biast and Cumberland. All the above are adapted to burning either wood or coal, the plate usured. Also, if the Stove does not nevfo recommended may be brought back and the money eral assembly of the State of New Jersey, for the above stoves. All sizes of 10 plates atways on hand Also, stoves suitable for stores, churchmarket. es and offices.

Brass kettles and iron pots of all sizes, tea ketthe shores of this state by shipwreek, as will pay all the expenses incurred in the same as large lot of knives and forks, price from 75 cents in the same as follows:

Table and ica spoons, wired handles, iron basting spoons, all French iron ladles, with and without holes, coffee nills, flat irons, shovels and tongs, all of which sill be sold as low as can be bought in Bridgeton. Fluid lamps of all sizes and kinds, marble bottoms with drops, for fluid or oil, castors and waiters; brittania tea setts, &c. Barrel churns and feathers; and in fact I can fit new beginners out for ecoing house, for a very little of the needful .-The highest price paid for old iron, lead, brass, rags and feathers. Also, old stoves bought and aken in exchange for ware.

The subscriber is a practical workman, having een engaged in the business for more than 15 years, and superintends in person all work done ROBERT NEWTON. Bridgeton, April 19, 2856.

LOOK OUT FOR SQUALLS, TARIOUS have been the changes that have taken place in Bridgeton since the 25th of March, but none so interesting to the inhabitants if the town and the surrounding country than the WHILLYM B STATTON having rented the shop formerly occupied by Henenlarged, has fitted it up all complete for a Hat and Cap Store, and wishes to inform the people that he has just been to the city and purchased very elegant assortment of Hats and Caps of all the various styles and patterns of the day, to which he invites all the people who are in want of a head piece, to call and examine his assortment tefore purchasing elsewhere. I think I can give you good satisfaction. My stock consists of Sum-2,000 CO mer HATS, such as Panamas, Pedle Braid, Leg-horn, Campceha, China pearl, and various other patterns together with silk fur, and Kossuth Hats of the latest styles; also boy's Hats and Caps, and Children's fancy Hats as cheap as can be bought elsewhere, and I will just say to all that buy of me you need not be afraid of imposition as I assure the public that I sail under my own colors, and no one else with me, so please to give me a

call when you want Hats.

N. B. Hats made by me repaired free of charge. o come on with your Cash to the cheap Hat Stor ast side of the Bridge. WM. B. STATTON. Bridgeton, April 19.

Mew Tin Ware and Stove Depot. TIME Co-Partnership heretofore existing between Robert Newton and myself, having this day been dissolved by mutual consent, I would respectfully inform my friends and the publie generally, that having leased the building next loss of the purchaser, or consumer; and Neff, that I will open a new and cheap stock of Tim and Inpanaed Ware, Warranted to be equal, if not superior to any stock ever before offered in Bridgeton, as well as the

most extensive, embracing all kinds of useful and many fancy articles. ROOFING & SPOUTING .-- Done at short no tice, in the best manner, of the best material, by experienced workman, and at moderate prices .in use. I also furnish the brittania points. STOVES-Of almost all styles and patterns, such as the New World, Vernon, Annexation, In-

adapted to burning either wood or coal, the plate insured. Also, if the Stove does not perform as recommended may be brought back and the money will be refunded. Odd plates always on hand for the above stoves. All sizes of 10 plates stoves with or without boilers. The newest style Parlor Stoves, such as the Star, Ætna, Starley, Ensign, market. Also, Stoves suitable for Stores, church-

Brass kettles and iron pots of all sizes, tea kettles, iron and clay furnaces, iron boilers. Also, a large lot of knives and forks, price from 75 cents up to \$3, best quality. Table and ten spoons, wired handles, iron basting spoon, all sees; French iron ladles, with and without holes, coffee mills, flat irons; shovels and tongs, all of which will be sold as low as can be bought in Bridgeton. Fluid Lamps of all sizes and kinds, Marble Bettoms, with drops, for Fluid or Oil, Castors and Waiters, Brittania Tea Setts, &c. Barrel churns and feathers, and in fact I can fit new beginners out for keeping house, for a very little of the needful. Look to your interest, and give me a call, as I am determined by selling a good article at small profit, and relying in my long experience in the business, and employing none but the best of workman, to turn out superior work, and merit

so liberally bestowed, and for which I would re turn my sincere thanks. WANTED .- 10,000 pounds of old iron, coppe brass, lead and pewter, for which the highest price in cash will be paid. Also, feathers, rags, and for sale by J. B. POTTER & Co. eggs, and all kinds of country produce taken in exchange for my ware. WILLIAM POGUE. April 5.

Chestnut posts, Cedar siding. Patent System of Writing.

Every one his own Teacher! ACLAURIN'S Patent System of Writing -Patented by U. S. Government, Feb. 14, 1855, in a set of Books. Price \$2 00 per sett.— One set can be used by a dozen Learners. Sent by mail, prepaid, to any part of the Union, on receipt of the price. Schools and dealers supplied on liberal terms.

This perfectly original and novel system of instruction (and the only one ever patented) puts it in the power of every man, woman and child in the country to become without the aid of a master an accomplished writer. By any other known process, none but persons having a special faculty or natural talent for writing acquire great proficiency, while by this system the ability is insured

to all to obtain the highest possible combination of correctness and rapidity.

A pamphlet, containing full explanations & directions, will accompany each set of books; or the pamphlet will be sent to any address, without charge, on receipt of a postage stamp. The ablest York Crystal Palace Association; and the Pennsyleducationists in the country have given the subject a very thorough examination, and have express their confidence in the all-sufficiency of the system. Extracts from the many testimonials in possession

of the Patentee. From James N. McElligott, L. L. D .:-"The pupil is compelled to unite in his practice correctness of form with rapidity of execu-These, as is well known, are the capital requisites in the formation of a good penman, and it is the crowning feature of Mr. MacLaurin's system, that they come out of the practice involved in his course of exercises by a sort of natural necessity.

Bertram Harrison, Esq., Principal of Bancroft " I think it far superior to all other methods, and destined to acquire a wide and deserved pop-

Mr. Charles Condert says: " A mere examination of the work is sufficient to convince the most superficial observer that it must be what it purports " From John W. Balkley, Esq. Superintendent of Common Schools in the city of Brooklyn:

"I confidently recommend your system as su perior to all others with which I am acquainted." Samuel S. Randall, Esq., Superintendent of Common Schools in the city of New 10rk, says: "I have no hesitation to saying that I regard the principles upon which it rests-the culture and development of the muscles of the hand and arm -as eminently a sound and philosophical one, and, indeed, as the only mode in which a free. easy and graceful style of penmanship can be at-

From John H. Fanning, Esq., Principal of Ward School No. 12, New York: "Your system imparts grace and freedom in fhe control and use of the pen, thus combining (what in this business age is a desideratum) correctness of form with rapidity of execution. "It is philosophical in Its principles, and logical and rational in its deductions; it must accom-

plish, in every instance, the object it proposes to effect."-Knickerbocker. "We do but reiterate then, the opinion of the most respectable authorities, when we cordially recommend the adoption of these Patent Writing Books in our public and private schools, as well as by those who, though having passed the school going age, are yet far from satisfied with their caligraphy, confident that in each case the result will not fail to prove otherwise than desirable." New York Churchman.

"For a small sum the student of writing can possess the sure means of easily accomplishing himself in penmanship. They should be in every school, and in the hands of every student of penship."—N. Y. Evening Mirror.
Published by W. S. MACLAURIN & CO., No. 345 Broadway, New York. To Teachers.—The author will attend person-

ally to the introduction of the system into schools wishing to adopt. New York, April 19, 1856.

Scott's Little Giant: CORN AND COB MILL. HVIIIS MILL has doubtless attained a more sudden celebrity for doing its work with rapidity and ease, than any other article of Labor Sav-

ng Machinery ever presented to the Agricultural For portability, simplicity of construction and convenience of use, the LITTLE GIANT has no qual. It weighs from three to five hundred pounds, according to size, can be adjusted and used with convenience by any body. These MILLS are guaranteed against breakage or derangement, and warranted to grind feed from ear corn, and grits or fine hominy from shelled orn, with a degree of case and convenience to farmers, perhaps never attained before.

LITTLE GIANT No. 2, is offered complete ready for attaching the team and warranted to grind 10 bushels of feed per hour, with one horse. No. 3, will grind from 10 to 15 bushels per

our, with two horses. For Sale, at Manufacturers Prices, by ROBERT BARBER, Agent, corner of Broad and Atlantic Streets, BRIDGETON, where one of the Mills may be seen in operation. Bridgeton, Dec. 1, 1855 .- tf.

BOOMS.

THE subscriber has on hand and for sale at the

lowest prices, a large assortment of books. Persons wishing to purchase would find it decidedly to their advantage to give us a call before going to Philadelphia or New York, as we are confident that we will sell books lower than they can buy them in either place; all we ask is to give us a trial at the emporium of cheap goods, by SAMUEL L. FITHIAN. Bridgeton, Feb. 23. STATIONARY.

ors, embossed gilt edged and plain; also, post and cap paper of many sizes and qualities, from 61 to 373 cts. per quire.
