# THE EAST END. Gentlemen and Ladies' Boot & Shoe Store. BENJAMIN THOMPSON.

WOULD inform the citizens of Bridgeton and the surrounding country that he is still at the trad that he confinenced learning in this place the flay after Bridgeton was illuminated for peace, (1815), and has taken of Mr. Santtel Reeves his old established Boot & Shoe Sund, next deor to Daniel Fithium's store. Being farthest east on Commerge street of any in the trade. I mame it the East End Boot and Shoe Store,

and as the sun rises in the east to enlighten and advance the day, so will I endeavor to enlighten my fellow-citizens where they can buy the cheapest and best Boots & Shoes, such as I made for many of you 27 years ago, while some of you were children, who are now heads of families & strangers to mee and feeling an interest in your welfare. I respectfully invite you to call and see me, that we may renew our acquaintance, and if you are in want of either Boots or Shoes, I would like to sell you, if I have become the control of the sell that will sail you if not I the article on hand that will suit you, if not, I can measure and make to suit your fancy, at the shortest notice. My stock on hand consists of men's fine calf skin Boots, good quality, and 20 per cent cheaper than I could make for the money now; fine kip of the same stamp, and others at a less price, but not so cheap; men's French calf, patent leather, and drab cloth top Gaiters, and a general assortment of men and boy's patent leather and calf skin gaiters. Prince Albert half Gaiters for men, and Queen Victoria for the ladies, and a fine assortment of children's Boots and Gaiters of different sizes and colors. Some of my work was made rather farther east than I am, and the brethren of the craft down there understand how to make beth good work and poor work, and I understand how to discriminate & inform my customers which to buy. Having had farty-two years' experience, I know what good stock is & when & how it should be made in good Boots or shoes; to prove this try me, & if I should

bounds or smooth to the make all right.

N. B.—Being a little hard of hearing, you will have to speak louder if you ask for credit, but if eash is talked of, my hearing is better, which makes it more pleasant for both parties, therefore I have invariably made my terms Cash on delivery of the goods, & I will put the price so as to make the inducement to pay the day taken.
P. S.—Mending and repairing of all kinds done at short notice and as cheap as the price of stock

The Blind Boy at Play.

BY BLIZA COOK. The blind boy's been at play, mother, And merry games we had; We led him on his way, mother, And every step was glad; But when we found a starry flower. And praised its varied hue. A tear came trembling down his check, Just like a drop of dew.

We took him to the mill, mother. When falling waters made Arainbow o'er the rill, mother, As golden sun-rays played; But when we shouted at the scene And hailed the clear, blue sky, He stood quite still upon the bank. And breathed a long, long sigh.

We asked him why he wept, mother, When e'er we found the spots Where periwinkles crept, mother, O'er wild forget-me-nots. "Ah me!" he said while tears ran down As fast as summer showers-"It is because I cannot see The sunshine and the flowers.

Oh! that poor, sightless boy, mother, Has taught me that I'm blest: For I can look with joy, mother, On all I love the best; And when I see the dancing stream, And daisies red and white, I kneel upon the mendow sod, And thank my God for sight.

My days are gliding swiftly by. And I, a pilgrim stranger, Yould not detain them as they fly, Those hours of toil and danger. For oh! we stand on Jordan's strand, Our friends are passing over, And just before, the shining shore We may almost discover. Ve'll gird our loins, my brethren dear, Our distant home discerning, Our absent Lord has left us word -

For oh! we stand on Jordan's strand, &c. Should coming days be cold and dark. We need not cease our singing, That perfect rest, naught can molest,

Where golden harps are ringing. For oh! we stand, &c. Let sorrow's rudest tempest blow. Each chord on earth to sever. Our king says come - and there's our home, Forever, oh! forever!

soon follow. Now the abandonment of that business must have been attended with a considerable pecuniary sacrifice. And yet it was cheerfully made when their duty was seen, for the public good. Then if the public welfare requires another sacrifice of interest or habit, will it not be granted?

3. Some thirty years ago, it was the almost universal practice among our farmers to carry a bottle of jack or rum into the harvest field or meadow, of which all hands, both men and boys, were expected to partake freely as a necessary means of obtaining strength to lubor and endure fatigue, and the fellow who refused to take his share of it, was considered a simpleton of the first water. But now the practice has entirely passed away; men having discovered that strong drink is not only useless but really pernicious to health, comfort and enjoyment. And it would be as rare a thing to see a bottle of liquor in a harvest field now, as to have seen a farmer with his hosp thirty years ago, laboring without it. Now, I ask if such a deep rooted habit, so wide spread and prevalent, believed to be so essentially necessary among laboring men, could be so universally abandoned, and cheerfully acknowledged to be bad; cannot that other pernicious practice of olden times be abolished too? I mean "allowing cattle to run at large on highways."

4. Some thirty years ago it was the prevailing practice among farmers of this County; only to irritate the surface of the soil; being very scrupulous to avoid deep plowing. because it was believed that to plow more than four inches deep was usuless-foolish, and almost a sin against common sense.-And it by any chance, a farmer had his manure turned down seven or eight inches he deemed it lost and gone. But now, what farmer does not know that the deeper the soil can be made by deep plowing, bountiful manuring and thorough, pulverizing, the will be. Now, if we have learned such a useful lesson by observation and experiment, cannot we learn by the same process, the ad-

As the result of the above mentioned omited for want of space, I shall notice lastly, the soil in this County were unable to produce a sufficiency of the necessaries of life to satisfy the wants of the inhabitants Large and paid for chiefly in wood and lumber. But now, mark the result, with a population more than double what it was then, we not only produce a full supply, but send away thousands of bushels of surplus produce to other places, which brings us in return its corresponding theusands of dollars for in-

The annual Festival of the Bowentown room at Bowentown, on Tuesday evening last, was decidedly the grandest affair of the kind another column. that has ever been gotten up in this county. About two hundred persons were present principally members of the club and their families. Several invited guests from Bridgeton, together with members of the Bridgeton Harmonia, added to the interest of the occasion, by their checiful presence. The exercises of the evening commenced about eight o'clock. After singing by the Harmonia, the Rev. Dr. Jones offered up an appropriate prayer. The Hon. J. T. Nixon being called upon to make a speech, complied with the request in a manner which not only pleased, but edified the audience. The speaker did not promise a lengthy address, but in the course of his remarks, gave a great many useful hints. As lawyers are noted for their heavy charges, they should make good soldiers, and the speaker concluded, rather than run away, to face the music by making a speech, at which he is perfectly at home. After speaking of many of the advantages of the farmers' elub, the improvement of the soil, the increase of crops and the development of mind and information arising from the meeting of farmers in this capacity, he referred to the importance of united effort in accomplishing any worthy and important object, giving as his opinion. that a farmer would gain more valuable in-

JOSHUA COOMBS.

A CARD.

My object in writing this is to correct an egregious error or a wilful fabrication, which occurred in last weeks issue of your paper. -Mr. Albert Foster, in his communication states in reference to reaping of last year, that the committee allowed Mr. Barber to take off the circle of his machine just as we were starting to reap, because his workman said he could not get the wheat off.

The italicised part of the about statement, I absolutely declare to be untrue, and believe it to be, like several other assertions in his labored effort, an unmitigated and malicious falsebood, closely following this charge. Mr. Foster says, that with Mr. Barber's machine the raker walked behind pulling off the sheaves, &c. This also, I unhesitatingly deny, as I acted in that capacity myself --There was not a sheaf pulled off while the raker walked, for I rode and raked off the grain during the cutting of the half acre do not charge Mr. Foster with being the direct author of the communication referred to, but consider that he has merely been the willing instrument or pliant tool of others. -It bears the impress of having been dietated, at least, by others more interested, who have been soured by defeat in a fair and honorable

The whole asticle of Mr. Foster's, is clearly one perfect tirade of abuse of Mr. Barber individually, and evinces a concocted plan to break down his legitimate business, while yet in its incipient stage. To effect this object others have numictingly been draggemo the controversy, and placed in a false light, among whom is myself, and to correct the false impressions thus conveyed, I have cutured to put this card before the public. BETHUEL RUGG.

Bridgeton, Sep't. 2, 1857.

A SURPRISE VISIT

On Friday afternoon last, wible all hands in our office were busily engaged in striking off and packing up the Pioneers, an unexpected visitor honored us with a call, remurking that printing looked like a dry business, and asking the question if we were not dry? That depends upon what we have to drink, was the response, not dreaming that we were to be favored with something to eat which would quench our thirst. In less than no time a large water melon made its appearance

All persons indebted to soil from an requested to come forward and settle their accounts, and those having accounts against said firm, will present them for settlement. to be favored with something to eat which in our midst. It was soon despatched; the universal opinion of the typos being that a better melon never grew. As we were requested not to speak loud about it, we shall not say who was so generous as to remember the printer in this instance, but merely add that if any one wishes to know who raises No. 1 melons, call on Mr. Israel Miller.

More Goods! Better Goods, and

Having procured the services of a first rate set of hands and made arrangements for manufacturing the most of the ready made clothing that I sell, I have now on hand a large and sphendid stock of clothing, manufactured under my own supervision, of the most durable materials by the best workmen made equal to customer work, and warranted to give satisfaction to all that try them, and at the same time are enabled to sell cheaper than any other house in Bridgeton, as there is but one small profit on my goods, whilst those goods that are manufactured in the city must have two profits the manufacturer must have a profit, and the retailer must have his so it must be obvious to all that I have the advantage over those who sell city-made work.—All I task is a call before you purchaseel-sewhere, and if you are not satisfied that my goods are better made, and cheaper than you can buy clsewhere. I do not ask you to buy, nor do I consider it any trouble torshow you my goods.

How long will Agriculturists submit to the Guano Monopoly, whilst they have the shove more potent and more valuable fertilizer, at thirty per cent. less cost? Rend the annexed Certificates & then try it along side of the best Peruvian Guano, and let the result speak for itself.

Certificate of Dr. Hayes.

The specifications of Dr. Hare, and J. Odam, having been submitted to me, I have found the composition of matter on which they are founded composition of matter on which they are founded to be highly nitrogenous and fermentable comtaining the essentials of a fertilizer of the highest character, and also the food for sustaining crops to the time of their maturing. 1 regard this enterprise of manufacturing a guano instead of importing it, a practical and important andertaking, favorably affecting the interests of our common country. Respectfully,
A. A. HAYES, M. D.

Assayer to State of Massachusetts. Cartificate of Professor Booth.
Upon examining the composition of the best Peruvian Guanos, I can perceive no ground for assuming it to the best that can be made. On the contrary, there is always present more or less o the superfluous matter, sometimes in large quan The composition proposed by Odam Hare's Patent, is, in my estimation, superior that of the best Guanos, or to any other artificial manure of which I have heard, and I think myself the more entitled to give this positive opin ion, from the unlooked for results of the action of sulphuric acid on animal matter, which I obtained in experiment, but which were anticipated by the Patent in question.

Respectfully yours. JAMES C. BOOTH.

Certificate of Professor Frazer.

At the request of parties interested, I have no besitation in stating my opinion, that the mode of preparing an artificial manure, by acting upon animal matters by sulphuric acid, as detailed in Dr. Hare's Patent, and mixing the resulting substance with animal, charcoal and phosphate of Lime, is correct in theory' and although I have had no opportunity of testing the manure thus formed practically. I have no doubt that a manure formed by the mixture of these ingredients in proper proportions, would be found at least to equal in its effects the best Guano.

LOTTERIES.

THE Lotteries of Samuel Swam & Co., are chartered by the State of Georgia, and have sworn commissioners appointed to superinted their drawings, and certify that overything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of the parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co., are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are 10 dollars; halves, 5, quarters, 2,50. No ticket sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from 40 to 50, thousand dollars, every prize being dawn, and result of drawing forwarded to all purchasers.

A list of the numbers that are drawn from the wheel, with the amount that each prize is entitled to, will be published after every drawing in the following pagers:—New Orleans Delta, Mobile Register, Charleston Standard, Nashville Democrat Atlanta Intelligencer, and New York Weekly Day Book. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential.
