

BRIDGETON Saturday Morning, January 9.

The Pioneer has a LARGER Circulation than any weekly Paper in this State!

only \$1.00 per Year!

JAMES BERGUSON, Editor.

THE DEPARTED YEAR

The year 1857 is no more. Commencing its brief career with the severity of the poles, it has passed away in the disagreeable quietude of a chilly April day, and though like all such things, it has gone down into the deep oblivion of the past, its stirring scenes will linger long on memory's pages.

Religious Intelligences

For several months past, there has been powerful revivals of religion going on in the Presbyterian and Methodist Churches at Fairton. Nearly a hundred have been brought under the awakening influence, and will unite with the Presbyterian Church, while scores have professed conversion, and will unite with the Methodist Church.

Flour and Feed Store Removed.

Those in want of flour, feed, or grain, by referring to our advertising columns, will see that Mr. R. P. Sutton has removed his stock to the new building on Laurel street, below Commerce, where he has greatly increased his stock, and is now prepared to accommodate all his old friends, and as many new customers as may favor him with their patronage.

Emerson's Magazine, & Putnam's Monthly.

The attention of our readers is directed to the advertisements of Oakmith & Co., and J. M. Emerson & Co. Messrs. Oakmith & Co. having lately purchased Emerson's interest in the Magazine, and Putnam's Monthly, they are highly recommended to the public by the former publishers, who were so successful, for many years past, as publishers of one of the best and most popular publications in the country.

Gift Lotteries.

On our first page will be found an article under the above caption, which is published by request of a friend. Next week we will give an article on the subject, which we intended for this, but is crowded out by other articles which could not conveniently be laid over.

For the West Jersey Pioneer.

LAURENCE HOGG. Mr. Editor:—A Hog was slaughtered at Centreville, Salem Co., December 30th, 1857, fourteen months and five days old, and weighed 578 pounds. It was raised by William B. Rogers, Esq., of that place.

WE ADMIT THAT THE ABOVE IS PRETTY WIDE DONE FOR BROAD NECK, OR ELSEWHERE.

This is the first of the season, and we thank our friend, who saw it, for sending us the age and weight. If any of our friends in the country can beat it, we hope they will forward for publication, the dimensions of their porkers. Last year we published the weight of some of the largest hogs ever raised in this (or the adjoining counties) and we can't say why Cumberland should not "lead the van" in raising pork, as well as potatoes and other desirable productions.

Communication from Cedarville.

An old and favored Cedarville correspondent, "Edolpho the Herald," has furnished us with a very interesting article, detailing a narrative of the extraordinary and singular occurrences which have taken place in the deep, amid her coral caves ten thousand years ago. The article is a most correct and interesting history of the "Cedarville" and its vicinity, and will be read with interest and profit by our friends in that section of the State.

to a revolt, in which all the atrocities of all countries and times seem blended. The ruthless victor and the sullen conquered, alike add to the natural horror and ferocity of war the malignity of feud.

His honor, the gentleman whose name has been mentioned throughout the Union, as the inventor of the self-righting and self-balancing life boat, arrived in Bridgeton on Monday afternoon of this week.

The Judge has been visiting his friends in this place, one of whom, as a token of friendship, presented him with a valuable horse.
