

BRIDGETON

Saturday Morning, March 13.

The Pioneer has a LARGER Circulation than any weekly Paper in this State!

Only \$1 00 per Year!

JAMES B. FERGUSON, Editor.

OUR NEW VOLUME.

The unusual amount of important business on hand this week, connected with the publication of the Pioneer, prevents our giving at this time as lengthy an editorial on the commencement of a new volume, as has been customary on such occasions.

Ten years have elapsed since the Pioneer was established, during all of which time, with but a few weeks respite from active service, the present publisher has been engaged in this office; the past two years having had the entire responsibility of conducting the paper and much business connected with other departments of the office, with what degree of satisfaction, we leave to our patrons, from whom the most liberal encouragement has been received, and for which we return heartfelt gratitude.

The success of the office in every department has been increasing from the commencement of the first volume until the present. During the past year, unparalleled prosperity has crowned our efforts. The degree of success with which we have been favored may be inferred from the fact, that we commence the present volume of the Pioneer with a much larger circulation than any paper that is now, or ever has been published in South Jersey. Our advertising patronage has greatly increased, notwithstanding the rates of advertising are somewhat in advance of what they formerly were when the circulation of the Pioneer was not half what it now is.

With sincere gratitude to all who have in any way contributed to our abundant success in the past, we enter upon our new volume with renewed determination to merit even greater success than our former labors have conferred upon us.

We are informed that on Sunday last, in the presence of an immense assembly of solemn and attentive spectators, Rev. J. M. Challis, of the Rutledge Baptist Church, baptised twenty-three professed believers in Jesus Christ. Fourteen of these in connection with the Greenwich Baptist Church, and the remaining nine for the Roadtown Baptist Church.

It was truly delightful to see husbands and wives, brothers and sisters, walking in the ordinance of God. This was all done in a grave cut in the ice, without sustaining the least injury.

Melancholy Accident. It becomes our painful duty to record one of the most sad and fatal accidents that has occurred in this County for a long time. We are informed that three sons of Mr. Asa Horner, residing in Stone Creek Township, near Seely's Mill Pond, were drowned on Sunday afternoon last.

ADAMANT LECTURE.

An eloquent and highly instructive lecture on the subject of Law was delivered before the students of West Jersey Academy on Thursday evening, Jan. 21, 1858.

The speaker commenced in his usual happy style, by telling them that he had not come to read a lecture, but to give them a talk. He had heard of young folks going to sleep during a lecture, and he thought he would give them a talk before he went to sleep.

He gave the definition of Law in its widest sense, and held that man is a creature of God, and that he is not confined to man, but applies as well to a dog, a horse, or any other piece of inert matter.

He then spoke of the Law of Nature, and of the Law of God, and of the Law of Man. He said that the Law of Nature is the law that governs the universe, and that the Law of God is the law that governs the soul.

He then spoke of the Law of Man, and of the Law of the State. He said that the Law of Man is the law that governs the conduct of men, and that the Law of the State is the law that governs the conduct of the State.

He then spoke of the Law of the Church, and of the Law of the Society. He said that the Law of the Church is the law that governs the conduct of the Church, and that the Law of the Society is the law that governs the conduct of the Society.

He then spoke of the Law of the Individual, and of the Law of the Community. He said that the Law of the Individual is the law that governs the conduct of the individual, and that the Law of the Community is the law that governs the conduct of the Community.

QUARANTINE—STATE ISLAND.

MARINE HOSPITAL, March 9, 1858.

The Quarantine on State Island, which has been the subject of so much discussion, is now in a state of terrible excitement, and has had the attention of the Legislature.
