President's Message.

Fellow citizens of the Senate and House of Representatives: - Having been convened on an extraoadinary occasion, authorized by the Constitution, your atention is not called to any ordinary subject of

At the beginning of the Presidential term, four months ago, the functions of the Federal Government were found to be generally suspended within the several States of South Carolina, Georgia, Alabama, Mississipi, Louisiana and Florida, excepting only those of the Post-office Department. Within these States all the forts, arsenals, dock yards, custom houses and the like, had been seized, and were held in open hostility to the Government, excepting only Forts Pickens, Taylor and Jefferson, on and near the Florida coast, and Fort Sumter, in Charleston harbor,

South Carolina.

The forts thus seized had been put in improved condition. New ones had been improved condition. New ones had been built, and armed forces had been organized and were organizing, all avowedly with the same hostile purpose. The forts remaining in the possession of the Federal Government in and near these States, were either besieged or menaced by warlike preparations, and especially Fort Sumter, which was nearly surrounded by well-projected hostile patteries, with guns equal in quality to the best of its own, and out-numbering the latter as, perhaps, ten to in quality to the best of its own, and out-numbering the latter as, perhaps, ten to one. A disproportionate share of the Redern muskets and rifles had, somehow, found their way into these States, and had, been saised to be used against the Gov-eritagest. Accomplishing of the public revenue their within them had been saised in the same object. The accy was

Then These measures, whether legal or not, were to destroy the Federal Union, a choice of means to that end became indispensable. This choice was made, and was declared in the inaugural address: The policy chosen looked to the exhaustion of all peaceful measures before a resort to any own protection, and still ready to give tutional competency of Congress. stronger ones. He also stated at the same time that no such sufficient force was then within the control of the Government, or could be raised and bro't to the ground within the time when the provisions in the fort would be exhausted.

In a purely military point of view this reduced the duty of the Administration in ey; that at home it would discourage the friends of the Uniou, embolden its adversaries, and go far to insure to the latter a be our national destruction consummated.

This could not be allowed. Starvation was not yet upon the garrison, and ere it reinforced. This last would be a clear indication of policy, and would better enable the country to accept the evacuation of Fort Sumter as a military necessity. -An order was at once directed to be sent for the landing of the troops from the steamship Brooklyn into Fort Pickens.— be taken on a day then somewhat more ent administration, up to the time the or-

THE WAR NEWS. A FLAG OF TRUCE.

The most important item of news to day relates to a flag of truce which came into the government lines at Arlington yesterday afternoon, burne by Col. Thomas Taylor, of New Urleans He was immediately escorted to the head quarters of Gen. McDowell, where it was found that he had dispatches from Jeff. Davis to President Lincoln, to whom they prompt ly forwarded. A Cabinet council was held during the evening, and intense curiosity prevailed as to the contents. It is surmised in some quarters, that they relate to an exchange of prisoners, but others deem them of greater import.

There has been no new development as to the movements of the troops, and previous rumors are all pronounced false.

The State of New Hampshire will raise and equip another Regiment immediately. The Vanderbilt, with the Wilson Zonaves on board, arrived at Fort Pickens on the 24th ult, and successfully landed the Regiment.

Four more regiments from Ohio are about to be mustered into the United States service for three years, and are to be severally designated as the 27th, 28th, 29th and 30th regiments of Ohio Volunteers. Many religious meetings were held in the camp, and it was quite common for a soldier to be designated to read aloud to the rest, and many seemed to be interested in such ex ercises who were not so formerly. They were told the books were not charitable donations, but presents from their Christian friends at home. More than 6000 Jerseymen now in the service of their country in Virginia, have received this interesting article of equipment for the most part through the State Agent of the American Bible Society, just as they were leaving for Washington. The Cumberland Grays, from our county were mostly supplied here. A few new members received copies in Trenton.

History of Bible Society in New Jersey and in Cumberland County.

The era of Bible Societies was inaugurated by the organization of the British and Foreign Bible Society in 1804 The oldest in this country is the Philadelphia Bible Society, of which Bishop White was long president and which was formed in 1808. The first in our State was the New Jersey Bible Society organized at Princeton in Dec., 1809, when an address on the novel object of the Association was issued to "The Public," and signed by Elias Boudinot. Among the early Officers of the Society were (venerable names,) E. Boudinot and Joshua M. Wallace of Burlington; Samuel Bayard and Rev. I. V. Brown, of Princeton; Rev. Dr. Jos. Clark. Chief Justice Kirkpatrick and John Neilson, of New Brunswick; Rev. Peter S. d. diford of Roadington; Rev Dr J. Woodhull of Freehold; and others.

These men all belonged to a former generation. Dr Brown for a long time the last survivor, deceased a few months since Much interest was manifested in the Soever, mostly confined to the central part of the State-the former averaging from four to five hundred dollar, and the latter a few hundred volumes annually. thing to help the less favored abroad. The Cumberland County Bible Society is a venerable organization, having been formed in August 1815, nearly a vear before the first date of the American Bible Society. Its first President was Rev. Jonathan Freeman. He was succeeded by the Rev. Michael Swing. Gen Ebenezer Kimer succeeded, and continued in office till his death in 1841. Rev. Ethan Osborn was next in that office This venerable man who had served his country in the Revolutionary War, and the Church of Christ as a minister for more than fifty years, continued the presiding office of the Society till his death in 1859 He was succeeded by Judge Elmer who has served the Society as Secretary for many years. The Society has explored this County five times, and had a long career of usefulness. It is endeavoring to increase its aid for the diffusion of the Scriptures in other parts of our land and in foreign countries.

DESPERATE BATTLE IN MISSOURI: Fifteen Hundred U.S. Troops Against Ten Thousand Rebels.

KANSAS CITY, July 9.—We are indebted to the Kansas Journal for a copy of the Fort Scott Democrat of the 7th inst

It contains an account of a battle between the Missouri State Troops, under Governor Jackson and Gen. Raines, numbering, by their accounts, from ten to thirteen thousand, and the United States forces, under Col. Siegel, numbering 150t in all. Our informant says that on Wednesday, the 3d inst., the State troops left Russel's Point

and moved South to Murray's, six miles. On Friday morning, at eight o'clock, they broke up camp and marched South in the direction of Carthage. They were met by Col. Slegel with 1,500 men, who immediately gave him battle. The first onset resulted in the State troops being driven back some distance, and the officers ordered a retreat. The centre gave way, but the order not being heard on the flanks, the advancing Suited States troops were in danger of being surrounded. The flanks finally fell back slowly, keeping up the fight with their artillery, which made fearful

At the crossing of Dry Fork our lines were very near being broken, when, by the timely arrival of two hundred Union men from Shoal Creek they crossed with a loss of but five killed and two mortally wounded. The fighting was all done with the artillery, Cor. Siegel retreating as soon as they advanced. It is believed that Col. Siegel's object was to draw the State troops on to Carthage when with a reserve troop of 400 men at that place, year ending June 30, for the force now and expected reinforcements from Neosho and Saracofie he would be enabled to turn and drive them back or rout them.

The loss on Jackson's side was very great. Our informant says he counted seventy or eighty wounded on the field and in houses by he way side.

MR. A WAR INCIDENT -While one of the Massachusetts regiments was in-, on of the navy, of a temporary nature; and its way to Washington, a gentlemen residing here, met one of the members on

"Is there snything I can do for you sir?" said the New Yorker, his heart warming toward the representative of the brave Massachusetta militia who had so promptly answered to the call of their country. The soldier besitated a moment, and finally raising one of his feet, exhibited a boot with a hole in the toe, and generally worse for wear.

"How came you bere with such boots as those my friend?" asked the patriotic

my company sir," replied the soldier, "I was ploughing in the same field at Concord, where my grandfather was ploughing when the British fired on the Massachusetts men at Loxington. He did not wait a moment and I did not, sir.'

The Great Clothing Emportum of the Union. -Pailadelphia possesses the most splendid Cothing Emporium in the country. It is splendid as regards the palatial structure in which the immense business of the establishment is conducted, and it is ejually splendid in respect to its great facilities and vast resources. But to its patrons its chief attractions are: first, the clerance of the garments fr Gentlemen and Youths, manufactured there; secondly, the beauty and durability of the materials and the superior excellence of the fit, and lastly the moderate prices at which the goods are sold. We refer in this description, to none other than the Brown Stone Clothing Hall of Rockhill & Wilson, Nos. 603 and 605 Chestnut Street, above Sixth, Philadelphia.

COMMENDATIONS:
From Hon. Lewis D. Campbell. M. C. of Ohio.
My family and friends all concur in the opinion that the (Newell, Picture is more life like than any thing they ever saw. My likeness has been repeatedly taken by different Artists in various ways, but I have never yet had one which presents so true to nature, all the features and expressions of countenance as this.

From E. Joy Morris, late Minister to Italy.
The exquisite finish, heauty and softness of your portraits, conjoined with their durability of color and faithfuness as likenesses, cannot fail to commend them to the attention and patronage of all who appreciate true art.

From Col. James Page.

Having occasion for a portrait. I procured one from Mr. Robert Newell, of the city of Philadelphia. a miniature in Oil Colors, under the new process discovered by him, and take great pleasure in expressing the satisfaction given me, not only by the accuracy of the likeness, but its artistic finish in all respects, and recommend him to the patronage of those disposed to encourage the beautiful art.

BUCKEYE PREMIUM MOWER. With Flexible Folding Bar.

With Flexible Folding Bar.

The unprecedented success of this Machine is a convincing proof of its excellence. It has never failed, wherever introduced, to take precedence over all other Mowers, and the important principles embraced in its construction, and covered by the paranes, are now universally conceded to be indispensable to a Prayer Mowes. This concession is in the strongest manner attested by the fact that so many Mowing Machine manufacturers abandoning their own patterns, are now modelling after the Buckers in all points where they think it possible to evade its patents; the popularity of their machines is found to be in exact proportion to the extent of their imitations and infringements.

In exact proportion to the extent of their immunions and infringements.

The farmer who contemplates purchasing a Mower for the harvest of 1861, will, in selecting the Buckers, secure the only Machineschich combines all the requisites of a perfect Mower, including strength, simplicity, durability, lightess of draft, freedom from side draft, portability, convenience, perfect adaptation to uneven surface, ease in backing, turning, safety to the driver, case to the team, and capacity of doing good work on any description of land, and in any variety or condition of grass. Farmers wishing to avoid disappointment, must give their orders early in the season. THE BUCKEYE AS A REAPER.

The important advantages of the Buckeye as a Mower are retained in the Reaper. The two driving wheels and flexible bar make it the ONLY Reaper perfectly advised to unexpergent. wheels and flexible bar make it the ONLY Reaper perfectly adapted to uneven ground.

The Platform is very readily ndjusted to any required height of cut.

The Reel is attached with a flexible joint which allows it to follow all the movements of the platform on uneven ground, and can be raised or lowered according to the height of the grain.

By removing the Beel, which can be donefin a few moments, the platform can be folded against the side of the Machine, to allow it to pass through bars or narrow passages. of the Machine, to allow it to pass through pars or narrow passages.

The grain is delivered at the back of the Machine, entirely out of the way of the team on the next round.

The outside wheel, which sustains the platform, is in a direct line with the driving-wheels. This is a great advantage in turning corners, as the wheels all work together, obviating all straining and cramping. Circulars forwarded by mail.
