LINES Composed as a 'tribute of condolence to the parents and sisters of Samuel Brown, late of Cumberland County, N. J., by William Nicholson, Esq , of Philadelphia. The grave clod falls upon the form,

From which the immortal part has fled; The suffering frame escapes the storm, And slumbers with the early dead; The father's sad, the mother weeps, The son, in death, profoundly sleeps.

The sisters, for their brother, mourn That he, the guide and light of youth, Should from their love be rudely torn, And yield no more that shining truth, That wit's such brilliant raliance dwelt On all he loved, on all he felt.

They miss the patient. helping hand; They miss the intellect of years; They wiss his firm, heroic stand Against all foes that virtue fears; They know a tower of strength has fled With their beloved brother, dead.

The father's hopes, so rainbow hued, Of coming fame to greet his son, Alas! that Death should so intrude, Alas, those hopes are gone! all gone! The embryo good of future time Hath passed away in boyhood's prime.

Thou mother by the cradle side, Loving as mother only can; Who with maternal hopeful pride Behold the infant grown to man;

The grave! the grave! has crushed thy joy;

The grave! the grave! contains thy boy. Mourn less ye stricken tried and proved, Some good is mingled with your ill; And you bereft of one you loved, May profit by his absence still; Let memories of his light within,

Preserve your wavering souls from sin. For he had fuith which pleaseth God, And moral works the fruit of faith; He travelled in the narrow road, And triumphed over gloomy death; And as he triumphed so may you,

If unto faith and duty true.

Your son, your brother tastes no more The miseries of this world of woe, Prepare ye from this vale to go; Walk by the beam that marked his way,

Bright-brighter, unto perfect day.

WORK AND PLAY Recreation can be fully enjoyed only by a man who has some honest occupation. The end is leisure; you must have gone through work. Play-time must come after school-time, otherwise it loses its savor. Play after all, is a relative thing; it is not a thing which has an absolute existence. There is no such thing as play except to the worker. It comes out by contrast.-Put white upon white, and you can hardly see it; put white upon black, and how bright it is! Light your lamp in the sunshine, and it is nothing; you must have dark around, to make its presence felt.

'And be-des this, the greater part of the enjoyment of recreation consists in the feeling that we have earned it by previous hard work. One goes out for the after-noon walk with a light heart, when one has done a good task since breakfast. It is one thing for a dawdling idler to set off to the Continent or to the Highlands, just because he was sick of everything around him; and quite another when a hardwrought man, who is of some use in life, sets off as gay as a lark, with the pleasant feeling that he has brought some work to an end, on that selfsame tour.

And then a busy man finds a relish in simple recreations; while a man who has nothing to do, finds all things wearisome, and things that life is "used up;" it takes something quite out of the way to tickle that indurated palate; you might as well prick the hide of a hippopotamus with a needle, as to excite the interest of that not spiced with the cayenne of vice .-And that certainly has a powerful effect.

One of their number would open the meeting by giving out a hymu, which he had previously altered and travestied so as to turn it into horrible blasphemy.—
This was sung to a sacred tune. The singing over, they read a chapter from the Bible, which was altered and travestied property by turning abruptly to an elderly, rather in like manner. After this, one of them would take a text from the sacred volume and address the audience for about the time usually occupied in delivering a sermon, and would conclude with a benediction to match the other proceedings.

It was seriously feared by some, too, that Congress would hardly ratify the President's action in calling to arms such an unprecedented force. But, five times seventy-five thousand men are already in arms; and a patriotic Congress now empowers the President to call into service a grand National Army of half a million soldiers. If needed, this gigantic Army of five hundred regiments will be in the field, ready for active warfare against whatever foe, before the close of next month. More than that number of regiments have already applied to be accepted-not obtained by conscription or compulsion, or by the tricks of the recruiting sergeant; but who have striven earnestly for the honor of bearing aloft the banner which symbolizes all that is dear to man. All Saturservices of a gunboat, if no larger man-ofwar could be had. The revenue cutter Dobbin has at length been fitted out and put in commission for this service, we now learn. Orders have just been given that this vessel cruise actively in the bay and near the entrance, and she has already entered on the service. The Dobbin has one first class gun amidships, a rifled cannon, quite able to throw shell or shot with caped to Washington. They state that anything the confederate pirates have affect. In the present condition of urgent demand for every vessel capable of general service in the southern waters, this cutter, well armed and refitted as she has been, will be all that we can reasonably expect, and probably all we shall need.

The prizes taken at Cienfuegos appear to have profited the pirates little, all being ultimately set free. The Sumter has gone in pursuit of the California Steamers, it is said, and the steamship Niagara is in pursuit of the Sumter. We hope the chase will not be a long one, and that we shall have the pleasure of putting a capital finish to one set of the modern buccaneers. It ought not to be difficult to the Springfield Armory. their Lodge room in Centreton, the following preamble and resolutions were presented by the committee appointed for that purpose, and unanimously adopted:

WHEREAS, It has pleased the Almighty Ruer of the universe to remove irom our midst our worthy and beloved brother and past officer, John Hughs, therefore

Resolved, That in this dispensation of Providence, this Lodge has been deprived of a useful and beloved brother, who had endeared himself to all by his munly deportment, and arms were also passed. Mr. Trumbull, of his ardent attachment to the principles of our Illinois, reported back from committee the order.

Resolved, That we most sincerely sympathize with the family of our deceased brother, in the afflicting dispensation which has cast the dark shadow of the valley of death over their home, and that we truly feel in the loss of our brother they have to bewail the affectionate husband, the kind and devoted parent. Resolved, That a copy of the above pream-

ble and resolutions be prepared under the seal of the lodge, signed by the N. G. and Secretary, and tendered to the family of our deceased brother; and further, that a copy be forwarded to the Salem and Briegeton papers for publication. JACOB R. SHIMP,

COMMENDATIONS:

From Hon. Lewis D. Campbell, M. C., of Ohio.

My family and friends all concur in the opinion that the (Newell) Picture is more life like than any thing they ever saw. My likeness has been repeatedly taken by different Artists in various ways, but I have never yet had one which presents so true to nature, all the features and expressions of countenance as this.

as this.

From E. Jor Morris, late Minister to Italy.
The exquisite finish, beauty and softness of your portraits, conjoined with their durability of color and laithfuness as likenesses, cannot fail to commend them to the attention and patronage of all who appreciate true art.

From Col. James Page.

Having occasion for a portrait, I procured one from Mr. Robert Newell, of the city of Philadelphia, a ministure in Oil Colors, under the new process discovered by him, and take great pleasure in expressing the satisfaction given me, not only by the accuracy of the likeness, but its artistic finish in all respects, and recommend him to the patronage of those disposed to encourage the beautiful art.

On the Nature, Treatment, and radical Cure of Spermatorrhea, or Seminal Weakness, Sexual Debility, Nervousness and involuntry, emissions, inducing impotency, and Mental and Physical incapacity. By ROBET J. CULVERWELL, M. D., AUTHOR OF THE "GREEN BOOK," &c.

The world-renowned author, in this admirable lecture, clearly proves from his own experience that the awful consequences of self-abuse may be effectually removed without medicine and without dangerous surgical operations, bougies, instruments, rings or cordials, pointing out a mode of cure at once certain and effectual, by which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically. This lecture will prove a boon to thousands and thousands.

Ready-Made Clothing! I have now on hand, and am constantly making up, a good stock of ready-made clothing, which is made of good strong material, and imanufactured in a superior manner. As the times are hard, and there are many persons out of work, I have concluded, in order to give employment to as many as possible, in our town, to buy no city made goods tijs season, but to have made up here all the goods I can sell; thereby retaining that much more money in our own town. As I pay particular attention to the manner in which these goods are made up, my customers may dopend on getting good goods, and at less prices than city made goods of the same quality can be sold.

Prof. Chas. De Grath's I propose to cure almost instantaneously, individuals afflicted with Headache, Neuralgia, Rheumatism, and all Bronchial affections

I propose to check and effectually dissipate more ache and pain, and to accomplish nearer and more perfect equilibrium of all the circulating fluids in the human system than can be effected by any other or all other nethods of medical aid in the same space of time, the masses themselves being judges.

I do not propose to cure every discase, but all such as are curable by any combination of medical appliances. My Electric Oil operates on chemical and electric principles, and is, therefore, applicable to the cure or natural restoration of any organic derangement, arising from an improper circulation of Nervovital fluid.

WEST JERSEY WOOLEN FACTORIES.

THE subscribors would direct the attention of farmers and others to their increased facilities for manufacturing superior WOOLEN GOODS, such as Satmetts, Cloths, Blankets, Horse Blankets, Flandels, Stocking and Carpet Yarn. We manufacture a durable article, of the best quality, and at low prices. We guarantee our goods not only to be equal to the important of the sture, but to stand hard wear much better. Mechanics and laboring men generally would find it to their advantage to purchase of us, instead of wearing foreign goods which will do them no adequate service. We will pay the highest market prices for WOOL, which can be sent to our Factory at Bridgeton, or Allowaystown, and there manufactured to order, or cash paid. Also, all wool left with Daniel Sheppard, agent at Greenwich, will be proupply attended to.

We do not buy up this staple on speculation, and therefore, whilst paying at the highest rates, we insist that a preference should be freely extended to home manufacturers, and claim that, since no loss is incurred, we should have a priority among wool growers, or those who have wool to sell.

WITH FLEXIBLE FOLDING BAR.

THE unprecedented success of this Machine is a convicing proof of its excellence. It has never failed, wherever introduced, to take precedence over all other Mowers, and the important principles embraced in its construction, and covered by its patents, are now universally conceeded to be indispensable to a Perfect Mower. This concession is in the strengest manner aftested by the fact that so many Mowing Machine manufacturers, dandoning their own patterns, are now modelling after the Buckers in all points where they think it possible to evade its patents; the popularity of their machines is found to be in, exact proportion to the extent of their instations and infringements.

The farmer, who contemplates purchasing a Mower for the harvest of 18th, will, in selecting the Buckers, searce the only Machine which combines all the requisites of a perfect Mower, including strength, simplicity, durability, lightness of draft freedom from side diraft, portability, lightness of draft freedom from side diraft, portability, lightness of draft freedom from side diraft, portability, convenience, perfect adaptation to uneven surface, case in backing, turning, safety to the driver, case to the team, and capacity of doing good work on any description of land, and in any variety or condition of grass. Farmers wishing to avoid disappointment, must give their orders early in the season. WITH FLEXIBLE FOLDING BAR.

The Buckeye as a Reaper

The important advantages of the Buckeye as a Mow-er are retained in the Reaper. The two driving wheels and flexible bar make it the extr Reaper perfectly adapted to uneven ground.

The Platform is very readily adjusted to any required height of cut.
The Rem is attached with a FLEXIBLE JOINT, which aluneren ground, and can be raised or lowe; ed according to the height of the grain.

By removing the REEL, which can be done in a few monents, the platform can be folded against the side of the Machine, to allow it to pass through bars or narrow passages.
The grain is delivered at the B CR of the Machine, en-The grain is derivered at the Box of the MACHINE, entirely out of the way of the team on the next round.

The outside wheel, which sustains the platform, is in a direct line with the driving wheels. This is a great advantage in turning corners, as the wheels all work together, obviating all straining and crampting.
