"THERE IS BUT ONE."

BY A. B L.

There is but one unfading rose; There is but one ne'er paling light; There's but one star which always throws Its radiance on the gloom of night.

That rose is Sharon's dewy pride; That light the glory of the throne : That star is Bethlehem's angel guide, Which points us to the great Unknown. There is but one unfailing river:

There is but one immortal tree; There's but one song which lasts forever, With nought to mar its harmony. That river is the stream of life; That tree springs ever on its shores;

That song, with love and praises rife, Is hymned for ave by angel choirs. There's but one home, where're man ranges-One healing for the wounded breast;

One heart wherein man's heart may rest. That home's beyond the clouds that lower; That healing is Jehovah's rod; That friend the Fount of truth and power; That heart the all clasping heart of God.

There's but one friend who never changes,

Just at the close of the Revolutionary war there was seen southwhere in one of the small towns of centrail Massachuse etts lug his tone as he turned to the woman, a ragged and forlorn looking soldier coming up the dusty street. He looked about on the corp fields tasseling for the harvest, on the rich, bright satuhes of wheat for the sickle, and on the green potato field, with curious eyes—so at least thought Mr. Towne, who was walking leisurely behind him going home from the reaping to his supper. The latter was a stout farmer, dressed in homeimade brown linen trowsers without suspenders, vest or coat. The ragged soldier stopped under the shade of a great sagar maple, and Mr. Towne, overtaking him, stepped under

Large numbers of wounded soldiers have lately arrived and are still arriving in New York, Philadelphia, Trenton and other Northern cities. About two hundred of the New Jersey wounded arrived in Trenten on Tuesday last. An authentic list of the killed and wounded of the New Jersey Regiments is being prepared at the request of Gov. Olden Several Cumberland County men were wounded and some killed at the battle of Williamsburg. Edgar S. Wilkinson, of Deerfield, and Elmer B Ogden, of Ccdarville, were killed. Albert Bateman and Lorenzo Paynter, of Cedarville George W. Hall, of Newport, and Benjamin F Reeves, of Bridgeton, were wounded.

Persons afflicted with cancers, wens, moles, tumors, or anything of the kind, are reminded that Dr. Lessey will visit Bridgeton on Thursday next, the 22d inst., and may be seen at Davis & Son's hotel. Dr. L. has been very successful with his treatment in this place, and his practice in Philadelphia will not warrant him in leaving often, unless urgent cases here are numerous.

By reference to advertisement, it will be seen that the teachers of this County wil hold an Institute at Millville, commencing on Monday, the 26th inst. This is a worthy and important institution when properly conduc-ted, as it has heretofore been in this County

EDFTORS :- Feeling myself responsible in making the Jerseymen acquainted with the valor and conduct shown by their brethren in the late battle at Williamsburg. more properly known as the Second Brigade N. J. Volunteers, and now under command of month near Yorktown, along with the other day: troops composing Gen. Heintzelman's Corps, and engaged in the siege of that place. But as soon as Gen. McClellan was ready to strike the terrific blow, the enemy took to evacuating their stronghold. This was done on last Saturday night; but no sooner did Gen. Mo Clellan learn this, when he despatched a large body of cavalry to follow in pursuit of the reced to destroy considerable property to prevent it from falling into our forces' hands .--We marched about fifteen miles in the direction of Williamsburg, and encamped for the night, which was very disagreeable and stormy. At an early hour on the morning of the 5th, the First Massachusetts Regiment and Second New Hampshire made the advance, being supported by a small body of Cavalry, and a few pieces of Artillery. The second N. J. Brigade Division followed slowly after in reserve .-After marching about five miles in the direc-

They also had several acres of tim. ber fell to check the passage of our men and struction of the iron-clad steamer Merriartillery. After being brought in line of bat- mac, which was blown up by the rebels tle, skirmishers were thrown out, but soon returned and reported the enemy as advancing. This was in a piece of heavy pine timber, with thick underbrush. We were ordered to advance as far as an old fence, where we laid down, waiting for the approaching foe-firing whenever we could get sight of a rebel. This, however, soon brought on a general action, which lasted from nine o'clock in tory. We welcome our old friend thew back the morning until after dark at night. Our found thirty-nine guns of large calibre, citizens of Camden County that they will find | brigade was in from 9 A. M. until two in the afternoon. In the same wood where this battle was fought, are old rifle pits and earthworks which are supposed to have been constructed by Washington. Our troops were in these entrenchments a short time while they were fighting, but the enemy outnumbering us about four to one, got on the left of us and poured a cross-fire, which caused our forces to fell back, and in doing so, gave the enemy an opportunity to get in the entrenchments, which they did; but Gen. ATTORNEY GENERAL.

THE ASSESSORS OF THE STATE.

I.—The General Plan of assessing and collecting taxes in New Jersey is as follows:

The assessor of each township or ward makes a list or abstract of taxable persons and property in his township. This is made by the general law, between May 20th and August 20th.

On the first Monday in September all the assessors in each county meet at the court house of the county to confer and correct such lists or abstracts, and to determine the quota of the state or county tax for each township or ward. Two general abstracts, containing the abstracts of each township, are then made and signed by all the assessors—one for the county collector, and one for the Legislature. Within fifteen days after this meeting, the assessor gives a duplicate of the abstract for his township or ward to its collector; and the collector, within sixty days after the receipt of the transcript or duplicate of assessment, demands payment of the tax of each individual, and gives notice of the xeeting of commissioners of appeal. The township collector is to pay over the taxes to the county collector by the 22d of December.

On the 20th of December, those persons who have not paid their taxes, must, with the amount due franceach, be returned by the township collector to some justice of the peace of the county, and the said justice, on receiving such list of delinquents, administers an oath that the taxes have been duly demanded and notice given; and five days after the justice receives the list of delinquents he issues a warrant for the collection of the taxes unpaid, and the constable to whom the warrant is directed proceeds to collect the taxes. The collectors and assessors are required to attend the meeting of the commissioners.

The feregoing is a general view of the mode in which taxes are assessed and collected: for greater particularity, reference is made to Nixon's Digestraters applicable to particular foalties, which vary this proceeding. [To be signed by person assessed.]

The assessor, from the affidavit made, will decide what decuctions should be made.

The debts due to creditors residing in the state, but not in the county, should be first deducted from the personal property; and if these two classes of debts more than equal the personal property, then the balance of debts due to creditors residing in the county. If the tax payer in the county.

If the tax payer has no personal property, then the only deduction to be made is for debts due to creditors residing in the county. A mortgage is a mere security to the debt evidenced by the bond, note or contract to which the mortgage is given as collateral, and the deduction, if made, is made on account of the debt, and is regulated by the foregoing rules respecting the deduction of debts.

GENERAL PROVISIONS OF THE TAX LAW. I. 7. The first, second, tenth and eleventh sections, and the fourth article of the fifth section of the tax law of 154, and the supplement to the "act concerning taxes," passed March 20, 1857, and all other acts, special, local or otherwise inconsistent with the act of March 23, 1862, are repealed.

It is or the first importance that the assessors of taxes in this state should use all care and diligence to bring the whole taxable property of the state under assessment. Taxation will then fall lightly on all, and be easily borne. But if large amounts of property fairly subject to assessment, are permitted to escape taxation, the greatest injustice will be done to citizens who make to the assessor a surrender of the full amonunt of their property. The duty of assessors, as well as a regard to the best interests of the country in the present exigency, will forbid that they listen to the evil counsel of those who, for the purpose of screening their township and lessening its quota, would have the assessors.

The legal counsel of the several townships should receive such compensation that they may be at liberty not to be otherwise professionally employed in the matter of taxation, and that they may be at liberty not to be otherwise professionally employed in the matter of taxation, and that they may sid the assessors in preparing attidayits and in suggesting

Gutta Percha Roofing. We would call attention to the following facts:

1. It is FIRE and WATER proof.

2. From its great elasticity it is not affected by excemes of heat or cold—it will not ran in warm weartremes of heat or cold—it will not run in warm weather, or crack in cold.

3. It is adapted to all kinds of roofs, whether steep or flat, and is not in want of constant repairs.

4. It costs one third less than tin, and is much cheaper than shingles.

5. It can be readily applied to old shingle roofs, without removing the shingles, thus avoiding the risk of damaging ceilings and furniture while repairing the roof.

of damaging ceilings and turniture white roof.

6. Any ordinary mechanic can put it on.

7. Leaky tin, or other metal roofs, can be repaired with the liquid Gutta Pereha, and provented from further rust and leakage for many years.

This roofing consists of heavy cloth, saturated with Gutta Pereha; it is nailed to the roof and receives a finishing coat of liquid Pereha and then sanded.—
This article has been thoroughly tested in New York, Philadelphia, Cincinnatti, and many other parts of the country.

SUPER PHOSPHATE OF LIME. SUPERPHOSPHATE OF LIME.

Little need be said to recommend this article—its peculiar merits as a vigorous and lasting manure having firmly established it in the popular favor.—We would state however, that not only having a continued care to maintain its standard efficacy, we have sought to render it more immediate in its action, by the addition of a small quantity of best Peruvian Guano. We do not claim that by this improvement, (which was made during the past year, and without publicly noting the fact,) our Super Phosphate is rendered any the more lasting in its effect, or in any way benefitted, except in ensuring a quicker action on application.

We will pay the bighest market prices for WOOL, which can be sent to our Factory at Bridgeton, or Allowaystown, and there manufactured to order, or eash paid. Also, all wool left with Daniel Sheppard, agent at Greenwich, will be promptly attended to.

We do not buy up this staple on speculation, and therefore, whilst paying

Cash for Wool, at the highest rates, we insist that a preference should be freely extended to home manufacturers, and claim that, since no loss is incurred, we should have a priority among wool growers, or those who have wool to sell.
