CELEBRATED

I AVING taken the agency for the sale of Grover a II Baker's celebrated Sewing Machine, I request all who are in want of one of these destrable machines to call at my store and see their wonderful performance. It is now a fixed fact that Sewing Machines must take the place of the old needle. It is no longer an experiment. After ten years' experience of the difficulties rendering them almost impossible to be used in the country, success has become complete—It can now be said with great confidence that the difficulty is now removed. These machines are so simple in all their parts that any ordinary child can learn to work them and keep them in order. The work done by them is

Stronger and More Handsome Stronger and Nore Handsome
than that done by hand. Upwards of fifty thousand
of them are in daily use, and Grover's Saker are constantly in the receipt of letters bearing unsolicities
testimony as to their usefulness and mergit. Wherever
they are seen they are joyfully receiptised by woman
as her emancipator from the toil and never ceasing
drudgery of the needle, from which it has hitherto
been supposed there was no escape.

A SUMMER DITTY.

BY THE BARD OF TOWER HALL

The season, take it altogother.
Is hot enough—hot is the weather—lieades this rotele exclusion;
Still keeps us in a perspiration;
And, as the month of June approaches,
Anthongia not burned as black as roaches,
We blush with heat, like crake in kettle,
To think of these poor Southern brobles—
Our countrymen we blush—yes blush like rubites.
To think of these poor Southern brobles—
Our countrymen we blush to call them—
Who force old Uncle Sam to maul them.
This though by cuming men that often
Stron: heat hard substances will solved,
And yet the Summer's heat imparis
No tenderness to traitors' hearis;
Their heads, perhaps, are softened more,
But they were soft enough before,
The beams of Phobus seem to fie us,
And toast us brown while they inspire us.
Hence comes that most important rule,
For burds and other men—"Keep cool."

My young friends, no doubt you have began to think that I had gone out of existence, from the fact that I have not notified you before this of the importance of being prepared for the warm weather. The reason for my delay is, briefly, this I did not think it right for you to have your hair cut while the weather was so unsettled, and therefore have waited until it has become more favorable. It is now the first week in June, with every indication of warm weather; therefore, young ladies and gentlemen, do not hesitick any longer, but call and have your work done in my usual
