SOW FLAX

We are glad to learn that many farmers, both in this and adjoining counties are making preparations to sow flax .-Now is about the right time to sow the seed. Many farmers a few years ago made it a particular point each year to sow their flax seed on good Friday .-The present Spring is so wet, and the ground so cold, that the coming week will be as early as can be sown to advantage. The ground should be well pulverized before sowing, and a wooden teeth harrow used to put it in with .-The harrow should be very light, indeed, many preferred a light piece of brush. instead of a harrow. If too deep, the seed will not come up so well. In 1850, seven million, seven hundred and nine thousand one hundred and twenty-six pounds were raised in the United States. while only 3,778,843 pounds were raised in 1860. This difference is due to the increase in the cheapness and quantity of cotton and hemp. But as the region for a great measure devastated, or the crop rendered uncertain by the devastation of war, the production of the incoming year must necessarily fall short of the demand-The consequent rise in the fabrics of which these articles form a part, with the probability of a short supply, make a return to flax culture a necessity for the welfare of the community, in which agriculturists as well as others are deeply interested. Two or three acres by each one, while it would not materially increase the labor of the producer, would add vastly to the commercial independence of the State, in matters of personal require that the citizens of the State increased. should turn a greater portion of their athave ceased altogether in the State .-The decline in the crop in the United States, is now felt in the great rise in cotton fabrics, stimulated undoubtedly beyond any raid by speculation. As the question of profit arises with the cultivation of every crop, we will give the results from data ascertained by a committee of the New York agricultural society. Seed is now bringing three dollars and ahalf per bushel at New York. Allowing one bushel of seed to the acre, the expense is estimated at \$23.50 per acre, and the receipts, at present prices \$74., leaving a margin of over \$50, per acre profit. Good land will readily produce a ton of straw, producing 300 pounds of lint per acre. This lint is worth now 25cts. per pound. From these figures, which may be considered reliable, flax culture, for some time to come, would

for the benefit of our readers:

[From the Philadelphia Ledger, March 27.]

One of the most surprising things in the recent conversion of greenback notes into the popular Five-twenty is a per cent. Government lean at par is the universality of the call. We happened in yesterday, at the office of Jay Cooke, who is the sgent for the sale of these boans, and the conversion of the greenbacks, and found his talle literally covered with orders and accompanying drafts for almost all amounts, from five-thousand to a hundred thousand dollars each, and from all parts of the Union. The little states of Delaware and New Jersey are free take rs, as are also Pennsylvania, New York and the New England States. But the West is most especially an active taker, as well through her banks as by individuals. The amount of orders lying before us all received during the day, amounted to over fifteen hundred thousand dollars. With this spontaneous profler of honey, Secretary Chase must feel himself beyond those money sharpers, whose chief study is now to profit themselves most from the troubles of the country and the accessities of the treasury.—

There are millions of dollars lying idle all over the country, and while the uncertainty existed as to what Congress would do, and the bulloon brokers were successfully, running up gold to the discredit of the Government issues, this capital was clutched close. But as the policy and measures of the Secretary of the Treasury are gradually developed, confidence in the Government and in the future is stengthened, and holders are now anxious to make their long unemployed means productive—hence the ready and liberal investment in the Five-Twenty leans at par. Almost every town and village throughout hear of those are now investment in the Five-Twenty leans at par. Almost every town and village throughout hear of the country has invivinual holders, of money, to larger amounts probably than ever before at one time, for which satisfactory takers cannot be found, hany of those are now investment leans [From the Philadelphia Ledger, March 27.]

JAY COOK E. Esq.,
United States Loun Agent, 114 South Third States, Pulladelphia.

DEAR Sin:
I see by our papers that you are selling for the Government a new loan called "Five-Twenties."—I expect to have shortly a few thousand dollars to spare, and as I have made up my mind that the Government Loans are safe and good, and that it is my duty and interest, at this time, to put my money into them in preference over any other loans or stocks, I write to zet information of you as follows:

thein in preference over any other loans or stocks, I write to get information of you as follows:

1st. Why are they called "Five-Twenties?"
2nd. Do you take country money, or only Legal Tender Notes, or will a check on Philadelphia, or New York, answer for subscriptions?

3d. Do you sell the Bonos at Par?

4th. As I cannot come to Philadelphia, how am I to get the Bonds?

5th. What interest do they pay, and how and when and where is it paid, and is it paid in Gold or Legal Tenders?

5th. How does Secretary Chase get enough Gold to pay this Interest? with. How does Secretary Chase get the Paid in Gold Tith. Will the face of the Bonds be paid in Gold Tith. Record with hen ther 8th. Can I have the bonds payable to Bearer with

8th. Can I have the bonds payable to Bearer with Coupons, or registered and payable to my order?
9th. What sizes are the bonds?
10' Will I have to pay the same tax on them as I now pay on my railraod or other Bonds?
11th. What is the present debt of the Government and what amount is it likely to reach if the Rebellion should last a year or two longer?
12' Will Secretary Chase get enough from Custom House duties and Internal Revenue, Income Taxes; &c., &c., to make it certain that he can pay the Interest paincurally? est punctually?

I have no doubt that a good many of my neighbors would like to take these Bonds, and if you will answering questions I will show the letter to them.

Very respectfully

S—M—F—

Office of Jay Cooke Subscription Agent, at Office of Jay Cooke & Co., Baukers, 114 S. Third St. Philadelppia, March 23 1863. Duan Sm: Your letter of the 20th inst. is received, and I will

Your lower of the 20th inst, is received, and I will cheerfally give you the information desired by answering your questions in due order.

1st. These Bonds are called "Five Twenties" because, while they are twenty year Bonds, they may be redeemed by the Government in GOLD at any time after five years. Many people suppose that the Interest is only 520 percent. This is a mistake; they pay Six per cent. Interest.

2nd. Legal Tender notes or checks upon Philadelphia or New York that will bring Legal Tenders, are what the Secretary allows me to receive. No doubt your nearest Bank will give you a check or Legal Tenders for your country funds.

3d. The Bonds are sold at Par, the Interest to commence the day you pay the money.

to pay the interest in Gold.

7th. Congress has provided that the Bonds shall be paid in Gold when due.

8th. You can have either Coupon Bonds payable to the Bear s, or Begistered Bonds payable to your order. order.
9th. The former are in 50's, 100's, 500's and 1000's,
the latter in same amounts, also \$5000's and \$10, 16th. No! You will not have to pay any taxes on

16th. Nel You will not have to pay any taxes on these Bonds if your moome from them does not exceed \$6 0: and all above \$500 you will only have to pay one-half as much income Tax as if your money was invested in Mortgages or other Securities. I consider the Government Bonds as first of all—all other Bonds are saved one-quarter per cent, to pay the Interest on the Government Bonds, and the supreme Court of the United States has just decided that no State, or City, or County can tax Government Bonds.

11th. The present bonded debt of the United States is less than Three Hundred Millions, including the seven and three-tenths Treasury Notes; but the Government owes enough more in the shape of the Government owes enough more in the shape of Legal Tenders, Deposits in the Sub-Treasuries, Certificates of Indebtuess, &c., to increase the debto about eight or nine hundred millions. Secretary Chase has calculated that the debt may reach on thousand, seven hundred millions, if the Rebellion lasts eighteen months longer. It is, however, be lieved new that it will rot last six months longer but even if it does, our National Liebt will be small compared with that of Great Reiting or Farnees. compared with that of Great Britian or France, while

compared with that of Great Britian or France, whilst our resources are vasdy greater.

12th. I have no doubt that the revenue will not only be ample to pay the ordinary expenses of the Government and all Interest on the debt but leave at least one hundred militons annually to-ward paying off the debt, and that the Government will be able to get out of the debt again as it has twice before—in a few years after the close of the war.

I hope that all who have idle money will at once purchase the Five-Twenty Year Bonds. The right to demand them for Legal Tenders will end on the first day of July, 1863, as per the following authorized notice:

SPECIAL NOTICE. On and after JULY 1st. 1863, the privilege of converting the present issue of LEGAL TENDER NOTES INTO THE NATIONAL SIX PER CENT LOAN (commonly called "Five-Twenties") will come. ceuse.
All who wish to invest in the Five-Twenty Lean must, therefore apply before the 1st of JULY next.

JAY COOKE, Supeription Agent,

ONE WORD INHABITANTS OF CUMBERLAND. INHABITANTS OF CUMBERLAND.

It has long been established beyond doubt that a man is apt to be judged by the clothes he wears as the company he keeps. Many a well meaning man loses the opportunity of doing good by example, merely because he does not happen to be dressed respectable. Such being the case it certainty becomes a duty we owe ourselves and others, to clothe ourselves respectable. Here the question naturally arises where can we get such clothing at comparatively little cost, and that question we propose to answer.

UNDER THE NAME AND FIRM OF BURT & WARE, Have associated themselves together on COMMERCE ST., WEST OF THE BRIDGE, for the purpose of arrying on the HAT, CAP, AND CLOTHING BUSINESS. Having enlarged and remodeled the old store, and replenished their stock of seasonable goods, as well as laid in a most extensive assortment of Goods suita-

ble for Spring and Summer, d having in their employ that experienced Syste-tical and Gentlemanly Cutter, Mr. JAMES W. THOMPSON, They are prepared to offer such inducements to buyers as have never before been made to this community. Their goods consist in part of every Style and Va-HATS, CAPS, AND READY-MADE CLOTHING. Pogether with a most extensive assortment of Cloths Lassimeres, Vestings-Winter, Spring, and Summer

RAW BONE SUPER-PHOSPHATE OF LIME. BAUGH & SONS, MANUFACTURERS AND PROPRIETORS, No. 20 S, Delawarc Avenue,

PHILADELPHIA. The Manufacturers are now prepared to supply a large demand with this valuable Manure. They would respectfully announce to Farmers and Dealers in Fertilizers, that the price had been advanced to \$46 per 2000 lbs. It need scarcely be mentioned that this change has been rendered necessary by the greatly increased cost of materials and labor, as well as by the operation of the U.S. Taxupou manufacturers? as by the operation of the U.S. Taxupou manufacturers;

Every Farmer using a Fertilizer, may be assured that the RAW BONE PHOSPHATE will still maintain its high character for strength and purity the manufacturers preferring to make a small adance in per ton, rather than allow its Merits to fall below their former standard under increased expenses in manufacturing.

Exp. It is prepared from Raw Bones, and warranted to contain all their original organic matter; no burned or calcined benes are used, and it is sold under a guaranty from the manufacturers that it is free frem adulteration.

No 427 Broome street, New York.

The subscriber respectfully invites the attention of his friends and the public generally to his Piano-Forte Establishment, at No. 427 Broome Street, corner of Crosby-Street.

Having withdrawn his interest, stock and materials from the late firm of "Lighte & Bradburys," which firm was dissolved on the 31st January ult. and having purchased the entire stock of Piano-Fortes and Piano-Forte Material, owned by his brother. Edward G. Bradbury, in the said firm, he is now prepared to supply the increased demand for his celebrated Piano Fortes. Employing the most skillful and experienced workmen, with a large stock of the best and most thoroughly seasoned material, and an abundance of capital, he has taken in hand the personal supervision of the whole business of manufacturing his instruments, and is enabled to turn out Piano-Fortes of unequalled tone and durableness.

Aug. 2 LOOK AT THIS!

The Menagerie has just been to Bridgeton and exhibited both afternoon and evening, and a dense crowd of people went to see the animals. One of the elephants refused to cross one of the bridges at Elmer's pond, and consequently had to wade around; but not withstanding this, he came out all right. Thompson is hound to come out right. The idea has gone out that Thompson sells goods a little higher than others. That idea must and shall be changed, it selling goods still cheaper will do it. I am bound to SELL AS CHEAP OR CHEAPER han others, for cash, and as I have just got in New and Beautiful Stock of Goods just call and examine for yourselves, and if you don't say they are cheap I will not ask you to purchase.— My stock consists, in part, of CLOTHS, CASSIMERES, VESTINGS, Suspenders, Neck-Ties, Shirt Collars, turndowns and chokers, from 1 to 15 cents. Also

Hats and Caps of the very Latest Styles.

My prices have always been uniform, just a fair living profit, taking from one man what I do from another. (which I have always thought was the golden rule), and not taking two profits from one, and a-half profit from another.

MORO PHILLIPS' GENUINE IMPROVED SUPER PHOSPHATE OF LIME.

THE STANDARD GUARANTEED.

The STANDARD GUARANTEED.

Proposed at his Chemical Works, Camden, N. J. and for sale at Manufacturer's Depot.

No. 27 Nouri Front Street. Phillippina.

The great satisfaction this truly improved Super-Phosphate has given to the Agneultural community, gives great enederagement to the manufacturer to continue to improve, if possible, his article, but never to fall back from its standard, and to maintain its well-merited celebrity. It has given entire satisfaction of those who have used it.

This Super-Bhosphate contains less moisture than any other in the market, as indicated by the weight of the packages, which are heavier than any other manufacturers of the same size. The ingredients of this Super-Phosphate are Bone Physphate, Sulphuric Acid, and Ammonia, which have a greater density than water, must necessarily produce a heavier article.

cle.
According to analysis made by Dr. E. Pugh, President of the Agricultural College, of Pennsylvania, of the principal Super-Phosphates, More Phillips' excepted,) manufactured in this and the States of New Jersey and New York, showing their agricultural value and published in the Country Gentleman of March 27, 1882. More Phillips' Super-Phosphat contains more agricultural value than any other in the market. The Manufacturer is aware that he makes these assertions to an intelligent agricultural community and to scien. nevertheless he makes these broad declarations. S completely has the manufacturer succeeded in mak article of a uniform standard, that he gives a legal guarantee to wholesale dealers, that it shall always be the same standard as from the first.

Moro Phillips' Super-Phosphate is sold extensively by the principle deaders in Fentlizers in this city and State, and also in other States. Over 2000 tons were consumed by farmers last season in this State and the States of Delaware and New Jersey.

Change in price from \$45 to \$47.50 per ton, 2000 lbs. No charge for packages. A liberal discount to dealers.

MORO PHILLIPS.

N.B.—Observe that my name and place of manufacture is on each and every package, none other being gentine. he same standard as from the first.

A disinterested acknowledgement. Edward Webb, the proprietor and manufacturer of "Webb's Fertiliser," in the city of Wilmington, Del., says under d. te of Dec. 17, 1862, to the manufacturer of "More Phillips Super-Phosphate": "Your Phosphate is rapidly taking the place of all other Phosphates in this market, and if kept up to its present standard, there will be no limit to its sale."

Mr. Stokes a practical farmer, President of the Fox. Mr. Stokes, a practical farmer, President of the Farmers' and Mechanics Bank. Camden. N. J., savs he has used Moro Phillips' Super-Phosphate, and it has given him entire satisfaction.

Culhert & Bro., the largest dealers in Fertilizers in the city of Wilmington, Del., acknowledged to the manufacturer, that all Moro Phillips' Super-Phosphate which was sol by them last fail, was to parties who called for thai article and would Pave nothing slse. it is of great value upon wheat and corn crops, the only ones which he tried it on."
Mr. John Deal, of Prospect Hill farm, Lower Merion towaship, Montgomery county, says under date of Aug. 27, 1862: "I am happy to inform you that our Super-Phosphate has proved to be even more exyour Super-Phosphate has proved to be even more excellent than your representations. I used it on my crops of wheat last fall, and on corn last Spring. I had a most excellent crop of wheat, and the corn is a wonder to my neighbors; some of it is over 16 feet high, it could not possibly be better. I will want some of your Phosphate this fall, and no doubt you will have many calls from my neighbors. My son has ylso used your Super-Phosphate on his wheat last fall, and speaks in highest terms of it."
