I WOULD call the attention of Farmers and others to my TWO-HORSE LEVER POWER, which has been throughly tested and proven to be, I think, a power that must supersede all Endless Chain power or the old Lever. It is of very Light Draught, and can be moved from place to place readily, it being fixed on wheels with toungs &c., complete, and can be placed in position for work in less time than any other kind of power. For the West Jersey Pioneer. Picket Thoughts and Morning's Dawn Lonely, amid the stillness now, I stand enchained by Nature's power; While tiny stars their courses plow Through fleecy clouds at this lone hour.

Proud glistering bosts of loyal men, Our bleeding country's tried and true, Lie slumb'ring in each neighboring glen, Which night and darkness hide from view,

Tis sadly sweet to be alone Beneath a sky so onim and mild; And breathe a prayer and list the tone

Of dreaming fancies deep and wild. But see, the midnight watch has gone, The blue is blushing into light, Sweet dreams are o'er, but morning's dawn Is far more sweet on picket night.

My country! tis thy midnight hour, And awful clouds are in thy sky, Thy sun is set, and war's rude power Hath rent thy stars, thy children die.

Lone watchers on thy gory hills Point to the heaving clouds in vain, And cry, :'How long! O, God! how long! Ere we can see the light again. 24th Reg't, N. J. V.

> MAY. BY THE BARD OF TOWER HALL.

In times more innocent than ours, When "children of the larger growth" Could yield to love and sport with flowers, And (child-like still) could cherish both; n that bless'd time, the First of May Was made a joyous holiday.

When Earth her floral crown assumed And birds in gleeful chorous joined, hen, while the face of nature bloomed Maiden and youths their brows would bind Vith chaplets of the various dyes That every smiling field supplies; ind one fair damsel, on that day, Was chosen for the Queen of May, And many a brilliant flowery gem Was wreathed to form her diadem

EMANCIPATION. If all negroes were freemen in the Southern States, what circumstances would or could induce them to run away, to leave their friends, their relations and home, and seek a domicil in the Northern States, among strangers, in a climate particularly harsh and unpleasant to the negro constitution? Nothing but want or debt, or unkind and unjust treatment .-They, as freemen, would be influenced in their conduct by the same reasons which would influence white freemen of equal intellectual and educational endowments. This notion is based on the idea that negroes are human beings, although degraded by the long endurance of slavery, which has prevented them from being self-reliant and ambitious to improve their condition by their own efforts. As a slave, the negro had no motive to exert himself beyond the effort to escape chastisement for not accomplishing his allotted task. The slave has no brightening futute, in this world at least, to call forth hope and exertion. But let the negro race be a free race for two or three generations, and we shall then find negroes prefering a warm, genial climate, and willingly laboring in the cotton, rice and su-

Aug. 2 LOOK AT THIS!

The Menagerie has just been to Bridgeton and exhibited both atternoon and evening, and a dense crowd of people went to see the animais. One of the elephants refused to cross one of the bridges at Elmer's pond, and consequently had to wade around, but notwithstanding this, he came out all right.

Thompson is bound to come our right. The idea has gone out that Thompson sells goods a little higher than others. That idea must and shall be changed, it selling goods still cheaper will do it. I am bound to SELL AS CHEAP OR CHEAPER than others, for cash, and as I have just got in New and Beautiful Stock of Goods, just call and examine for yourselves, and if you don't say they are cheap I will not ask you to purchase.—
My stock consists, in part, of CLOTHS, CASSIMERES, VESTINGS. Suspenders, Neck-Ties, Shirt Collars, turndowns and Hats and Caps of the very Latest Styles. My prices have always been uniform, just a fair fiving profit, taking from one man what I do from another, (which I have always thought was the golden rule), and not taking two profits from one, and a half profit from another.

D. B. THOMPSON,

THE STANDARD GUARANTEED.

The pared at his Chemical Works, Camden, N. J. and for sale at Manufacturer's Depot,
No. 27 Norm Front Street, Philadelphia.

The great satisfaction this truly improved Super-Phosphate his given to the Agricultural community, gives great encouragement to the manufacturer to continue to improve, it possible, his article, but never, to fall back from its standard, and to maintain its well-merited celebrity. It has given entire satisfaction of those who have used it.

This Super-Bhosphate contains less moisture than any other in the market, as indicated by the weight of the packages, which are heavier than any other manufacturers of the same size. The ingredients of this super Phosphate are Bone Phosphate, Sulphuric Acid, and Ammonia, which have a greater density than water, must necessarily produce a heavier article. LIME. le. According to analysis made by Dr. E. Pugh, Pres dent of the Agricultural College, of Fennsylvania, all the principal super-Phosphates, Moro Philips' e cepted,) manufactured in this and the States of Ne cepted.) manufactured in this and the States of New Jersey and New York, showing their agricultural value and published in the Country Gentleman of March 27, 1862. More Phillips Super-Phosphat contains more agricultural value than any other in the market. The Manufacturer is aware that he makes these assertions

manuacturers aware that he makes these assertions to an intelligent agricultural community and to selectific analytical chemists, and also to influential and long established manufacturers of Super-Phosphates; nevertheless he makes these broad declarations. So nevertheless he makes these broad declarations. So completely has the manuacturer succeeded in makarticle of a uniform standard, that he gies a legal guarantee to wholesale dealers, that it shall always be the same standard as from the first.

Moro Phillips Super-Phosphate is sold extensively by the principle dealers in Fertilizers in this city and State, and also in other States. Over 2000 tons were consumed by farmers last season in this State and the States of Delaware and New Jersey.

Change in price from \$45 to \$47.30 per ton, 2000 lbs. Notherge for packages: A liberal discount to dealers.

EXTRACTS FROM LETTERS.

A disinterested acknowledgement. Edward Webb, the proprietor and manufacturer of "Webb's Fertiliser." in the city of Wilmington, Del., says under date of Dec. 17, 1862, to the manufacturer of 'Moro Philips Super-Phosphate': "Your Phosphate is rapidly taking the place of all other Phosphates in this market, and if kept up to its present standard, there will be no limit to its sale."

Mr. Sto'tes, a practical farmer, President of the Farmers' and Mechanics Bank, Camden, N. J., says he has used Moro Phillips' Super-Phosphate, and it has given him entire satisfaction.

Culbert & Bro., the largest dealers in Fertilizers in the city of Wilmington, Del., acknowledged to the manufacturer, that all Moro Phillips' Super-Phosphate which was sol i by them last fad, was to parties who called for that article and would Pave nothing else. lse. From my agent in Hartford, Conn., I have very oacco.

Mr. H. W. Neff, office of the Board of Health. Philadelphia, says under date of July 3d, 1862: "My tenant reports very farocrably upon your Super-phosphate, and showed me his crops, which certainly proved that it is of great value upon wheat and corn crops, the only ones which he tried it on."

Mr. John Deat, of Prospect Hill farm, Lower Merion township, Montgomery county, says under date of Aug. 27, 1862: "I am happy to inform you that your super Phosphate has proved to be even more excellent than your representations. I used it on my crops of wheat last fall, and on corn last Spring. I had a most excellent crop of wheat, and the corn is a wonder to my neighbors; some of it is over 16 feet high, it could not possibly be better. I will want some of your Phosphate this fall, and no doubt you will have many calls from my neighbors. My son has ylso used your Super-Phosphate on his wheat last fall, and speaks in highest terms of it."
