# TWO-HORSE LEVER POWER.

WU-DULD call the attention of Farmers and others to my TWO-HORSE LEVER POWER, which has been throughly tested and proven to be. I think, a power that must supersede all Endless Chain power or the old Lever. It is of very Light Draught, and can be moved from place to place readily, it being fixed on wheels with tounge &c., complete, and can be placed in position for work in less time than any other kin do fower. The exceeding cheapness of the machine is its greatest recommendation.

Joint Resolution Relative to National Affairs 1. Be it Resolved by the Senate and General Assembly of the State of New Jersey, That this State; in promptly answering the calls made by the President of the United States, at and since the inauguration of the war, for troops and means to assist in maintaining the power and dignity of the federal Government believed and confided in the professions and declarations of the president of the United States, in his inaugural address, and in the resolution passed by Congress on the twentyfifth day of July, eighteen hundred and sixtyone, in which, among other things, it was de-clared "that the war is not waged for conquest or subjugation, or interfering with the rights or established institutions of the states, but to maintain and defend the supremacy of the constitution, with the rights and equality under it unimpaired, and that as soon as these objects shall be accomplished the war ought to cease;" and that relying upon these assurances, given under the sanctity of official oaths, this stote freely, fully, and without delay or conditions, contributed to the assistance of the federal government her sons and her

PROTEST Against a war waged with the insurgent states for the accomplished of uncontutional or

partian purposes: Against a war which has for its object the subjugation of any of the strees, with a view to their reduction to territonial condition. Against proclamations from any source by which under the plea of "Military necess ity," persons in states and territories sustaining the federal government, and beyond necessary military lines, are held liable to the rigor and severty of law; Against the domination of the military over

the civil law in states, territories or districts net in a state of insurrection;

Against all arrests without warrant-against the suspension of the writ of habeas corpus in states and territories sustaining the federal government "where the public safety does not require it"—and against the assumption of power by any person to suspend such writ, except under the express authority of congress; goinst the creation of new states by the di-

usion of existing ones, or in any other manner not clearly authorized by the constitution, and against the right of secession, as practically admitted by the action of congress in admitting as a new state a portion f the state of Virginia:

Against the power assumed in the proclamation of the President made January one, eighteen hundred and sixty-three, by which all the slaves in certain states and parts of states are forever set free-and against the expenditure of the public moneys for the emancipation of slaves or their support at any time, under any pretence whatever;

guinst any and every exercise of power upon the part of the federal government that is not clearly given and expressed in the feder al constitution—re-asserting that "the pow-ers not delegated to the United States by tne Constituion, nor prohibited by it to the states, are reserved to the states respectively

or to the people."
4. And be it resolved, That the unequalled promptness with which New Jersey had responded to every call made by the President and Congress for men and men and means, has been occasioned by no lurking animosity to the states of the south or the rights of her peoole; no disposition to wrest from them any their rights, privileges or property, but simply to assist in maintaining, as she has ever believed and now believes it to be her duty to do the supremacy of the federal constitution; and while abating naught in her devotion to the union of the States and the dignity and power of the federal government, at no time since the commencement of the present war has this state been other than willing to terminate peacefully and honorably to all, a war unnec ssary in its origin, fraught with horror and suffering in its prosecutions, and necessarily dangerous to the liberties of all in its contin-

5. And be it Resolved, That the legislature of the state of New Jersey believes that the appointment of commissioners upon the part of the federal government to meet commission ers similarly appointed by the insurgent states, to convene in some suitable place for the purpose of considering whether any and if any what plan may be adopted, consistent with the honor and dignity of the national government by which the present civil war may be brought other nations, and hoping as we sincerely do, that the southern states would reciprocate the peaceful indications thus evinced, and believing as we do, that under the blessing o God, great benefits would arise from such conference, we most carnestly reccommend the subject to the consideration of the government of the United States, and request its cooperation therein.

6. And be it resolved, That his excellency

United States, our Senators and representatives in congress, and to the governors and legisla-tures of our sister states, with the request that they give the subject proposed their serious and immediate attention.
7. And be it Resolved, That the state of New Jersey pledges itself to such prompt ac-

tion upon the subject of these resolutions as will give them practical effect immediately upon the concurrence or co-operation of the government and the logislatures of sister Approved March 24, 1863. An act in relation to public printing. 1. Be it enacted by the Senate and General

An act to change the termination of the fisstitutions, and to regulate the making of

WHEERAS, Much inconvenience is occasioned by the termination of the fiscal year of the several state institutions on the thirty-first day of December in every year, affording but a brief period for making up of reports previous to the assembling of the legislature; and whereas, the legislature is thereby unable to ascertain, for several weeks of their sessions, the true and actual condition of the said institutions, and have no reliable data upon which to base their legislation in regard to them, or in regard to state appropri-

ations; therefore,
1. Be it enacted by the senate and General Assembly of the State of New Jersey, That the present fiscal year shall terminate and close on the thirteenth day of November, one thousand eight hundred and sixty-three, and thereafter on the same day of each year; and upon that date in each year, the state treasurer, the quartermaster general, the managers of the lunatic asylum, the keeper and inspectors of the state prison, the trustees and officers of the state normal school, and such other officers and institutions as may hereafter be created' shall make up and close their accounts for the past year, and embody the same in full and detailed reports, containing on account of their respective receipts and expenditures, with such other information as is or may be required by law and doemed necessary for a clear elucidation of their transactions, and within ten, days thereafter deliver the same to the governor or person administering the government, who shall cause such abstracts of the same as he may deem necessary to be laid before the legislature within ten days after their assembling.

#### THE TRUE SUCCESS OF LIFE. It is said that, amongst the middle

class of this country, "the life of a man who leaves no property or family provision, of his own acquiring, at his death is felt to have been a failure." There are many modes in which the life of an industrious, provident and able man may have been far other than "a failure. even in a commercial point of view, when he leaves his family with no greater money inheritance than that which he began the world himself. He may have preserved his family, during the years he had lived amongst them, in the highest point of efficiency for future production If he have had sons, whom he has trained to manhood, bestowing upon them a liberal education, and causing them to be which requires skill and experience, he is an accumulator. If he have had daughters, whom he has brought up in habits of order and frugality, apt for all domestic employments, instructed themselves, and capable of carrying forward the duties of instruction, he has reared those who, in the honorable capacity of cal year of the several state officers and in- wife, mother and mistress of a family, influence the industrial powers of the more direct laborers in no small degree; and being the promoters of all social dignity and happiness, create a noble and virtuous nation. By the capital thus spent in enabling his children to be valhable members of society, he has accumulated a fund out of his consumption which may be productive at a future day. He has postponed his money contributions to the general stock, but he has not witheld it altogether. He has not been the "wicked and slothful servant." On the other hand, many a man, whose life, according to the mere capitalist doctrine has not been "a failure." and who has taught his family to attach only a money value to every object of creation, bequeaths to the world successors whose rapacity, ignorance, uncharges upon the capital of a nation. He who has been weak enough, according to this "middle class" doctrine, not to believe that the whole business of man is to make a 'pile," may have spent existence in labors, public or private, for the benefit of his fellow creatures; but his life is "a failure!" It would, perhaps, be well if some of those who believe that all virtue is to be solved into dollars and cents, were to consider that society demands from the "money making classes" a more than ordinary contribution, not to indiscriminate benevolence but, to those public instruments of production-educational institutions, and improved sanitary arrangements - which are best calculated to diminish the interval between the very rich and very poor.

#### A HINT TO IDLERS.

As we look at the "time killers" on the street—holding up lamp-posts and pillars—we are convinced that the most miserable situation a man can be placed in is when be has nothing to do, and that the "professional" idler is a sponge upon the world and a nuisance to the human race. Every man that remains idle, or gets his living without work, is adding to the mis- port at the same session. ery of the world-is really injuring the morals and happiness of the human family, and should be so regarded by society. What would be our fate were we all to become idlers? Who would make our garments, our houses, till the soil, and make our newspapers? What Mr. Idler, if you are able to live without work? Does t follow that you should remain in a state of "vegetation" merely? Certainly not! Without a pursuit—an innocent an honorable pursuit-no one can be really happy, and hold a proper rank in society. The humble wood-sawyer, says soms one, is a better member of society than the fop without brains and employment!-Every one should be employed in fashioning some article of use, or extending the dominion of thought—in simplifying the means of subsistence, or should, in some way, be beneficial to his fellow creatures. How many persons do we see content to live upon the products of other hands. who are, in fact, no better than bare faced rogues. They live on ill-gotten spoils, or the crumbs of the lunch table, rather than go to work like men, and be men

among men. On Retiring from Business. He who resolves at once to change his way of life from action to retirement, or from one state to another directly contrary, without being prepared for it by proper age and habit, for some contnuance of time, will find that he will no sooner have quitted his former way of life than he will desire to be in it again. It is on this, as well as other accounts, of great advantage that a man have acquired some turn in reading, and the more sober entertainments of life, in his earlier days .-There is not a much more deplorable sort of existence than that which is dragged on by an old man, whose mind is unfurnished with materials proper for yielding him some entertainment suitable to the more sedate time of life; we mean useful knowledge. For the remembrance of fifty years spent in scraping of money, or in pursuing pleasure, or in indulging vicious inclinations, must yield but poor entertainment at a time of life when a man can at best say he has been.

No man can safely go abroad that does not love to stay at home; no man can safely speak that does not willingly hold his tongue; no man can safely govern that would cheerfully become a subject; no man can safely command that has not truely learned to obey; and no man can safely rejoice unless he has suffered.

TEACHERS' INSTITUTE. Another year laden with golden opportunities for usefulness, whether improved or unimproved, has almost sped its flight, and made its record for eternity. Is it not most fitting, then, that teachers, parents, school-officers -all to sing generation are intrusted, should assemble (in obedience to the invitation given elsewhere in this paper) at Mauricetown, on the 25th inst., to take a retrospective view of the labors of the past year and their results, and to form new plans, purposes and resolutions for the Tuture. Methinks I hear an affirmative response from every teacher within the bounds of our county, and why not?-Why, I ask, should not every teacher avail himself of the munificience of the things inculcated in the Academy in the State, which has so generously established Teachers' Institutes, and appropriated · the means wherewith to secure the services of the most competent and experienced instructors of the age, for their especial benefit,. Does any one say these meetings are unnecessary, barren of profitable results to those who attend? Of which do you take counsel, my friend, your prejudices, or your experience?-Is it true that an assemblage of intelligent ladies and gentlemen, met for mutual conference in reference to the discharge of the responsible duties of their calling is a profitless occasion? Surely, such an assertion ought to be repelled with just indignation, by every teacher as a libel upon the profession. Other professions, trades and occupations have their associations, societies and stated meetings for mutual improvement; Clergymen, Physicians; Lawyers, Editors, Farmers, Mechanics; and shall Teachers do less? Have they less need, are their duties and responsibilities less important or weighty? On the contrary, are they not as great, if not greater, than any of the above mentioned classes. The teacher is to deal with the threefold nature of man: physicial, mental and moral. His duty is to preserve the health and moral purity of the soul. The soil he tills is that of the human heart. The seed he sows will cause the barren field of that heart to bud and blossom as the rose, and bloom forever in perennial beauty, or bring forth the tares of vice, parted." #### Army of the Potomac. The Rebels still Occupy the Heights of Fredicksburg—Gen Hooker has not again crossed.

Washington, May 12.—Several gentleman recently arrived here and proceeded to the Rappahannock to recover the bodies of their friends who fell in the recent battles. One of them, in a private note received in Washington to-day, says a communication has been transmitted to Gen. Lee for permission to pass in-Port Gibson is eight miles inland. It is side of his lines for that purpose. Although on Sunday night no response had been received thriving town, in a splendid rich coundary high the response had been received from Loc it was understood from the officommunication at the river. that there would be no unnecessary obstacles thrown in their way. Subsequently the enemy commenced sending over the river, under a flag of truce, considerable numbers of wounded, who have been paroled. For several days past supplies and medicines have been

sent over from our side. A report was current yesterday that the enemy had left their formidable position along the heights, but a close observation last even ing disclosed the fact that their numbers had not been diminished. They were still at that point yesterday morning. At the time of our recrossing the river at United States Ford, it is believed that only two divisions of the enemy's forces remained on our front, near Chan-

son and McLaws.
Dr. Webster still remains in the enemy's lines, in care of the wounded. Dr. Sukely, Medical Director, 11th corps, who was captured at Chancellorsnille, sends back word that our wounded generally, are doing well. Notwithstanding all the reports that our troops have again crossed the Rappahannock. it was not the case up to Monday noon.

# THE FAMOUS REBEL DEAD.

Thomas Jefferson Jackson, commonly called "Stonewall Jackson," a Lieutenant-General in the rebel service, died on Sunday last, the 10th inst., from the effects of the amputation of his left arm, wounded in the battle of Chan-cellorsville. He is also said to have been af-fected with pneumonia. He was born in Lewis county. Va., in 1826; was educated at West Point where he graduated in 1846; served with Magruder's battery in Mexico; was promoted First Lieutenant in 1847, and brevetted successively Captain and Major for gallant conduct in the battles of Mexico. He resigned from the army in 1852, on account of bad health, and became a professor of the Military Institute at Lexington, Va. He married a daughter of Rev. Dr. Junkin; his second wife was a Miss Morrison, of North Carolina.

appointed a colonel in the army of Virginia, and he has ever since been in active service in that State, having risen to the highest grade in the rebel army. He was a daring, active general, and in the numerous battles and raids in which he was engaged, he proved having his men posted behind a stone wall at the battle of Winchester, in March, 1862 -Jackson was an enthusiast in all things, and n religion he was a fanatic; for he believed that this infamous rebellion, the object of which is to destroy a great nation and erect a government founded on human bondage, was holy war. He was an elder in the Presbyconstantly had religious services in his camp. His loss will be severely felt in the rebel

CADETS OF TEMPERANCE.

BRIDGETON, N. J. Bro. Jos. S. Miner, of Bridgeton, sends us the following encouraging report of the Sec-

tion, in that place:--"I am happy to be able to say that Excelsior Section, No. 1, Calets of Temperance, is prospering in a degree truly gratifying to its friends. With a large and constantly increasing membership, and a worthy Patron who freely gives his time and talents for the benefit and entertainment of the Section, it promises fair to become a permanent and useful insti-

Monday evening, April 6th, was the regular time for installing the officers of the Section. About sixty invited guests were present, to most appropriate and stirring addresses ever delivered in this place. Bro B. Franklin Dennisson, Grand Secretary of the Grand Section of Pennsylvania, was the speaker, who also acted as D. G. W. P., for the evening.— Space forbids giving even a synopsis of the speech, but suffice it to say it was excellent. -Bro. Dennisson has been for years giving his attention to the Temperance training of the young, and has a very happy manner of enter-taining and instructing them. The exercises of the evening were enlivened throughout, with vocal and instrumental music by Professor Casterline and the Misses' Neff, and dialogues and speeches by members of the Section. All were highly gratified with the en-

The officers installed for the present term are as follows: W. P., Thomas A. Rending; 2d Patron, Aaron Davis; 3d Patron, Jos. S. Miner; W. A., Elmer C. Ware; V. A., Thomas H. Leary; S., Wm. H. Matthews; A. S., George G. Davis; T., Samuel Ware; A. T., Alonzo Bicking; G., Nicholas Hoagate; U., Joseph Westcott; W., Isaiah F. Barnes; A. W., Henry T. Neff.

The present number of members is about 75. and it is hoped that at the next report it may be 100."- Youth's Temperance Visitor.

#### Craig's Microscope.

Viewed in this Microsope, a common cheese-mite assumes gigantic proportions; animalculæ in stagnant water are distinctly visible: the curious construction of insects, in their various parts, is intimately observable; all granular substances, such as flour, coffee, ac., can be tested, and adulterations therein detected. As a means of education and amusement it is invaluable. It is the first successful attempt to cheapen and popularize the microscope. Every lover of nature, sendent, scientific and business man lover of nature, student, scientific and business man should own one. Its price, TWO DULLARS, places it within every one's reach. All the Dealers and Agents who have undertaken its sale have prospered. Testimenials, description, see, in ILLUSTRATED CHRCULARS are sent, free, on application.

AND ALL OTHER COUNTIES. WE say do not be humbugged by long and windy advertisements, but remember that C. C. Grossoup still keeps the largest, best selected, and cheapest stock of goods for men and boys' wear, in Cumberland county. Hence his numerous customers keep him and all his employers too busy to write long advertisements, and the constant increase of business, has made it necessary to invest all his spare funds in sewing seachines, and coundering the low price at which he selfs, it is no wonder that he has had no fands to invest in the less important article of Poetical Machinery. Trusses, Shoulder Braces, Elastic Stockings for Enlarged Veins of the Leg, &c.; INSTRUMENTS FOR ALL DEFORMITIES. DR. GLOVER'S

NEW LEVER TRUSS has taken the place of other Trusses for the retention and cure of Herma or Rupture. Acting upon the principle of a lever, it never loses it strength. It is coated to prevent rust. It has no pad on the back, which is so liable to injure the spine and annoy and chafe the wearer. It is sure to retain the Rupture, giving ease and comfort, and effecting radical cures—It is warranted to give satisfaction.

The improved SHOULDER BRACE expands the chest and prevents the wearer from becoming round shouldered. chest and prevents the weater as a small shouldered.

PHILADELPHIA. The Manufacturers are now prepared to supply a large demand with this valuable Manure. They would respectfully amounce to Farmers and Dealers in Fertilizers, that the price had been advanced to \$46 per 2000 lbs. It need scarcely be mentioned that this change has been rendered necessary by the greatly increased cost of materials and labor, as well as by the operation of the U.S. Tax upon manufacturers. turers.

Every Farmer using a Fertilizer, may be assured that the RAW BONE PHOSPHATE will still maintain its high character for strength and purity the manufacturers preferring to make a small adance in per ton, rather than allow its Merits to fall below their former standard under increased expenses in manufacturing.

\*\*End it is prepared from Baw Bones, and warranted to contain all their original organic matter no burned or cale med bones are used, and it is sold under a guaranty from the manufacturers that it is free frem adulteration.

The demand for Baugh's Raw Bone Sumble manufacture was result, exceeded, that per-Phopsphate last year greatly exceeded that of any previous one; which is a substantial evidence of its highstandard of popularity.

LOOK AT THIS!

The Menageric has just been to Bridgeton and exhibited both atternoon and evening, and a dense crowd of people went to see the animals. One of the elephants refused to cross one of the bridges at Elmer's pond, and consequently had to wade around, but notwithstanding this, became out all right.

Thompson is bound to come out right. The idea has gone out that Thompson sells goods a little higher than others. That idea must and shall be changed, it selling goods still cheaper will do it. I am bound to SELL AS CHEAP OR CHEAPER than others, for cash, and as I have just got in a New and Beantiful Stock of Goods, inst call and examine for yourselves, and if you don't say they are cheap I will not ask you to purchase.— My stock consists, in part, of

CLOTHS, CASSIMERES, VESTINGS, Suspenders. Neck-Ties, Shirt Collars, turndowns and chokers, from 1 to 15 cents. Also Hats and Caps of the very Latest Styles My prices have always been uniform, justs fair living profit taking from one man what I do from another, (which I have always thought was the golden rule), and not taking two profits from one, and schaff profit from another.

MORO PHILLIPS' GENUINE IMPROVED SUPER PHOSPHATE OF LIME.

THE STANDARD GUARANTEED.

Prepared at his Chemical Works. Canaden, N. J. and for sale at Manafacturer's Depot.

No. 27 North Front Street, Philadelepha.

The great satisfaction this truly unproved Super-Phosphate has given to the Agricultural community. Phosphate has given to the Agricultural community, gives great encouragement to the manufacturer to continue to improve if possible, his article, but never to fall back from its standard, and to manufain its well-merited celebrity. It has given entire satisfaction of those who have used it.

This super-Bhosphate commins less moisture than any other in the market, as indicated by the weight of the packages, which are heavier than any other manufacturers of the same size. The ingredients of this super-Phosphate are Hone Phosphate. Supphuric Acid, and Ammonia, which have a greater density than water, must necessarily produce a heavier article.

than water, must necessarily produce a heavier article.

According to analysis made by Dr. E. Pugh. President of the Agricultural College, of Pennsylvania, of all the principal Super-Phosphates. More Pailips excepted,) manufactured in this and the States of New Jersey and New York, showing their agricultural values and published in the Coverry General and March 27, 1862. More Phillips Super-Phosphate-contains more agricultural value than any other in the plariter The Manufacturer is aware that he makes these assertions to an intelligent agricultural community and to scientific analytical chemists, and also to influential and long established manufacturers of Super-Phosphates; nevertheless he makes these broad declarations. So completely has the manufacturer succeeded in makarticle of a uniform standard, that he grees a legal guarantee to wholesale dealers, that it shall always be the same standard as from the first.

More Phillips Super-Phosphate is sold extensively by the principle dealers in Fernilizers in this city and State, and also in other States. Over 2000 tons were consumed by farmers last season in this state and the States of Delaware and New Jersey.

Change in price from \$45 to \$47.50 per ton, 2000 ths. No charge for packages. A liberal discount to dealers.

MORO PHILLIPS.

N. B.—Observe that my name and place of manufacture is on each and every package, none other being genuine.
EXTRACTS FROM LETTERS.

ing genuine.

ENTRACTS FROM LETTERS.

A disinterested acknowledgement. Edward Wobb, the proprietor and manufacturer of "Webb's Fertinser," in the city of Wilmington, Del., says under date of Dec. 17, 1862, to the manufacturer of 'Moro Phillips Super-Phosphate': "Your Phosphate is rapidly taking the place of all other Phosphates in this market, and if kept up to its present standard, there will be no limit to its sale."

Mr. Stokes, a practical farmer, President of the Farmers' and Mechanics Bank, Camden, N. J., says he has used Moro Phillips' Super-Phosphate, and it has given him entire satisfaction.

Culbert & Bro, the largest dealers in Fertilizers in the city of Wilmington. Del., acknowledged to the manufacturer, that all Moro Phillips' Super-Phosphate which was sol 'by them hast ful, was to parties who called for that article and would Pave nothing eleg. else. From my agent in Hartford, Conn.. I have very good accounts, it does wonders for the culture of to good accounts, it does wonders for the culture of to bacco.

Mr H. W. Neff, office of the Board of Health, Philadelphia, says under date of July 3d, 1852: "My tenant reports very favorably upon your Superphosphate, and showed me his crops, which certainly proved that it is of great value upon wheat and corn crops, the only ones which he tried it on."

Mr. John Deal, of Prospect Hill farm, Lower Merion township, Montgomery county, says under date of Aug. 27, 1862: "I am happy to inform you that your viper-Phosphate has proved to be even more excellent than your representations. I used it on my crops of wheat last fall, and on corn last Spring. I had a most excellent crop of wheat, and the corn is a wonder to my neighbors: some of it is over 16 feethigh, it could not possibly be better. I will want some of your Phosphate this fall, and no doubt you will have many calls from my neighbors. My son has ylso used your Super-Phosphate on his wheat last fall, and speaks in highest terms of it."
