TWO-HORSE LEVER POWER. I WU-NUNDE LEVEN PUWER.

I WOULD call the attention of Farmers and others to my TWO-HORSE LEVER POWER, which has been thrroughly tested and proven to be, I think, a power-that must supersede all Endless Chain power or the old Lever. It is of very Light Draught, and can be moved from place to place readily, it being fixed on wheels with tounge &c., complete, and can be placed in position for work in less time than any other kind of power. The exceeding cheapness of the machine is its greatest recommendation.

PHILADELPHIA,

For the West Jersey Pioneer. THE LAND BEYOND THE SEA.

BY J. B ENGLISH. Where the bluest skies are bending, Where the softest breezes blow,
Where the sweetest tones are blending, Theremy longings over go.

When my hopes lie scattered 'round me, Like the sere leaves 'round the tree, Then my thoughts will backward wander To the Land beyond the Sea.

Not the strongest ties of Friendship, Nor the witching spell of Love, Can allure my heart's affections From the clime from whence I rove.

Human loves and human lovers! What can these be unto me? I have left my dearest treasures In the Land beyond the Sea.

Sunny Land! beyond the ocean. How I miss thy beauties rare! For those hillsides want the wildness That my native mountains wear.

When I gaze upon the wildwood, Or the flower-bespangled lea, Dream I of still fairer landscapes In the Land beyond the Sea.

Often, when the moonlight falleth Gently on the sleeping flowers. And the insect bards are singing In the trees, for hours and hours,

I will sit atone, and listen To their low, sweet minstrelsy, Till my restless spirit wanders To the Land beyond the Sea.

There, beneath the flowering hawthorn Lovers sit at eventide; There beside the verdant hedges Pale, sweet roses love to hide Oh, ye scenes! so fondly cherished!

Do ye still remember me?-Me, the lonely, weary exile From the Land beyond the sea Desrest friends I've left behind me, A wide ocean rolls between us-

We may clasp hands nevermore So my song is ever raddened,-As my heart it needs must be, Wnich is sighing—ever sighing— For the Land beyond the Sea. Ode to Philadelphia.

BY THE BARD OF TOWER HALL.

Hail! city of Penn! I have oft observed, when Folks mean to be witty, And call thee the "City Of Brotherly Love" To that title thy claim Has a stronger foundation Than thy Greek designation; For, joking aside,
Thy antique nomenclature
Suits well with thy nature; This is never denied; And thou to be proud May'st be justly allowed, For thy ladies are fair. And the gentleman are Honest sensible too, (With exceptions a few;)

And they prove their sagacity And business capacity, By flocking to Tower HALL by hundreds to buy, For their wardrobes a liberal autumnal supply. TOWER HALL, No. 518 MARKET Street, Philadelphia.

A LITTLE OVERWEIGHTED .- Those who visit the sick soldiers and do good in the hospitals, occasionally get a gleam of fun among all the sad scenes, for any wag who has been to the war seldom loses his humor, though he may have lost all else save that and honor. Witness a sketch

from life. C-, good soul, after ta'king all the little comforts he could afford to the wounded soldiers, went into the hospitals for the fortieth time the otherday with his mite, consisting of several papers of cut chewing tobacco-solace for the wounded, as he called it. He came to one bed, where a poor fellow lay cheerfully humming a tune, and studying out faces on the papered wall.

Got a fever?" asked C. "No," answered the soldier. "Got a cold?"

"Yes cold lead." "Where?"

ECONOMY IN A FAMILY.

There is nothing which goes so far toward placing young people beyond the reach of poverty as economy in the man-agement of household affairs. It matters not whether a man funishes little or much for his family; if there is a continual leakage in his kitchen or parlor, it horse-leech's daughter, untill he that husband's duty to bring into the house, gets a wife to look after his affairs, and to assist him in his journey through life; station in life, and not to dissipate his be the wife's care, and her greatest ambition to carry her no further than his sole aim, and the theatre of her exploits in the bosom of her family, where she may do as much towards making a fortune as he in the counting room or work- tablish our assertion. shop. A NICE GIRL.

There is nothing half so sweet in life, half so beautiful, or deligtful, or so lovable as a "nice girl." Not a pretty, or a dashing or an elegant girl, but a nice girl. good-hearted, sweet-faced, amiable, neat, ear thushappy, domestic creatures met within the spere of home, diffusing around the domestic hearth the influence of her goodness like the essence of sweet flowers.

A nice girl is not the languishing beauty, dawdling on a sofa, and discussing the ast novel or opera; or the giraffe like creature sweeping majestically through a drawing-room. The nice girl may not even dance or play well, and knows nothing you vant?" about "using her eyes," or coquetting a fan. She is not given to sensation novels, she is too busy. At the opera, she is not in front showing her bare shoulders, but sits quietly and unobtrusively—at the back of the box most likely. In fact, it is not often in such scenes we discover her.-Home is her place.

Who rises betimes, and superintends the morning meal? Who makes the toast and tea, and buttons the boys' shirts, and waters the flowers, and feeds the chickens, and brightens up the parlor and sitting room? Is it the languisher, the giraffe, or the elegante? Not a bit of it-

it is the nice girl. Her toilet is made in the shortest possible time, yet how charmingly it is done, and how elegant her neat dress and plain collar! What kisses she distributes among the family! No presenting a cheek or a brow like a "fine girl," but an audible smack, which says plainly: "I love you ever so much." If I ever coveted anything, it is one of the nice girls kisses

There is no risk, no fatigue that she will not undergo, no sacrifice she will not make. She is all fore breakfast.' love, all devotion. I have often thought

by such fair hands. One of the most strongly marked characteristics of the nice girl is tidiness and simplicity of dress. She is ever associated in my mind with a high frock, plain collar, and the neatest of neck ribbons, bound with the most modest little broch in the world. I never knew a "nice girl" a splendid bonnet. Mr. Yard, chaplain of the regiment, who was much intecested in the ucfortunate youth, stoted the circumstances of the case to Mr. Sas. L. Dayton. The deep repenitence of the culprit, his earnest prayer that he might be permitted to see his brother, who was stationed at Fairfax, and his protestation that he had been led away from his duty by designing scoundrels, together with his boyish and innocent appearance, made a strong impress ion upon Mr. Dayton, who determined, if possible, to save his life. By dint of perseverance Mr. D. succeeded in obtaining an audience of the President, who, una ble to resist the fervent appeal, consented ty well scattered. First, there's a bullet to telegraph Gen. Queer Mispronunciation. It is a striking fact that names of places are oftenest mispronounced by the inhabtants or people of the neighborhood. Some of these distortions are amusing enough from their wide departure from the true pronunciation. In La Salle half the people call their city "La Sell" (and a "dead sell" it is to the reluctant wayfarer, food. Fruit, pickles, jams, gingerbread, fat of compelled to wait half a day for the train). ham, of bacon, suet, cheese, buttermilk, &c.. Belliontaine is pronounced "Bell fountain," and all in or about Indianapolis call it "Indianopolis" without scruple or apparent remorse. Evansville goes often by the name of "Ivansville," and Terre Haute (a pretty French name for a fine Yankee town in Indiana-and signifying BILLINGS.—1st—If yu hav supe for brekfast, don't undertaik tu eat it with yure fingers, not if yu kan git a fork, and never wipe yure noze on the tabil cloth, and long and an arrange count which access portentously sleave. the civilized and even elegant architecture which adorns the city. But the vice is not peculiar to the West. The older natives of Hartford, Conn., speak of it as "Har'ford" to this day; many citizens of Brunswick, Maine, continue to shock the ears of the Bowdoin boys by allusions to 'Brumswick"; while half the inhabitants of Portsmouth, N. SOMETHING LIKE A MEDIUM.—An enthusiastic believer was relating to a sceptic some spiritual performances to which he could testify, and among other things he said that on a certain occasion, the spirit of his wife, who had been dead for several years, returned to him, and seating herself upon his knee, put her arms around his neck and kissed him, as she used to when living.

'You do not mean to say,' remarked the sceptic, 'that the spirit of your wife really em-braced and kissed you?' 'No not exactly that,' replied the believer, but her sprit took possession of a body of a female medium, and through her embraced and kissed me.'

How to Organize a National Bank. We have received from Jay Cooke & Co., the Government agents, at Philadelphia, a very neatly printed pamphlet, giving directions how to organize a National zation over State Banks, in affording a more uniform currency, that will universally pass without discount in any section of the Union, is too apparent, especi illy to those who are in the habit of going "to bank" daily or weekly to make deposits, and who, upon arriving there, find that half they have, a not unusual ease, is not bankable, to need any argu-

Paper, in some form, from its lightness. compactness and convenience, is, and always will be, the necessary medium of exchange in all civilized countries, where large commercial transactions occur.

The merchant in Bridgeton, wishing to pay even so small a sum as a thousand dollars, in Philadelphia, would find the transfer of the amount in specie, quite an inconvenience, and would not be without apprehensions that his pile would attract the attention of some ready sharper, and would, therefore, prefer paper. Accordto the usual form a check on the bank here would be given; but in either case, paper would be the medium employed, and banks the agencies required to perfeet the transaction. There is, therefore, no question as to whether banks are required, the only query can be how to make them the safest and most reliable vehicle to accomplish successfully the purpose desired. The difficulties that have arisen heretofore, and which seem quite inseparable from the system of State agencies acting independently of, and often in opposition to each other, is that their currency is not kept at par except in their immediate neighborhood; consequently the business of the country is constantly subjected to a loss from the discount on these notes. Were all the banks agencies of the general Government, and subject to the regulations of the law passed by Congress, they would and the community would then be refrom depreciated paper. I was impressed, with the conviction that this surplus would be put temporary and that it simply resulted from the accumulations of old linen made before the commencement of the war in the households of the country; while I thought that exhaustion of this accumulation, and the high prices for the basis of this kind of stock ruling in the market since the commencement of hastilities, would prove an effectual bar to such surplus in the future.

I stated my impressions on this subject to my correspondents, and I am happy to say they were dissuaded from carrying out their intentions. POPULAR LOAN FROM SALE AT PAR, and until ten days notice is given, the undersigned as General Subscription Ag't, will continue to supply the Public.

The whole amount of the Loan authorized is Five Hundred Millions of Dollars. Nearly Three Hundred Millions have been already subscribed for and paid into the Treasury, mostly winto the actism value. The balance, (Twe Hundred Millions,) is hardly sufficient to furnish the basis of circulating notes for the National Banking Assembly organizing in all parts of the ciations now rapidly organizing in all parts of the sounties nowraphily organizing in an parts of the country.
Sides during May, Jinneaud July rewhed frequently
Two Millions, Baily. It is connidently expected that the scales will again increase, especially as a large foreign comand, (mostly from Germary,) has lately spraing up, which is likely to absorb One or two Millions, weekly. A very short period only must clapse before this Loan is wholly absorbed, and as it is well known that the Socretary of the Treasity has ample and untailing resources in the buties on imports a internal Revenues and in the issue of the Interest bearing Legal Tender Treasury Notes; it is almost a certainty that he will notfind it necessary, for a long time to come, to seek a market for any other long or permanent Loans; the Interest of which are payable in GOLD.

Trustence and soli-interest must force the minds of those contemplating the formation of National Earking Associations, ins well as the minds of all who have offer money on their hands, to the prompt conclusion that they should lose no time in subscribing for this most popular Loan. It will soon be beyond their reach, and advance to a handsome premium, as was the result with the "Seven-Thirry" Loan when it was all sold and could no longer be subscribed for at par tillions, weekly. A very short period only must clapse

par.

It is a six per cent. Loan, the Interest and Principal Payable in Coin, thus yielding about Eight per cent. per annum at the present rate of premium on coin.

The Government requires all duties on imports to be paid in Coin; these duties have for a long time past amounted to over a Quarter of a Million of Dalars, title a commeasure three times greater than that reamounted to over a Quarter of a Million of Doltars, daily, a sum nearly three times greater than that required in the payment of the interest on all the 5-20's and other permanent Loans—So that it is hoped the the surplus of Coin in the Trensury, at no distant day will enable the United States to resume specie payments upon all Indibities.

The Loan is called 5-20 from the fact that whilst the Bonds may run for 20 years yet the Government has the right to pay them off in Gold, at par, at any time after 5 years.

The Interest is paid half-yearly, viz: on the first days of November and May.

Subscribers can have Coupon Bonds which are payable to bearer, and arc of \$50 \$100, \$50.0. and \$1000; or Registered Bonds of same denominations, and in addition \$5,000, and \$10,000. For Banking purposes and for investments of Trust-monies the Registered Bonds

for investments of Trust-monies the Registered Bonds are preferable.
These 5-20's cannot be taxed by states, cities, towns or countries, and the Government tax on them is only one and a-half per cent., on the amount of income of the holder exceeds Six Hundred dollars per annum; the bolder exceeds Six Hundred dollars per annum; all other investments, such as income from Mortgagos, Itali Road stock and Bonds, etc., must pay from three to five per cent. tax, on the income.

Banks and Bankers throughout the Country will continue to dispose of the Bonds; and all orders by mail, or otherwise promptly attend to,

The Treasury Department having perfected arrangements for the prompt delivery of Bonds; Subscribers will be enabled to receive them at the time of Subscription, or at furthest in FOUR days. This arrangement will be gratifying to parties who Want the Bonds on payment of the money, and; it is hoped, will increase the sales.

THE GREAT AMERICANTEACOMPANY, 51 VESEY STREET, NEW YORK; Since its organization, has created a new era in the Wholesaling Teas in this Country.

They have introduced their selections of TEAS, and are selling them at not over Two Cents (.02 cents) per lb. above cost, Never deviating from the ONE PRIOE asked.

Another peculiarity of the Company is that their TEA TASTER not only devotes his time to the selection of their TEAS as to quality, value, as department styles for particular localines of country, but he helps the TEAS as as to quality, value, as departments stock such TEAS as are best adapted to his particular wants, and not only this, but points out to him the best bargains. It is easy to see the incadenable advantage a TEA BUYER has in this establishment over all others.

If he is no judge of TEA, or the Market, if his time is valuable, he has all the benefits of a well organized system of doing busines, of an immense capital, of the judgment of a professional TEA TASTER, and the knowledge of superior salesmen.

This enbles all TEA buyers—no matter if they are thousands of miles from this market—to purchase on as good terms here as the New York merchants.

Parties can order TEAS and will be served by us as well as though they came themselves, being sure to get original packages, true weights and tares; and the TAAS are warranted as represented.

We issue a Price List of the Company's Teas, which will be sent to all who order it; comprising Never deviating from the ONE PRICE asked. Hyson, Young Hyson, Imperial, Gunpow-der, Twankay and Skin. OOLONG SOUCHONG, ORANGE & HYSON PEKOF.

Japan Tea of every description, colored and uncelled and the colored.

This list has each kind of Tra divided into FOUR Classes, namely: CARGO, high CARGO, FINF, FINEST, that every one may understand from description and the prices annexed that the Company are determined to undersell the whole Tra trade.

We guarantee to sell ALL our Trassat not over TWO CENTS (.O.2 Cents per pound above cost, believing this to be attractive to the many who have heretofore been paying Enormors Property. GREAT AMERICAN TEA COMPANY, IMPORTERS AND JOBBERS,
