GETTING RICH. A STORY FOR BOYS.

Old Mr. Avery was going by to his morning's work. He looked bent and worn and poor, Harry Elden thought, as he off the gate, and turning round, stuck his hands determinedly into his pockets, saying to himself as he went up the walk, "I'll be rich when I'm a man. When I'm sixty years old I won't be a carpenter, and work by day's labor as Mr. Avery does. I don't believe he went to work right when he was a boy." Mr. Eldon was sitting on the plazza with his paper, and heard Harry's speech, but said nothing to him, as he rose

and walked in to breakfast with his son. Harry was deep in speculation on his way to school. I don't know exactly, but I do know that it would be better for Uncle Samuel than 100,000 volunteers to bis army, if he would shut off entirely and absolutely the supply of intoxicating liquors from officers and men, from surgeons, hospitals, and everything and everybody connected with the army. On what ground is the present vast supply of whiskey furnished? Is it that an occasional ration may be issued to the soldiers when returning from picket, or after an exhausting march? Why, there hasn't been a whiskey ration issued to a single regiment, to my knowledge, for many a month, and I am certainly within the truth when I say that not ten a year are issued to the troops. on an average.

So in due time after the death of her lord, she started out to find a market for her animals. "How much do you ask for your horse?"

A resident of Mount Holly, who recently isited the "President's Room," at the National Capitol, thus describes it:

I never was in what is called the "President's Room, at the Capitol, before yesterday. I will attempt a description of it It is about twenty feet square; with a vaulted ceiling. In the north-east corner of the ceiling, is a life-size portrait of William Brewster: southeast corner, of Christopher Columbus; south-west corner, of Benjamin Franklin; north-west corner, of Americus Vespucius. The center has the "Stars and Stripes" around the gas-burner. Between the portraits are different mother teaching her little one-a splendid scene On the east, between William Brewster and Christopher Columbus, is the Executive, represented by a female figure instructing her boys in the United States Law. On the south, between Christopher Columbus and Benjamin Franklin, is Liberty, represented by the Goddess with the Shield and "Stars and Stripes"-On the west, between Benjamin Franklin into a kind of porridge, which emits a most | and American Vespucious, is Legislation. represented by a figure with the Constituion, &c On the south wall is a portrait likeness of Jefferson, as Secretary of State; on the west, of Attorney General, Edmund Randolph, and Post Master General, Samuel Osgood; on the cast, of Secretary of War, Henry Knox, and Secretary of State, Alexandria Hamilton; and on the north are windows and a large mirror. Over Jefferson, is Washington in the middle; and, on each side, a figure of the Angel of Peace, with wreaths af olive. One of the figures holds a shield, containing the names of Boston, Trenton, Princeton, Monmouth and Yorktown-three of them New Jersey names. Throughout are little figures, to fill up the spaces, representing the various branches of industry, the arts, &c.

It was the most splendid thing of the kind I ever saw—so much in so little space. What a history in the words Boston, Trenton, Princeton, Monmouth and Yorktown! What an influence they had upon the history of our country! What is expressed by the four names, Brewster, Columbus, Vespucius, and the mighty Franklin! The first Cabinet, also, that has never been equalled -- now as near equalled as it ever was! What a thrill of pride the Jersey names made me feel! Come and see !

WESTERN EMIGRATION.

Notwithstanding the vast number of men taken to fill the armies of the Union, the great demand for labor, and the high rate of wages, omigration to the "far West" continues as large as ever. A late correspondent of one of the western papers, writing from Omaha City, Nebraska, says that twelve government wagous going through that place, is the miners, under the escort of 100 U.S. Cavalry. A horse train of twelve hundred wagons was about three miles ahead. The roads were covered with wagons most of the time, mostly ox teams, going to Pike's Peak, Washington Territory, California and Oregon. As this is but one wate, and that the most northern one, some idea may be formed of the immense emigration across the mountains. Although it is probable that the main travel is by this route on account of Indian difficulties and the rebellion. It is not the want of the many marvellous things now occurring in this country that a gigantic war should be carried on, emabla bodied population, the pursuits of ty, to say the least of it, of sending draft- I think that the future will be like unto peace be carried on with unwonted prosperity, a large emigration takes place at the same time, without depending upon toreign countries, either for money or material, is a sight never before witnessed on such a magnificent scale.

A CLAM BAKE.

Although clams abound in great abundance along the shores of Southern New Jersey, both on the Bay and Ocean, it is questionable whether any of the inhabitants are familiar with that popular "institution" of Yankee land, a clam bake.-Picnics, bay and beach parties, we have tive audience, which was held spell in abundance, and each year they seem to bound for about two hours, by this prince grow more in favor. As it may add another of lecturers. Mr. Hewlett has spent branch of innocent amusement to those we more than twenty years of his life in laalready have, we will give the modus oper- boring for the advancement of the Temandi of carrying on a clam bake. A large perance cause, during which time he has pile of stones, say fifteen or twenty tons, are placed in an oblong shape, in the proportion of about seventy feet long to ten wide. This is heated by burning on it California and Oregon. And now perthree or four cords of wood, until they mit me to say through the Pioneer, to all are completely reduced to coals. Over my old friends in South Jersey, that if It is the lot appointed to nations to endure these coals sea weed is spread about six they wish to be stirred up on the subject war with its evils, as well as to enjoy at inches thick. By reference to advertisement in another column, it will be seen that Mar tin Bowen has lately associated with him in the Lumber business, Norton L. Paullin. The firm will hereafter be known as "Bowen & Paullin." Mr. Bowen has had many years experience in the Lumber business, and is a very honorable and re-

Before the recent election Secretary tisement of the above valuable paper, Seward delivered a short speech at Auwhich appears in our columns this week. burn, New York, containing some passa-Mr. Miner has devoted a lifetime to rural ges on current matters worthy of note -

"I am here by accident and not by design. I have persistently declined, as von know, to enter political canvasses as a debater. I have two reasons for this: First, wanted the internal as well as the foreign enemies of the United States to see that this Administration could stand of its own strength, without resorting to pop-ular arts of self defence. Second, I thought that an Administration that could not stand without speaking for itself must fall even if all members should engage in its vindioation.

In regard to the extinction of slavery, he subjoined extract is emphatic: "The abettors of the rebellion are troubed for fear we shall not leave to the reb-

what we propose about that. My answer is, that if they had submitted to Abraham Lincoln at the beginning, they would have retained the whole. They have lost by resistance, on an average, 10,000 slaves a month. Each month of prolonged resisting upon the time when submission, coming too late, will leave neither slavery nor titled to ask no terms. What has happened to slavery thus far, has been the legitimate fruit of their own crimes; but der military power, necessarily and therefore lawfully exercised, and slavery will

perish with it.' As to the return of the rebels to their llegiance he remarks:

"Neverthelesss, I am willing the prodigal son shall return. The doors so far as I am concerned, shall neways be open to breaking out of the great rebellion, in him. The longer he is content to feed upon husks, the sooner he will hunger. The longer he is content in his daliance with the harlot of rebellion, the greater will be his ultimate disgust with her embrace.-Perhaps you are aware that our village is The greater his hunger and his disgust, the deeper will be his repentance and the more lasting his reformation. I shall send no invitations after him; and yet, speaking not for myself, but for you and the whole American people, I express the conviction that neither man nor angels can prevent the fatted calf being slain for his welcome, when he does come back saving penitently, "Brothers, I have offended, and

> desire reconciliation.' As to debt, suffering, &c., Mr. Seward

"The sympathizers with the confederates tellus of debt, taxes and blood. Was ever sovereignty and freedom saved without the expenditure of money and of life? intervals peace and prosperity. Who caused the debt, the taxes, and the shedding of blood? The canonade of Sumter answers the whole question at once.

"In a conflict like this the question is the contending parties suffers most. Viewing in this light the whole of the suffering which the war has produced has fallen up-on the insurgents, and the loyal part of the United States is exempt. In the insurgent States there is not one citizen who is not the poorer and the more unhappy for the war. In the loval regions there is not a State that is not stronger, nor a citizen who is not the richer for the same cause. The increase of wealth which aris es from the national discipline of industry which the war has obliged us to adobt, has enabled us to pay all increased debts and taxes as easily as we paid the debts and taxes existing when the war began, nor must we forget that it is only a question of whole debts and whose taxes we shall pay-not weather we shall pay any. We pay either the debts and taxes of Abraham Lincoln and his administration, or the debts and taxes of Jefferson Davis and Robert P. Toombs. In the one case we have an equivalent of dollar for dollar for what we pay, and the greater equivalent of national safety and honor. In the other case we pay twelve dollars in gold for one doliar of Confederate money, with the additional evil of eternal disgrance and ruin."

He closed thus: "The Democratic masses, discarding leaders, have attained the height of patri-Democrits in Roman, 14; Unionist in the Cabinet, they are in the canvas, counseling, voting, fighting, generously, loyally, oobly, to make the election of Abraham Lincoln President of the United States there remains nothing left to complete the great and painful drama but that which cannot long be delayed—the submission of the insurgents, and thus the restoration of peace. And what a peace may we not expect that to be! A peace that establishes forever the practibility of free re publican, representative Federal Government; the immediate or ultimate restoration of four million of bondsmen to treedom; the security of the American continent equally against the evils of internal an- but supplies are now sent to the front by railarchy and foreign aggression. The angels in heaven might tune their harps to the symphony of such a peace."

It will be remembered that ou the 17th of June last this far famed rebel craft, first named the "Fingal," then the "Georgia," and at last "Atlanta," made the attempt recited, but was captured by Capt. Rod-gers, of the Weehawken, in fifteen minutes This vessel is now on exhibition at the foot of Washington street, for the benefit of the Union Volunteer REFRESH-MENT SALOON, where over four hundred thousand of our soldiers have been fed, when on their way to and from the seat of war. She is an object of great curiosity and interest' and while examining her great strength it seems almost incredible that she should have stood only five shots from our little monitor. We advise our readers to take advantage of their first opportunity, and visit her. Members of he committee of the Saloon are on board to give all necessary explanations. The charge is small, and while gratifying a laudable curiosity, visitors will be contributing to a holy cause.

FUNERAL OF REV. MR. KENNEDAY .- The fu D., were conducted on Tuesday last in the Washington M. E. church, Brooklyn, by Bishop Janes, Dr. Durbin, Rev. Herman Bangs, and others. Notwithstanding the storm the church was crowded to its utmost capacity—probably two hundred ministers were present. Dr. Kenneday was a self made man; from a poor boy in a printing office he rose to great eminence as an eloquent preacher, taking rank with divines of the first order in this country. His first field of labor was in New Jersey under a Presiding Elder—in nine months his journal states, he preached 369 sermons, walked 1017 miles, rode 1368 miles. From Gen. Banks Expedition

By arrivals at New York on Sunday night from New Orleans, information has been received of the successful landing of Gen. Banks at the mouth of the Rio Grande. The expedition encountered a severe storm in going south; two schooners and the steamer Union were sunk but no lives lost. Two rebel deserters were picked up at sea who gave information to Gen. Banks of some importance, relative to the disposition of the rebel troops and their forts. On the morning of the 2d not one of abstract suffering, but which of inst., the troops began to land, a Maine regiment being the first to raise the flag on shore. On landing on Brazos Island, the Fifteenth Maine, Col. Dwyer, accompanied by Major You Hers General Bank's staff, started for Boca Chica took possession of the Pass, and encamped there, throwing out pickets. No resistance was made except from two companies of rebel cavalry, who were speedily driven off.

The government buildings at Fort Brown were burned to the ground by the rebel garrison preparatory to their evac-

uating the fort. A squad of sixty rebel cavalry, which had witnessed the landing of the soldiers under the guns of the Monongahela, at the mouth of the Rio Grance, dashed into Brownsville and commenced setting fire to the buildings, with the intention of destroying the town. The property holders and union men resisted them when the secessionists joined the cavalry. and a bloody street fight took place, which lasted all the afternoon, the buildings burning in every direction around them. The fight was still going on when the messenger left for the purpose of communicating the news to the General commanding.

A PROCLAMATION BY THE GOVERNOR.

The President of the United States has issued a proclamation calling upon the Governors of the different States to raise and have enlisted into the United States service, their respective quotas of three hunted States proclaimed that, if any State shall fail to raise the quota assigned to it by the War Department a draft for the deficiency will be made, commencing on the 5th day of January. A. D. JSOL. The quota of the State of New Jersey under said call has been assigned as 9,441. The quota of each township and ward

on the 5th day of January, A. D. 1801. The quota of the State of New Jersey under said call has been as signed as 9.441. The quota of each township and ward will be speedily published by the Adjutant General.—Credits for volunteers on said quota will be given to the respective townships and wards until the 4th day of January, 1864.

No draft will be made for the deficiency of the \$.783 men assigned to this State in July last, (and to find which I called for volunteers by Proclamation, dated July 27th, 1803.) before the 5th day of January, 1801, and credits for volunteers by Proclamation, dated July 27th, 1803.) before the 5th day of January, 1801, and credits for volunteers on that call will also be given to the several townships and wards where deficiences exist in their respective quotas heretofore published by the Adjutant General of the State, until the 4th day of January, 1804.

Therefore, the draft announced by the President to commence (in case of failure to furnish volunteers) on the 5th day January next, will be for the entire deficiency of any township or ward.

I carnestly call upon all citizens of this States to see every effort to raise the troops. The time for work is short, but if the people of New Jersey, who have intherto never faltered in the discharge of daty, will unitedly and in the proper spirit, at once enter upon it, with the determination not to fail, they will succeed.

Our armies should be largely reinforced. A crush

unitedly and in the proper spirit, at once enter upon it, with the determination not to fail, they will succeed.

Our armies should be largely reinforced. A crushing blow at the armed power of the rebellion, it followed by wise, just and conciliatory counsels, will open the door to that peace which we so much desire and which has thus far cluded us.

This people amidst many discouraging circumstances nobly responded to my former call for volunteers whatever may be the result of this appeal, the events of the past few months have reflected additional honor on our beloved State. I have confidence that the people will again respond, and fill with volunteers not only our quots of the new call, but also the small existing deficiency.

I here repeat the request formerly made to the citizens of the State, to aid the rai-ing of men by the bestowment of bounties, either individually or through the municipal authorities. It is true that a response to this request involves the expenditure of large sums of money, but every man must expect that a war of such gigante magnitude as that in which we are engaged, to be ended speedly, requires pecuniary sacrifice. If war is to be prosecuted, it is economy to bring into the field a large preponderance of power, rather thanfeed its insatiate appetite by "piece meal. We should be prepared to make great sacrifices, if, by so doing, we can save the Union.

The General Government offers largely increased bounties, of which the details will be announced by

E. G. WHITMAN, & CO U. S. 5-20's.
SECRETARY OF THE TREASURY

POPULAR LOAN FROM SALE AT PAR, and until ten days notice is given, the undersigned as "General Subscription Ag't,"
will continue to supply the Public.
The whole amount of the Loan authorized is Five
Hundred Millions of Dollars. Nearly Three Hundred Millions have been already subscribed for and paid into the Treasury, mostly
within the last six months. The balance, (Two Hundred Millions,) is hardly sufficient to furnish the basis for circulating notes for the National Banking Associations now rapidly organizing in all parts of the
country.

Sales during May, June and July reached frequently
Two Millions, Dally. It is confidently expected that two scales will again increase, especially as a
large foreign demand (mostly from Germary.) has
lately sprung up, which is likely to absorb One or Two
Millions, weekly. A very short period only must elapse
before this Loan is wholly absorbed, and as it is well
known that the Secretary of the Treasury has ample
and unfailing resources in the Duties on Imports and
Internal Revenues and in the issue of the Interest
bearing Legal Tender Treasury Notes: it is almost a
certainty that he will not find it necessary, for a long
time to come, to seek a market for any other long or
permanent Loans, the Interest of which are
payable in GOLD.

Prudence and self-interest must force the minds of
those contemplating the formation of National Banking Associations, as well as the minds of all who have
idle money on their hands, to the prompt conclusion
that they should lose no time in subscribing for this
most popular Loan. It will soon be beyond their
reach, and advance to a handsome premium, as was
the result with the "Seven-Thirty" Loan when it was
all sold and could no longer be subscribed for at
par. '

It is a Six per cent. Loan, the Interest "General Subscription Ag't,"

all sold and could no longer be subscribed for at par.

It is a Six per cent. Loan, the Interest and Principal Payable in Coin, thus yielding about Kight per cent. per annum at the present rate of premiuta on coin.

The Government requires all dutes on imports to be paid in Coin; these duties have for a long time past amounted to over a Quarter of a Million of Dollars, daily, a sum nearly three times greater than that required in the payment of the interest on all the 5-20's and other permanent Loans. So that it is heped the the surplus of Coin in the Treasury, at no distant day will enable the United states to resume specie payments upon all liabilities.

The Loan is called 5-20 from the fact that whilst the Bonds may run for 20 years yet the Government has the right to pay them of in Gold, at par, at any time after 5 years.

Bonds may run for 20 years yet the Government has the right to pay them off in Gold, at par, at any time after 5 years.

The Interest is paid half-yearly, viz: on the first days of November and May.

Subscribers can have Coupon Bonds which are payable to bearer, and are of \$50 \$100, \$500, and \$1000; or Registered Bonds of same denominations, and in addition \$5,000, and \$10,000. For Banking purposes and for investments of Trust-monies the Registered Bonds are preferable.

These 5-20's cannot be taxed by states, cities, towns, or countries, and the Government tax on them is only one and a half per cent., on the amount of income of the holder exceeds Six Hundred dollars per annum; all other investments, such as income from Mortgages, Rail Road Stock and Bonds, etc., must pay from three to five per cent. tax, on the income.

Banks and Baukers throughout the Country will continue to dispose of the Bonds and all orders by mail, or otherwise, promptly attend to,

The Tressury Department having perfected arrangements for the prompt delivery of Bonds; Subscribers will be enabled to receive them at the time of Subscription, or at furthest in FOUR days. This arrangement will be gratifying to parties who Want the Bonds on payment of the money, and; it is hoped, will increase the sales.

THE GREAT

AMERICANTEACOMPANY, 51 VESEY STREET, NEW YORK; Since its organization, has created a new era in the Wholesaling Teas in this Country. They have introduced their selections of TEAS, and are selling them at not over Two Cents (.02 cents) per lb. above cost. Never deviating from the ONE PRICE asked.

Another peculiarity of the Company is that their Tex Taster not only devotes his time to the selection of their TEAS as to quality, value, and particular styles for particular localities of country, but he helps the Tex buyer to choose out of their enormous stock such Texs as are best adapted to his particular wants, and not only this, but points out to him the best bargains. It is easy to see the incalcuable advantage a Tex Buyer has in this establishment over all others.

If he is no judge of Tex or the Market, if his time is valuable, he has all the brefits of a well organized system of doing busine s, of an immense capital, of the judgment of a professional Tex Taster, and the knowledge of superior salesmen.

This enbles all Tex buyers—no matter if they are thousands of miles from this market—to purchase on as good terms here as the New York merchants.

Parties can order Texs and will be served by us as well as though they came themselves, being sure to get original packages, true weights and tares; and the Tass are warranted as represented.

We issue a Price List of the Company's Teas, which will be sent to all who order it; comprising Hyson, Young Hyson, Imperial, Gunpow-Never deviating from the ONE PRICE asked.

Hyson, Young Hyson, Imperial, Gunpow-der, Twankay and Skin. OOLONG SOUCHONG, ORANGE & HYSON PEKOE. Japan Tea of every description, colored and uncolored.

This list has each kind of Tea divided into FOUR Classes, namely: CARGO, high CARGO, FINF, FINEST, that every one may understand from description and the prices unnexed that the Company are determined to undersell the whole Tea trade.

We guarantee to sell ALL our Teasathot over TWO CENTS (. 22 Cents per pound above cost, believing this to be attractive to the many who have heretofore been paying Exorance Protest. GREAT AMERICAN TEA COMPANY,
