As Lincoln, true among the true, And firm among the firm,
On Fame's immortal scroit shall live

And found a soldier's grave.
And Foote—the Christian sailor—too, Has laid his armor down; With these shall Meade, the victor, shar A meed of wide renown.

COUNTING THE COST

BY THE BARD OF TOWER HALL.

Whatever wish the mind may fill, No man should slight this brief advice Seize all the good you can, but still Before you grasp it, ask the price. What is the price of pleasure, found

Within the intoxicating bowl? Its price is sense and reason drowned, And brutal numbness of the soul. The price the epicure has given
For feasts prolonged to midnight's reign

And gout's intolerable pain. Oh, when some most attractive prize Too eagerly you haste to clutch. Take heed, lest in your haste unwise,

You for the jewel pay too much. Eternal vigilance, we hear.
Is still the price of liberty. For such a blessing never fear
The estimate too high can be.

Some things in worth exceed the price. And this suggestive is to all, The clothing is at Tower Hall.

BEAUTIFUL ALEGORY.

The late John Cr ttenden, of Kentucky, was one time engaged in defending a man who had been indicted for a capttal offence After an elaborate and powerful defence, he el sed his effort by the following striking and beautiful alegory:

'When God in his eternal counsel conceived the thought of man's creatton, he called to him the three ministers who wait constantly upon the throne-Justice, Truth and Mercy-and thus addressed them: 'Shall we make mar?' Then said Justice: 'O God, make him not for he will trample upon thy laws.' Truth also maile an answer. O God, make him not, for he will polute thy sanctuiries' But Mercy dropping do in upon her knees, and, looking up through her tears, exclaimed:-O God make him, I will watch over him with my care through a l the dark paths which he may have to tread,' Then God made man and said to him: 'O man, thou

An awful tragedy took place recently n Wolfstown, Canada. The wife of one James Sheridan, while in a state of insanity, killed four of her children -the eldest being a fine girl of fif een. The instrument used was an axe, with which the bodies were shockingly mangled. Her husband was absent at the time.

A doctor gave the following prescridtion for a sick lady: 'A new bonnet, a cashmere shawl and a pair of gaiter boots! The lady recovered immediately.

Bless us, what's this? Politics -- politics-politics-from one end of the paper to the other; no vice book reviews; no well-deserved bludgeou-blows at the "neutral English;" no interesting letters from the seat of war; nothing on earth but elections, and local squabblings about them. Now isn't that aggravating? when I never was more hungry for a good read than I am this morning, and depend on it as much as I do on my coffee. You see, if I could take an active part in these polities there would be some sense in getting interested in them; but to stand by and look upon a fight with one's hands tied one's mouth gagged, is not pleasant to an impressible temperament. One longs to hit a good crack, at the right minute, and where it will tell One gets interested in candidates and lying, and things; one wants to be posted up about matters, and don't fancy having "my lord" laugh in a patronizing, pitying way at one's sincere thought innocent suggestions, about conducting an electioneering campaign.

As to their jumping in the right direction, they would be quite as likely to do it, as the illiterate, hibbing, bought crew who so often perform at the ballot box. So I trust that it is sufficiently plain to the most unreflective, that ribbons and laces are the safest amusements for women. THE FASHIONS. The extravagances of female attire has been a prolific subject of criticism among the strong-minded sex for a very long period. Indeed, we have very high authority for finding fault with woman's dress, for the Prophets of Israel found cause for rebukes in their day, and all the writers who have followed them, have piously enlarged on the same text. We don't know what penny-a-liners and hard-up editors would do, were it not for the "dress question." Politics are, sometimes, a drug; robberies and awful murders scarce, and selfish people, now and then, choose to live their days out, rather than commit sui cide, and it is vastly convenient to have a standing subject to fall back upon, when such a dearth of news occurs. It is somewhat amusing, the ladies themselves must confess, this dress question. As long ago as we can remember, ladies wore "sleeves" -sleeves as was sleeves, too. We opine the pattern was originally copied from a balloon, or perhaps the balloon was copied from them. How many feet a lady arrayed in those graceful appendages, would have measured across the shoulders, we are unable to say, as we have never met with any accurate computation, but we are of the opinion that they entered doors sidewise. We remember having seen a picture of one of these mammoth sleeved belles, whom a high wind was carrying up on an ærial journey, seemingly more expeand that a heavy national indebtedness has ditious than pleasant. Now-a-days sleeves not proved an unmitigated evil. are a serious affair, altogether, the skirts "For instance, Great Britian, France having monopolized the balloon form, and actually overshadowed the sleeves, as well as the rest of mankind. It is greatly to the credit of the Government that its loans, of all the sccuthan almost anything else. Its Five-Twenty year six per cent. loan, the interest on which is promptly paid in gold, has been subscribed to, all through the pressure in the money market, at an average of more than two millions per day. And what is not the least gratifying fact in connection with the daily large subscriptions to this popular loan, scarcely any of it is returned to the market for sale. It is taken for investment, and is held with unfaltering confidence in its reliability. And why should it not be? It is seen that the Government now, after two years of the known, experiences no difficulty in commanding the necessary means to prosecute it, or in paying regularly the interest in gold as it falls due. If this can be done while the war is being waged, who can anticipate any difficulty in readily accomplishing it when the war shall be ended? What better investment then, for eapital, than the "Five Twenty" Government loan? But if any doubt, let him refer to the statistics furnished by the census tables of the various nations of the world. The facts which they present will prove the most satisfactory mode of dispelling the numberless gloomy apprehensions which are being conjured up by those who are disposed to exaggerate the extent of the calamity occasioned by our rebellion. It has not only been made useful in raising her from a bed of extreme pain and suffering, but has so far removed the cause of her former weakness, that she has been enabled ever since to atten! to her domestic and other duties without interruption. Undoubtedly, could such a Supporter be restored to instead of those unnatural, hurtful and silly means which are made use of by most ladies, for the purpose of supporting and beautifying their persons, more suffering would be averted; better general health promoted, and longer life secured.

SECRETARY OF THE TREASURY

POPULAR LOAN FROM SALE AT PAR,

and until ten days notice is given, the undersigned

"General Subscription Ag't," will continue to supply the Public.

The whole amount of the Loan authorized is Five Hundred Millions of Jollars. Nearly Four Hundred Millions of Jollars. Nearly Four Hundred Millions have been already subscribe ed for and paid into the Treasury, mostly within the last seven months. The large demand from abroad, and the [rapidly increasing home demand for tase as the basis for circulation by National Banking Associations now organizing in all parts of the country, will, in a very short period, abs rb the balance. Sales have lately ranged from ten to fifteen millions weekly, frequently exceeding three millions daily, and as it is well known that the Secretary of the Treasury has ample and unfailing resources in the buties on Imports and Internal Revenues and in the issue of the Literest bearing Legal Tender Treasury Norze, it is a timusta aertaint that he will not find it for any other long or permanent loans, the later-est and Principal of which are payable

Prudence and self-interest must force the minds of those contemplating the formation of National Banking Associations, as well as the minds of all who have idle money on their hands, to the prompt conclusion that they should lose no time in subscribing for this most popular Loan. It will soon be beyond their reach, and advance to a hand-ome premium, as was the result with the "Seven-Thirty" Loan when it was all sold and could no longer be subscribed for at par.

all sold and could no longer be subscribed for at par.

It is a Six per cent. Loan, the Interest and Principal Payable in Coin, thus yielding about Eight per cent. per annum at the present rate of premiura on com.

The Government requires all duties on imports to be paid in Coin; these duties have for a long time past amounted to over a Quarter of a Million of Dollars, daily, a sum nearly infectimes greater than that required in the payment Comes. So that it is heped the the surplus of Coin in the Treasury, at no distant day write mable the United States to resume specie payments upon all liabilities.

The Loan is called 5-20 from the fact that whilst the Bonds may run for 20 years yet the Government has the right to pay them off in Gold, at par, at any time after 5 years.

rer a years. The Interest is paid half-yearly, viz: on the first days of November and May.

Subscribers can have Coupon Bonds which are payable to bearer, and are of \$50 \$100, \$500, and \$1000, or Registered Bonds of same denominations, and in addition \$5,000, and \$10,000. For Banking purposes and for investments of Trust-monies the Registered Bonds These 5-20's cannot be taxed by states, cities, towns. or countries, and the Government tax on them is only one and a half per cent., on the amount of income o the holder exceeds Six Hundred dollars per annum

the holder exceeds SIX inducted donals per and all other investments, such as income from Mor es, Rail Road Stock and Bonds, etc., must pay ps, Rail Road Stock and Bonds, etc., must pay from three to five per cent, tax, on the income.

Banks and Bankers throughout the Country will continue to dispose of the Bonds, and all orders by mail, or otherwise promptly attended to, —

The inconvenience of a few days' delay in the delivery of the Bonds is unavoidable, the demand being so great; but as interest commences from the day of subscription, no loss is occasioned, and every effort is being made to diminish the delay.

TO THE PEOPLE OF CUMBERLAND AND ALL OTHER COUNTIES. WE say do not be humbugged by long and windy advertisements, but remember that C. C. Grosscup still keeps the largest, best solected, and cheapest stock of goods for men and boys' wear, in Cumberland county. Hence his numerous customers keep him and all his employers too busy to write long advertisements, and the constant increase of business, has made it necessary to invest all his spare funds in sewing machines, and considering the low price at which he sells, it is no wonder that he has had no fands to invest in the less important article of Poetical Machinery.
