Hon. N. Perry, Of the 5th District of this State, delivered

nesday, March 23, 1864, on "Military ance of the Postmaster General, in his was fired upon, and the first call for troops and Post Roads." Mr. Speaker, as a Representative of the

State of New Jersey, I hope that the bill | mation relative to the subject. now under consideration will not become

ly, "a continuous line between Philadel-phia and New York for postal and mili-ed route between New York and Philatary purposes." This, I repeat, Mr. delphia, or vice versa. Speaker, we have already. A continuous of routes, such delays as have occurred stances which no human foresight or en-

ergy could anticipate or control. For the past three years, the exigencies They are straightening and shortening of war have required hundreds of thousands of soldiers and vast amounts of bridges, increasing their rolling stock as munitions of war to be carried to and fro fast as Government demands upon priover the existing lines, and ofttimes the vate shops will permit, and as speedily demands for transportation have been made without an hour's warning.

But, notwithstanding these circumstances, I challenge the most earnest advocate of the new route as a military necessity, to show that in a single instance any serious delay has occurred, any inadequacy of means of transportation been experienced, or any indisposition or ina- bly be needed, but humanly speaking, bility to supply promptly the requisite the accidents which have caused delays, means of transit for this sudden and unprecedented demand been maifested .-It is a fact that will not be controverted that there has been no delay, no lack of facilities, no sign of unwillingness on the part of the managers of the existing line to defer all other business to the passing and paramount necessities resulting from the war; and the only instance when the line which now traverses New Jersey did tended. I now propose to examine it not forward all that was required by the from a higher stand-point. Government, was when the roads which are interested in procuring the passage of the bill now before this House, solicited the privilege of carrying a number of men and a quantity of freight, which in amount were not much greater than the existing roads were accustomed to carry habitually every day, and for the transportation of which at that very time thev had cars and boats in waiting. This diversion of business from the regular and direct route was not instigated by the public necessity; not because the existing lines could not or, would not transport them as speedily and as promptly as the ture, insulting to her judiciary, and vio-rival route, but it was to establish a pre- lative of her pledged public faith. > Have you forgotten that when Sumter was made by the President, that New Jersey sent a full brigade of volunteers to protect the national capital, and that in doing so she not only exceeded her proportion by a regiment, but was the first of all the States to forward her full complement to the field? The Cause of the Union Daily Grows

Stronger. In our last issue, in commenting on "Our Country's Call," we made use of the expression which heads our present article. And why should not the cause of the Union grow daily stronger? The time was when the sentiment was universal, that the Union of these States was to be maintained at all bazards. Up to a period, not very remote, the atrocious word, "Disunion," was never uttered in any part of the Republic, but with abhorence. The individual who would presume to impugn the sacred obligation of the Union, would have been justly charged with moral treason, and regarded as an enemy to his country. At length, this wholesome public sentiment began gradually to give way. Our ears became 'familiarized to that word-"disunion.' In the frenzy of a base sectional jealousy, its advocates were ready to dig the grave of the Union. So lost were they to virtue and patriotism, that they were reckless, alike, to the fate of their own countrymen, and the responsibilities which rested upon them in reference to the world at large. They could foresee that the Union would not expire as the snow melts from the rock, or a star disappears from the firmament. They rather gloried in the fact, that, in its fall, the crash would be heard in all lands. Little sym. pathy had they for the palsied hearts of trusting, hoping millions-who had looked with joy at the bright rays of our glory, as it came streaming across the stormy Atlantic, guiding them, as a star, to happier homes. Little did they care for the sneers, of despotic Europe, at the failure of our free institutions, and their derision of us, as a race of vulgar plebians, who were rushing in a downward course of ruin, through anarchy to despotism.

None of these things moved them .-The fixed purpose of the leaders at the South, long cherished and long concealed -was to establish a great slave power on this continent. The insane pride of the slave-holders cherished the dream of that influence of the slave system-upon the ness around-on one of those deadly. man and the citizen.

The attempt to break p the Union, pledge of our future protection. This feeling we had inherited from the moththe scenes of our firesides, from our daily sanctuaries, from our national anniversaries, from all our experiences and all our associations. This it is which made the union feeling of the loyal states so strong when our ark was touched by unhallowed hands This it was which, with such singular unanimity, urged our noble defenders to rush to the rescue of the country in peril. This feeling, which has struck its roots down into the American heart, has set. the whole nation at war to save the Union. It is not an army of soldiers, or a dozen armies, but an entire people that are at war. Nations send their armies to the field, but the people are not at war. The soldiers do the flighting, and the people look on. We have not only armies in the field, but are a whole people fighting. Well nigh every man, woman and shild, in their respective spheres, have gone to war, either fighting is the field, or working by the home freside, or gathering in

The war was not undertaken to make Presidents, but to save the Union. What we need just at this crisis is that united and generous enthusiasm with which this contest was first entered upon. We need to rouse into efficient action; that deep, commons universal instruct of the American heart -its intense nationality, which of late has been slumbering. In the legitimate influence of this sentiment, under God, is

### The Metropolitan Fair.

The Metropolitan Fair, for the benefit f the Sanitary Commission, opened in New York with an imposing display on Monday evening last, April 4th. The ouildings, which are enormous structures of wood, with very plain barn-like exteriors, occupy the site of the old Palace Garien, in Fourteenth street, near the 6th Avenue. These are divided up into departments, and almost every branch of human industry will be represented by liberal donations, which will be offered for sale by some of the best and most attractive ladies of the city and its vicinity. The NEW JERSEY DEPARTMENT, OCCU-

pies the Northwest end of the wing toward 15th street, the opposite end being occupied by the Firemen's Department -and the picture gallery opens at its side. It will be one of the most tastefuly arranged and attractive features of the fair - if not the most so. Mr. CROPSEY, the justly eelebrated American painter, has devoted his best energies to its design and decoration, and it certainly does high credit to his artistic taste and skill. This Department ocupies a space of about ninty feet in length; over the whole the name of the State spans a large portion of the wall, the letters being in the national colors, red, white, and blue, and arranged in segment form. Under this is a large American Eagle bearing the shield of the United States in his talons, and surrounded by a multitude of flags artistically arranged. Under this, and over the tent occupied by the Soldiers, Department, is another shield, upon which the arms of the State are depicted, and on both sides are hung tablets with the names of the countries inscribed upon the blue ground. American streamers float between. In the corner at the extreme right is the Cockloft Summer House, and at the extreme left, an Alhamra, the intermediate space being occupied by bazaars representing the four seasons, in which goods appropriate to

those seasons are to be sold. The bazaar for Spring goods is decorated with spring flowers overhead, and contains ornamental fancy work, and is in charge of ladies from Kahway.

The Summer bazaar is ornamented with corn and grain, and is devoted to the sale of goods appropriate to Summer use by ladies from Hoboken.

The Autumn apartment is surmounted by fruits-melons, apples, &c., -with will be read with interest by the friends vines tastefully interlaced. Here the of the Commission in New Jersey. It Paterson ladies will preside, and dispose of goods suitable for that season.

The Winter bazaar ends the series, next the Summer House. It is surmounted by a most ingeniously contrived cake of ice, with dead branches encrusted in ice and snow falling down the sides. It is appropriated to goods for Winter use, under the care of ladies from Morristown and Madison.

DOUGLAS AS A UNION MAN.

In his recent striking speech upon Reconstruction, Mr. ABNOLD of Illinoiswho in the last Congress introduced the bill establishing the freedom of the Territories, and, during this session, the resolutional amendment abolishing slaveryrecounts in a graphic and picturesque manuer, many of the incidents in our recent history. The whole speech will be read with peculiar interest as a review and defense of the present administration .-We have room but for one or two passages which the friends of Mr. Douglas will see with special satisfaction: \*" No so impressive an inauguration as

that of Mr. LINCOLN has occurred since the inauguration of Washington. He has been threatened with assassination, and the rebels bave intended his murder as he passed through Baltimore. On his arrival here he found the public offices filled with traitors. Strange as it may seem, the rebel generals Lee, and Joe and Albert Johnson, and Elwell and Hall, Stewart age. and Magruder, Pemberton and Winder, held in March and April, 1861, leading positions in our army. Traitors were everywhere. The citizens of Washington were, a large portion of them, in sympathy with the rebels. Secession had been preceded by secret conspiracy, connected by those holding the highest official trusts. It had been veiled by perjured professions these were the men he found in all the public offices, and he was encircleed on years. every side by spies and traitors. None who witnessed it will ever forget the scene of that inauguration. Standing on the eastern front of the Capital, the judges of the Supreme Court, the Senate and House of Representatives, the high officers of the army and navy around him, a mingled crowd of traitors and patriots, with many years. an eye looking searchingly into his neighbor's to learn whether he gazed upon a traitor or a friend; standing there amidst scawling enemies with murder and treason in their hearts, Lincolin was cool and determined. He read his inaugural with a voice clear and distinct enough to be heard by twice ten thousand people. When with reverent look he swore by the Eternal God that he would faithfully "preserve, protect, and defend" the Constitution, his great rival Douglas stood, not by accident, at his side. Douglas knew, perhaps, better than the President himself, the dangers and difficulties that surrounded him. He was observed to whisper in the ear of Mr. Lincoln, and I believe gave to the President the assurance that in the dark and difficult future he would stand by him and give him his utmost aid in upholding the Constitution and crushing treason and rebellion. Nobly did Douglas redeem that pledge. After the rebel attack on Sumter, he boldly made the wellknown declaration that there could now be but two parties, patriots and traitors. Had he lived he would have sustained the President with all the vigor and energy

It will not be forgotten that at the inauguration ball Mr. Douglas entered remained near her and the President during the evening. Indeed the conduct of Mr. Douglas at that time, and until his death, showed his sincerity in the follow-

R B. FITTS, General Agent. PABULETTE. This valuable fertilizer is composed of night-soil and the fertilizing elements of the urine chemically obtained, and combined chemically and mechanically with other valuable fertilizing agents and absorbents. It is reduced to a dry, pulverulent condition, ready for immediate use, and without loss of its highly nitrogenous fortilizing properties. ogenous fertilizing properties.
Its universal applicability to all crops and soils, and its durability and active qualities, are well known to e all that Agricultulists can desire. Price \$3 per Barrel, or \$25 per Ton.

CHEMICAL-COMPOST. This Fertilizer is largely composed of animal matter, such as meat, bone, fish, leather and hair, together with chemicals and inorganic fertilizers, which decompose the mass and retain the nitrogenous elements. It is thoroughy impregnated with the urine and the thinner portions of nightsoil.

It is a very valuable fertilizer for field crops, generally, and especially for potatoes, and for garden purposes. osses.
Its excellent qualities; strength and cheapness, have made it very popular with all who have used it. Price \$25 per Ton.

TREE AND FRUIT FERTILIZER. It is a highly phosphatic fertilizer, and is particular ly adapted for the cultivation of Trees, Fruits, Shrubs-Lawns any Flowers—It will promote a very vigorous and healthy growth of Wood and Fruit, and largely increase the quantity and quality, and perfect the maturity, of the Fruit. For Hot-house and Household Plants and Flowers, it will be found an indispensable article to secure their greatest perfection.

It will prevent and cure diseased conditions of the Peach and Grape, and is excellent for Grass and Lawns. awns. The formula or method of combining its constituent ertilizing ingredients, has received the highestappro-cal of eminent Chemists and scientific Agriculturists. Price \$50 per Ton.

A WORD ABOUT AMERICAN WATCHES ALLEN & NEEDLES

Are now prepared to furnish "MORO PHILLIP'S tiennine Improved

AFTER A THOROUGH TRIAL OF MORE THAN TEN YEARS, the time-pieces manufactured by the America's Watch Co., of Waltham, Mass, have gained a firm hold upon the favor of the public, and now, no less than 75,000 of them are speaking for themselves in the prockets of the people. From a very insignification of the prockets of the people.

> equal to supply the constantly increasing demand.— and we may here observe that notwithstanding the high price of labor and materials, we actually sell our products at less prices than those current five years We refer to these facts only for the purpose of proerly introducing another subject relative to our nanufacture of watches. Hitherto our chief object has been to make GOOD watches for the million at the lowest possible price—something to take the

the lowest possible price—something to take the place of the make-believe watches called "Ancres," 'Lepines," 'English Patent Levers,' &c., annually thrown upon this market in countless numbers, by European workshops—watches which are the refuse of their factories, unsaleable at home, and perfectly worthless everywhere.
This object we have accomplished, and now we have to announce, that we have commenced the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY

HIGHEST GRADE KNOWN TO CHRONOMETRY unequalled by anything hitherto made by ourselves and unsurpa-s of by anything made in the world—For this we have the amplest facilities. We have erected an addition to our main buildings expressly for this branch of our business, and have filled it with the best workmen in our service. Profiting by our long experience, we have remodelled the form of our watches, introducing such improvements as have been suggested and proved to be good from time to time-and have instituted new and severe tests of isochronism, adjustment and compensation. New machines and appliances have been constructed, which perform their work with consumate delicacy and exactitude, and the choicest and most approved materials only are used. Nothing in fact is wanting either in mechanical principles, Material or workmanship to ensure perfection in the result.

We continue to manufacture our other well known qualities under the following names.

"APPLETON, TRACY & Co.,"

We consum-qualities under the following "APPLETON, TRACY & Co." P. S. BARTLETT," And the "Soldier's Watch," "WM. ELLERY." The latter, the lowest priced watch we make, is a substantial, reliable time-piece, cased in sterling silver—hunting pattern, and is not liable to get out of order either in marching, riding, or fighting. All the above described watches, including the finest, which is named "AMERICAN WATCH COMPANY," are sold by watch dealers generally throughout the country. watch dealers generally throughout the country.

A PROCLAMATION BY THE GOVERNOR. The quota of New Jersey, under the late call

f the President for 500,000 men, is 16,759 .-Upon this quota will be credited and deducted all volunteers from this state, who have been at reduced prices. nustered into the United States service since the first day of June, 1863, and also all who shall be so mustered, prior to the 1st day of March, 1864. More than ten thousand (10,000) nen have been already recruited on account of this quota.

The sub districts that have raised the quotas assigned them in the General Oorders issued from the office of the Adjutant General of this State, under my Proclamation of 27th July, 1863, and 22d October, 1863, are not liable to the draft ordered to be made on the 10th day of March next.

By referring to previous publications of quotas, the deficiency of the various sub-districts not yet exempt will be very nearly ascertained. The Adjutant General will announce the exact deficiency as soon as possible.

The Government bounty of \$300 for new recruits and \$400 for veterans will not be paid after the expiration of the present month. I earnestly call upon the people of those townships and wards, where deficiencies exist, to devote all their energies to filling their respective quotas, before the large Government bounties now offered are withdrawn.

Believing that the people of New Jersey desired to avoid a draft, I have labored to give them the opportunity to furnish volunteers .-The greater part of the State is already exempt. There is yet for each township and ward to fill its enter quota if the peeple will be earnest in the effect. The advantage of such, especially to the laboring classes, have been more than once presented. I can add but little to the appeals already made. I leave the subject with the people, in confidence that their responce will be such as will gladden the heart of every Jerseyman. Given under my hand and privy seal, at
