Character better than Credit. We often hear young men who have no means dolefully contrasting their lot with that of rich men's sens. Yet the longer we live the more we are convinced that the old merchant was right, who said to us when we began to live. "Industry, my lad, is better than ingots of gold, and character more valuable that credit."

We could furnish, if need were, a score of illustrations to prove the truth of his remark. In all branches of business, in avocations, character, in the long, is the pest capital.

Says Poor Richard: "The sound of your hammer at five in the morning, or at night, heard by a creditor, makes him easy for six months longer; but if he sees you at a gambling table, or hears your voice at a tavern, when you should be at work, he sends for his money the next day"

MUSCLE AND BRAIN .- Nature is a strict accountant; and if you demand of her in one direction more than she is prepared to lay out, she balances the account by making a deduction elsewhere. If you insist on premature or under-growth of any one part, she will, with more or less protest, concede the point; but that she may do extra work, she must leave some of her im-portant work undone. In primitive times, when aggression and defence were the leading social activities, bodily vigor, with its accompanying courage, was the great desideratum and then education was almost wholly physical; mental education was little cared for, and, indeed, was often. treated with contempt. But now that than manual labor, while social success of appointed in 1763 and retained his office nearly every kind depend very much on, mental power, our education has become almost exclusively mentel, Instead of respecting the body and ignoring the mind, we now respect the mind and ignore the body. Both these attitudes are wrong. We do not sufficiently realize the truth, that, as in this life of ours, the physical underlies the mental, and the mental must not be developed at the expence of the physical. The ancient and modern conception must be combined.

An eccentric man, Norman Chaflee, died last week, in South Wilbraham, Massochusetts. At the next corner of the street was an oil lamp, which threw out a dim light; and standing near it in a listless attitude, we observed a man in the garb of a sailor, and evidently just from sea. As our unknown guide drew near him, I noticed that she seemed much agitated; and on coming up to him, to our surprise, and apparently his, she stopped and looked eagerly into his face for a moment; and then, with a wild cay, she suddenly threw out her arms, clasped him around glish made slow progress, for as late as the neck, and appeared to swoon upon his breast. bowl out roll to making an ab-1700 there were but three roads that, could be travelled with wagons. Though deeply curious to know some-thing of their history, I silently acquiesced in his proposal; and quietly departing, we returned to our hotel, musing upon the uncertainties, vicissitudes, and ro-

mance of life. Two days after, as I was sitting on the iazza of the hotel, I saw the sailor passing along the street, and curiosity prompted me to address him. The moment he saw me, he came bounding up, grasped

my hand, and burst into tears. "God bless you !" he exclaimed, in a choking voice; "God bless you and your friend! and so says Mary. I've been hunting you all over the city, sir, but I feared I'd never see you again. Here I let me pay you back your money; and will you be so kind, sir, as to axcept these two rings for yourself and friend?"

I took the money-for I saw if I did not he would feel very much hurt: but fearing his circumstances might not justify him in making a present of so much value, I attempted to decline the rings .-It was of no use—he would take no deni-al—and so I reluctantly accepted them, thanking him in behalf of my friend, who was absent. I then drew from him his story, which I will give in a few words.

He and his wife were both natives of a small village on the Chesapeake, and had often played together as children. His own father was then in good circumstanand died soon after, leaving himself and

For years, however, they did not meet; and during that time the narrator became a sailor, and acquired sufficient means to nurchase a cottage for his mother, leaving lars; a small balance on mortgage, which his next voyage was to clear off. While at home, he and his Mary again met; and discovering a mutual passion, and knowing her parents would not consent to the union, but were most auxious to ally her to a wealthy suitor, they took advantage of opportunity, and were privately married. Charles Delaine, for such was his name then took leave of his wife, and shipped for a whaling voyage, intending it should be his last cruise. While absent, his wife's parents, discovering the secret of her marriage, disowned and drove her

themselves. I need not prolong the story-it is an old tale. Sickness and misfortune followed them, they failed to procure sufficient work for their necessities, and on the night when the wife appealed to us, they were in a starving condition. Charles had just returned from his cruise; and at the very moment when his Mary so unexpectedly met him, he was thinking of sixty two, as provides that in case of real estate, home, which he expected to reach the next day. He had been prudent, the real estate shall reside in the same county voyage had been more than usually profitable, and his share, he said, would ena-

ble him to start in business. "Come what will," he concluded, "Till never leave my dear mother and Mary again while we live. They're happy now, thank God! and it shall be the aim of my life to keep them so."

He urged me to come and see him and his now happy family, and bring my friend; and then invoking upon us the blessing of Heaven, he wrong my hand, and turned quickly away, to conceal the emotions he cared not to display. Ah! such is life, in this world selfish and unselfish humanity," mused I.

#### RELEASED PRISONERS.

Under the caption of "Released Prisoners," we commented last week upon the barbarous treatment of our heroes who fall into rebel hands. Now we can more than confirm our strictures by the testimony of an eye-witness who enjoys a national credibility. We allude to Miss Dorothea Dix, (sister of Major General Dix) the guardian angel of our hundred hospitals, a glorious woman in a sublime cause. She has recently visited our returned prisoners, at the request of the Secretary of War.

"I had just got the wharf," she says. when our flag of truce-boat, the City of New York, came in, and soon the poor fellows began to land, four hundred and sight! It was a regiment of skeletons!-Most of them had to be carried off on stretchers. Several died on the boat as they were lifted up. Nine died on the wharf lisping their gratitude to God that, after all their privations, they were permitted to die under the old flag! A maiority were so weak that they could scarcely speak, and in a hundred the mind was gone! The few who could tell the story said, they had been starved, systematicwater, so that they gradually lost their strength, and became skin and bone.-They were left exposed in cold weather to freeze. Such was their hunger that they give their blankets and shoes for food .-A majority of them had their feet frozen, and several of them had their feet and legs amputated, after their arrival in Baltimore. Besides, they were absolutely covered with vermin. I never saw such filth before. Some were delirious and could scarcely be managed. A thorough buth was immediately ordered. It was pitiable to hear their cries for "food," food !" "for God's sake give me something to eat!"

Our great strong surgeons, whom I never saw shed tears before, wept like little children in being obliged to deny their appeals, and confine their patients to a simple diet and a bath. Most of them The charge to the pastor was delivered by Rev had to be carried to the bath room. An attendant lifting him out of the bath, as ident dr. naving been frozen to that degree during the dreadful exposure of the winter."

Who can read this story of suffering without weeping bitter tears with the surgeons who ministered to their relief .-We, wonder not at Miss Dix, in writing t) a friend saying, 'Oh, Sir, stir up the time of ministerial service to three years was Administration to some adequate retalia. taken up, and after debate, it was agreed to— the decided advantages that have been tion for these awful crimes against humanity-and if that cannot be, stir up the people to send soldiers more freely than ever to conquer these savages, and secure protection through victory."

#### TEACHERS' INSTITUTE.

From the preparations that have been and are being made, the Institute, to be held at Millville, May 30th, bids fair for a complete success. An able corps of lec turers and instructors have been engaged. Profs. Allen, Morris, Harrison, the state superintendent, Hammond, Revs. Clime, Webber, and Hon. F. W. Ricord, Rich. ar Ison, Newlin, and several others are expected to be present and contribute to the interest of the occasior.

Let every teacher throughout the County, make it a point to be on hand. The people of Millville, ever ready in a good work, have kindly opened their doors for the free entertainment of teachers. Every live teacher will come forward to the work of self-improvement, while every dead one will stay away, fearful of coming to the light, lest his own deformity be made manifest. A good teacher is always waiting to impart what he knows for the benefit of others; while a poor teacher has nothing to impart, and hence he is never found at the exchange called an Institute, where ideas are interchanged.

Trustees are generally very reluctant to allow poor teachers the time for attending and institute, well knowing that they or the community receive but a scanty remnueration for money paid, even though their teacher should teach every day in the year.

It is rumored that Lee is falling back slowly and has been forced to evacuate his works. If this be true his total over-throw will soon be consummated.

Scull's Continental Coffee. The inquiry is frequently made by house eepers and others in these times of adultersted and deteriorated beverages, "Where shall we procure a good article of coffee at anything like a reasonable price." There are so many preparations sold for coffee, that to try them all would exhaust the patience of any one, if they should be so fortunate as to live through the dangerous experiment. Scull's Continental Coffee has been in use two years in thousands and Meade. The War News.

A detailed account has already been given of the eplendid aucoess with which Hancock's corps ashered in the dawn of Thursday morning, resulting in the capture of an entire di-vision and part of a brigade of the anomy, to-gether with a Major General, two Brigadier Generals, and from 30 to 40 pieces of artillery. We are now enabled to complete the account of the great battle of that eventful day. It will be remembered that at three o'clock on the morning of Thursday Gen. Hancock spiprised Gen. Grant of his great success and added "I have finished up Johnson, and am now going into Early." At half past seven he was still fighting with his accustomed persevering trepidity although a furious rain storm acc panied by heavy thunder and lightning placed new difficulties in his path. At that hour Warren's Corps, composing the centre of our army, also became brinkly engaged, the batteries of the enemy being opened in the mean-while and their shot and shell falling fast and uriously around the headquarters of Grant engaged, Hancock and Burnside on the left and front, and Wright and Warren on the right, the enemy fighting with the utmost obstinacy, but without being able to regain from our troops the ground they had taken or to prevent them from steadily advancing. At eleven o'clock there was a luli in the battle, with the excepceeded, our right wing was drawn back, and Gen Meade massed our forces upon the left and a vigorous attack was made there. At two o'clock it had been found impossible to dislodge the enemy from their position.' Lee ness tact, we notice that be has in his employ having formed his left in a strong position. his line being covered for its whole length by formidable breastworks. Later in the day Ewell's Corps attacked Hancock with furious energy, striving to reverse the success of that able commander in the morning, but without making any decided impression. Elsewhere the fighting was violent but indecisive until five o'clock in the afternoon, when it became ap-parent that the enemy were growing wenker. Towards dark, our centre for the first time, eccupied Spottsylvania village; and at dark

#### The Battles of the Union.

The intelligence at the opening of the present week is all of the most favorable character, and denotes steady and substantial progress, with nothing to detract from gained by our armies.

THE ARMY OF THE POTOMAC. At six o'clock on Friday evening, the 13th inst, Gen. Grant forwarded a despatch to the War Department stating that the advance of Gen. Hancock that morning developed the fact that the enemy had fallen back four miles. On Sunday morning at 9 o'clock, Secretary Stanton issued a bulletin, saying that he had received an made by the Fifth and Sixth corps to our left, and an attack was to have been made at daylight, but no sound of buttle had been heard from that quarter. This manœuvre, it was said, if successful, would place our forces in Lee's rear, and compel the capture of Dalton, comprision to retreat towards Lynchburg. The tions up to Thursday evening: Secretary adds that no cannon nor any sound of battle was heard during Saturday affords ground for inference that Lee had retreated during Friday night, and before the advance of the Fifth and Sixth corps. Finally, on Sunday evening Secretary Stanton issued another bulletin announce Stanton issued another bulletin announcing that despatches had been received from The flanking movement by McPherson was ad-Gen Grant up to seven o'clock that morning, which stated that there has been no engagement for the two days prior to that Messrs Whitecar and Weaver's tin store, time. An unofficial despatch from Washington, dated midnight, states that on Saturday evening, just before dusk, the rebels from his atronghold on the mountain. Kilpat made an attack on the position occupied by the Fifth Corps, principally with artil-lery, but were finally driven back with severe loss; the cannonading was furious for several hours. We lost a number of valuable officers and from two to three hundred men killed and wounded. After the repulse of the rebels one of the divisions of the Fifth Corps made a charge upon the enemy's position, and it is reported captured a rebel battery and a number of prisoners On Saturday night, Lee's forces were believed to be in line of battle about three miles beyond Spottsylvania Court House, in a southwesterly direction. Sheridan with his cavalry corps had arrived at Turkey Island and formed a junction with the forces of Gen. Butler.— Their timely arrival, Admiral Lee says in a despatch, will relieve our forces from sharpshooters, and facilitate the operations now in progress. Admiral Lee also adds, that Rich. mond papers of Saturday mention the death of Gen. J. E. B. Stuart, shot in battle. A despatch from Fortress Monroe further states, that Gen. Sheridan got inside of the rebel works at Richmond and could have taken the city had he been aware of Gen. Butler's position. In the expedition he destroyed a million rations, other stores, and rolling stock, &c., to the amount of \$10,000,000

On the contrary, the enemy continues to strengthen his works. It is fully expected, however, that a vigorous turning movement in the rabel lines. will complete the evacuation of the rebel lines without a battle.

The repose of to-day and yesterday is much needed by this army, exhausted as it is by marching and fighting. The mere measure ment of the map gives you no idea of the amount of marching the army has been compelled to do. Our line is six to ten miles in extent, and corps have been marched and countermarched from one wing to the other. This has ordinarily been done during the light, fighting and skirmishing during the day, so that the physical and moral powers of the army have been on the strain for the past twelve days. We have met throughout the most obstinate resistance, and have suffered much; but you will rightly credit the Army of the Potomac with a substautial success or the whole. The determination to crush out the rebel army is unflagging.

DRAFT TO BE ORDERED ON THE FIRST OF JULY.

It is the design of the Government to keer in the national forces until the rebellion i verthrown; and in order to provide against any inopportune reduction when the service of the hundred days' men ends, a draft to fill up their place, and all other reductions, will be ordered to take place on the 1st of July, by which time the new enrollments will be completed. No order is yet issued. EDWIN M. STANTON. Secretary of War.

The Methodist General Conference. The tenth day of the Conference was pened on Thursday, Bishop Baker in the hair. The Committee on Episcopacy reported that a Bishop has a right to divide district into two or more sections upon the decease of its presiding Elder, and appoint a minister over each part with full powers of presiding Elders; also, that there is nothing in the discipline to prohibit a presiding Elder from being stationed at the time he holds such office.-Adopted. The Committee on Book Concern, reported in favor of the publication of a paper at Cincinnati, in the Sweedish language, if it can be done without serious oss to the concern. Agreed to. The Committee on Sunday Schools, reported that in 1863, the church had 13,688 schools, containing 148,582 teachers, and 844,706 scholars. There were 70,000 tovisit the Wesleyan Methodist Conference of Canada, and one to attend the Methodist Episcopal Conference of Cansions were instructed to inquire into the WATER WHEELS! expediency of appointing a week of prayer. for the reception of members, the laying

For the West Jersey Pioneer. Ma. EDITOR :- As it is about time to plant Sorghum and sweetening being very high, I thought I would give a few hints to termers, on the planting and gathering of Sugar Cane. Farmers can raise their own sweetening far chesper and with less labor than they can their potatoes, or any other farm produce. I had about 6 acres of potatoes planted last year, and raised about two hundred bushels, small and large; the gallons. I planted it on one side of my cornfield which was stalk ground. The rows remuing north and south were four feet apart and east and west three feet, and the remainder of the field was planted with corn and served the same as the cane, but yielded only about 30 bushels of corn. I am satisfied that and that will raise forty bushels of corn will raise four barrels of sugar.

Before planting steep your seed till it begins to sprout, in nearly boiling water forty eight bours. Put but 6 or 8 grains in the hill, and cover about half an inch deep. It will come upshon and grow fast. The first hosing thin out to four or six stalks, according to the quality of the ground. Sundy or gravel soil is the best for sorghum. As soon as it gets ripe or a few of the heads have turned black, or as soon as the frost has killed it, it should be made up, the longer it stands at this stage the poorer it gets. A SUBSCRIBER.

SCULL'S CONTINENTAL COFFEE. This Coffee has been in the market

TWO YEARS, And is giving universal SATISFACTION Physicians using it pronounce it the most HEALTHFUL COFFEE IN THE MARKET.

Read the opinion of the Press. SCILL'S CONTINENTAL COFFEE.—THE HOUSEKEEPER'S FEBEND.—The general complaint of every good house-keeper at present, is the ruinous prices asked for an inferior quality of coffee. Various remedies have been resorted to without avail. Chemists have here-tofore tried their arts in vain to produce a palatable, wholesome substitute for the national drink.—Housekeeper-will action to learn that the Continental Coffee prepared by Wm. 2. Scull, and for sale at his depot, No. 132 Arch street, is an article of Coffee that is entirely free from injurious ingredients, and is highly recommended by eminent physicians. We have tried it, and found it to be the most delightful drink we have tasted since Coffee has become worth tis weight in gold. Be sure to give this Coffee a trial—it is equal to the best Java. It is now teing used by most of the hotels, and in thousands of private families.—Episcopal Recorder.

by most of the hotels, and in thousands of private families.—EPISCOPAL RECORDER.

THE POPULAR BRYERAGE ONCE MORE.—No one has any cause to complain of unsatisfactory Coffee. That complaint has been remedied, and it is within the power of every one now to drink their favorite beverage without the dread of fearing that it is adulterated poison. The coffee to which we refer we have used, still use, and intend to use, and therefore we speak knowingly. We refer now to the celebrated Continental Coffee, manufactured by Scull, and for sale everywhere. This Coffee is pleasant and palatable, is exhilarating, and leaves no depressing effects behind. It is used by our principal hotels, private boarding houses, and many of our most respectable families. We have had occasion to recommend it to a good number of our friends whilst travelling in the interior, and they, acting upon our advice, have tried it, and their verdict agrees with our own. The central depot for the sale of this coffee is at No 132 Arch street, but you can buy it of your family grocer. The price is much lower than that asked for other manufactures of not half its worth. Try the Continental.—Try it because it is the cheapest and the best, and when you fiave tried it you will not regree it. It comes to envenient packages, and may be sent by express to any part of the country. We mention this for the particular benefit of our readers at a distance.—

### U. S. 10-40 BONDS.

These Bonds are issued under the Act of Congress of March 8th, 1864, which provides that all Bonds issued under this act shall be EXEMPT FROM TAX. ATION by or under any state or municipal authority. Subscriptions to these Bonds are received in United States notes or notes of National Banks. They are TO BE REDEEMED IN COIN, at the pleasure of the Government, at any period not less than TEN nor more than FORTY YEARS from their date, and until their redemption Five Per Cent. Inte est will be paid in COIN, on Bonds of not over one hundred dollars annually, and on all other Bonds semi-annually.— The interest is payable on the first days of March and September in each year.

Sub-cribers will receive either Registered or Coupon Bonds, as they may prefer. Registered Bonds are recorded on the books of the U.S. Treasurer, and can be transferred only on the owner's order. Coupon Bonds are payable to bearer, and are more convenient for commercial uses.

Subscribers to this loan will have the option of hav ing their Bonds draw interest from March 1st, by paying the accrued interest in coin-(or in United States notes, or the notes of National Banks, adding fifty per cent. for premium,) or receive them drawing interest from the date of the subscription and depos t. As these Bonds are

Exempt From Municipal or State Taxation, their value is increased from one to three per cent. per annum, according to the rate of tax levies in va-

ious parts of the country. At the present rate of premium on gold they pay OVER EIGHT PER CENT INTEREST in currency, and are of equal convenience as a pernanent or temporary investment.

It is believed that no securities offer so great in ducements to lenders as the various descriptions of U.S. Bonds. In all other forms of indebtedness, the faith or ability of private parties or stock companies or separate communities only is pledged for payment, while for the debts of the United States, the whole property of the country is holden to secure the paynent of both principal and interest in coin. These Bonds may be subscribed to from 50 dollars

up to any magnitude, on the same terms, and are thus made equally available to the smallest lender and the largest capitalist. They can be converted in to money at any moment, and the holder will have the benefit of the interest.

It may be useful to state in this connection that the total Funded Debt of the United States on which in terest is payable in gold, on the 31 day of March 1864, was \$768,965.000. The interest on this debt for the coming fiscal year will be \$45,937,126, while the customs revenue in gold for the current fiscal year, ending June 30th, 1864, has been \$100,000,000 per an

It will be seen that even the present gold revenue of the Government are largely in excess of the wants of the Treasury for the payment of gold interests while the recent increase of the tariff will doubtless raise the annual receipts from customs on the same amount of importations, to \$150,000,000 per annum.
Instructions to the National Banks acting as low agents were not issued from the United States Trea. su y until March 26, but in the first three weeks of April the subscriptions averaged more than TEN MILLIONS A WEEK.

Subscriptions will be received by the First National Bank of Newark, N. J. First National Bank of Jersey City, N. J. First National Bank of Trenton, N. J.

AND BY ALL NATIONAL BANKS hich are depositaries of Public money, and all RESPECTABLE BANKS AND BANKERS throughout the country, (acting as agents of the Na tianal Depositary Banks,) will furnish further information on application and

BARLOW'S INDIGO BLUE. DEALERS and consumers of the above Celebrated Wash Blue, will please take notice that the Labels are litered to read

INDIGO BLUE, Put up at Alfred Wiltberger's DRUG STORE, No. 233, North Second St., Philadelphia. The quality of this Blue will be the same in every respect!

It is warranted to color more wa'er than twice the same quantity of Indigo, and to go much farther than any other Wash Blue in the market. It dissolves pertectly clear and does not settle on the clothes as most of the other makes do. One box dissolved in a half pint of water, will make as good a Liquid Blue as any that is made, at one third the cost.

As it is retailed at the same price as the Imitations and Inferior articles, housekeepers will find it very much so their advantage to ask for that put up at Wiltbergers.

All Blue put up after this date with Barlow's name on it is an imitation.

The Pine Tree Tar Cordial will purify the blood
and cleanse it of all scrofulous matter that is constantly breeding sores, iniernal, and exteanal. Saltrheum, sore legs and all skin diseases are especially
cured by Dr. Wishart's Pine Tree Tree Tar Cordial;
it is good to be applied internal and external in the
above cases, as it has great power to heal where it
comes in contact with the human fiesh.

Pine Tree Tar Cordial is a great remedy for chronic

thousands of children to a premature grave. It can
be cured by Dr. Wishart's Pine Tree Tar Cordial.

The Pine Tree Tar Cordial gives instantaneous relief in cases of asthma and hooping cough. It often
cures hooping cough before it runs half its course, as
it acts at once upon the phlegm and mucus and expels tuem from the throat, and the sufferer is relieved.
In case of asthma, use Dr. Wishart's Dyspepsia Pills
