The morning dawns—each patriot corps Has pressed the river's southern shore, And now they wend, in blaze of day, To fields of death, their winding way: But see! they half-now dawns the hour To test the strength of freemen's power,

Arise! brave men, awake! arise! Your deeds are seen by nations eyes. The line is formed-the word is given-Our ranks advance—the fee is riven— The battle's won-but next day's sun, Shall rise on hosts whose race is run.

Aye! In the wilderness they lie, With stiffened limbs, and sightless eye; With blood-stained cheeks, and matted hair, Tuey lie in tranquil slumber there. No trumpet's sound, no war dog's bay, Shall call them from their sleep, away; No mother's eye, no sister's face, Shall ever find their resting place.

Ten thousand graves shall mark the dell, Where Hancock fought, and Sedgwick fell; Ten thousand brave, true hearted men, Who sleep, shall never wake again. And let them sleep—no laureled dead Have ever found a holier bed; No kindred spirits, known to fame, Have ever left a brighter name.

THE SANITAR TOUMNISSION The following little story! taken from the Charleten decuty. April 24]

Away up in the table story of Hospital No. 3, and it war agreer of the ward, was seen one bay, an old lady sitting by the side of a mere lad, who was reduced to the yerge of death by chronic diarrhes. She was aplain, honest-hearted farmer's wife, her face all aglow with farmer's wife, her face all aglow with motherly love, and who, to judge from appearance, had likely never before traveled beyond the limits of her neighborhood, but now had come many a mile to do what might be done for her boy. In the course of a conversation she informed her questioner, that, "if she could only get something that tasted like home-some good tea, for instance, which she could make herself, and which would be better than that of the hospital—she thought it might save her son's, life." Of course it was sent to her, and on a subsequent visit she expressed thanks in a simple manner. quite in keeping with her appearance. Still she seemed sad; something was on her mind that evidently troubled her, and like Banquo's ghost, 'swould not down." At length it came out in a confiding, innocent way-more, evidently, because it was uppermost in her thoughts-that her means were about exhausted "I didn't think that it would take so much money; it was Jersey has discharged its obligations to the so much farther away from home than I National Government, as well as to itself had thought, and board here is so very and the dictates of patriotic duty. Mis Anna Pickens, the daughter of our former Governor, never consented to leave the city. Despite the representations of Gen Bearingard, she remained, braving

Lieutenant DeRochelle was on duty at Fort Sumter in the morning, and it was place at the residence of General Bonham, pliant, rushed to his rescue, and he was in the evening, at 7 o'clock. At the moment when the Epi-copal elergyman was asking the bride if she was ready, a shell fell upon the roof of the building, penctrated to the room where the company were assembled, burst, and wounded nine ckens. We cannot describe the scene that followed. Order was at last reestablished, and the wounded were removed, all except the bride, who lay motionless upon the carpet. Pickens, whose courage is known, was almost without consciousness, and Mrs. Pickens looked upon her child with the dry and baggard eye of one whose reason totters. Lieut. A slight flush rose for a instant to her pale cheek; it could be seen that joy the mastery. Lying upon a sofa, her bridal dress all stained with blood, her hair dishevelled, she had never been more

Mr. Dickinson to proceed with the ceremony When it was time for the dying girl to say yes, her lips parted several times, but she could not articulate. At last the word was spoken, and a slight foam rested upon her lips. The dying agony was near.— The minister sobbed as he proceeded with the ceremony. An hour afterward all was over, and the bridal chamber was the chamber of death. Lieut. De Rochelle has sworn to perish in hattle against the Yankees, and we are sure he will keep his oath. He has now a double motive to hate them and has own existence.

THANKSCIVING IN WAR.

The Pionas Office has been removed to Albertson's

Recently we called the attention of our readers to "The Moral Lessons of War." The President about the same time, issued a Proclamation calling upon patriots and friends of Union and liberty in the land to unite in thanksgiving and prayer to Almighty God for the suc cesses which have already attended our arms, and urging continued sincere prayers and relisuce upon Him, "without whom all human efforts are in vain," for future victories. We regard the Proclamation as most opportune, breathing a lofty spirit of patriotic devotion to our country, and unswerving reliance upon the God of battles. It has touched a cord in the great loyal heart of the Nation, and has met with a most sincere and devent response by the people. When we see rulers and people restoring the old primitive and puritan sense of dependance upon God, then we say there is cause for Thanksgiving in War. We attempt no commendation of war; at the same time, we faculties which Lieutenant General Ulysdo not say that, self-considered, it is only and ever a great and sore evil. Terrible as it is. yet life may have greater evils-anarchy is a greater-the dismemberment and destruction of this fair heritage is a greater-to live without a country, or a government, or an earthly sions, but with great self-control, the fruit future for ourselves and our children, is a of serious effort. His study of mankind all that renders life enjoyable or endurable is a greater-to pause just here and now in our national progress, and suffer our free institutions to fail, and the American name, with all its traditional glory, and all its fair promise that the responsibility of every measure unto oppressed humanity, to become an offence | necessarily falls upon the commander, and and scorn unto a gain-saying, or a disappointed world-all this is immeasurably worse than any evils war itself can bring.

We are thankful that this war is teaching us, once for all, and thoroughly, that our national aslvation depends neither on political sagacity, nor military strength; but on the protection of quences. Very rigid as a disciplinarian, that Arm that ruleth in Zion. Indeed, we have learned that all those material resources, and he vet wins the affections of his troops.social influences, which we counted as strength. His presence amid the battle-strife is the are, without the divine blessing, only so many earnest for double deeds of valor It is elements of destruction; and that all those not extravagant to say, that seldom has a bonds of national Union, that we pronounced country required more at the hands of a judissoluble-this broad communism of indusmilitary chief, and never was the duty trial and commercial interest-this grand geographical unity-this brotherhood of kin, and more conscientiously or more successfully cast, and race-this proud partnership in blessed performed Of Gen Grant it may be said memories and glorious hopes-that these, and whatsoever else have seemed bands of triple steel around our beloved Union, are yet only That Justice warrants, and that Wisdom as a spider's web when incensed Deity turns away from us the light of his countenance.

great philosophic necessity in our national progress-sure to occur at some time, best to occur now-hat it is only a mysteriously merciful despensation of Providence making out for us, show hamonds my the two present, and in the future an enduring and far more excellent giory. War is actually a blessing, in that it is the national antagonist of the sordid lust of gain. It calls into play other and higher socia! instincts-the craft, the subtlety, the guile of unscrupulous avarice give place to the self denial, the self-sacrifice, the chivalrous daring is still the less of two evils. Better a thousand times the wild torrent from the mountains. sweeping away the corn and the vines, where with human industry has clothed the lowlands. than the stagnant pool breeding deadly malaria! Even these blasts of war have quickened our better impulses. We feel now that life has nobler aims than to build fine houses, to drive fast houses, to beautify large estates and leave much wealth unto children. That courage, and manliness and patriotism, and the homage and respect of a world, are of more worth even than a monopoly of the cotton trade

Thankful are we that this war is developing an American manhood and womanhood full of old noble and heroic impulses, worthy of our glorious ancestry and traditions, in whose reck oning the accumulation of industry, the thrift of trade, the gains of commerce, yea, even the life and blood of the beloved, are only as the dust of the desert when the stake of the mighty game is a great philanthropic and christian nationality. We have before God an abiding confidence that our nationality will survive this assault and emerge from the conflict only more radiant and powerful. The whole history of our past is demonstrative in our behalf of Divine purposes of mercy; and all thoughtful prophecy of the future forsees for us a great mission of civilization and christianity to s redeemed yet oppressed world. We have indeed as small fear that we are to be permanently dissevered and destroyed, as that this well-rounded world will resolve to the old ne. buls, or the Copernican system go back again to chaos and night.

MEXICO.

The embarkation of the Archduke Maximilian, or as he is now called in Europe, the Emperor Maximilian I, for the New World, has at length put a stop to all speculation as to whether he would or would not, accept the offered crown. -By the latest advices we learn that he reached Madeira on the 29th of April, and that on the same day he continued his voyage to Vera Cruz. It is, therefore, likely that by this time he has reached Havana, and that we shall hear in a few more days that he has arrived in Mexico, and personally begun the work of annihilating the republican institutions and habits of that country, and of completing its conversion into a monarchy. -A hazardous undertaking. But let him proceed. He will soon learn that the opposition to the Empire is much stronger than was represented to him by the Mexican reactionists and the French Government, and that he has not been bidden to a bed of roses. It is only a question of time as to his hearing from the United States their understanding and enforce. ment of the Monroe Doctrine.

All the cavalrymen engaged behaved with distinguished gilantry and valor. We found the rebels strongly entrenched in the woods with heavy guns in position but, with every advantage on their side, they were badly beated, flying from the field in great confusion, Feaving their dead and wounded in our hands, and over one hundred prisoners.
Gregg maintained the unequal conflict from moon till 2 F. M., when Custer came up, formed his squadrons in line and charged their works. Gregg's command advanced at the tame time with a cheer. The frame of the machine has been altered at the end of the cutter bar, to enable the machine to pass over a larger swath of cut grass. It is now constructed to mow (frame of machine being detached) with naked cutter bar, and on two wheels instead of one, as before used. DR. MS LARTS PINE TREE TAR CORDIAL

Consumption has destroyed more of the hi

man family than any other disease, and the best physicians for many years have despaired of a cure or a remedy that would heal the lungs, but for more than two hundred year the whole medical world has been impress that there was a mysterious power and efficiency in the Pine Tree Tar to heal the lungs; therefore they have recommended the Tar Water, which in many cases had a good effect; but how to combine its medical properties so as to heal the lungs, has ever been mystery until it was discovered by Dr. L. Q. C. WISHART, of Philadelphia, Pa., the proprietor of Wishart's Pine Tree Tar Cordial, and has been put in bottles, patented by the United States government. We say to the afflicted that Dr. Wishart's Pine Tree Tar Cordial will produce the INVIGORATION OF THE DIGES-TIVE ORGANS, THE STRENGTHENING OF THE DEBILITATED SYSTEM, THE PURI FICATION AND ENRICHMENT OF THE BLOOD, which must expel from the system the corruption which scrofula breeds. While this is effected by the powerful alterative (changing from disease to health) properties of the Tar Cordial, its healing and renovating principle is also acting upon the irritated surface of the lungs and throat, penetrating to each diseased part, relieving the pain, subduting inflamation and restoring a healthful tendency. Let this tow-fold power, the healing and the strengthening, continue to act in conjunction with nature's constant recuperative tendency, and the

patient is saved, if he has not too long delayed a resort to the means of cure. PINE TREE TAR CORDIAL IS AN INFALLIBLE CURE FOR SORE THROAT AND BREAST. Dr. Wishart's Pine Tree Tar Cordial is great and effectual remedy for

INFLAMATION OF THE LUNGS.

INFLAMATION OF THE LUNGS INFLAMATION OF THE LUNGS. There is not a medicine discovered that has o much power to dissolve the thick mucous that stops the wind passages of the lungs as the Pine Tree Tar Cordial, which subdues the fever and inflamation that destroy the power and vitality of the lungs and consign the patient to the grave. We say to all whose lungs are affected, use Dr. Wishart's Pine Tree Tar Cordial with gaeat confidence, as it has restored thousands of cases to health that were hope-

The Pine Tree Tar Cordial will purify the blood
and cleanse it of all scrofulous matter that is constantly breeding sores, internal, and exteanal. Saltrheum, sore legs and all skin diseases are especially
cured by Dr. Wishart's Pine Tree Tree Tar Cordial;
it is good to be applied internal and external in the
above cases, as it hes great power to heal where it
comes in contact with the human flesh.

Pine Tree Tar Cordial is a great remedy for chronic

thousands of children to a premature grave. It can
be cured by Dr. Wishart's Pine Tree Tar Cordial.

The Fine Tree Tar Cordial gives instantaneous relief in case of asthma and hooping cough. It often
cures hooping cough before it runs half its course, as
it acts at once upon the phlegm and mucus and expels tyem from the throat, and the sufferer is relieved.
It case of asthma, use Dr. Wishart's Dyspepsia Pills

I ask all to read the following certificates. They are commen and women of unquestionable worth and reputation:

Dan Wisher:

Dan Wisher:

Dan Rise—I had a very dreadful cough and sore throat for one year, and my whole system was fast giving way, and I was prostated on my bed, with but little hope of recovering. My disease baffled the power of all medicines, and in a short time I must have gone to my grave; but, thank God, my daughterinlaw would not rest until she went to your store, No. 10 North Second street, and related my case to you, purchased one bottlefor your Pine Tree Tar Cordial, and I commenced to use it, and in one week I was much better; and, after using three bottles, I am perfectly well, a wonder to all my friends, for they all profounced me past cure. Publish my case if you think proper.

Mr. Ward says:—
Dz. Wishart—
Siz.—I had broughits inflamation of the lungs, shortness of breath and paipliation of the heart in their worst forms. I had been treated by several of the most eminent physicians in Philadelphia; but they could not stop the rapid course of my disease, and I had despaired of ever being, restored to health. I was trily on the verge of the grave. Your Pine Tree Tar Cordial was highly recommended to me by a friend. I tried it, and am thankful to say that, after using four large and one small bottles, I was restored to perfect health. You dan give reference to my house, No. 968 North Becond street, or at my Office of Receiver of Taxes. from 9 A. M. to 2 P. M., corner of Chestnut and Sixth streets.

JOHN WARD, Philadelphia.

Read the following from Utica:

DRAN SEME-I take pleasure in informing you, through this source, that your pine tree tar cordial, which was recommended for my daughter by Dr. J. A. Hall, of this city, has cared her of a cough of more than five months' standing. I had thought her beyond cure, and had employed the best of medical aid, without any benefit. I can cheerfully recommend it to the public as a safe and sure remedy for all those similarly affected, as I know of many other cases, besides that of my daughter, that it has entirely cured of long standing coughs.

Yours respectfully,

HEALTHFUL COFFEE

THE MARKET.

SCUL'S CONTINENTAL COFFEE. THE HOUSEKENFE'S FAIRING.—The general complaint of every good housekee per at present, is the ruinous prices asked for an infurior quality of coffee. Various remedies have been resorted to without avail. Chemists have heretotore tried their arts in vain to produce a palatable, wholesome substitute for the national drink.—Housekeeper. wil rejoice to learn that the Continental Coffee prepared by Wm. S. Scull, and for sale at his depot, No. 132 Arch street, is an article of Coffee that is entirely free from injurious ingredients, and is highly recommended by eminent physicians. We have tried it, and found it to be the most delightful drink we have tasted since Coffee has become worth its weight in gold. Be sure to give this Coffee a trial—it is equal to the best Java. It is now heing used by most of the hotels, and in thousands of private families.—Eriscopal Recorder.—No one has any

families.—Episcopal Recorder.

The Popular Beverage Once More.—No one has any cause to complain of unsatisfactory Coffee. That complain that heen remedied, and it is within the power of every one now to drink their favorite heverage without the dread of fearing that it is adulterated poison. The coffee to which we refer we have used, still use, and intend to use, and therefore we speak knowingly. We refer now to the celebrated Continental Coffee, manufactured by Scull, and for sale everywhere. This Coffee is pleasant and palatable, is exhibitating, and leaves no depressing effects behind. It is used by our principal hotels, private boarding houses, and many of our most respectable families. We have had occasion to recommend it to a good number of our friends whilst travelling in the interior, and they, acting upon our advice, have tried it, and their verdict agress with our own. The central depot for the sale of this coffee is at No. 132 Arch street, but you can buy it of your family grocer. The price is much lower than that asked for other manufactures of not half its worth. Try the Continental.—Try it because it is the cheapest and the best, and when you fiave tried it you will not regret it. It comes in convenient packages, and may be sent by express to any part of the country. We mention this for the patheniar benefit of our readers at a distance.—Sunday Mercury.
