"I am willing to admit as a general pro-

position, that laws conferring such explusive privileges either on individuals or corporations are unwise and inexpedient." Monopolies are deservedly odious; not on-

lies granted by the Tudors and Stuarts of England (when the crown exercised des potic powers incompatible with the principles of a constitutional Government) with cision of the Courts of New Jersey, and thuse granted by the legislature of certain of the Supreme Court of the United privileges for a limited time, to secure some great benefit to the country at large. The analogy between the two is very im perfect. The one was usually granted to court favorites for a currupt consideration, and was an odious burden on the Ogden, reported in ninth volume of Whetpeople without any compensating advantage to them. The one, also, was by vir tue of an illegal stretch of prerogative, and frequently granted in the teeth of right to navigate with vessels propelled parliamentary remonstrance. In my previous letter to you, I took a general view of the origin of the joint companies, and the principles which inducuced the people of New Jersey in adopting their peculiar system of internal improvements. I did not sufficiently for my own satisfaction vindicate the wisdom of their action at that epoch —thirty years

But lest I may be considered among those who stigmatise their policy as unwise and inexpedient, I propose through your columns to show that the policy adopted by New Jersey in 1830 is a wise and just policy, and incapable of any

proper impeachment.

1 thought that policy sound and judicious then, and I continue of the same opinion now; indeed, I think better of that policy now; I believe that, all things considered in the light of thirty years, experience; the action of 1881 was most wise in relation, however, to the concessions of " A Citizen of New Jersey," I must be

permitted to enter my protest. It is an abuse of lauguage to confound privilege, right or tranchise, purchased for a valuable consideration, with the udious monopolies granted to court favor-ices by the Luglish kings, when the preregative of the monarch was made to override the law of the land, the rights of treemen and the public welfare

"A Citizen of New Jersey" has clearly (through inadvertence, perhaps,) falleu ento this common error. And it is to coron your colums. I deny that the exclusive privilege granted to the New Jersey companies is a monopoly in that odious sense imputed to it by the "Litizen." it is simply a frauchise granted for a

timited time, and for a fair equivalent of annual rent.

made good his original plan. He knew that he had the advantage of Lee in resources of all kinds, in men and in sup plies, and that eventually he could over come Lee on any line of operations which he might choose.

But General Grant is not an inconsid erate and rash Commander-in-Chief He saw that to move toward Richmond by a route which Lee supposed he would take and which he had, therefore, powerfully fortified, would cost an unnecessary sac rifice of life. Hence, he chose another road to his destination, which Lee die not expect or wish him to take, and which he had not previously guarded.

It is all in vain for the McClellanites to compare their leader with Gen. Grant. The army under Major General McClel lan, two years ago, never fought a battle but on the defensive. Not in a single in stance was it allowed to assume the offensive. Its business was to await attackto hold its ground if it conquered, to fall back if it was vanqui-hed. Even when i repelled its focs, and swept in upon their broken ranks, as it did at Fair Oaks, on the 1st of June, 1862, it was not permit ted to take advantage of its success. but were held in check, though it is a!most certain, that had an immediate pursuibeen ordered, according to the desires of some of the corps commanders, Richmond would have been captured with little o no further fighting.

General McClellan's absurd system of carrying through a great aggressive cam paign on defensive principles, has given place to General Grant's policy completely the reverse. The policy of the latte: is that of motion, the former that of rest The one attacks, the other defends.-Grant's dominating element is vigor : Mc-Clellan's caution. Grant's disposition is to make the best of what he has: Mc-Clelian's to worky about what he has not Grant scorns an excuse; McClellan de lights in them. It has taken Grant only twenty seven days to reach the Chickshominy, through an almost continuous storm of battle, and in the face of line on line of most elaborate earthworks. while it took McClellan over fifty days to reach the same neighborhood, though finding in his way nothing but the weak works of Yorktown, defended by a few thousand, yet beseiged for a month!

### DR. WISHART'S PINE TREE TAR CORDIAL

best physicians for many years have despaired of a cure, or a remedy that would heal the lungs, but for more than two hundred years the whole medical world has been impressed that there was a mysterious power and efficiency in the Pine Tree Tar to heal the lungs; therefore they have recommended the use of Tar Water, which in many cases had a good effect; but how to combine its medical propertics so as to heal the lungs, has ever been mystery until it was discovered by Dr. L. Q. C. WISHART, of Philadelphia, Pa., the proprietor of Wishart's Pine Tree Tar Cordial, and has been put in bottles, patented by the United States government. We say to the afflicted that Dr. Wishart's Pine Tree Tar Cordial will produce the INVIGORATION OF THE DIGES-TIVE ORGANS, THE STRENGTHENING OF THE DEBILITATED SYSTEM, THE PURI-FICATION AND ENRICHMENT OF THE B.OOD, which must expel from the system the corruption which scrofula breeds. While this is effected by the powerful alterative (changing from disease to health) properties of the Tar Cordial, its healing and renovating principle is also acting upon the irritated surface of the lungs and throat, penetrating to each diseased part, relieving the pain, subduing inflamation and restoring a healthful tendency. Let this tow-fold power, the healing and the strengthening, continue to act in conjunction with naconstant recuperative tendency, and the patient is saved, if he has not too long delayed

a resort to the means of cure. PINE TREE TAR CORDIAL IS AN INFALLIBLE CURE FOR SORE THEOAT AND BREAST. Dr. Wishart's Pine Tree Tar, Cordial is

Sal trheum, sore legs and all skin diseases are especially cured by Dr. Wishart's Pine Tree Tree Tar Cordial, it is good to be applied internal and external in the above cases, as it hus great power to heal where it comes in contact with the human flesh.

Pine Tree Tar Cordial is a great remedy for chronic oroup and diptheria, which is sonding thousands and thousands of children to a premature grave. It can be cired by Dr. Wishart's Pine Tree Tar Cordial.

The Pine Tree Tar Cordial gives instantaneous relief in cases of asthma and hooping cough. It often cures hooping cough before it runs hall its course, as it acts at once upon the phlegm and mucus and expels tuem from the throat, and the sufferer is releved. In case of asthma, use Dr. Wishart's Dyspepsia Pills with the Cordial, as they have never been known to fail to cure that disease. IS A GREAT REMEDY FOR SCROFULA

I ask all to read the following certificates. They are from men and women of unquestionable worth and reputation:

DR. Wishart:

My disease baffled the power of all medicines, and in a short time I must have gone to my grave; but, thank God, my daughter in law would not rest until she went to your store, No. 10 North Second street, and related my case to you, purchased one bottle of your Pine Tree Tar Cordial, and I commenced to use it, and in one week I was much better; and, after wing three bottles, I am perfectly well, a wonder to all my friends, for they all pronounced me past cure. Publish my case if you think proper.

To THE PUBLIC.

Thirty years ago I was in the last stages of Pulmo nary Consumption, and eiven up to die. I resided in Philadelphia, and Dr. Josedh Parrish, then of this city, ordered me to Moorestown, N. This was my native place, where all my tamily lived and had died of consumption. Dr. Thornton, who attended my father i. his last illness, was called, and gave me one week to fix up my afairs. He had seen all my family go that way, and thought I was to go. too. Then I begrid of the remedies I now offer to the public, which cured me. They soon ripened the matter on my lungs, and I would spit off more than a pint of offensive y flow natter every morning. As soon as that began to subside, my cough, fever, pain, nght sweats—all began to leave me, and my apetite became so great nat it was with difficulty I could keep my on eating not much. I soon gained my strangth, and I have been growing in flesh ever since. For many years I have enjoyed uninterrupted good health, keeping the liver and stomach heal by with the seawed Tonic and Mandrake Fills, as I am of a bilious temperament. My weight it two undered and twenty pounds on my recovery peo, be world sead for me far and near, to see if their cases were like mine. For this airpose I pay processional visus in the large cities. The consumptives wish to see the one that makes these medicines, and who was cured of consumption by them. To make new lungs is impossible; but cavities in the lungs and chronic ulcerations of the rought at tubes can be mealed. Such cases are dying hourly under the ordinary treatment of physicians. majust such are cure by the proper use of schenck's Pulmonic Syrup, Seawed Tonic, and Mandrake Fills I am now a healthy man, with a large cavity in the middle lobe of the right lung, the lower lobe very such hepatized and complete adhesion of the pleura. The left lung is sound, and the upper lobe of the right lung is in a tolerably healthy condition. The great reason why physicians do not cure constitution is they try to do too much; they give medicines to stop the cough, to stop chill, to stop night sweats, eetic fever, and dy so defined, they derange the whole ligestive powers, locking up the secretions and eventually the patient dies. After I make a careful-xamination of the patient dies. After I make a careful-xamination of the patient dies. Remove the subset in the Newkirk. Daretown,
