But it matters little with the opposition press whether we owe the larger or the lesser sum. They set up the same howl of anguish and despair, and prove by figures that the road to Paradise for their country with very little success. Sup does not lie through the Holy Land, it pose they try dying for it! is possible to prove by figures that the road to our national ruin is straight through the national debt. But despite cial grounds as solid as the patriotic in- nou stinct which makes every loyal man desire to aid the Government in its struggle with

Let Copperheads growl over this result of in creased national wealth, and continue to decry the value of our loans. Since 1860, the growth of the loyal States in every class of wealth has been fully equal to that of any former time, and the nation has just beyon its career of development Immigration is greater than at any other period; our railroads, mines, manufactures. have flourished in a manner unprecedented in the history of the world, while the destruction of property by the war has fal-len on the rebellious States in ten-fold greater measure than upon those which have upheld the old flag.

There have been financial Copperheads in Great Britain as well as in this country. When in January, 1693. the first loan of a million pounds sterling was made, they prophecied the downfall ral votes of other States not ratify the decision of the English government. Neverthe- Thither the Faithful will make their pilgrimless, trade flourished; wealth increased; the nation became richer and richer. Then the debt swelled, under the first William Pitt, to a hundred and forty millions. The American war left them with an additional hundred millions. Then England was given over! But strange the patient persisted in becoming stronger and more blooming in spite of all the diagnostics and prognostics of State physicians. She was actually more prosperous with a debt of a hundred and forty millions than with a debt of fifty millions. so she was visably more prosperous with a debt of two hundred and forty millions than with a debt of a hundred and forty millions. The beggared, the bankrupt journed to meet in the lecture room of the Secsociety, met all its obligations, and grew richer and richer. To day they find it easier to pay the interest of eight hundred millions than their ancestors did, a century ago, to pay the interest of eighty millions: Taxation is constantly becoming lighter and lighter, yet still the Exchequer is full.

No! ye Copperheads—our national debt is not making us a beggared and bankrupt nation. The ruined people are still voluntarily building railways, engines, tunnels, viaducts; they are multiplying fast manufactories of all kinds; in every city you see new streets, and squares, and markets, more brilliant lamps, more abundant supplies of water. In the suburbs of every great seat of industry, you see neat cottages imbosomed in their gay little paradise of lilacs and roses. The national debt is good. Will you subscribe?

The Bowentown Pair and Festiva I which was held at Bowentown lately, realized a handsome sum for the worthy object for which i was given. The President, Mrs. E. B. Swinney and ladies interested in the Fair, return thanks to the gentlemen of the Cornet Band of Bridgeton, for their interesting and valuable sarvices n that occasion.

COPPERHEAD JOURNALISM. COPPERHEAD JOURNALISM.

It is difficult to get at the exact value of Copperhead Journalism. How much worse off would this nation be if such sheets were not in existence? Of what worth are they? Can we state it in greenbacks? or postal currency? or stamps? or the new two-cent pieces? The moment we begin to look at this curious problem seriously, we see that we could do very blem seriously, we see that we could do very well without them. We do not feel them to be well without them. We do not feel them to be absolutely necessary to the existence of this nation. When we are in public danger, we do not look to them for succor. On the contrary when we are in trouble we find them confoundedly in the way with their everlasting faultfinding and their chronic croak.

Ladies Visiting Philadelphia Cannot fail to be pleased with the super! stock of summer coats, mantillas, &c., at the popular store of Iven's & Co., No. 23 South Ninth street, Philadelphia. Their styles this season are really superb, and their assortment even more extensive than at any previous season. We are fully warranted in this inference not only from what we have seen, but from what we hear stated by their patrons, who seem to be lavish not only in praising the ex quisite taste displayed, but in their comment upon the extraordinary cheapness of the goods they are selling. For anything in the way of coats and mantillas, Iven's and Co's is the point which ladies, if they consult their interests, cannot overlook in making their purchases.

The War News. PROTEST PERSONAC. LIGUNS CAPTURED.

Manuscrey: June 20.—A despetch Dress
the Headquarters of the army of the Potomac,
June 18th, 8 P. M., says there was fighting
yesterday. It mis very savers along the greatar part of the little.

A most determining affort was being made to
break the energy's lines at several points, but
little ground was gained, except on the left,
where the rebest were forced to fall back to an
issue line on account of the advanced position
gained by Ledlie's division of Buruside's corps.
On Friday afternoon, the line of the rebels
was nearly a semi-circle—the ends resting on was nearly a semi-circle—the ends resting on the Appoint of River, Petersburg being about the centre. At some points of the line our guns were within one mile and a half of the City, which can be destroyed at any time

The heaviest fighting occurred on the right sentre, where each Division of the 8d corps, as lifferent hours charged the rebel works in front, but without success. These works are of the strongest thurseter, and the rebel troops were massed behind them, and our men had to cross open helds of two to four hundred yards in extent to get at them, exposed to a gross fire from the batteries, so as to sweep the entire space. The last attack was made at five in the after-noon by the 3d division, under Gen. Mott, and the less was probably heavier than in any other attacks.

BERNUDA HURDARD, June 18th .- In all 21 pieces of artillery have been captured from the enemy in our assaults, upon the works at Petersburg, besides a large number of prisoners.

When the enemy withdrew his forces in front of Butler to reinforce Petersburg, Butler immediately sent out a force under Gens. Terry and Turner, which succeeded in destroyin and important bridge and railroad track near Wal-than Junction.

Early's (late Longstreet's) corps crossed the James River near Drury's Bluff in strong force, and was seen coming down the Petersburg turn pike as Gen. Butler's forces entered their works last evening. The despatch steamer Amanda Winants, whilst passing Wilcox's Wharf, was fired into from one side of James River by a rebel battery. Seven shots were fired at her, one of which passed through her hull near the water line. No one was injured. The James river is blockaded a few miles below Drury's Bluff to prevent a surprise from

GEN. SHEBIDAN'S EXPEDITION. The cavalry expedition of Gen. Sheridan is heard from, and while it failed in one of its objects, there does not appear to be any ground for Lee's claim of a rebel victory. The object of the expedition seems to have been the destruction of the railroads northwest of Richmond and the occupation of Gordonsville and Charlottsville, points of great strategic importance. The first encounter of the enemy occurred on the 11th near Trevilian Station, on the Virginia Central Railroad. This station is nine miles south of Gordonsville, and was covered by the enemy in strong force. General Torbert and Colonel Gregg, however, attacked with great gallantry, and after an obstinate contest, drove the enemy from successive lines of breastworks back upon the station. Gen. Custer, meanwhile, had reached the rear of the enemy, who, thus ensuared, gave way in great disorder, leaving their dead and wounded in our hands, together with twenty officers, five hundred men, and three hundred horses The following day, after destroying the railroad for a distance of several miles, General Torbert advanced in the direction of Gordon ville, where the enemy had concentrated and received reinforcements, principally in infantry. The enemy's position, however, was found too strong for assault, and but a part of our force became engaged, night ending the contest without result. The next day, Gen. Sheridan learning that heavy reinforcements were reaching the enemy, and finding his command destitute of ammunition, withdrew from the field, having lost during the progress of I entered upon my duties. THE VICTORY OF PE-

We have a series of five highly importan lespatches from Secretary Stanton, detailing the successful stages of the operations against Petersburg, being for Wednesday and Thurs Jay, the 16th and 16th insts. The sum of these despatches is as follows: Early as Wednesday morning, the 15th, Gen. Smith (Baldy) attackd Petersburg with 15,000 men. At that hour Gen. Hancock was not near enough to render Gen. Smith any aid. On the afternoon of the same day, at 4 o'clock, Gen. Smith reported that he had carried a line of rabel entrenchments, at Beatty's House, the colored troops assaulting and carrying the ride pits with great gallantry, but he had not yet carried the main line, and expected to assault it before dark. He describes the rebel artillery fire as very heavy. At this hour, Hancock had come up to within three miles of Smith. As he foreshadowed in this report, in the evening of Wednesday, at twenty minutes past seven o'clock, Gen. Smith assaulted and carried the principal line of the enemy's works before Petersburg, two miles from the city, taking 13 cannon, several stands of colors, and between 300 and 400 prisoners. At three o'clock in the morning of Thursday, the 16th, Cen. Hancock got up with his corps, and took position on Smith's left. There was heavy firing in that direction subsequently from five till six o'clock that morning, but no reports had been received from either Smith or Hancock. From his observatory at Bermuda Hundred Gen. Butler reported that the troops and trains of the enemy were moving out of Petersburg, across the Appomatox to the west side (nearest Richmond,) as if retreating. At one o'clock in the afternoon of Thursday, Gen. Butler telegraphs that in company with Gen. Grant and the en-gineer officers, be had gone over the conquered abitants of Hopewell Township, held in the kind, more difficult to dake than Missionary

REPORT. Of the County Secretary, J. C. Bowen, at the Semi-Annual meeting of the Cumberland Co. Sunday School Association held at Newport May 17th, 1864. Dear Friends of the Sabbath School Cause-In presenting this my first Semi-Annual Report of the progress of Sunday Schools in Cumberland County, I am aware that the position of County Secretary is a very responsible one, and much of the success of the cause depends upon the energy and faithfulness of the person occupying that position. The Sabbath School is indeed the "nursery of the church." where children are brought together to receive that instruction which are loudly called upon to do all in our their spiritual nature demands. Who of us realize and feel as deeply as we ought even at the present day, the great importance of the work, and who of us enter into it with that fervent zeal and glowing love which should characterize the dis- tively nothing for those around them .ciples of Christ. Heaven looks with favor upon the work, then should it not receive our earnest and prayerful attention? Christ when upon earth took little children up in his arms and blest them; then if they were objects of his care and love, should we not consider that the training of them is of vast importance; Jesus said, "Suffer the little children to come unto me and forbid them not, and, inasmuch as ye have done it unto one of these little ones, ye have done it unto me." Having received the appointment as County Secretary last November at the State Sunday School Association held at Jersey City: I felt my incompetency for the duties which would devolve upon me but feeling a deep interest in the work, and a strong love for the cause, I decided to accept the appointment, firmly resolved to do all in my power, so far as God should give me the ability. As soon as I could consistent with my engagements,

and with the former Secretary of the County. Also with the Town Secretaries asking them to be fatched, and stimulating them to earnestness and zeal in the good work, most of whom replied in a very satisfactory manner, expressing their interest and willingness to labor in the cause. I have also considered it my duty to visit as many schools as possible and to address them wherever a visit has been made, explaining when necessary the objects of the Association, urging teachers, superintendants, children and parents to the faithful performance of Cedarville. duty; and to gather all the children that it is possible into the Sabbath school. And after having visited about twenty schools, and learning what I can from the others, through the town secretaries and other friends of the cause, I can confidently say that I believe there is a lively and growing interest in the good work Yes, my friends the schools are receiving a new impetus, and our motto is onward and upward. Parents are feeling more the importance of sending their children to receive the instruction of faithful teachers. Not that we undervalue parental instruction, for that is of the first importance, but the Sabbath School in connection with that, is highly important tor we cannot do too much for those who are soon to take our places and act their part in life. It has been but comparatively a few years since Sabbath schools Resolved, That this Town meeting return of their services in furnishing men for the province and of the Legislature at its nof ten dollars, on all men subject to the draft.

better understood than at first and it is exerting a healthful influence all over the county, and the friends of the cause are now getting to appreciate it; for by coming together from all parts of the county, and reporting the progress we are making, and the plaus we are adopting; we encourage and stimulate each other to new life in the cause, and we leave the Association and enter again upon our respective fields of labor with fresh zeal, and a deeper love for the souls of those dear ones who are soon to go out into the world, and act for themselves, and very much of their future depends upon the training which they are now receiving. The work then is a most important and glorious one, and one which will bring its reward, if not in this world

it will in the world to come. Let us each then fellow-laborers give ourselves to the work more than ever. Let us give our time, our talents, our energy and our money for the carrying on of this great enterprise. Let us not be satisfied with the little that we have done, but by the aid of our Heavenly Father try to do more; for we are laborers in the vineyard of the Lord, and stewards in His cause, and wherever we turn our eyes we see very much to be done. Many warm-hearted friends of the Sabbath school have left their homes and kindred dear for the de fence of our country and homes; some have fallen, others are yet faithful soldiers in the army, as well as soldiers for Jesus. Those of us who remain at home power. Jur LETTER A FAMILY SEWING MACHINE is fast gaining a world wide reputation. It is beyond doubt that best, chea.est, and mos beautiful of all Family Sewing Machines yet offered to the public.—No other Family Sewing Machine has so many use a spliances for Hemming, Binding, Felling, Tucking, G thering, Guaging, Braiding, Embroidering, Cording & No other Family Sewing Machine has so much capacity for a great variety of work. It will sew all kinds of cloth, and with all kinds of thread. Great and recent improvements make our Family Sewing Machine most reliable; and most durable, and most certain in action at all rates of speed. It makes the interlocked stitch, which is the best stitch known—Any one, even of the most ordinary capacity, can see, at a glance, how to use the letter A Family Sewing Machine. Our Family Sewing Machines are finished in chasts and exquisite style.

The Folding Case of the Family Machine is a piece of cunning workmanship of the mest useful kind. It protects the machine when not in use, and when about to be operated may be opened as a specious and substantial table to sustain the work. While some of the Cases, made out of the choicest woods, are finished in the simplest and chastest manner possible, others are aderned and embellished in the most costly and expandenced and embelished in the most costly

the simplest and chastest manner possible, others are adorned and embellished in the most costly and su perb manner.
It is absolutely necessary to see the Family Machine in operation, so as to judge of its great capacity and beauty.

It is fast occoming as popular for family sewing as our Manufacturing machines are for manufacturing purposes.

The Branch Offices are well supplied with silk, twist, thread, needles, oil, &c., of the very best quality. Send for a Pamphlet.

MANNY'S PATENT COMBINED REAPER & MOWER

This machine is presented to the farming community as the best combined Reaper and Mower made. The targe number sold in this State are still in successful operation, and have proven the principles of its construction to be the ones to secure durability, ease of operation, adjustibility to uneven surfaces, closeness of swath, lightness of draft and freedom from side draft.

Important improvements have been made, (none owhich are represented in the cuts) to wit: In place

Important improvements have been made, (none of which are represented in the cuts.) to wit: In place of wooden cutter bar is now used one of the best quality of steel, with new and improved guards, and knives which will cut close and clean, and make the machine run much easier. The frame of the machine has been altered at the end of the cutter bar, to enable the machine to pass over a larger swath of cut grass. It is now constructed to mow (frame of machine being detached) with naked cutter bar, and on two wheels instead of one, as before used. A steel pitman, or connecting ron, is used in place of iron—Machine goes out of gear, knives standing still, when backed. Grain platform has been so altered that throwing off by hand is much easier than formerly.

A COMPLETE SELF-RAKING ATT SCHMENT. A COMPLETE SELF-RAKING ATT. CHMENT.

Has been affixed, which two seasons use, in all kinds of grain, has proven to be reliable. By means of a rake carried around the platform, the grain is at regular intervals swent off at the side, out of the way, in a handsome, compact sheaf. The driver can alter the working of the ruke at will, to suit thin spots.

Farmers, if you want a reliable combined Machine, you will find it in this machine, which I am prepared to warrant to the fullest extent. It is built of the best materials, by good experienced mechanics, and will give the farmer a full equivalent for his money.

Price at Harrisburg, without self-raker, \$140.

"with self-raker, \$165.

Persons wanting a single Mower, will find the uest to be "The Farmer, ine's Patent." which I am offering for sale: and will have a limited number only to furnish to those wanting. It is all iron and steel, with two driving wheels, steel cutter bar, flexible. It draws from the ground, will cut on very uneven surfaces,

DENTAL CREAM, For Cleansing, Whitening and Preserving the Teeth
This article is prepared with the greatest care upon
scientific principles, and warranted not to contain
anything in the slightest degree deleterious to the
teeth or gums. Some of our most eminent dental
surgons have given their sanction to, and cheerfully
recommend it as a preparation of superior qualities
for Cleansing, Whitening and Preserving the teeth;
it cleans them readily, rendering them beautifully
white and pearly, with out the slightest injury to the
enamel. It is healing to the gums where they are
ulcerased and sore. It is also an excellent disinfector for old decayed teeth, which are often very offensive. It gives a rich and creamy taste to the mouth.
Cleansing it thoroughly, and imparting a delightful
fragrance to the breath.

PREPARED ONLY BY A. HAWLEY & CO., N. W. Corner 10th & Lombard streets, Philadelphia And sold by all Druggists. PRICE 25 CENTS. TESTIMONIALS.

TESTIMONIALS.

The following opinion of Dr. White, as to the high esteem in which he holds the Dental Cream, must be sufficient evidence of his value; to quote, of his yestimonials in detail is needless, concinting ourselves by simply giving the names and addresses of persons who speak of its excellency for the teeth.

Having carefully examined A Hawley's Bolidified Dental Cream," I hereby cheerfully recommend it to the public generally. It is an excellent preparation for cleaning and preserving the teeth, and can be used by all persons with the utmost confidence, as its properties are perfectly harmless. Besides preserving the teeth, it promotes a healthy action to the gums and imparts a pleasantness to the breath.

SUMMER GOODS! DR. WISHART'S PINE TREE TAR CORDIAL

Consumption has destroyed more of the human family than any other disease, and the best physicians for many years have despaired of a cure, or a remedy that would heal the lungs, but for more than two hundred years the whole medical world has been impressed that there was a mysterious power and efficien cy in the Pine Tree Tar to heal the lungs therefore they have recommended the use Tar Water, which in many cases had a good effect; but how to combine its medical proper ties so as to heal the lungs, has ever been mystery until it was discovered by Dr. L. Q. C. WISHART, of Philadelphia, Pa., the proprietor of Wishart's Pine Tree Tar Cordial, and has been put in bottles, patented by the United States government. We say to the afflicted that Dr. Wishart's Pine Tree Tar Cordial will produce the INVIGORATION OF THE DIGES-

TIVE ORGANS, THE STRENGTHENING OF THE DEBILITATED SYSTEM, THE PURI FICATION AND ENRICHMENT OF THE BLOOD, which must expel from the system the corruption which scrofuls breeds. While this is effected by the powerful alterative (changing from disease to health) properties of the Tar Cordial, its healing and renovating principle s also acting upon the irritated surface of the lungs and throat, penetrating to each diseased part, relieving the pain, subduing inflamation and restoring a healthful tendency. Let this tow-fold power, the healing and the strengthening, continue to act in conjunction with na-

There is not a medicine discovered that has much power to dissolve the thick mucous that stops the wind passages of the lungs as the Pine Tree Tar Cordial, which subdues the fever and inflamation that destroy the power and vitality of the lungs and consign the patient to the grave. We say to all whose lungs are affected, use Dr. Wishart's Pine Tree Tar Cordial with gaeat confidence, as it has restored thousands of cases to health that were hopeessly given up to die.

IS A GREAT REMEDY FOR SCROFULA
The Pine Tree Tar Cordial will purify the blood
and cleanse it of all scrofulous matter that is constantly breeding sores, iniernal, and exteanal. Saltrheum, sore legs and all skin diseases are especially
cured by Dr. Wishart's Pine Tree Tree Tar Cordial;
it is good to be applied internal and external in the
above cases, as it hus great power to heal where it
comes in contact with the human flesh.

Pine Tree Tar, Cordial is a great remedy for chronic
oroup and diptheria, which is sending thousands and
thousands of children to a premature grave. It can
be cured by Dr. Wishart's Pine Tree Tar Cordial.

The Pine Tree Tar Cordial gives instantaneous relief in cases of asthma and hooping cough. It often
cures hooping cough before it runs half its course, as
it acts at once upon the phlegm and mucus and expels 'tyem from the throat, and the sufferer is relieved.
In case of asthma, use Dr. Wishart's Dyspepsia Pills
with the Cordial, as they have never been known to
fail to cure that disease.

I ask all to read the following certificates. They are from men and women of unquestionable worth and reputation:

DE. WISHAAT:

DEAR SIR—I had a very dreadful cough and sore throat for one year, and my whole system was fast giving way, and I was prostated on my bed, with but little hope of recovering. My disease baffled the power of all medicines, and in a short time I must have gone to my grave; but, thank God, my daughterinaw would not rest until she went to your store, No. 10 North Second street, and related my case to you, purchased one bottle of your Pine Tree Tar. Cordial, and I commenced to use it, and in one week I was much better; and, after using three bottles, I am perfectly well, a wonder to all my friends, for they all pronounced me past cure. Publish my case if you think proper.

No. 1321, Wylle street, Philadelphia.

Mr. Ward says:—

Dr. Wishlart.—

Sir.—I had bronchitis inflamation of the lungs, shortness of breath and palpitation of the heart in their worst forms. Fhad been treated by several of the most eminent physicians in Philadelphia; but they could not stop the rapid course of my disease, and I had despaired of ever being restored to health. I was truly on the verge of the grave. Your Pine Tree Tar Cordist was highly recommended to me by a friend. I tried it, and am thankful to say that, after using four large and one small bottle; I was restored to perfect health. You can give reference to my house, No. 988 North Second street, or at my Office of Receiver of Taxes, from 9 A. M. to 2 P. M., corner for Chestnut and Sixth streets.

JOHN WARD, Philadelphia.

Read the following from Utica:

Dr. Wishhart:

Dran Sm.—I take pleasure in informing you, through this source, that your pine tree tar cordial, which was recommen led for my daughter by Dr. J. A. Hail, of this city, he scared her of a cough of more than five months at inding. I had thought her beyond cure, and had employed the best of medical aid, without any benefit. I can cheerfully recommend it to the public as a safe and sure ramedy for all those similarly affected, as I know of many other cases, besides that of my daughter, that it has entirely, cured of long standing coughs.

Yours respectfully,

JOHN V. PARKER,

Daguerrean Artist,

Dr. G. A. F. STER,

160 Geuese street, N. F. The above are a few among the thousands which this great remedy has saved from an untimely grave

We have thousands of letters, from physicians and druggate, who have prescribed and sold the Tar Cordial, saying that they have never used or sold a medicine, which gave such universal satisfaction. The Pine Tree Tar Cordial will cure Coughs, Sore Throat, and Breast, Bronchitts, Asthma, Hooping Cough, Dipthera, and is also an excellent remedy for diseases of the Kidaeys and lemale complaints. Chemists have heretofore tried their arts in vain to produce a palatable, wholesome substitute for the national drink.—
Housekeeper- will rejoice to learn that the Continental Coffee prepared by Wm. S. Scull, and for sale at
his depot, No. 132 Arch street, is an article of Coffee
that is entirely free from injurious ingredients, and
is highly recommended by eminent physicians. We
have tried it, and found it to be the most delightful
drink we have tasted since Coffee has become worth
its weight in gold. Be sore to give this Coffee a trial

The Populas Blurelge One More.—No one has any cause to complain of unsatisfactory Coffee. That complaint has been remedied, and it is within the power of every one now to drink their favorite beverage without the dread of feering that it is adulterated poison. The coffee to which we refer we have used, still use, and intend to use, and therefore we speak knowingly. We refer now to the celebrated Continental Coffee, manufactured by Scull, and fer sale everywhere. This Coffee is pleasast and palatable, is exhibitantiae, and leaves no depressing diffect behind. It is used by our principal hotels, private boarding houses, and many of our most respectable families. We have had obeasion to recommend it to a good number of our friends whilst travelling in the interior, and they, acting apon our advice, have tried it, and their verdict agrees with our own. The control depot for the sale of this coffee is at No. 122 Arch street, but you can buy it of your family grocer. The price is much lower than that asked for other manufactures of not half fits worth. Try the Continental.—Try it because it is the cheapest and the best, and when you flave tried it you will not regret it. It comes in convenient packages, and may be sent by express to any part of the country. We mention this for the particular benefit of our readers at a distance.—Sundy Mercer. FREPARED BY

An Interesting History

DR. SCHENCK'S OWN CASE, WHILE LABORING UNDER CONSUMPTION, And how his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills act on the System, in Curing that Disease, and the GREAT SUCCESS ATTENDING IT

The above is a correct likeness of Pr. Schenck taken many years ago, after he had recovered from Consumption, by a course of his "Schenck's Pulmonic Syrup." The likeness, although it is does not represent him anything like as bad as he was at the worst, yet it is in strong contrast with the hale and visorous looks of the portrait below, which is the tuc likeness of him at the argent time. The contrast between these two portraits is so great that many would not believe them to be the same person. Yet there are hundreds of persons in and around Philadelphia, who will recognize both portraits to be true representations. When the first was taken, he weighed 167 pounds; at the present time his weight is 220 pounds.

Naw York, Wednesday, March 30, 1864. TO THE PUBLIC.

New York, Wednesday. March 30, 1964.

TO THE PUBLIC.

Thirty years ago I was in the last stages of Pulmo nary Consumption, and riven up to die. I resided in Philadelphia, and Dr. Josedh Parrish, then of this city, ordered me to Moorestown, N. J., a disance of nine-miles, which took me two days to get there—On many weeks. This was my native place, where all my family lived and had died of consumption. Dr. Thornton, who attended my father in his last illness, was called, and gave me one week to fix up my afairs. He had seen all my family go that way, and thought I was to go. too. Then I heard of the remedies I now offer to the public, which cured me. It seemed to me that I could feel them penetrating my whole system.

They soon ripered the matter on my lungs, and I would spit off more than a pint of offensive yellow matter every morning. As soon as that began to subside, my cough, fever, pain, night sweats—all began to leave me, and my appetite became so great hat it was with difficulty I could keep from eating too much. I soon gained my strength, and I have been growing in flesh ever since. For many years I have enjoved uninterrupted good health, keeping the liver and stomach healthy with the feaved Tonic and Mandrake Pills. as I am of a bilious temperament. My weight is two hundred and twenty pounds. On my recovery people would send for me far and near, to see if their cases were like mine. For this purpose I pay professional visits in the large cities. The consumptives wish to see the one that makes these medicines, and who was cured of consumption by them. To make new lungs is impossible; but cavities in the lungs and chronic ulcerations of the hourly under the ordinary treatment of physicians, and just such air cure i by the proper use of Schenck's Pulmonic Syrup. Scaweed Tonic, and Mandrake Pills.

I am now a healthy man, with a large cavity in the middle lobe of the right lung, the lover lobe very

rified; it is diseased the same as the diseased matter in the system; but get the apparatus in order, the liver and stomach, and give it pienty of nurishing food it will make new blood, which will take the place of liver and stomach, and give it pienty of nurshing food it will make new blood, which will take the place of the diseased.

Schenck's Pulmonic syrup is one of the best preparations of iron in use, it is a powerful tonic of itself, and when the Seaweed I onic dissolves the mucus in the stomach, and it is carried off by the aid of the Mandrake Pils; the Punmonic Syrup is made into blood. This is the only way to cure consumption.—
If I cannot get a good appetite, and food does not digest, I cannot cure the patient. Never mind the cough; remove the cause an it will stop of itself.—
This is the most trouble I have with my patients in my room. They say, "Doctor, I teel stronger; I can eat; my night sweats are better, and I feel better every way, but my cough is so bad yet;" and they are astonished to hear me say that does not matt.; remove the cause and the cough will stop of itself. Schenck's Seaweed creates a good appetite in about nine days, when there is no lung disease, unless the liver is so congested that the Mandrake Pills cannot unlock the ducts of the gall bladder in that short space of time, in order to allow the stale bile to pass off. Keep the liver and stomach healthy and there is less danger of consumption or any other disease. It is hard to take cold when those organs are healthy. Those that are billiors; low spirited, dreary, feeling stupid coated tongue, poor appetite, nervours, stomach full of wind, every thing that is eaten lies heavy, loss of memory, try one bottle of SCHENCK'S SEAWEED TONIC and one box of SCHENCK'S SEAWEED TONIC and one box of SCHENCK'S MANDRAKE PILLS. It is only a cost of one dollar and twenty five cents, with full directions. This is sufficient, in many cases, to satisfy what the medicines are. Frequently one bottle makes a great change in the system. Any person that enjoys ordinary figelith, by usiny the Sea-

PILLS. It is only a cost of one donar and twenty avecents, with full directions. This is sufficient, in many cases, to satisfy what the medicines are. Frequently one bottle makes a great change in the system. Any person that enjoys ordinary lighth, by usiny the Seaweed Tonic and Mandrake pulsoccasionally, must get the digestive organs in such a healthy wondition that they become fleshy. I can produce a number of my old consumptive patients now enjoying good health, weighing nearly 260 pounds. I will conclude by relating three cures. I nave made in New York, and which are all different, and with any who feels any interest in the matter to visit them. First is Mrs. Farlow, residing then at No. 107, 107, 140 uston street. Her husband called upon me at my room, 32 Bond street, and wished me to call and see her. He said I could do no good; that he had had all the best medical attendance, and all said she was too far gone with consumption to be cured; but she had heard of some great cures I had made, and he desired to gratify her wishes. I called, and found her lying confined to her bed in the last stage of bronchial consumption, and without doubt must have died soon. I examined her lung, found both bronchial tubes very much affected but no cavities had formed, her cough was very severe, her spit box was half full of thick juss. Pulled 146, legs swollen, very much; and worse than all, she had chronic diarrhices. Here bowels half been moved eleven times that day. I told her that she had lungs enough to be cured, but that this diarrhea has been of long s'anding, and her stomach was in such a ulcerated condition she was in, and I could not last long in the coulditon she was in, and I could not last long in the coulditon she was in, and I could not last long in the coulditon she was in, and I could not last long in the coulditon she was in, and I could not last long in the could of, her appetite had returned and she could sit up in Ded and est, her dinner. She is how well, and gave me a long certificate, certified to by

Dr. Dowling.

Mrs. Bartholomow, 83 West Forty-litth street, came so my rooms with a tumor on her liver. She was low topitted, skin sallow, tongue toated, bowel costive, no appetite, and fast sinking into the grave. The said thinor had been running ever fourteen years I gave her Syrup, Tonic, and Pills, and told her to take them just as the directions were printed. She came back to my rooms, 32 Bond street in two weeks, somewhat better; her tongue had begun to clean a little shound 186 edges, her skin whites and her eyes brighter and the tumor discharging very offensive matter, much faster than 11 had ever done before. She kept gradually improving, and in about two months she came to my rooms very much frightened, saying that the tilmor had almost stopped running, and was healing up, and that every doctor had told her that if it eyer healed it would cause her death. I told her that the discharthad had all fifther system, and nature would had the firer up. They are now healed, and have been for about a year, and she is as hearty and rabust a woman as you will find in aday's walk. She is gird for any ene to call on her, and takes grad parasto yis any one to call on her, and takes grad parasto yis any one that she hears has anything like her crase, and tries to get them to come and see me. The next case is Missageofield, from Stanfert, Conn. Mrs. Bartholomew got her down to stanfert the conn. And the stanfert the conn. Stanfert, conn. Mrs. Bartholomew got her down to stanfert the grad that a stanfert the grad the stanfert than a stanfert the grad that a s Dowling.
Mrs, Bartholomew, 83 West Forty-fifth street, came

think will leave her before June. I should be a would be of great interest to some unprejudent paysician to visit these cases, particularly him beliefly, or any of them who have been cured by my medicules. They are numerous in New York; but the above there all differ from each other; and if my medicines are doing what I represent they are, they should have the credit and the afflicted know where and how they be cured.
