AN ALLEGORY FOR THE BENEVOLENT. BY REV. A. A. WILLITS.

"Sweet brooklet, ever gliding. Naw high the mountain riding, The lone vale now dviding, Whither away!"—Sir Robert Grant. In the cool and shadowy clough of a distant mountain, hard by a mossy spring a little brooklet had it birth; and with a pure heart, a generous nature, and a lively and cheerful spirit, it started upon its couse through the world, bent on a life of

activity and usefulness. One day, after it had reached the plain and was hurrying on with tinkling feet to bear its tribute to the river, it chanced to pass near by a stagnant pond. The pond

Hon. John T. Nixon.

We notice with pleasure that our high ly esteemed townsman has recently been elected Trustee of Princeton College.-The appointment is well deserved. Mr. Nixon having graduated at that Institution with high honor, and subsequently honoring his Alma Mater both in his professional and public career.

New Secretary of the Treasury. The Hon. William Pitt Fessenden has entered upon his duties as Secretary of the Treasury, and his policy will soon be developed. His most intimate friends state that he will adhere to Ex-Secretary Chase's plans, which we regard as a good beginning for the new Secretary.

PRINCETON COLLEGE.

At the commencement of this venera ble Institution, held last week. President Maclean announced that James Lenox, Esq., of New York, had contributed the munificent sum of \$35,000 to the endowment fund, thus swelling it to \$133,000.

The Honorary degree of D. D. was conferred upon the Rev. William C. Cattell, President of Lafayette College; the Rev. Samuel Miller, N. J.; Rev. Edward D. Yeomans, N. Y.; LL. D. Frederick S. Frelinghuysed, N. S.; Mercer Beasley, Chief Justice of New Jersey.

The Trustees have also elected the following persons to supply vacancies in their body, viz.: Hon. John T. Nixon, of New Jersey; Professor Henry, LL. D, of the Smithsonian Institute, Washington, D. G, and Rev. William H. Hornblower, D D. of Paterson, N. J.

During the prevalence of the storm on Saturday afternoon last. a large tree in Glasstown was demolished. The residence of Mr. John S. M'Gear was protected by a good lightning-red which struck and conveyed the fluid down to the ground, with but slight damage. Several persons in that neighborhood were stunned and paralyzed for some hours The new Episcopal Church was struck, the lightning passed down the steeple and damage to one of the pews and window.

Our old friend, James Maines some days since, left at our office a basket as the first precious offering of the county of of the largest and handsomest new pota- Cumberland to the sacred cause of constitutoes we have seen this year. Celebration of 4th of July. The fourth was celebrated in various parts

of this County. As we have given this week the addresses delivered in the grove on the reception of the Cumberland Grays, we have not space for a very extended report of other proceedings on that day. At sunrise guns were fired and the bells of the town rang. The day was a most delightful one, after the heavy rain of a few days previous Early in the day many had congregated near the corner of Commerce and Lauri streets where the procession formed about 10 o'clock and proceeded through the town to the grove, headed by the Marshals and the Bridgeton Cornet Band. The Cumberland Grays, were the most attractive feature of the ession. They numbered about 25 men. The exercises at the grove consisted of music by the band, invocation addresses &c..

Rev. Mr. Stewart of the Episcopal church offered an elegient and appropriate prayer. The Hon. John T. Nixon then gave the ad dress of welcome, in his usual eloquent manner; the following brief outline of which, will give some idea of its merits. It was listened to with profound attention Mr. Nixon said that his was the humble out pleasant task to release to our homes and hearts, the soldiers of the Republic, and the brave defenders of the country's banner, standing in that vast assemblage of citisens upon that memorable day, his memory travelled back over the past. He remembered the 4th of July 1776, on which day eig ty-eight years ago, a patriot Congress, in Carpenter's Hall in Philadelphia, announced to the civilized world the great truth, on which the liberties of mankind were now resting. Coming down to later times, he remembered the 8th day of May 1861, when he presided over a public meeting assembled in Grosscup's Hall, in Bridgeton, to witness the presentation of a banner to a noble company of volunteers, who had sprung to their arms at the first call of an imperilled country. That banner, the work of the fair fingers and the gift of the loyal hearts of the women of Bridge ton, was here again to day, and also the reward of that patriotic company. Then the banner bore no strange device. It was simply the red, white and blue-and the stars and stripes, your

natiinal ensign. Now it is covered all over with names, then unknown, but now historic. and glorious. He saw emblazened upon it Bull Run, so full of sad and bitter memories. He read there Gaine's Mills, where the gallant Randolph, Thompson, Tyler, Johnson, Blackson and Nichols fell. There was Crampton's Pass where Keen and Bacon gave their lives to the nation's cause. There too was Chantilly, made immortal by the death of Kearney. There was Antietam, Fredericksburg, Gettysburg, the wilderness, Cold Harbor and Spottsylvania, where Yearicks, and Stockton and Pew, passed away from earth. The twenty battle fields in cribed upon its silken folds, told more aloquently than words, how faithfully the company had redeemed their promise, to stand by the banner, to guard it, to fight for it, if needs be, to die for the cause, which it represented The speaker could not fail to see that they had not all returned. By the arrival of the steamsnip City of Balti-more at New York on Thesday, morning last, we are furnished with European news to ther 28d of June, including the cheering announcement that the rebel pirate Alabama, which went out to attack the U.S. steamer Kearsarge, at our previous advices, had been sunk by the latter after a brief engagement, and sixty-eight of the rebel officers and crew captured by the to have been hovering about picked up the \$96.00 pirate Captain Semmes, and some of the crew, Miss and conveyed them to Southampton. Why this assistance was rendered by a "neutral" ship, and why the English merchants took occasion to compliment the rebel captain with the offer of a public dinner, does not appear in our pres-ent accounts, but will be doubtless reached in future developments of British "neutrality."this rebel pirate, which has so long preyed upon our commerce has at last reached her rewent out to destroy. The following is a summary of the news:

On the morning of Sunday the 19th, at 10 80 the Alabama was observed steaming out of cherbourg harbor toward the steamer Kear-At 11.10 the Alabama commenced the action by firing with her starboard battery at a distance of about a mile. The Kearsarge also opened fire immediately, with her starboard guns, and a sharp engagement, with rapid firng from both ships, was kept up, both shot and shell being discharged. In the manœuvering both vessels made seven complete circles at a listance of a quarter of a mile.

At twelve o'clock the firing from the Alabama was observed to slacken, and she appeared to be making headsail and shaping her course for land, which was distant about nine miles. At half past twelve the rebel vessel was in a disabled and sinking state.

The Deerhound immediately made towards her, and in passing the Kearsarge was requested to assist in saving the crew of the Alabama When the Deerhound was still at a distance of two hundred yards the Alabama sank, and the Deerhound then lowered her boats and with the assistance of those from the sinking vessel of expiration of their term of service. FURTHER DETAILS.

Additional details are published of the fight between the Kearsarge and the Alabama; but The whereabouts of the Kearsarge appears

ment is that she had gone into Cherbourg, and sent several wounded men ashore to the hospital there. It was confirmed that no one was killed on board the Kearsarge, that only three of the crew were slightly wounded, and that the vessel was very little injured.

According to some accounts the Kearsarge had sustained considerable damage, her sides being torn open, showed the chain plaiting.—A despatch, however, from Cherbourg, where t is presumed the Kearsarge has arrived, says that she suffered no damage of importance, and that none of her officers were killed or wounded, and only three of her seamen wounded. The Kcarsarge captured sixty eight of the

officers and crew of the Alabama. The London Times is puzzled to know why Captain Semmes came out with a ship just returned fron a long cruise and much in want of repair, to encounter a foe larger, better manned better armed, provided as it turned out with some special contrivance for protection as likely to be as well handled as his own ship? The Times in its account of the action states that as the guns of the Alabama had been pointed for two thousand yards, and the second shot went through the Kearsarge, that was probably the distance at first.

The ship were never nearer than a quarter of a mile. The Alabama fired the quicker, in all about one hundred and fifty rounds. The Kearsarge fired about one hundred, chiefly 35 TONS OF SUMAC eleven inch shells. One of these shells broke the Alabama's rudder, and compelled her to hoist sail. By this time, however, after about an hour's work the Alabama was sinking and could only make the best of her way to Cher-

beurg.
To all appearance the superiority of the Kearsarge lay partly in her guns, and of course enabled her to move quicker and manœuvre more easily. There appears to have been surgeon, who is supposed to have gone to the bestom in the midst of his bleeding patients. Bracily an hour clapsed from the first shot to the moment when it become obvious that the vessel was sigking, when, indeed, the rudder was broken and the first were put out. When she was sinking Captain Semmes dropped his sword into the sea to prevent the possibility of its getting into their hands. The men were all true to the last. , They only ceased firing when the water came into the muszles of their guns, and as they swam for life all that

DIED.

Suddenly, on the 25th of June, at Bridgeton, IATTHIAS RICHMAN, son of Isaac J. and becca Potter, aged 7 months and 23 days. Dearest babe, thou hast left us!

Here thy loss we deeply feel; But 'tis God that hath bereft us,

He can all our sorrows heal.

Yet again we hope to meet thee, When the day of life i- fled; Then, in heaven, with joy to greet thee,

BAUGH'S RAW BONE

Baugh & Sons,

SOLE MANUFACTURERS,
No. 30, South Delaware Avenue, PHILADELPHIA.

This article has for many years enjoyed a high reputation as a manure of great efficiency and of unequalied permanence, and we scarcely deem it important in our semi-annual advertisement to say more than merely call the attention of buyers to it. But we will also state to farmers and Dealers in Fertilizers that it has been our constant aim to render our Raw Bone Phosphate more and more worthy of the full confidence of farmers, by the use of every facility at command and the aid of scientific skill, in essentially improving its qualities, and we have never allowed this purpose to be interfered with by the great and steady advance in the cost of all matters pertaining to our business throughout the past two years.

The price, of the Phosphate, packed in either Bags or Barrels is PHILADELPHIA.

\$60 per 2000 lbs, (3 cents a pound) Cash. No extra charge for Bags or Barrols.

The Raw Bone Phosphate may be had of any regular dealer in Fertilizers (to whom we advise farmers to apply,) or of the manufacturers and proprietors.

Manhood; how Lost, how Restored. Manhood; how Lost, how Restored.

Just published, a new edition of Dr. CULVER-WELLYS CELEBRATED ESSAY on the radical cure (without medicine) of Spermatorrhead, or seminal Weakness, Involuntary Seminal Losses, Informacy, Mental and Physical Incapacity, Impediment to Marriage, etc.; also, Consumetion, Efficient, and Firs; induced by self-indulgence or sexual extravagance. Price, in a sealed envelope, only six cents.

The celebrated author in this admirable essay clearly demonstrates, from a thirty years successful practice, that the alarming consequence of self-abuse may be radically cured without the dangers of internal medicine or the application of the knife—pointing out a mode of cure, at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This Lecture should be in the hands of every youth and every man in the land.

Jur LETTER A FAMILY SEWING MACHINE's fast gaining a world-wide reputation. It is beyond doubt that best, cheapest, and most beautiful of all Family Sewing Machine has so many useful appliances for Hemming, Binding, Felling, Tucking, Gathering, Guaging, Braiding, Embroidering, Cording &c. No other Family Sewing Machine has so much capacity for a great variety of work. It will sew all kinds of cloth, and with all kinds of thread. Great and recent improvements make our Family Sewing Machine most reliable, and most durable, and most certain in action at all rates of speed. It makes the in erlocked stitch, which is the best stitch known.—Any one, even of the most ordinary capacity, can see, at a glance, how to use the letter A Family Sewing Machine. Our Family Sewing Machines are finished in chaste and exquisite style.

The Folding Case of the Family Machine is a piece of cunning workmanship of the mest useful kind. It protects the machine when not in use, and when about to be operated may be opened as a specious and substantial table to sustain the work. While some of the Cases, made out of the choicest woods, are finished in the simplest and chastest manner possible, others are adorned and embellished in the most costly and superb manner.

It is absolutely necessary to see the Family Machine in operation, so as to judge of its great capacity and beauty.

It is fast oecoming as popular for family sewing as Jur LETTER A FAMILY SEWING MACHINE's

MANNY'S PATENT COMBINED REAPER & MOWER

This machine is presented to the farming community as the best combined Renper and Mower made. The targe number sold in this State are still in successful operation, and have proven the principles of its construction to be the ones to secure durability, ease of operation, adjustibility to uneven striaces, closeness of swath, lightness of draft and freedom from side draft.

from side draft.

Important improvements have been made, (none o which are represented in the cuts) to wit: In place of wooden cutter bar is now used one of the best quality of steel, with new and improved guards, and knives which will cut close and clean, and make the machine run much easier. The frame of the machine has been altered at the end of the cutter bar, to enable the machine to pass over a larger swath of cut grass. It is now coastructed to mow (frame of machine being detached) with naked cutter bar, and on two wheels instead of one, as before used. A steel pitman, or connecting roo, is used in place of iron.—Machine goes out of gear, knives standing still, when backed. Grain platform has been so altered that throwing off by hand is much easier than formerly.

A COMPLETE SELF-RAKING ATTACHMENT.

Has been affixed, which two seasons use, in all kinds A COMPLETISSELF-RAKING ATTACHMENT.

Has been affixed, which two seasons' use, in all kinds of grain, has proven to be reliable. By means of a rake carried around the platform, the grain is at regular intervals swent off at the side, out of the way, in a handsome, compact sheaf. The driver can alter the working of the rake at will, to suit thin spots.

Farmers, if you want a reliable combined Machine, you will find it in this machine, which I am prepared to warrant to the fullest extent. It is built of the best materials, by good experienced mechanics, and will give the farmer a full equivalent for his money.

Price at Harrisburg, without self-raker, \$140.

SCULU'S CONTINENTAL COFFEE.—THE HOUSEREFEE'S.

FRIEND.—The general complaint of every good house-keeper at present, is the ruinous prices asked for an inferior quality of coffee. Various remedies, have been resorted to without avail. Chemists have heretofore tried their arts in vain to produce a palatable, wholesome substitute for the national drink.—Housekeepers will rejoice to learn that the Continental Coffee prepared by Wm. S. Scull, and for sale at his depot, No. 132 Arch street, is an article of Coffee that is entirely free from injurious ingredients, and is highly recommended by eminent physicians. We have tried it, and found it to be the most delightful drink we have tasted since Coffee has become worth its weight in gold. Be sure to give this Coffee a trial—it is equal to the best Java. It is now being used by most of the hotels, and in thousands of private families.—Eriscopal Recoader.

oy must of the notes, and in thousands of private families.—EPISCOPAL RECORDER.

The Popular Beverage Once More.—No one has any cause to complain of unsatisfactory Coffee. That complain has been remedied, and it is within the power of every one now to drink their favorite beverage without the dread of fearing that it is adulterated poison. The coffee to which we refer we have used, still use, and intend to use, and therefore we speak knowingly. We refer now to the celebrated Continental Coffee, manufactured by Scull, and for sale exerywhere. This Coffee is pleasart and palatableate schildratting, and leaves no depressing effects behind. It is used by our principal hotels, private boarding houses, and many of our most respectable families. We have had occasion to recommend it to a good number of our friends whilst travelling in the interior, and they, acting nponour advice, have tried it, and their verdict agrees with our own. The central depot for the sale of this coffee is at No. 132 Arch street, but you can buy it of your family grocer. The price is much lower than that asked for other manufactures of not half its worth. Try the Continental—Try it because it is the cheapest and the best, and when you flave tried it you will not regree it. In comes in convenient packages, and may be sent by express to any part of the country. We mention this for the particular benefit of our readers at a distance.—Sunax Mercury.

The above is a correct likeness of Dr. Schenck taken many years ago, after he had recovered from Consumption, by a course of his "Schenck's Pulmonic Syrup." The likeness, although it is does not represent him anything like as bad, as he was at the worst, yet it is in strong contrast with the hale and vigorous looks of the portrait below, which is the true likeness of him at the present time. The contrast between these two portraits is ogreat that many would not believe them to be the same person. Yet there are hundreds of persons in and around Philadelphia, who will recognize both portraits to be true representations. When the first was taken he weighed 107 pounds; at the present time his weight is 220 pounds.

Thirty years ago I was in the last stages of Pulme nary Consumption, and given up to die. I resided in Philadelphia, and Dr. Josedh Parrishy then of this city, ordered me to Moorestown, N. J., a distance of nine miles, which took me two days to get there—On my arrival I was put to bed, and I there laid for many weeks. This was my native place, where all my family lived and had died of consumption. Dr. Thornton, who attended my father in his last illness, was called, and gave me one week to fix up my affair. He had seen all my family go that way, and thought I was to go, too. Then I heard of the remedies I now offer to the public, which cured me. It seemed to me that I could feel them penetrating my whole system.

They soon ripered the matter on my lungs, and I would spit off more than a pint of offensive yellow matter every morning. As soon as that began to subside, my cough, fever, pain, night sweats—all began to leave me, and my appetite bocame so great hat it was with difficulty I could keep from eating too much. I soon gained my strength, and I have been growing in flesh ever since. For many years I have enjoyed unint-rrupted good heatth, keeping the liver and stomach healthy with the Seewed Tonic and Mandrake Pills. as I am of a bilious tempera ment. My weight is two lundred and twenty pounds on my recovery people would send for me far and near, to see if their cases were like mine. For this nurpose I pay professional visits in the large cities. The consumptives wish to see the one that makes these medicines, and who was curred of consumption by them. To make new lungs is impossible; but cavities in the lungs and chronic ulcerations of the bronchial tubes can be healed. Euch cases are dying lourly under the ordinary treatment of physicians, and just such are cure I by the proper use of Schenck's Pulmonic Syrup, Seawed Tonic, and Mandrake Pills.

cavities in the lungs and chronic ulcerations of the bronehial tubes can be healed. Such cases are dying hourly under the ordinary treatment of physicians, and just such are cure I by the proper use of Schenek's. Pulmonic Syrup, Seawed Tonic, and Mandrake Pills I am now a healthy man, with a large cavity in the middle lobe of the right lung, the lower lobe very much hepatized and complete adhesion of the pleura. The left lung is sound, and the upper lobe of the right lung is in a tolerably healthy condition. The great reason why physicians do not cure consumption is they try to do too much; they give medicine to stop the cough, to stop chill, to stop night sweats, heactic fever, and by so doing, they derange the whole digestive powers, locking up the secretions and eventually the patient dies. After I make a careful examination of the patient with the Respirometer and find lungs enough left to cure, I direct the patient how to use the three remedies. Remove the cause and they will all stop of their wan accord. No one can be cured of consumption, liver complaint dyspepsia, catarrh, canker, ulcerated throat, unless the liver and stomach are made healthy. In New England—this canker, chronic catarrh, ulcerated throat, elongation of uvula, is more prevalent than in any other section of the country. This is frequently caused by a foul stomach. You may burn it out will caustic time and again, and all they will get is temporary relief Correc, the stomach and liver, and they will heal up themselves.

Good nutriton is the remedy. If you have any disease in any part of the body, it will remain there and decay more and more until you can get the stomach in the condition to digest food, and make new blood to take the place of the diseased matter. This is the only way to heal cavittes in the lungs and ulcerated bronchial tubes. Correct the stomach and liver, and nature will do the healing. Many persons have an dea that certain medicines are great purifiers of the blood. When blood is once diseased matter the inter system; bu
