TWO-HORSE LEVER POWER WU-HUNDE LEVER FUMER.

I WOULD call the attention of Farmers and others
to my TWO-HORSE LEVER POWER, which has
been throughly tested and proven to be, I think, a
power that must supersede all Endless Chain power
or the old Lever. It is of very Light Draught, and
can be moved from place to place readily, it being fixcan be moved from place to place readily, it being fixed on wheels with toutige &c., complete, and can be
placed in position for work in less time than any othor kind of power. The exceeding cheapness of the
machine is its greatest recommendation.

I would refer those in want of a good power to the
following persons:

IN MEMORIAM.

Lieut B. Birdsell, Co. H. 3d N. J. Cavalry.

Dead! Oh, God! but the blow falls hard,
Sending a thousand sharp thrills of pain,
Ouivering through heart-strings in many a breast
When we know that we never can see him again.
Little we dreamed when he said "good bye"
Winding kind words and good wishes from all,
Little we dreamed we should see him to-day
Lifeless and cold 'neath the funeral pall.

Dead! can we think it, ah! 'tis only too true
For to-day they have borne him away frem our
sight,
And under the sod in the old churchyard
They have lain him to rest through the grave's
long night.

With hearts full of sorrow fair women dropped flowers
As silent and sad they passed at his grave. As silent and sad they passed at his grave. While scores gathered round, each anxious to pay: The last tribute of love to our own fathin brave.

The last tribute of love to our own fath brave.

Dead! And we who so often have joined
In the song, in the dance, with him by our side.

Ever more must we miss him, our brother, our
friend,
But we'll never forget him whate'er may betide.

No! never! and as years wing their flight,
And the traitors' foul foot-prints fade out from our
shore,
We'll remember how bravely, how nobly he fought
For God and our Country, our Flag Evermore. For God and our Country, our Fing Evermore.

Nor will we forgot the brave comrades who now
Mourn with us for a friend and a loved leader!

For his sake to night we pledge each fair hand
To stand by you ever let what be the cost.

And now in return, one favor we ask.

Avonge him, avenge him, in blood let it be,
Let your aim to the rebel heart ever be true,
Strike for us, and for him, and for sweet liberty

The Crops-Official Reports.

The National Intelligencer gives the following summary of the forthcoming reports of the Department of Agriculture on the condition of crops in June:-

APPLES .- A good crop in the Eastern and Middle States, but not good in the Western, much bloom having fallen off without setting the fruit.

Peaches.-In the Eastern States the crop promises well; in the West it is almost totally destroyed, with many of the GRAPES .- Many were killed to the

snow-line on the first day of January; other, had the fruit buds more or less injured in the West, but still a fair crop is anticipated. WHEAT (WINTER.)—The growing condition of this crop is most excellent, except in Northern Wi-consin and Minne-

sota, where drought has prevailed and in one or two other localities, but it was severely injured by the cold of last February, where there was but little snow on the ground. The general injury from this cause is estimated at not less than thirty per cent. As the time approaches for harvesting, this crop, in the Eastern and Middle States, however, bids fair to be a superior one. SPRING WHEAT .- In amount this crop

## A Great Failure.

Congress adjourned sine die, without aking any definite action in the matter of declaring the Raritan and Delaware Bay Railroad a post and military highway, that body deeming the present law relative to military contingencies sufficiently competent for all practical purposes. The matter, was therefore, suffered to die out with its own fallacious uselessness Notwithstanding the gigantic efforts of the Hon. James M. Scovel, his forensic eloquence, and his opposition to the Camden and Amboy, backed by such marvelious men as the editors of the Paterson Press. Trenton Monitor and the South Jersey Republican. Congress could not, or would not, be convinced that any necessity existed for their action in reference to the issue. Members of that body in the early discussion of the question, had ventilated themselves eloquently and expansively; wireworkers were plentiful around Washington-the emissaries of Vanderbilt, George Law and the British-Rebel-Ram-Builders, were there, with the convincing proof to all hangers-on, that New Jersev was an autocratic State—and that her railas could be produced in our own country. road system was unconstitutional; but their As most imported articles of dress are liberality, mighty wisdom and labors were merely luxuries, the original resolution all thrown away, and the funds they exwould have largely covered the ground pended in their wild-goose chase would desired. ### A SINGULAR TRADITION.

Among the Seminole Indians there is singular tradition regarding the white man's origin and superiority. They say that when the great spirit made the earth he also made the men, all of whom were hesitated a moment, during which the water, agitated by the first, had become muddled, and when he bathed, he came out copper-colored; the third did not leap till the water became black with mud. and packages, and having felt the weight, chose the heaviest; the copper-colored man then choose the next heaviest, leavtus; the third gave the white man pens, ink and paper, the engines of the mind -the means of mutual mental improvement, the social link of humanity, the foundation of the white man's superiority.

#### WHEN WILL THE WAR END?

The answer has been correctly given, when the South is exhausted of men. The beginning of the end of that exhaustion is now being made to appear. And that not from conjectures at the North, but in the outspoken declaration of Southern newspapers. They call upon boys and old men to take the places of those who are needed in the battle-strife. As a general rule, their journals are very reticent touching millitary operations. Much more so than ours. This is one of those incidental proofs of the earnestness with which they prosecute the war. They mean to succeed, if they can. Hence, they keep their own counsels. They make important raids, and the first mention of them is in Northern papers. The very reverse is our experience. So eager are we for news, that our secrets leak out in advance.

But with all the care and secrecy of the South, they cannot conceal the fact that they are scant of men. Every day but increases the difficulty. Food they can get, and do get, somehow. But they cannot create men.-Their remorseless conscriptions are at an end-Some men must be left to till the soil, unless, forthsooth, in their insane zeal to prosecute the war, female labor be substituted. Two sources of supply on which the North relies, they are cut off from-immigration and colored people. As to the latter, they may be said to have them in abundance. But they dare not arm them. We have never apprehended any damage to the South from slave insurrections. Thus far there has been less disposition to disturbance from that cause than previous to the breaking out of the Rebeilion. But for active military operations the slave is of no avail. -They can and do dig in trenches, and such like work. But they do not go to the front. While we have not looked for their rising against their masters, we are well persuaded that those masters would not entrust them with arms .-Degraded as they are by reason of bondage, for Millville. At Millville we entered the cars they are still human beings, and would assert their manhood if they could. Yet the slave population must be fed, which abstracts so much from the support of a standing army.-And their support at the present time is the more burdensome, inasmuch as their labor is of little avail in the leading products of the

He wel knows that there is no possibility of his dupli He cannot afford to reinforce Johnson, nor can Johnson reinforce him, save in the case of in Georgia, that they give up the active defense of that portion of the country, and concentrate the broken fragments in Virginia.

The North has ample resources as to men. Five hundred thousand men, and twice five hundred thousand, can be called for and had. The half, or even the quarter, of five hundred thousand able bodied men, we regard as an impossibility for the South to raise. It is this insuperable difficulty which confines Lee withhis remedying it.

The want of men then must bring the South to terms. They cannot keep their armies now warfare are constantly reducing their number. No skillful generalship can provide against those contingencies General Grant's persistent course is test adapted to secure the great end in view. "Hard pounding this, gentlemen," said the Duke of Wellington to his officers, as he threw himself within one of the unbroken squares of his heroic infantry at Waterloo, "but we'll see who can pound the longest." The ability of that infantry to "pound the longest" on that day settled the fate of Europe for generations.

The Federal government have the men pound with the longest, and victory will as certainly crown its exertions as it did the Allied Powers at Waterloo. But the Government needs the men. Were the people of the North only half as in earnest, and half as patriotic. as the people in the South, we would answerthe question, "when will the war end'?" in six months time. But should the spirit of apathy and open opposition to the war continue, it may require many six months. Nor does the difficulty of an early close of the war lie only with those who oppose the administration and its measures. Many who style themselves good Union men exhibit a luke warmness, as to filling up the ranks of our armies, which is dispiriting to a patriotic mind. We would that all such should remember that a speedy termination is of vital moment to the interests of our country. President Lincoln and his Cabinnet have no more at stake than they have. Give the Administration the men, and with the blessing of Providence, they can dictate the terms of peace speedily.

Having entered the lines I was placed in the old Capital Prison at Washington, and while there became acquainted with allegiance we were released from the prison with the instructions that we must not be found friends. Leaving Washington I came to Phil adelphia and from there to New Jersey. But naintained a character untarnished for honesty and industry, as letters and the testimony of my friends will warrant. But my private conduct was very licentious. This was my besetting sin, and has continued most of my career When I arrived in New Jersey I went into the employ of Nathaniel Chew of Gloucester Co., and labored on his farm. After a while I left there and engaged to cut wood for Thomas Whitney, in the same county, and boarded with Charles Ogden. Here truly begins the history of my downfall. I never saw but one woman before that I really loved. I had been true to my matrimonial obligations. But for lewdn ss and seduction, and depth of infamy, too fearful to be committed to print, Ogden's wife excelled all that I ever saw or heard of No one can form a just estimate of her matrimonial infidelity, and that concealed from the eye of her husband. She laid her snare artfully, she entrapped my feet, she alleviated my affections from my wife. I loved her madly.-About this time, Damrell being the most fortunate, succeeded in taking her away trom her husband and home. As soon as we found that they had fled I urged Ogden to follow them, and we provided ourselves with knives and a

rope, with the intention not of killing him bu of securing a separation of the two. In the court. Levi Decatur said that we showed him the knives and the rope, saying a the same time we intended to kill Damrell .-That was false; I never said any such a thing. On the twenty-fifth of April we left the cabin in pursuit of the fugitives, and came to Bridgeon, from there to Stoe Creek, where we stayed all night at Abijah Garrison's. The next day we came back to Bridgeton and took the stage went out to Shreeve's Mill. The same night we returned to Millville. The next day, having failed to find them, we started back to Bridgeton. Went out again to Garrison's, stayed there all night, and in the morning started for home. Ogden desired to return soil. The truth is just this, that Slavery is a but I urged a further search for them. For a wicked lustful crime perpetrated in another went directly to them. I think Damrell drew upon the earth. While he was down I urged Ogden to kill him, on the plea that it was justifiable when a man ran away with another's wife. The murder was my fault. I could have prevented it if I had been disposed, but the truth is, I loved the woman, vile as she was, and I would have killed Damrell for the in his breast-works. Nor is there any way of sake of having her. A word from me, and Ogden would have desisted from the murdrous work, but I thought that by getting Ogden to murder Damrell I might escape and then get in the field intact. The various casualties of the woman. I believe I am more to blame in the brutal affair than Ogden, although he injured him sufficient to have killed him. I was fearful with rage; and I sprang upon him, stamped him, kicked him, not satisfying my anger till here let me say that up to that period I had life was extinct. This was the most fearful evidence of my intention to kill him. The last words I heard Damrell say were these: Give me a drink of water I would say here, in regard to Levi Decatur, I showed him the rope; as for the knife, I did not let him see it. His oath in the Court was positively false. On the Monday morning we left to follow them, I think told Howard we must take our knives, but still it was'nt my intention, at that time, to take Damrell's life. The Court has acted justly in the premises, still I would, as is natural, have preferred to live, but as the case is, I am ready for death. I cannot plead innocent of murder, but the circumstances under which he act was committed, were to me very aggravating and trying. On Saturday morning last a fire was started on the Blackwater property, near Vineland, for the purbrush. Through carelessness, the fire spread until it destroyed between 600 and 1000 acres of standing timber, and also about 500 cords of wood. The loss of Wm. D. Wilson is not less than \$5,000. Others lost small amounts. The fire continued to burn until Monday last. Mr. Wilson has also met with a heavy loss in the destruction, by fire, of the Steam Saw Mill of Wilson, Bros. & Co., in which they and R. D. Wood lost about \$17,000, on the 9th inst. The property was not insured, the policy having lately run out and was neglected to be renewed. We retand that another mill will be erected as soon

as possible The above losses are much to be regretted. The nembers of the firm are very enterprising and worthy men, and deserve the sympathies of the public, but fortunately are able to bear the loss.

Fires in the Woods.—During several days last week

First in the Woods.—Dufing several days last week the atmosphere was dimmed with smoke to an extent not recollected by the "olicet" inhabitants, at this season of the year. This was undoubtedly caused by the smoke from woods on fire. The dry weather has made the underbrush very combus ible, so that sparks from the passing locomotive set the woods on fire along the Camden and Atlantic rail oad above Jackson. A district along the road anne miles in length, comprising thousands of acres of barren timber, have been entirely burnet over and destroyed.—The fires raged several days, and the loss of property

is very large. Small fires here also occurred along the Salem road, but have dine but little damage.— The heavy rain of Mondayhas relieved the whole country along railroad lines of danger from sparks.

Rebels attempt to crush our Left-Gen. McPherson Killed-The Rebels Beaten Back into their Fortifications-Indications of their Abandoning At-

WASHINGTON, July 24, 11 P. M.—The Government has received despatches from Gen. Sherman, aunouncing that on Friday the rebels under Gon. Hood, massed a heavy force on his left wing, consisting of McPherson's grand nis left wing, consisting of McPherson's grand division, composed of Logan's and Blair's Corps, and made a desperate attack, gaining a temporary advantage. The enemy, after terrific fighting, in which a number of charges were made on both sides, were repulsed with much slaughter, and driven into their fortifica-Major General McPherson, during the battle,

came separated from his staff, and was killed by sharpshooters firing from an ambuscade.-The loss of Gen. McPherson is deeply de plored by the Government, and will fill the hearts of all loyalists with sadness and gloom. After Gen McPherson's death, Gen. Logan assumed command of his grand division. A later despatch states that our forces had possession of the elevated ground on the northeast of the town, and that slege guns had been mounted which command the place; also that the rebels were burning their stores, preparatory to a retrograde movement. Everybody feels confident that Atlanta by this time has

fallen into our hands. CINCINNATI, July 24.—The correspondent of the Gazette, under date of Atlanta, Georgia, July 22, gives full and highly interesting de-tails of the movements of Sherman's army since crossing the Chattahoochie river. On the morning of the 18th the whole line advanced, McPherson taking position on the extreme left, Schofield the left centre, Howard the centre. Hooker the right centre, and

Palmer the extreme right.

On the morning of the 19th our advance reached Peach Tree Creek, a stream running four miles north of Atlanta, and after considerable skirmishing the enemy was dislodged, and portions of Howard's Corps crossed, our left in the meantime swinging round to the Atlanta and Augusta Railroad, near Decatur, and tearing up several miles of the track. On the evening of the 19th and the morning of the 20th Howard, Hooker and Palmer crossed with the balance of their corps, forming in line of battle along the north bank of creek. At 3 P. M. the rebels made a sudden and desperate assault on Howard in great force. The attack soon extended to Hooker's corps, the rebels advancing three lines deep. A portion of our line first wavered before the terrible onset, but were quickly rallied and stood firm as a rock.

Upon this portion of our line was massed over half the entire rebel army, both parties fighting, for the first time in the campaign, in n field. Before dark the rebels wer entirely defeated, having failed to break our lines at any point, and retired in disorder leaving most of their dead and two hundred wounded on the field. Our loss will reach two thousand men, principally from Hooker's corps. The rebel loss in killed, wounded and nissing exceeds six thousand, including three Brigadier Generals. On the extreme left the operations were

equally successful, McPherson driving the en-emy several miles. Blair's division advanced mile and a half south of the Augusta road. On the morning of the 21st, the enemy were driven, with much loss, to the works immedi ately around Atlanta, and on he 22d they had withdrawn entirely from Hooker's and Palmer's front, and at 2 P. M. of that day portions of our army entered the city.

The correspondent adds we may have fighting for the full possession of the city, but the

campaign is considered substantially closed. A report, believed to be reliable, announces the occupation of Montgomery, Alabama, by General Rosscau. The COMMERCIAL has the following official report of the losses in Hooker's corps in the attle of Atlanta :- Williams' Division, 627; Graham's, 427; Ward's, 527; Newton's, 102

Total, 1713. Among the killed are Colonel Logic, on-hundred and fifty-first New York; Lieutenant Colone. Randall, one hundred and hundred and forty-third New York. Wounded severely, Gen. Gresham, commanding a division; Major Baldwin, one hundred and fiftieth New York; Lieutenant Colonel Mc-Nutt. one hundred and forty-first New York

From Atlanta-The Battle of Friday. 3221 REBEL DEAD BURIED BY OUR TROOPS-TOTAL REBEL LOSS, 12,000.

LOUISVILLE, July 27.—Major A. W. Kelly and was maxing towards his home on the opposite of timber from the mill strack his leg near the thigh, causing a serious fracture, and laying open the flesh about ten inches in length.

The cause of the explosion was attributed to some disarrangements of the machinery, by which it is supposed a spark was emitted, thus igniting the powder. The mills are about 20 by 30 feet in dimensions, and about five stories high. At the time of the explosion the mill contained, as near as could be ascertained, about five tons of powder.

It is thought that the loss will reach about sixty thousand dollars. The buildings are almost totally destroyed, and it will be some time before they can be put into condition suitable for use. Large pieces of timber and barrels were thrown, by the force of the explosion, entirely across the Brandywine Creek, and for a great distance evidences of the disaster were visible. late Mayor of Natchez, just arrived from the front, which he left on Monday night, says, that after the battle of Friday, in front of the Fifteenth, Sixteenth and Seventeenth Corps. our men buried 3221 rebel dead, and captured 1000 sound prisoners and 1100 seriously wounded,

with eleven stand of colors.

Among the prisoners there are 33 officers from the rank of Colonel down. The slightly wounded were taken off the field by the rebels. Gen. J. A. Logan estimated the rebel loss at 12,000. Our loss, including killed, wounded and missing, at 3,120. Atlanta is in plain view, but Gen. Sherman

does not desire to enter it at present, though in two hours he could establish his head-quar ters there. General Stoneman is en route for the Macon

and Atlanta railroad.

To-day's Nashville Union says Gen. Garrard, at the head of a cavalry force, marched to Covington and destroyed several bridges and engines, a larga number of cars and 2000 bales of cotton. We also learn that the rebel loss before Atlanta will, doubtless, reach 12,000.

THE LARGEST PORTION TO TWO REBEL CORPS DE STROYED-RETURN OF GEN, ROSSEAU TO MARI

Going to market in Richmond must be any thing but an agie able business. A family-man going the rounds to make his purchases for an ordinary dinner, has something like the following experience: His first enquiry is for beef. He is told he can have an excellent article "as low as \$3 per pound," which was the rate on Thursday last. He purchases, sey, six pounds, disburses eighteen dollars, and goes on his way. A half-peck of tomatoes he thinks, would be very nice, and "regardless of expense" he buys that quantity, paying therefor five dollars a quart, or twenty dollars in all. For green corn, which he finds on the same stind, he pays six dollars a dozen, and for a 'mess of beans," ten dollars. Of course, he cannot do without potatoes, and purchasing a "small measure," disburses another dollar and a quarter. By this time, he has the materials for a comfortable dinner, but upon eumming up the cost, finds he has expended fifty-five dollars and a quarter for one meal, which aggregate will be largely increased by the cost of butter, bread and necessary condiments—good flour, according to the rates recently established by the Commissioners of Appraisement, being eighty five cents a pound, and butter selling at proportionably exorbitant rates.

This is no fancy picture, but a statement of the Louisville, July 27 .- Information received from an officer from the front, says in the bat-tles in front of Atlanta, we have destroyed the better portion of the enemy's two best corps -All of the prisoners captured on the 22d and 28d insts., unite in the statement that the rea poind, and butter selling at proportionably exorbitant rates.

This is no fancy picture, but a statement of the actual cost of living in Richmond, as exhibited in the market reports for Thursday last. It is easy to see that in this condition of prices, the laboring classes must experience great inconvenience, if they do not actually suffer for scant supplies. It may yet amost become true, as some writer once broadly said, that in going to market in Richmond one needs a basket to gorry more research to buy supplies william to bel General Hood was killed on Friday. Major General Rosseau and staff arrived last night at Marietta. The raid was the most successful during the war. His total loss is five killed and thirteen wounded. He captured and paroled 2000 rebels, and killed and wounded 200 He also captured 800 horses and mules, and about the same number of contrabands. He also destroyed 31 miles of railroad, great quantities of stores, cotton, &c. Thir-teen depots at points on the Atlanta and Montgomery railroad were also destroyed.

"Petersburg Undermined,"

TROUBLES IN ILLINOIS —A very excited state of feeling has been produced among the secessionists in Coles Co, Illinois, by the discovery in the woods near Charleston, of the bodies of the Copperhead Sheriff Join O'Hair and another member of the family, who were leaders in the insurrection in that region some time since. The O'Hairs disappeared at that time, having cluded the vigilance of the authorities, and nothing was heard of them until the discovery of their bodies, a few days since, perforated by bullets. The O'Hair sympath'sers state that they were murdered by the Union soldiers, and indulge in violent threats. A small cannon belonging to the citizens of Mattoon has been stolen as is supposed by the agents of the "mighty host" as the secret organization in It has been repeatedly hinted during the last few weeks that General Grant was undermining Petersburg, just as thirteen months ago he undermined Vicksburg. Whether this is actually the fact, or simply the conjecture of correspondents, it is certain that the rebels entertain the belief that some such operation is going on. Thus, the Richmond Whig of a recent date, containd the following from one "Charles J. Hrowne" of Petersburg:

The editors of the Richmend and Petersburg papers have been making fun of the declaration of the Northern press that Grant would soon startle the country with "another brilliant exploit." Do you suppose that Grant has kept fifty thousand men in complete idleners for six weeks, or fancy that his whole time has been occupied in fortifying himself and organizing raids! If so, you will find yourselves vastly mustaken, and that within a very few days.

In what manner I came into possession of the facts which I am about to narrate is not material. Suffice it to say, they are facts, as time will prove. Perhaps a few hours may bring the dreadful realization. I tremble to think of it.

Know, then our loved Cockade city will soon be, if it is not at this very moment, thoroughly undermined. Grant, far from being content to blow up the fortifications," has determined to destroy the entire city, as by a tremendous blast from the infernal regions. In a single instant every building in the principal streets of Petersburg will be lufted on high and scattered to the four winds of heaven. You may laugh at this, but it is so. My informant has seen a diagram of the mines, which, when completed, will extend the length of Bollingbrook, Bank, Bycamore and Old streets, and perhaps as far as the old Fair grounds, on the south of the city. "This is incredible and impossible on the face of it," you will say.—Very well, you are welcome to your opinion. But you will be good enough to tell me what feat ever attempted with the pick and spale the Yankees have failed to execute; and will you explain to me the meaning The 12rm N. J.—This gallant regiment has been in the front ever since the forward movement commenced in the spring. It is now placed in a less exposed position. The regiment now numbers but 100 men fit for duty. Major Thompson, a private letter states, has been promoted to be a Lieut. Col. The letter mentions a report, and the writer expresses a wish, that Capt. H. F Chew will be promoted to the office of Major. At present the numbers are so reduced as to reuber an immediate change improbable.

The friends of William Moore, of Company K, of this regiment, will be gratified to learn that he was not mortally wounded, but is doing well, and expects to have the use of his right arm in a short time. He is now home on a furlough.

Secretary Fessenden, under authotity of an act of Gongress of June last, to issue an amount not exceeding \$200,000,000 U. States Treasury Notes, &c., has given notice that subscriptions will be received at the usual places for Treasury Notes, payable three years from August 18th, 1864, bearing interest at the rate of 73-10 per cent. per annum with semi-annual coupons attached, payable in lawful money. These notes will be convertible at the option of the holder, at maturity, into six per cent gold bearing bonds, redeemable after five, and payable twenty years from August 18th, 1867. A terrible accident occurred at the Phoenix Colliery, near Schuylkill Haven, Pa, on Saturday evening, which resulted in the instant killing of twenty-one mea. They were on a slope car, coming out of the mines from day work, and when near the top of the slepe, the chain broke, letting the car run back a distance of six hundred feet, on a slope of seventy-five degrees killing all who were in the car.

Let not farmers and gardeners fail to sow abundant turnip seed this year, where other crops have failed on account of the drouth, or the first crop has been secured. Dig up the ground, if it be ever so small a place, and plant turnip seed. There is sure to be a pressing demand for all kinds of vegetables the coming winter, and a great many can raise a profitable crop of turnips without ever knowing that they cost anything. Turnips are good both for the table and for stock, for the former purpose very pleasantly taking the place of potatose with many, and its man should by any chance raise more than he wants for his own use, we will warrant him a good price and cash in hand for all he wants to self. According to the old saying:—
"Twenty-fish of July,
Sow your turnips, wet or dry," Sew Turnips. We are indebted to Hon. J F. Starr for a copy of the "Act to provide internal revenue to support the Government, to pay interest on the public debt, and fer other purposes." Isasc Newton, commissioner of Agricultural Depart-nent, has favored us with the report of that depart-nent for April and May.

BAUGH & SONS, SOLE MANUFACTURERS.

Store No. 20, South Delaware Avenue, PHILADELPHIA.

This article has for many years enjoyed a high reputation as a manure of great efficiency and of unequalised permanence, and we scarcely deem it important in our semi-annual advertisement to say more than merely call the attention of buyers to it. But we will also state to farmers and Deslers in Fertilizers that it has been our constant aim to render our Raw Bone Phosphate more and more worthy of the full confidence of farmers, by the use of every facility at command and the aid of scientific skill, in essentially improving its qualities, and we have never allowed this purpose to be interfered with by the great and steady advance in the cost of all matters pertaining to our business throughout the past two years.

## MANNY'S PATENT COMBINED **REAPER & MOWER**

This machine is presented to the farming community as the best combined Reaper and Mower made. The large number sold in this State are still in successful operation, and have proven the principles of its construction to be the ones to secure durability, ease of operation, adjustibility to uneven surfaces, closenees of swath, lightness of draft and freedom from side draft.

from side drafts.

Important improvements have been made, (none o which are represented in the cuts.) to wit: In place of wooden cutter bar is now used one of the best quality of steel, with new and improved guards, and knives which will cut close and clean, and make the machine run much easier. The frame of the machine has been altered at the end of the cutter bar, to enable the machine to pass over a larger swath of cut grass. It is now constructed to mow (frame of machine being detached) with naked cutter bar, and on two wheels instead of one, as before used. A steel pitman, or connecting roo, is used in place of iron.—Machine goes out of gear, knives standing still, when backed. Graia platform has been so altered that throwing off by hand is much easier than formerly.

A COMPLETE SELF-RAKING ATTACHMENT. throwing off by hand is much easier than formerly.

A COMPLETE SELF-RAKING ATTACHMENT.

Has been affixed, which two seasons' use, in all kinds of grain, has proven to be reliable. By means of a rake carried around the platform, the grain is at regular intervals swent off at the side, out of the way, in a handsome, compact sheaf. The driver can alter the working of the rake at will, to suit thin spots.

Farmers, if you want a reliable combined Machine, you will find it in this machine, which I am prepared to warrant to the fullest extent. It is built of the best materials, by good experienced mechanics, and will give the farmer a full equivalent for his money.

For Cleansing, Whitening and Preserving the Teeth
This article is prepared with the greatest care upon
scientific principles, and warranted not to contain
anything in the slightest degree deleterious to the
teeth or gums. Some of our most eminent dental
surgons have given their sanction to, and cheerfully
recommend it as a preparation of superior qualities
for Gleansing, Whitening and Preserving the teeth;
it cleans them readily, rendering them beautifully
white and pearly, without the slightest injury to the
enamel. It is healing to the gums where they are
ulcerased and sore. It is also an excellent disinfector for old decayed teeth, which are often very offensive. It gives a rich and creamy taste to the mouth,
cleansing it thoroughly, and imparting a delightful
fragrance to the breath.

TESTIMONIALS.

The following opinion of Dr. White, as to the high esteem in which he holds the Dental Cream, must be sufficient, evidence of its value; to quote other testimonials in detail is needless, coneinting ourselves by simply giving the names and addresses of persons who speak of its excellency for the teeth.

Having carefully examined A. Hawley's "Solidified Dental Cream," I hereby cheerfully recommend it to the public generally. It is an excellent preparation for cleansing and preserving the teeth, and can be used by all persons with the utmost confidence, as tts properties are perfectly harmless. Besides preserving the teeth, it promotes a healthy action to the gums and imparts a pleasantness to the breath.

DR. WISHART'S PINE TREE TAR CORDIAL

Consumption has destroyed more of the human family than any other disease, and the best physicians for many years have despaired of a cure, or a remedy that would heal the lungs, but for more than two hundred years the whole medical world has been impressed that there was a mysterious power and efficiency in the Pine Tree Tar to heal the lungs; therefore they have recommended the use of Tar Water, which in many cases had a good effect; but how to combine its medical properties so as to heal the lungs, has ever been a mystery until it was discovered by Dr. L. O. C. WISHART, of Philadelphia, Pa., the proprietor of Wishart's Pine Tree Tar Cordial, and has been put in bottles, patented by the United States government. We say to the afflicted that Dr. Wishart's Pine Tree Tar Cordial will produce the INVIGORATION OF THE DIGES-TIVE ORGANS. THE STRENGTHENING OF THE DEBILITATED SYSTEM, THE PURI-FICATION AND ENRICHMENT OF THE BLOOD, which must expel from the system the orruption which scrofula breeds. While this is effected by the powerful alterative (changing from disease to health) properties of the Tar Cordial, its healing and renovating principle is also acting upon the irritated surface of the lungs and throat, penetrating to each diseased part, relieving the pain, subduing inflamation and restoring a healthful tendency. Let this ow-fold power, the healing and the strengthening, continue to act in conjunction with nature's constant recuperative tendency, and the patient is saved, if he has not too long delayed

a resort to the means of cure. PINE TREE TAR CORDIAL IS AN INFALLIBLE CURE FOR SORE THROAT AND BREAST. Dr. Wishart's Pine Tree Tar Cordial is a great and effectual remedy for BLIND AND BLEEDING PILES.

INFLAMATION OF THE LUNGS. There is not a medicine discovered that has so much power to dissolve the thick mucous that stops the wind passages of the lungs as the Pine Tree Tar Cordial, which subdues the fever and inflamation that destroy the power and vitality of the lungs and consign the patient to the grave. We say to all whose lungs are affected, use Dr. Wishari's Pine Tree Tar Cordial with gaeat confidence, as it has restored thousands of cases to health that were hopeessy given up to die.

IS A GREAT REMEDY FOR SCROFULA

The Pine Tree Tar Cordial will purify the blood aud cleanse it of all scrofulous matter that is constantly breeding sores, inernal, and exteanal. Saltheum, sors legs and all skin diseases are especially cured by Dr. Wishart's Pine Tree Tree Tar Cordial; it is good to be applied internal and external in the above cases, as it has great power to heal where it comes in contact with the human flesh.

Pine Tree Tar Cordial is a great remedy for chronic oroup and diptheria, which is sending thousands and thousands of children to a premature grave. It can be cured by Dr. Wishart's Pine Tree Tar Cordial.

The Pine Tree Tar Cordial gives instantaneous relief in cases of asthma and hooping cough. It often cures hooping cough before it runs half its course, as it acts at once upon the phlegm and mucus and expels tyem from the throat, and the sufferer is releved. In case of asthma, use Dr. Wishart's Dyspepsia Pills with the Cordial, as they have never been known to fail to cure that disease. DR. WISHART'S PINE TREE TAR CORDIAL

DBAP Sir.—I had a very areadful cough and sore throat for one year, and my whole system was fast giving way, and I was prostated on my bed, with but little hope of recovering. My disease bailed the power of all medicines, and in a short time I must have gone to my grave; but, thank God, my daughter-in-law-would not rest until she went to your store, Ne. 10 North Second street, and related my case to you, purchased one bottle of your Pine Tree Tar Cordial, and I commenced to use it, and ia one week I was much better; and, after using three bottles, I am periectly well, a wonder to all my friends, for they all pronounced me past cure. Publish my case if you think proper.

No. 1321, Wylle street, Philadelphia.

Mr. Ward says:—
DR. WISHART.—
SRE-I had bronchitis inflamation of the lungs, shortness of breath and palpitation of the heart in their worst forms. I had been treated by several of the most eminent physicians in Philadelphia: but they could not stop the rapid course of my disease, and I had despaired of ever being restored to health. I was truly on the verge of the grave. Your Pine Tree Tar Cordial was highly recommended to me by a friend. I tried it, and am thankful to say that, after using four large and one small bottles, I was restored to perfect health. You can give reference to my house, No. 968 North Second street, or at my Office of Receiver of Taxes, from 9 A. M. to 2 P. M., corner for Chestnut and Sixth streets.

JOHN WARD, Philadelphia. Mr. Ward says :-

Read the following from Utica:

DEAR SEE—I take pleasure in informing you, through this source, that your pine tree tar cordial, which was recommended for my daughter by Dr. J. A. Hall, of this city, has cured her of a cough of more than five months' standing. I had thought her beyond cure, and had employed the best of medical aid, without any benefit. I can cheerfully recommend it to the public as a safe and sure remedy for all those similarly affected, as I know of many other cases, besides that of my daughter, that it has entirely cured of long standing coughs.

Yours respectfully,

Daguerrean Artist,

Daguerrean Artist, 126 Genesee street, Utica, N. Y. \* \* \* \* I have used Dr. Wishart's Pine Tree
Tar Cordial in my family, and can cordially recommend it as a valuable and safe medicine for colds,
coughs, and to those predisposed to consumption.
Dr. G. A. FoSTER,
160 Genesee street, N. Y.

The above are a few among the thousands which his great remedy has saved from an untimely grave. We have thousands of letters, from physicians and the Tar Cordial, saying that they have never used or sold a medicine, which gave such universal satisfaction. The Pine Tree Tar Cordial will cure Coughs, Sore Throat and Breast, Bronchitis, Asthma, Hooping Cough, Dipthers, and is also an excellent remedy for diseases of the Kidaeys and female complaints.

SCULL'S CONTINENTAL COFFEE. This Coffee has been in the market

And is giving universal SATISFACTION. Physicians using it pronounce it the most HEALTHFUL COFFEE

TWO YEARS,

IN THE MARKET. Read the opinion of the Press.

SCILU'S CONTINENTAL COFFEE.—THE HOUSEKETPER'S FRIEND.—The general complaint of every good house-keeper at present, is the ruinous prices asked for an inferior quality of coffee. Various remedies have been resorted to without avail. Chemists have here-tofore tried their arts in vain to produce a palatable, wholesome substitute for the national drink.—Housekeepers will rejoice to learn that the Coutmental Coffee prepared by Wm. S. Scull, and for sale at his depot, No. 132 Arch street, is an article of Coffee that is entirely free from injurious ingredients, and is highly recommended by eminent physicians. We have tried it, and found it to be the most delightful drink we have tasted since Coffee has become worth its weight in gold. Be sure to give this Coffee a trial—it is equal to the best Java. It is now being used by most of the hotels, and in thousands of private families.—Episcopal Recorder. Read the opinion of the Press.

by most of the hotels, and in thousands of private families.—Episcopal Recorder.

The Popular Beverage Once More.—No one has any cause to complain of unsatisfactory Coffee. That complaint has been remedied, and it is within the power of every one now to drink their favorite beverage without the dread of fearing that it is adulterated poison. The coffee to which we refer we have used, still use, and intend to use, and therefore we speak knowingly. We refer now to the celebrated Continental Coffee, manufactured by Scull, and for sale everywhere. This Coffee is pleasant and palatable, is exhibitrating, and leaves no depressing effects behind. It is used by our principal hotels, private boarding houses, and many of our most respectable families. We have had occasion to recommend it to a good number of our friends whilst travelling in the interior, and they, acting upon our advice, have tried it, and their verdict agrees with our own. The central depot for the sale of this coffee is at No. 132 Arch street, but you can buy it of your family grocer. The price is much lower than that asked for other manufactures of not half its worth. Try the Continental.—Try it because it is the cheapest and the best, and when you fiave tried it you will not regret it. It comes in convenient packages, and may be sent by express to any part of the country. We mention this for the particular benefit of our readers at a distance.—Sunday Mercury.

Curing that Disease, and the GREAT SUCCESS ATTENDING IT

The above is a correct likeness of Dr. Schenck taken many years ago, after he had recovered from Consumption, by a course of his "Schenck's Palmonic Syrup." The likeness, although it is does not represent him anything like as bad as he was at the worst, yet it is in strong contrast with the hale and vizorous looks of the portrait below, which is the true likeness of him at the present time. The contrast between these two portraits is so great that many would not believe them to be the same person. Yet there are hundreds of persons in and around Philadelphia, who will recognize both portraits to be true representations. When the first was taken he weighed 167 pounds; at the present time his weight is 220 pounds.

tion is they try to do too much; they give medicines to stop the cough, to stop chill, to stop night sweats, hectic fever, and by so doing, they derange the whole digestive powers, locking up the secretions and eventually the patient dies. After I make a careful examination of the patient with the Respirometer, and flud lungs enough left to cure, I direct the patient how to use the three remedies. Remove the cause and they will all stop of their own accord. No one can be cured of consumption, liver complaint, dyspepsia, catarrh, canker, dicerated throat, unless the liver and stomach are made healthy. In New England this canker, chronic catarrh, ulcerated throat, elongation of uvula, is more prevalent than in any other section of the country. This is frequently caused by a foul stomach. You may burn it out with cause tie me and again, and all they will get is temporary relief Correc, the stomach and liver, and they will heal up themselves.

Good nutriton is the remedy. If you have any disease in any part of the body, it will remain there and decay more and more until you can get the stomach in the condition to digestifood, and make new blood to take the place of the diseased matter. This is the only way to heal cavities in the lungs and ulcerated bronemal tubes. Correct the stomach and liver, and hattre will do the healing. Many persons have an idea that certain medicines are great purifiers of the blood. When blood is once diseased it cannot be purified; it is diseased the same as the diseased matter in the system; but get the apparatus in order, the liver and stomach, and give it pienty of nurshing tood it will make new blood, which will take the place of the diseased.
