> The "Kearsarge" and the "Alabama." To most of our readers the destruction of the Alabama will be no news; but it will be gratifying to all of them, as it is to us, to feel that our commerce is safe for a time, and the ocean is free from rebel pirates. We say for a time, because it is rumored. nay asserted openly. that another ship is nearly ready for the pirate Semmes to go forth again upon his errrands of

In the accounts transmitted from England to this country, and published in the daily press here, it cannot have escaped the notice of the most indifferent reader that the English are extremely chagrined at this defeat of the man they have feted and honored on all possiman they have feted and honored on all possible occasions. And not this alone, but because the Alabama was naturally and nationally identified with their feelings by having been built in England, fitted with engines there, manned by their sailors, and armed with their guns. The Alabama was an English vebel. and as such we could not expect other than the most glowing accounts of rebel heroism, and the pluck they evinced under disadvantageous circumstances. The facts are that our eleven-inch shells proved too much for the wooden sides of the Alabama, while the Blake-ly thirty-two pound rifles did no mischief to

speak of. The Alabama carried a 100-pound rifle, one 68-pounder and six broadside 32 pounders.— The-Kearsarge carries four broadside 32-pounders, two 11 inch and one 28-pound rifle—one

Not the least remarkable feature in this extraordinary contest is the statements of Semmes himself. He says in one place that the Semmes himself. He says in one place that the Kearsarge fired on his ship when the white flag had been displayed, but afterwards declares that his men stood by and served their guns until they were nearly under water; with touching magnanimity he concludes that the firing on the white flag was "accidental."— In his report, too, he tries to fawn upon the English by saying that his best artillerists were those received from, and trained on board, her Majesty's ship Excellent; and as we know that the Kearsarge was virtually uninjured, and the reports all agree in saying that

The thanks of a humbugged community are due to the committee for having brought these facts to light, and the Ledger deems it a duty to assist in giving them publicity. "Ye would be dupes and victims, and ye are." Finding that their customers despised the products of domestic skill, however excellent, they have fooled them to the top of their bent. in point of fact, they have tempted the dealers to cheat them, and have no right to complain of the frauds which their unpatriotic prejudices suggested.

WEALTH AND ITS PRICE.

Beyond a doubt, any man of ordinary intelbeyond a doubt, any man of ordinary intelligence, possessing the ordinary attributes of his species, can, if he wishes, amass a fortune, in this country. The only question is whether the money is worth the price he has to pay for the money is worth the money is worth the money is worth the money is worth t the money is warth the price he has to pay for it?" A competency is unquestionably, "a handy thing to have in the house," as Mrs. Toodles would say; but it could be a smething. Those who have the talent or genius "o invent a machine, or discover a principle, may make their fortune at a single blow, but the great heir fortune at a single blow; but the great majority must grub their way through.

Incessant watchfulness over the pennies, and eternal industry, will make any man rich, sooner or later. Luck cannot provent it—nothing can, if one works always and saves everything;

no matter what business he chooses, he is sure to "die worth a fortune," if he lives to an average age. But let us see what these conditions really require. "Poor Richard" evidently thought them the finest qualifications in the world, and the most desirable of all aspirations. Are

they? We have our doubts.

Man requires recreation. If he is a real man—a full-grown, true-souled human being, with a heart under his waistcoat, he requires exercise for benevolence and charity. Nay, we will go further, he requires luxuries; for as a friend lately remarked to us, "Luxuries

are the necessities of the soul?

Now, recreation is incompatible with incessant application to business. The man who sant application to business. The man who broods over his desk, or his counter twelve hours in the day, and six days in the week, cannot go out to enjoy God's green fields, and God's blue skies, nor—more wholesome yet—spend time in social converse with, and study of God's men and women. Then the exercise of benevolence and the enjoyment of luxury are incompatible with the saving of pennies; and without that, money-grubbing will not make us rich. Is it worth the price? Money is good; but happiness is better. We believe that there is something beyond this life—that there is a voyage to be made when we must leave our sales and bank-books behind. Shall we not provide for a life without them? We think it best. for though it is well to have a well-lined pocket, there is a better salvation than the salvation of gold.

The greatly increase I cost of printing materials of every kind, more than one hundred per cent having been added to the expense of publishing a newspaper within the last two years, renders it necessary for us to make a moderate advance in the price of our several Journals. We have avoided this course as long as possible, hoping that the present high rates would only betemporary; but now, when it becomes evident they are likely to continue, we have taken this action which we hope will meet the approval of our patrons. As prices advanced the credit system was abolished, so that all printing materials can now only be procured for cash. We are therefore compelled to raise the subscription price of our papers on and after August 1st, to two dollars per annum, structur in Advance.

IMMIGRATION.

The subject of immigration is one of great practical moment to our country at the present time. The stream continues to flow to our shores, from all part of Europe, especially from Ireland, as it never did before. The only limit to it appears to be the capacity of the vessels date, over 2,000 persons entered to sail by one line of steamers. At Liverpool and Queenstown a much larger number had their passages engaged, the fares of very many of them having been paid in America. Steamers being overcrowded, resort is had in sailing vessels, but they are wholly inadequate to meet the demand.

We were astonished in looking over a table giving the arrivals at the port of New York between the 1st of January last and the 31st of May inclusive—they numbered 68,078, of whom | over 42 years of age. 41,283 were from Ireland, 15,348 from Germany, 8,114 from England, 1,186 from Scotland. 214 from Wales, and 1,988 from all other countries. The increase over the corresponding period of last year is 18,896. The like ratio of increase during the remainder of 1864 will give ing substitutes, and that when this meeting n total immigration at the port of New York of 214,876 souls, which is an increase of 58,032 over 1863, of 138,570 over 1862, and 149,347 over 1861. Our war is not turning away the oppressed of other lands who seek a safe assylum in Republican America.

It is an interesting fact that the now incoming emigrants are of a better class than those of former years. The experienced General Agent in charge of the Emigrant Landing Depot in the city of New York, estimates the average amount of coin in the possession of each immigrant landed since the 1st of January last at \$80. Assuming that the total immigration to our shores for the year 1864 will reach 236,-000 souls, the money thus brought into the country, according to the above estimate, will last meeting through Mr. John T. It is clear that the whole heart of a great and mighty nation, of all the mighty nations, the mightiest and the best, has been set on this achievement. And there are not wanting eager, eloquent, voluble writers for the public press of that mighty nation who affirm, and almost swear, that large and numerous bodies of persons in uniform, wearing buttons, carrying weapons, in fact, what Yankees call armies, are certainly coming this way on the errand aforesaid, and that Richmond was to consider herself besieged, or, for that matter, as good as taken. Richmond is in danger of falling asleep upon her seven hills in this still and sultry atmosphere. We can conceive of a certain lazy somnolence which seems to be crushing out our people."

THE INVASION.

The Burning of Chambersburg—Retreat of Rebel Forces—Gen. Averill in Pursuit. CHAMBERSBURG, July 31 .- On the morning of the 30th of July, 1864, the rebels under the hundred men, entered Chambersburg, Pa., and demanded \$500,000 from the citizens under a threat of burning the town. This requisition was in writing and was signed by Gen. Jubal Early. It was now established by indisputable proof that this demand was a mere pretext on the part of the marauders to cover up a pur-pose formed before they reached the town to burn it to the ground without giving any time to remove private property, and scurcely time enough for the citizens to remove their families. They fired the houses of our citizens in perhaps fifty different places, and upwards of two hun-dred and fifty houses in the heart of the town were consumed, including all the public buildings, stores and hotels, comprising about two-thirds of a town containing 6,000 inhabitants. Thus a large body of citizens are reduced from

comparative wealth to absolute poverty. Squads of four and six, under command of proper officers, were detailed for the purpose, and within fifteen minutes the town was on fire in a hundred places, the flames spreading in These detachments, armed with axes and

progressed, and nothing escaped the torch.

No notice whatever was given to the citizens, until their doors were assailed and women and children driven into the street, without being allowed time to save any article whatever-The scene at this time was fearful and heart-

incapable of resistance, and only anxious tor the safety of their families, while the safety and wailings of women and children filled the air, drowning even the dull rose of the raging

fire.

The whole work of destruction was accomplished in a very flort period. The burning of the town summenced at 9 o'clock, at 11 o'clock the rebels had left, at 2 o'clock the best part of Chambersburg was in ashes.

direction for the purpose of raiding the people at Bedford Springs. That celebrated watering place has been crowded with traitor sympa-The Press says the burning of Chambersburg was an act of wanton cruelty almost unparral-led in the war, and certainly only surpassed by such villainies as the massacre at Fort Pillow. What military anvantages did the rebels gain by this new triumph over the pitiful remnant of mercy which it is the boast of modern war to retain, and which makes the great difference between civilized and barbarous nations in their tattles? Positively none. The invasion has not been aided in any way, and the result of the outrage is that a flourishing town is de-stroyed, and eighteen hundred non-combatants made homeless and penniless. The very fact which should have obtained mercy for the town its helplessness and the non-resistance of its

Thus far the invasion does not seem to be dangerous; at least it would seem to be suc-cessfully opposed, and the burning of Cham-bersburg, in itself, seems to be the spite of desperate men rather than a serious menace. In a military point of view it means nothing. Five hundred men rode into the town, fired it, and rode away again like thieves pursued by justice. There is probably no position from which they cannot be driven by mining, and they must therefore come out and fight upon fair terms, face to face with the veterans of the North, whose valor, they have learned, is not to be despised. The New Invasion

The raid in Pennsylvania, which commenced on Friday of last week, appears to have been an inconsiderable affair. The invading column consisted, as far as is known, entirely of cavalry, and the only serious injury inflicted was the destrucdeeds of violence to the people of the rich district through which they passed, and when they reached McConnellsburg they had neither time to levy a contribution, light a torch, or kindle and demanded five hundred thousand dol lars from the citizens under a threat of burning the town. This requision was in writing and was signed by Gen. Jubal Early. It appears, however, that this demand was a mere pretext on the part of the marauders to cover up a purpose formed before they reached the town to burn it to the ground. Without having any time to remove private property, and scarcely time enough for the citizens to remove their families, they fired the Jane Tice, of Cumberland Co., N. Over two hundred and fifty houses in the heart of the town were consumed including all the public buildings, stores, and hotels, comprising about two-thirds of a town containing six thousand inhabitants. While still engaged in the work of destruction, the rebels were notified of the approach of Gen. Averill with a federal force, and immediately decamped, pursued by our troops. At McConnels-burg, the flying marauders were overtakon, and an engagement ensued; in which they were severely punished. They consequently retreated towards Hancock, near the Maryland line, and it was reported that they had crossed the river and

were clear out of the State. A committee of the citizens of Chambersburg have issued an appeal for aid, in which they say : "A large body of citizens are reduced from comparative wealth to absolute poverty. The sad tle one mourned as only wife and child can mourn the loss of a husband and father.

The following may be relied upon as correct. "Thomas H. Heward, of Company H. 10th Regiment N. J. Volunteers, reported killed, is alive and well, a prisoner in Richmond. Mr. Heward's brother-in-law, now in Wasnington, received a letter from him vesterday to this effect, and at once telegraped the good news to Mrs. Heward, who resides in this city. The north side of James River, within ten | letter from Mr. Heward says that he was taken miles of Richmond, enabling him to shift prisoner on the evening of the 2d of June.— After being relieved at the front he left the camp to fill his canteen with water, and was surprised by a party of rebels who took him prisoner, and he was forwarded to Richmond, where he still remains. He is not wounded, and is in good health.

The Rebel Straits in Georgia.

The Rebels in Georgia are obviously reduced o desperate straits. The proclamation of Gov. ctween fifty and fifty-five, and for boys between sixteen and seventeen years, affords on this point evidence which it is impossible to gainsay. This proclamation, which, it will be mine was 400 feet long, constructed with seen, breathes the old spirit of dissatisfaction with Jeff. Davis and his policy, concludes as follows:

"Georgians, you must re-inforced Gen. Johnwhich a train of powder fifteen inches ston's army, and aid in driving back the enemy, your cities and public buildings, destroy your property, and devastate the fair fields of your noble State.

If the Confederate Government will not send puake. A column of earth, guns, debris the large cavalry force, now engaged in raiding of rebel fortifications, etc., was thrown up and repelling raids, to destroy the long line of railroads over which General Sherman brings his supplies from Nashville, and thus compe him to retreat with the loss of most of his army, the people of Georgia, who have already been drawn upon more heavily in proportion to population than those of any other State in it seemed as if they might have been dis. the Confederacy, must at all hazards, and at any sacrifice, rush to the front, and aid the gseat commander at the head of our glorious self sacrificing army to drive them from the soil

I beg you, fellow-citizens, to reflect upon the magnitude of the issue. If General Johnston's army is destroyed, the Gulf States are thrown open to the enemy, and we are ruined.

Gen. Sherman Again Moving.

Geo. Sherman's army was again in motion on Thursday to accomplish an important operation, looking to an early investment of Atlanta. The enemy attempted the explosion, and driving the enemy to to interrupt the movement by attacking the 15th Corps, but were badly repulsed. eastward of the town. Three hundred During the contest we took from the rebels several regimental flags At the latest ac-

counts, everything was going on fovorably. The recent removal of the rebel Gen Johnston from his command is thus explained: It appears that Gen. Bragg went to Atlanta from Richmond, and at a council of war held for the purpose, stated that Atlanta must and should be held at all hazards. Johnston replied that to do so would require the sacrifice of the whole army, to which he would not consent, and then tendered to Hardce, who refused to ept it on any terms, and it was given to Prisoners who were taken in the first Hood on the condition that he would defend the city to the last.

> General Sherman's Campaign. The Government has received official disnatches from General Sherman, announcing a battle on Wednesday last in front of Atlanta. General Hood hurled a large force on our centre with the intention of crushing it, but was repulsed with a loss of several thousand men while our loss was less than one fifth of theirs' on the battle-field. A congratulatory address from Maj. General Thomas, commanding the from Maj. General Thomas, commanding the Army of the Cumberland, says that in the battle of the 20th instant the "total Union loss in killed, wounded and missing, was 1,733. In front of the Twentieth Corps there were put out of the fight, 6,000 rebels; 563 of the enemy were buried by our own troops, and the rebels were permitted to bury 250. The second division of the corps repulsed seven different assaults of the enemy with slight loss to them-selves, and which must have swelled the num-

ber of dead buried by the rebels to beyond 300 We also captured seven stand of colors.

In the battle of the 22d ult., the total Union loss in killed, wounded and missing, was 3,500 and ten pieces of artillers. The rebel loss in prisoners captured was 320. The known dead of the enemy in front of the Fifteenth and Sixteenth Corps, and one division of the Seven-teenth Corps repulsed six assaults of the enemy before they fell back, which will swell the reb el loss in killed to at least 3,000. The latest report states that our men buried about 6,000 rebels killed in the fight. There were capture: from the enemy in this battle, eighteen stands of colors and five thousand stands of arms." The loss of the enemy in killed, wounded and captured, in the three days fight, is not less than 35,000.

French Breakfast and Dinner COFFEE.

Owing to the very high prices of Coffee, and the great difficulty in procuring a good, uniform, and reliable article our customers have often expressed a wish that they could be supplied from first hands. It was THE GREAT AMERICAN TEA COMPANY to do a strictly Tea busines, but as we have had some customers living at a distance that have relied upon us to supply them exclusively with Tea and Coree, it being convenient for them to come to New York, The Garat Tea and Correz Empourum of this country—and as our Tea Taster was possessed of information and as our Tea Taster was possessed of information relating to a Coffee that could be furnished at a moderate price, and give universal satisfaction, and at the same time afford the retailer a handsome profit—we have been compelled to supply those parties.—THIS COFFEE HAS BECOME SO POPULAR with our customers and their sales have increased to such an extent that we have been compelled to make large additions to our machinery, which will enable us to supply a few more customers with it. We will therefore so all to those who may order.

It is Fast Supersecting all other Coffees.

It is Fast Superseding all other Coffees. This Come has been used for more than a century in Paris, and since its introduction into this country it has been in use by some of the leading French Restaurants here. The Parisians are said to be the best judges of coffee and the great favor in which it is held by them is the best recommendation that can be produced for its fine flavor and healthy effects upon the human system. duced for its nne navor and meaning human system.

We put up but one grade of this Coffee, and that is of a quality that our customers have found from experience will give perfect satisfaction and meet all the demands of their trade. It is the lowest price

that we can recommend.

We do all our business on the most extensive scale;
buy by the cargo and sell at only two cents per pound buy by the cargo and sell at only two cents per pound profit.

We put up this Coffee in Barrels only, of 125 Pounds each. This method of putting it up saves from 2 to 5 cents per pour dies the consumer, and by its being in a large question retains its fine flavor much long-form of ring any other. We send with each burned we cargo, Circulars and Posters, to assist the dealer to introduce it to his customers. BAUGH'S SUPER-PHOSPHATE OF LIME. BAUGH & SONS.

SOLE MANUFACTURERS. Store No. 20, South Delaware Avenue, PHILADELPHIA.

This article has for many years enjoyed a high reputation as a manure of great efficiency and of unequalied permanence, and we scarcely deem it important in our semi-annual advertisement to say more than merely call the attention of buyers to it. But we will also state to farmers and Dealers in Fertilizers that it has been our constant aim to render our Raw Bone Phosphate more and more worthy of the full confidence of farmers, by the use of every facility at command and the aid of scientific skill, in essentially improving its qualities, and we have never allowed this purpose to be interfered with by the great and steady advance in the cost of all matters pertaining to our business throughout the past twe years.

No extra charge for Bags or Barrels. PHILADELPHIA. No extra charge for Bags or Barrels.

The Raw Bone Phosphate may be had of any regular dealer in Fertilizers (to whom we advise farmers to apply,) or of the manufacturers and proprietors.

MANNY'S PATENT COMBINED **REAPER & MOWER**

This machine is presented to the farming community as the best combined Reaper and Mower made. The large number sold in this State are still in successful operation, and have proven the principles of its construction to be the ones to secure durability, ease of operation, adjustibility to uneven surfaces, closeness of swath, lightness of draft and freedom from side draft.

Important improvements have been made, (none o which are represented in the cuts,) to wit: In place of wooden cutter bar is now used one of the best quality of steel, with new and improved guards, and knives which will cut close and clean, and make the machine run much easier. The frame of the machine has been altered at the end of the cutter bar, to enable the machine to pass over a larger swath of cut grass. It is now constructed to mow (frame of machine being detached) with naked cutter bar, and on two wheels instead of one, as before used. A steel pitman, or connecting roa, is used in place of iron—Machine goes out of gear, knives standing still, when backed. Grain platform has been so altered that throwing off by hand is much easier than formerly.

HAWLEY'S SOLIDIFIED

For Cleansing, Whitening and Preserving the Teeth
This article is prepared with the greatest care upon scientific principles, and warranted not to contain anything in the slightest degree deleterious to the teeth or gums. Some of our most eminent dental surgons have given their sanction to, and cheerfully recommend it as a preparation of superior qualities for Cleansing, Whitening and Preserving the teeth; it cleans them readily, rendering them beautifully white and pearly, without the slightest injury to the enamel. It is healing to the gums where they are nlecraced and sore. It is also an excellent disinfector for old decayed teeth, which are often very offensive. It gives a rich and creamy taste to the mouth, cleansing it thoroughly, and imparting a delightful fragrance to the breath.

TESTIMONIALS.

The following opinion of Dr. White, as to the high esteem in which he holds the Dental Cream, must be sufficient evidence of its value; to quote other testimonials in detail is needless, conetnting ourselves by simply giving the names and addresses of persons who speak of its excellency for the teeth.

Philadelphia, April 16th, 1863.

Having carefully examined A. Hawley's "Solidified Dental Cream," I hereby cheerfully recommend it to the public generally. It is an excellent preparation for cleansing and preserving the teeth, and can be used by all persons with the utmost confidence, as tta properties are perfectly harmless. Besides preserving the teeth, it promotes a healthy action to the gums and imparts a pleasantness to the breath.

DR. WISHART'S PINE TREE TAR CORDIAL

Consumption has destroyed more of the hu-

man family than any other disease, and the est physicians for many years have despaired of a cure, or a remedy that would heal the ungs, but for more than two hundred years the whole medical world has been impressed that there was a mysterious power and efficiency in the Pine Tree Tar to heal the lungs; therefore they have recommended the use of Tar Water, which in many cases had a good effect; but how to combine its medical properties so as to heal the lungs, has ever been a mystery until it was discovered by Dr. L. Q. C. WISHART, of Philadelphia, Pa., the proprietor of Wishart's Pine Tree Tar Cordial, and has been put in bottles, patented by the United States government. We say to the afflicted that Dr. Wishart's Pine Tree Tar Cordial will produce the INVIGORATION OF THE DIGES-TIVE ORGANS, THE STRENGTHENING OF THE DEBILITATED SYSTEM, THE PURI-FICATION AND ENRICHMENT OF THE BLOOD, which must expel from the system the corruption which scrofula breeds. While this is effected by the powerful alterative (changing from disease to health) properties of the Tar Cordial, its healing and renovating principle is also acting upon the irritated surface of the lungs and throat, penetrating to each diseased part, relieving the pain, subduing inflamation and restoring a healthful tendency. Let this tow-fold power, the healing and the strengthening, continue to act in conjunction with nature's constant recuperative tendency, and the patient is saved, if he has not too long delayed

a resort to the means of cure. PINE TREE TAR CORDIAL IS AN INFALLIBLE CURE FOR SORE THROAT AND BREAST. Dr. Wishart's Pine Tree Tar Cordial is a great and effectual remedy for BLIND AND BLEEDING PILES. BLIND AND BLEEDING PILES. BLIND AND BLEEDING PILES.

Thousands have been cured of the above disease when all hope of ever receiving relief was gone.

INFLAMATION OF THE LUNGS.

There is not a medicine discovered that has so much power to dissolve the thick mucous the Pine Tree Tar Cordial, which subdues the fever and inflamation that destroy the power and vitality of the lungs and consign the patient to the grave. We say to all whose lungs are affected, use Dr. Wishart's Pine Tree Tar Cordial with gaeat confidence, as it has restored thousands of cases to health that were hope-

essly given up to die.

COLDS AND COUGHS are speedily cured by the use of Dr. Wishart's Pine Tree Tar Cordial; it does its work at once,

The Pine Tree Tar Cordial will purify the blood
and cleanse it of all scrofulous matter that is constantly breeding sores, internal, and exteanal. Saltrheum, sore legs and all skin diseases are especially
cured by Dr. Wishart's Pine Tree Tree Tar Cordial;
it is good to be applied internal and external in the
above cases, as it has great power to heal where it
comes in contact with the human flesh.

Pine Tree Tar Cordial is a great remedy for chronic
oroup and diptheria, which is sending thousands and
thousands of children to a premature grave. It can
be cured by Dr. Wishart's Pine Tree Tar Cordial.

The Pine Tree Tar Cordial gives instantaneous relief in cases of asthma and hooping cough. It often
cures hooping cough before it runs halt its course, as
it acts at once upon the phlegm and mucus and expels tyem from the throat, and the sufferer is releved.
In case of asthma, uso Dr. Wishart's Dyspepsia Pills
with the Cordial, as they have never been known to
fail to cure that disease. IS A GREAT REMEDY FOR SCROFULA

DR. WISHMART:—
DEAR SIR—I take pleasure in informing you, through this source, that your pine tree tar cordial, which was recommended for my daughter by Dr. J. A. Hall, of this city, has cured her of a cough of more than five months' standing. I had thought her beyond cure, and had employed the best of medical aid, without any benefit. I can cheerfully recommend it to the public as a safe and sure remedy for all those similarly affected, as I know of many other cases, besides that of my daughter, that it has entirely cured of long standing coughs.

Yours respectfully, JOHN V. PARKER, Daguerrean Artist, 126 Genesce street, Utica, N. Y. * * * I have used Dr. Wishart's Pine Tree

The above are a few among the thousands which this great remedy has saved from an untimely grave. We have thousands of letters, from physicians and druggists, who have prescribed and sold the Tar Cordial, saying that they have never used or sold a medicine, which gave such universal satisfaction.

The Pine Tree Tar Cordial will cure Coughs, Sore Throat and Breast, Bronchitts, Asthma, Hooping Cough, Dipthera, and ie also an excellent remedy for diseases of the Kidneys and female complaints.

I ask all to read the following certificates. They are from men and women of unquestionable worth and reputation:—
DR. WISHART:—
DEAR SIR—I had a very dreadful cough and sore throat for one year, and my whole system was fast giving way, and I was prostated on my bed, with but little hope of recovering. My disease bailed the power of all medicines, and in a short time I must have gone to my grave; but, thank God, my daughter-in-law would not rest until she went to your store, No. 10 North Second street, and related my case to you, purchased one bottle of your Pine Tree Tar Cordial, and I commenced to use it, and is one week I was much better; and, after using three bottles. I am perfectly well, a wonder to all my friends, for they all pronounced me past cure. Publish my case if you think proper.

No. 1321, Wylle street, Philadelphia. Mr. Ward says:—
Dg. Wishar—
Sir—I had bronchitis inflamation of the lungs, shortness of breath and palpitation of the heart in their worst forms. I had been treated by several of the most eminent physicians in Philadelphia; but they could no stop the rapid course of my disease, and I had despaired of ever being restored to health. I was truly on the verge of the grave. Your Pine Tree Tar Cordial was highly recommended to me by a friend. Hriea it, and am thankful to say that, after using four large and one small bottles, I was restored to perfect health. SCULL'S CONTINENTAL COFFEE. This Coffee has been in the market

TWO YEARS,

And is giving universal SATISFACTION. Physicians using it pronounce it the most HEALTHFUL COFFEE IN THE MARKET.

Read the opinion of the Press. SCULL'S CONTINENTAL COFFEE.—THE HOUSEKEZPER'S SCULL'S CONTINENTAL COFFEE.—THE HOUSEKEZPER'S FRIEND.—The general complaint of every good houseke-per at present, is the ruinous prices asked for an inferior quality of coffee. Various remedies have been resorted to without avail. Chemists have here tofore tried their arts in vain to produce a palatable, wholesome substitute for the national drink.—Housekeeper- will rejoice to learn that the Continental Coffee prepared by Wm. S. Scull, and for sale at his depot. No. 132 Arch street, is an article of Coffee that is entirely free from injurious ingredients, and is highly recommended by eminent physicians. We have tried it, and found it to be the most delightful drink we have usted since Coffee has become worth its weight in gold. Be sure to give this Coffee a trial—it is equal to the best Java. It is now being used by most of the hotels, and in thousands of private families.—Episcopal Recorder.

The Popular Beyerage Once More.—No one has any cause to complain of unsatisfactory Coffee. That complaint has been remedied, and it is within the power of every one now to drink their favorite beverage without the dread of fearing that it is adulterated poison. The coffee to which we refer we have used, still use, and intend to use, and therefore we speak knowingly. We refer now to the celebrated Continental Coffee, manufactured by Scull, and for sale everywhere. This Coffee is pleasant and palatable, is exhibitanting, and leaves no depressing effects behind. It is used by our principal hotels, private boarding houses, and many of our most respectable families. We have had occasion to recommend it to a good number of our friends whilst travelling in the interior, and they, acting ripon our advice, have tried it, and their verdict agrees with our own. The central depot for the sale of this coffee is at No. 152 Arch street, but you can buy it of your family grocer. The price is much lower than that asked for other manufactures of not half its worth. Try the Continental.—Try it because it is the cheapest and the best, and when you fiave tried it you will not regret it. It comes in convenient packages, and may be sent by express to any part of the country. We mention this for the particular benefit of our readers at a distance.—Sunday Mercery.

Jan. 2, 1863. An Interesting History

DR. SCHENCK'S OWN CASE, WHILE LABORING UNDER CONSUMPTION, And how his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills act on the System, in Curing that Disease, and the GREAT SUCCESS ATTENDING IT

The above is a correct likeness of Pr. Schenck taken many years ago, after he had recovered from Consumption, by a course of his "Schenck's Pulmonie Syrup." The likeness, although it is does not represent him anything like as had as he was at the worst, yet it is in strong contrast with the hale and vigorous looks of the portrait below, which is the true likeness of him at the present time. The contrast between these two portraits is so great that many would not believe them to be the same person. Yet there are hundreds of persons in and around Philadelphia, who will recognize both portraits to be true representations. When the first was taken he weighed 107 pounds; at the present time his weight is 220 pounds.

Thirty years ago I was in the last stages of Pulm nary Consumption, and given up to die. I resided i Philadelphia, and Dr. Josedh Parrish, then of thi Philadelphia, and Dr. Joseth Parrish, then of this city, ordered me to Moorestown, N. J., a distance of nine miles, which took me two days to get there.—On my arrival I was put to bed, and I there laid for many weeks. This was my native place, where all my tamily lived and had died of consumption. Dr. Thornton, who attended my father in his last illness, was called, and gave me one week to fix up my affairs. He had seen all my family go that way, and thought I was to go, too. Then I heard of the remedies I now offer to the public, which cured me. It seemed to me that I could feel them penetrating my whole system.

They soon ripered the matter on my lungs, and I would spit of more than a pint of offensive yellow matter every morning. As soon as that began to subside, my cough, fever, pain, night sweats—all began to leave me, and my appetite became so great hat it was with difficulty I could keep from eating too much. I soon gained my strength, and I have

natit was with difficulty I could keep from eating too much. I soon gained my strength, and I have been growing in flesh ever since. For many years I have enjoyed uninterrupted good heatth, keeping the liver and stomach healthy with the Seaweed Tonic and Mandrake Pills, as I am of a bilious tempera ment. My weight is two bundred and twenty pounds On my recovery people would send for me far and hear, to see if their cases were like mine. For this purpose I now professional wishe in the large edition. hear, to see it their cases were take mine. For this purpose I pay professional visits in the large cities. The consumptives wish to see the one that makes these medicines, and who was cured of consumption by them. To make new lungs is impossible; but cavities in the lungs and chronic ulcerations of the bronchial tubes can be healed. Such as exare dying hourly under the ordinary treatment of physicians, and just such are cured by the proper use of schenck's Debressia from Exercial Courter in the date to the

hourly under the ordinary treatment of physicians, and just such are cure by the proper use of Schenck's Pulmonic Syrup, Seaweed Tome, and Mandrake Pills I am now a healthy man, with a large cavity in the middle lobe of the right lang, the lower lobe very much hepatized and complete adhesion of the pleura. The left lung is sound, and the upper lobe of the right lung is in a tolerator healthy condition. The great reason why physicians do not care consumble the stop the codgle, to stop main, to stop might sweats; heatif ever, and by so doing, they derange the whole digestive powers, locking up the secretious and eventually the parent dies. After I make a careful examination of the patient with the Respirometer, and find mags enough left to cure. I direct the patient how to use the three remedies. Remove the cause and they will all stop of their own accord. No one can be cared of consumption, liver complaint, dyspepsia, catarrh, canker, ulcerated throat, unless the liver and stomach are made healthy. In New England this canker, chronic catarrh, ulcerated throat, elongation of uvula, is more prevalent than in any other section of the country. This is frequently caused by a foul stomach. You may burn it out with constite time and acam, and all they will get is ternany other section of the country. This is frequently caused by a foul stomach. You may burn it out with caustic time and again, and all they will get is temporary relief. Correct the stomach and liver, and they will get is temporary relief. Correct the stomach and liver, and they will heal up themselves.

Good nutrition is the remedy. If you have any disease in any part of the body, it will remain there and decay more and more until you can get the stomach in the condition to digest food, and make new blood to take the place of the diseased matter. This is the only way to heal cavities in the lungs and ulcerated broncinal tubes. Correct the stomach and liver, and nature will do the healing. Many persons have an idea that certain medicines are great purifiers of the blood. When blood is once diseased it cannot be purified; it is diseased the same as the diseased matter in the system; but get the apparatus in order, the hver and stomach, and give it pienty of nurishing food it will make new blood, which will take the place of the diseased.

liver and stomach, and give it pienty of nurshing food it will make new blood, which will take the place of the diseased.

Schenck's Pulmonic syrup is one of the best preparations of iron in use, it is a powerful tonic of itself, and when the Scawced I onic dissolves the mucus in the stomach, and it is carried off by the aid of the Mandrake Pils, the Pulmonic Syrup is made into blood. This is the only way to cure consumption.—
If I cannot get a good appetite, and food does not digest, I cannot cure the patient. Never mind the cough; remove the cause and it will stop of itself.—
This is the most trouble I have with my patients in my room. They say, "Doctor, I feel stronger; I can eat; my night sweats are better, and I feel better every way, but my cough is so bad yet;" and they are astonished to hear me say that does not matter; remove the cause and the cough will stop of itself. Schenck's Seaweed creates a good appetite in about nine days, when there is no lung disease, unless the liver is so congested that the Mandrake Pills cannot unlock the ducts of the gail bladder in that short space of time, in order to allow the stale bile to pass off. Keep the liver and stomach aealthy and there is less danger of consumption or any other disease. It is hard to take cold when those organs are healthy. Those that are billiors, low spirited, dreary, feeling stupid conted tongue, poor appetite, nervours, stomach full of wind, every thing that is eaten lies heavy, loss of memory, try one bottle of SCHENCK'S SEAWEED TONIC and one box of SCHENCK'S sufficient in many

PILLS. It is only a cost of one dollar and twenty fi cents, with full directions. This is sufficient, in ma cases, to satisfy what the medicines are. Frequent

I should think it would be of great interest to some unprejudiced physician too isit these cases, particularly Miss Scofield, or any of them who have been cured by my medicines. They are numerous in New York; but the above three all differ from each other; and if my medicines are doing what I represent they are, they should have the credit and the afflicted in where and how they be cured.
