# GOING UP AND COMING DOWN.

Now listen to my homely song, My songs are never over nice, And yet I'll try to strew slong A little bit of good advice. The world has many curious turns.

To you and I perhaps unknown, While men in history's sacred urn Are going up and coming down. The wheel of fortune's turning round

Our destiny it moves along, While ever and anon is found A blank amid the busy throng. We strive to keep the foremost rank, And labor for the world's renown,

Yet fortune's ever on the turn, While some go up and some come down. 'Tis right to labor to go up, And right to strive from coming dewn,

And drink of pleasure's sweetest cup, To dwell where brightest joys are found. But is it right when fortune's smile Is resting on us to refrain And thus refuse a helping hand

Unto a brother going down? This world has something more my friend For you and 1, than pounds and pence, Then let me humbly recommend The use of little common sense

The world's a sad, seducing cheat, With fancy's smile to lure you on, Beware lest some one going up, Will only be you coming down. Set not your heart's affections here

Nor trifle with an empty name, These all in future years appear As bubbles floating o'er the main Your's is a higher trust by far, Than fame, and honor, or renown

Then labor to be going up, Else you are always coming down Time, the winged messenger that bears, Us o'er a wide, extended sea, The harbinger of all our fears, And yet a precious boon to thee, Will soon be past, age comes along, And all of pleasure's seeds are sown, And we are numbered with the throng

#### That's going up and coming down. PARTY PLATFORMS.

PLATFORM OF THE CLEVELAND CON VENTION. The following declarations were made by the Convention which nominated FREMONT and Cochrane at Cleveland, May 25, 1864:— Eirst. The Federal Union shall be preserved. Second. The Constitution and laws of the ited States must be observed and ol

Third. The Rebellion must be suppressed by force of arms, and without compromise.

Fourth. The rights of free speech, free press, and the habeas corpus must be inviolate, save in districts where martial law has been pro-

Fifth. The Rebellion has destroyed slavery, and the Federal Constitution should be amended to prohibit its re-establishment, and to secure o all men absolute equality before the law. Sixth. Integrity and economy are demanded at all times in the administration of the Govrnment, and in time of war the want of them

Seventh The right of asylum, except for crime, and subject to law, is a recognized principle of American liberty; any violation of it annot be overlooked and must not go unre-

Eighth. The National policy known as the "Monroe doctrine" has become a recognized principle, and the establishment of an anti-reublican Government on this continent by any foreign power cannot be tolerated.

Ninth. The gratitude and support of the na-

tion are due to the faithful soldiers and the earnest leaders of the Union army and navy for heir heroic achievements and deathless valor a defense of our imperiled country and civil liberty.

Tenth. The one term policy for the Presi-

dency, adopted by the people, is strengthened by the force of the existing crisis, and should be upheld by Constitutional amendments. Eleventh. The Constitution should be so amended that the President and Vice President shall be elected by a direct vote of the people. Twelfth. The question of the reconstruction of the Rebellious States belongs to the people, hrough their representatives in Congress, and

not to the Executive.

Thirteenth. That the confiscation of the ands of the Rebels, and their distribution mong the soldiers and actual settlers, is a neasure of justice.

PLATFORM OF THE NATIONAL UNION CONVENTION. The following are the resolutions adopted by the Convention which nominated Lincoln and Johnson at Baltimore, June 9th, 1864:— Resolved, That it is the highest duty of every American citizen to maintain against all their enemies the integrity of the Union, and the paramount authority of the Constitution and laws of the United States; and that, laying aside all differences and political oponions, we

pledge curselves as Union men, animated by a common sentiment, and aiming at a common object, to do everything in our power to aid the Jovernment in quelling by force of arms the Rebellion now raging against its authority, and in bringing to the punishment due to their crimes the Rebels and traitors arrayed against Resolved, That we approve the determination of the Government of the United States not to

compromise with Rebels, or to offer any terms of peace except such as may be based upon an unconditional surrender of their hostility and a return of their just allegiance to the Constitution and laws of the United States, and that we call upon the Government to maintain this position and to prosecute the war with the utmost possible vigor to the complete suppression of the Rebellion, in full reliance upon the self-sacrifice, the patriotism, the horoic valor, and the undying devotion of the American peo ple to their country and its free institutions. Resolved, That as slavery was the cause, and now constitutes the strength of the Rebellion, and as it must be always and everywhere hostile to the principles of republican Government, justice and the National safety demand its utter and complete extirpation from the soil of the republic, and that we uphold and maintain the acts and proclamations by which the Government, in its own defense, has aimed a death blow at this gigantic evil. We are in favor furthernore, of such an amendment to the Constituion, to be made by the people in conformity with its provisions, as shall terminate and forever prohibit the existence of slavery within he limits of the jurisdiction of the United

Resolved, That the thanks of the American cople are due to the soldiers and sailors of the army and navy, who have periled their lives in defense of their country, and in vindication of the honor of the flag; that the Nation owes to them some permanent recognition of their patriotism and valor, and ample permanent provision for those of their survivors who have eceived disabling and honorable wounds in the service of the country; and that the memories of those who have fallen in its defense shall be neld in grateful and everlasting remembrance, Resolved. That we approve and applaud the practical wisdon, the unselfish patrictism and unwavering fidelity to the Constitution and the unwavering fidelity to the Constitution and the principles of America liberty, with which a grim smile, which despite the surroundings, Abraham Lincoln has discharged, under circumstant at itself to the bystanders.

Resolved, That the Government owes to all men employed in its armies, without regard to distinction of color, the full protection of the laws of war, and that any violation of these laws or of the usages of civilized nations in the laws or of the usages of civilized nations in the time of war by the rebels now in arms, should be made the subject of full and prompt redress. Resolved, That the foreign emigration which

in the past has added so much to the wealth and development of resources and increase of power to the nation, the asylum of the oppressed of all nations, should be fostered and encouraged by a liberal and just policy.

\*Resolved\*, That we are in favor of the speedy construction of the railroad to the Pacific.

Resolved, That the national faith pledged for Resolved, That the national faith pledged for the redemption of the public debt must be kept inviolate, and that for this purpose we recommend economy and rigid responsibility in the public expenditures, and a vigorous and just system of taxation; that it is the duty of any loyal State to sustain the credit and promote the use of the primal currency.

Resolved, That we approve the position taken by the Government that the people of the United States never regarded with indifference the attempt of any European power to overthrow by force, or to supplant by fraud, the institutions of any republican Government on the western continent, and that they view with extreme jealousy, as menacing to the inde-pendence of this our country, the efforts of any such power to obtain new footholds for monarchical governments, sustained by a fo-

Resolved, That in the future, as in the past. we will adhere with unswerving fidelity to the Union under the Constitution as the only solid foundation of our strength, security and hap-

piness as a people, and as a framework of government equally conducive to the welfare and prosperity of all the States, both Northern and Southern.

Resolved, That this Convention does explicity declare as the seuse of the American people that after four years of failure to restore the Union by the experiment of war, during which under the pretense of a military necessary or war power higher than the Constitution, the Constitution itself has been disregarded in

every part, and public liberty and private right alike trodden down, and the material prosperity of the country essentially impaired, justice. humanity, liberty and the common welfare demand that immediate efforts be made for a cessation of hostilities, with a view to an ultimate convention of all the States, or other peaceable means, to the end that, at the earliest practicable moment, peace may be restored on the basis of the Federal Union of the States. Resolved, That the direct interference of the military authority of the United States in the recent elections held in Kentucky, Maryland, Missouri, and Delaware, was a shameful vi-plation of the Constitution, and the repetition

of such acts in the approaching election will e held as revolutionary, and resisted with all the means and power under our control. Resolved, That the aim and object of the Democratic party is to preseve the Federal Union and the rights of the States unimpaired, and they hereby declare that they consider the administrative usurpation of extraordinary and dangerous powers not granted by the Constiution; the subversion of the civil by military aw in States not in insurrection; the arbitrary military arrest, imprisonment, trial and entence of American citizens in States where civil law exists in full force; the suppression of freedom of speech and of the press; the de-nial of the right of asylum; the open and avowed disregard of State rights; the employment of unusual test oaths, and the interference with and the denial of the right of the

people to bear arms, as calculated prevent a restoration of the Union and the perpetuation of a Government deriving its just powers from tim. Broker became acquainted with a little of the governed.

Resolved, That the shameful disregard of the countryman who has some notion about id, firm, good bacon. Barley meal Administration in its duty in respect to our Administration in its duty in respect to our fellow citizens who now and long have been prisoners of war in a suffering condition deserves the severest reprobation on the score alike of public and common humanity.

Resolved, That the sympathy of the Demo-oratic party is heartily and earnestly extended to the soldiery of our army who are and have been in the field, under the flag of our country, and, in the event of our attaining the

try, and, in the event of our attaining the power, they will receive all the care, protection, regard and kindness that the brave soldiers of the republic so nobly earned. How PREPARED COFFEES ARE MADE .- The

Baltimore American, who admits itself to be a great lover of coffee, says it has recently received two serious checks to this enthusiasm. One was the assurance of an old traveler from him examined, was accepted and sworn in the East that his Mocha was not Mocha, and as a substitute! Visiting recently the Commissary Department of one of our large military hospitals, we noticed several barrels of dried coffee grounds, the purpose whereof excited our ouriosity.— The polite commissary informed us that they received twelve dollars a barrel for the grounds and thus added materially to the "Slush Fund." "But what is it purchased for?" we persisted.

#### AMERICA'S DANGER AND SAFETY

It is sickening to hear and read the increasing disaffection towards our country. Judging from the treasonable effusion of the opposition press, as well as from the outspoken disloyalty of the patrons of that press, the conclusion is unavoidable that the downfall of the nation is their prime aim and end. Their very meat and drink is to prophesy failure and disaster. Their whole heart is set in them to work mischief, and only mischief, touching any and all measures looking to the salvation of the conn. try. They are opposed to the draft; opposed to the Administration; opposed to every thing truly Americau. Their opposition falls only when the superior claims of the Southern Confederacy engage their attention. The Exchange of Prisoners.

The Richmond papers of the 1st instant publish a communication from Mr. Ould, the rebel Exchange Commissioner, relative to the ex change of prisoners. It gives some important information upon the subject, but at the same time gives a prejudicial view of the question. According to this communication, it is made to appear that up to the 10th of August, the point of dispute which obstructed the exchange was as follows: Our Government, baving a large preponderance of prisoners, was willing to exchange man for man, thereby releasing all the Union prisoners, and an equal number of rebels: The Confederate authorities objected to this reasonable proposition, and insisted that all the prisoners—on both sides—should be given up, and that the excess held by the North should be paroled. On the 10th ult, however, Commissioner Ould revoked his decision and agreed to the terms suggested by the Federal authorities. No answer having been made by the Federal Commissioner, Mr. Ould now publishes the correspondence in the matter, and charges the

Federal authorities with bad faith.

To this complaint, Gen. Buttler responds in a communication, which we publish below, addressed to the rebel Exchange Commission.— From this it appears that Mr. Ould printed in the rebel journals at Richmond his offer of acceptance of Gen. Butler's proposition, made night months ago, before it was laid before Gen. Butler, and without awaiting his reply, and also that Mr. Ould declines to exchange negro soldiers now in the hands of the enemy, refusing to treat them as prisoners of war.

#### THE BIOHANGE QUESTION. GEN. BUTLER'S PROPOSITION.

His Caustic and Logical Reply to the Rebel Commissioners.

Naw Year, Monday, Sept 5, 1864-To the Editor of Naw Year, Monday, Sept 5, 1864—To the Editor of the New York "Times":—Inclosed I send you a note from the Agent of the Exchange of Priconers to the Confederate Commissioner, Mr. Ould, in reply to his offer to accept, in part, a proposition made by meight months since, to exchange all prisoners of war held by either belligerent party.

Without awaiting my reply, Mr Ould has printed his offer, for which purpose it seems to have been made. I am, therefore, driven to the same mode of placing justification of the action of this government in possession of the public, before it reaches the Confederate Commissioner. Respectfully, .

BEN F HUTLER, Major General and Commissioner of Exchange.

-----

Headquarters Department of Virginia and North Caroliua, in the field, August—, 1864—Hon Robert Ould, Commissioner of Exchange—Sir:—Your note to Major Mulford, Assistant Agent of Exchange, under date of August 10th, has been referred to me.

You therein state that Major Mulford has several times, proposed to exchange prisoners respectively held by the two belligerents, officer for officer, man for man, and that "the offer has also been made by other officials having, charge of matters connected with the exchange of prisoners," and "this proposal has heretofore been declined by the Confedera's authorities." That you now consent to the above proposition, and agree to deliver to you (Major Mulford) the prisoners held in captivity by the Confederate authorities, provided you agree to deliver an equal number of officers and men. As equal numbers are delivered from time to time, they will be declared exchanged. This proposal is made with the understanding that the officers and men on both sides who have been longest in captivity will be first delivered, where it is practicable.

From a slight ambiguity in your phraseology, but nore, perhaps, from the antecedent series. From a slight ambiguity in your phraseology, but more, perhaps, from the antecedent action of your acceptance of it, I am in doubt whether you have stated the proposition with entire accuracy.

It is true, a proposition was made by Major Mulford and by himself, as Agent of Exchange, to exchange all prisoners of war taken by either belligerent party, man for man, officer for officer, of equal rank, or their equivalents. It was made by me as early as the first of the winter of 1863-84, and has not been accepted—In May last I forwarded to you a note, desiring to know whether the Confederate authorities intended to treat colored soldiers of the United States army as prisoners of war. To that inquiry no answer hes yet been male. To avoid all possible misapprehension or mistake hereafter as to your ofter now, will you now say whether you mean by "prisoners held in cap tivity," colored men, duly enrolled, and mustered into the service of the United States, who have been cap tured by the Cogfederate authorines; and if your authorities are willing to exchange all sold.ers so mustered into the United States army, whether colored or otherwise, and the officers commanding them, man for man, officer for officer.

At the interview which was held between yourself and the Agent of Exchange on the part of the United States, at Fortress Monroe, in Marcu last, you will do me the favor to remember the principal discussion turned upon this very point; you, on behalf of the Confederate Government, claiming the right to hold all negroes, who had heretofore been slaves, and not emancipated by their masters, enrolled and mustered into the service of the United States, when captured by your forces, not as prisoners of war, but upon capture to be turned over to their supposed masters or claimants, whoever they might be, to be held by them as slaves.

By the advertisements in your newspapers, calling upon masters to come forward and claim these men so captured. I suppose that your authorities atill adhere to that claim—that is to say, tha

He says:

The person who receives the money is not obliged to give a receipt, unless the other party furnishes the proper stamp.

"If a person gives a receipt without requiring that the party to whom it is given shall furnish the stamp, the maker of the receipt must himself stamp the nature of the receipt must himself I am reciting these public acts from memory, an will be pardoned for not giving the exact words, although I believe I do not vary the substance and effect. These declarations on the part of those whom you represent, set remain.

is the Government of the United States to understand that these several claims, enactments, and proclaimed declarations are to be given up, set aside, revoked and held for naught by the Confederate authorities and that you are ready and willing to exchange mar for man those colored soldiers of the United States duly mustered and enrolled as such, who have here tofore been claimed as slaves by the Confederate States as well as white soldiers? s well as white soldiers?

as well as white soldiers?

If this be so, and you are so willing to exchange these colored men claimed as slaves, and you will so officially inform the Government of the United States, then, as I am instructed, a principal difficulty in effecting exchanges will be removed.

As I informed you personally, in my judgment, it is neither consistent with the policy, dignity, or honor of the United States, upon any consideration, to allow those who, by our laws solemnly enacted, are made soldiers of he Union, and who have been duly enlisted, enrolled, and mustered as such soldiers, who have borne arms in behalf of this country, and who have borne arms in behalf of this country, and who have been c-ptured while fighting in vindication of the rights of that country, not to be treated as prisoners of war, and remain unexchanged, and in the service of those who claim them as masters; and I cannot believe that the Government of the United States will ever be found to consent to so gross a wrong.

of those who claim them as masters; and I cannot believe that the Government of the United States will ever be found to consent to so gross a wrong.

Pardon me if I misunderstood you in supposing that your acceptance of our proposition does not in good faith mean to include all the seldiers of the Union, and that you still intend, if your acceptance is agreed to, to hold the colored soldiers of the Union unexchanged, and at labor or service, because I am informed that very lately, almost cotemporaneously with this ofter on your part to exchange prisoners, and which seems to include all persons of war, the Confederate authorities have made a declaration that the negroes heretofore held to service by owners in the States of Delaware, Maryland, and Missouri are to be ireated as prisoners of war when captured in arms in the service of the United States.

Such declaration that a part of the colored soldiers of the United States were to be prisoners of war would seem most strongly to imply that others were not to be so treated, or in other words, that the colored men from the insurrectionary States are to be held to labor and returned to their masters, if captured by the Confederate forces while duly enrolled and musiered into, and actually in the armies of the United States.

In the view which the Government of the United States takes of the claim made by you to the persons and services of theen engroes, it is not to be supported upon any principle of national or municipal law.

ported upon any principle of national or municipal law.

Looking upon these men only as property, upon your theory of property in them, we do not see how this claim can be finade, certainly not how it can be yielded. It is believed to be a well-settled rule of public international law, and a custom and part of the laws of war, that the capture of movable property wests the title to that property in the captor, and therefore where the beligerent gets into full possession property belonging to the subject or citizens of the other belligerent, the owner of that property is at once divested of his title, which rests in the belligerent Government capturing and holding such possession. Upon this tule of international law all civilized nations have acted and by it both belligerents have dealt with all property, save slaves, taken from each other during the present war.

and by it both belligerents have dealt with all property, save slaves, taken from each other during the present war.

If the Confederate forces capture a number of horses from the United States, the animals immediately are claimed to be, and, as we understand it, becomes the property of the Confederate authorities.

If the United States capture any movable property in the Rebellion, by our regulations and laws, in conformity with international law, and the laws of war, such property is turned over to our Government as its property. Therefore, if we obtain possession of that species of property khonw to the laws of the insurrectionary States as slaves, why, should there be any doubt that that property, like any other, vests in the United States.

If the property in the slave does so vest, then the "just disponendil," the right of disposing of that property, rests in the United States.

Now, the United States have disposed of the property which they have sequired by capture in slaves taken by them, by giving that right of property to the man himself, to the slaves, i.e. by emancipating him and declaring him free forever, so that if we have not mistaken the principles of international law and the laws of war, we have no slaves in the armise of the United States.

All are free med, being made so in such a manner as we have, chosen to dispose of our property in them which we acquired by capture.

By the laws and customs of war, this right has never been amblied to movable property. been applied to movable property.

True, it is, I believe that the Romans attempted to apply it to the case of slaves, but for two thousand years no other nation has attempted to set up this right as ground for treating slaves differently from other property.

tured from opposing belligerents in a civil war, such as ours unhappily is.

Consist utly then with any principle of the law of nations treating slaves as property merely, it would seem to be impossible for the Government of the United States to permit the negroes in their rank to be re-enslaved when captured, or treated otherwise than as prisoners of war.

I have fogborne, sir, in this discussion, to argue the question upon any other or different grounds of right than those alopted by your authorities in claiming the negro as property, because I understand that your fabric of opposition to the Government of the United States has the right of property in man as its cornerstone. Of cource it would not be profitable in settling a question of exchange of prisoners of war to attempt to argue the question of abandonment of the very corners one of their stempted political edifice. Therefere I have admitted all the considerations which with him upon the Confederate theory of property only.

with him upon the Confederate theory of property only.

I unite with you most cordially, Sir, in desiring a speedy settlement of all these question, in view of the great suffering endured by our prisoners in the hands of your authorities, of which you so feelingly speak. Let me ask, in view of that suffering, why you have delayed eight months to answer a proposition which by now accepting you admit to be right, just, and humane, allowing that suffering to continue so long!—Ohe cannot lelp thinking, even at the risk of being deemed uncharitable, that the benevolent sympathies of the Confederate authorities have been lately stirred by the depleted condition of their armies, and a desire deemed uncharitable, that the benevolent sympathies of the Confederate authorities have been lately stirred by the depleted condition of their armies, and a desire to get into the field, to affect the present campaign, the hale, hearty, and well-fed prisoners held by the United States in exchange for the half-starved, sick, emaciated, and unserviceable soldiers of the United States now languishing in your prisons. The events of this war, if we did not know it before, have taught us that it is not the Northern portion of the American people alone who know how to drive sharp bargains.

The wrongs, indignities, and privations suffered by our soldiers would move me to consent to anything to procure their exchange, except to barter away the honor and faith of the Government of the United States, which has been so solemnly pledged to the colored soldiers in its ranks.

Consistently with notional faith and justice we cannot relinquish this position. With your suffer your soldiers, captured in fighting your battles, to be in confinement for monthe rather than release him by giving for him that which you call a piece of property, and which we are willing to accept as a man!

You certainly appear to place less value upon your soldier than you do upon your negro. I assure you, much as we of the North are accused of loving property, our citizens would have no difficulty in yielding up any piece of property they have in exchange for one of their brothers or sons languishing in your prisons. Certainly there could be no doubt that they would do so were that piece of property less in value than five thousand dollors in Confederate money, which is believed to be the price of an able-bodied negro in the insurrectionary States.

Trusting that I may receive such a reply to the question that they

rinch is believed to be the price of an able-bodied ne-jo in the insurrectionary States.

Trusting that I may receive such a reply to the ques-ions propounded in this note, as will lead to a speedy esumption of the negotiations for a full exchange of all prisoners, and a delivery of them to their respec-ive authorfties. I have the honor to be, very respect-ively, your obedient servant. Henry F. Butuse.

### CAPTURE OF ATLANTA.

Atianta is Ours! The patriotic spir North is electrified to-day by this glorious news from our glorious army in Georgia. And well indeed may our own Union-loving people give way to their enthusiastic joy and fling to the breeze their starry flags, which now float from house tops and steeples - the symbols of righteous victory. The glorious achievement of our leet at Mobile, the principal outlet of the enemy to the sea, had only just begun to strengthen the hopes and confirm the faith of our loyal nen, when this new victory comes to inspire their courage, and stimulate their efforts,-Sherman has triumghed and Georgia is free:

The particulars of this important event, so far as they are supplied, appear to be as follows: On the night of the 26th ult, Gen. Sherman moved from his position in front ot Atlanta with a view of compelling Hood to come out from his defences and fight in an open field. While executing this movement, one corps of his army—the Twentieth under Gen. Slocum—was left by Gen. Sherman on the Chattahoothe to hold his line of communication. With the main force thus withdrawn from the rebel fron', Gen. Sherman turned Hood's left, flanked the important strategic point where the Mont-gomery and Macon roads to Atlanta unite, and marched for Jonesboro—a point on the Macon road twenty miles south of Atlanta. This movement of course out Hood's line of communication and compelled him to leave his works and fight for his communication, without which his position would become untenable. -The result of this grand strategical movement was a desperate battle near East Point, the junction of the two railroad, in which the rebel army was cut in two, with very heavy loss in killed, and the occupation, meanwhile, of Atlanta, by the Twentieth corps, which entered Important from Europe. the city on Friday morning at ten o'clock. In In the meantime, our main army rests on the Macon road, thus shutting off the enemy from all communication with the South or East, and placing the whole rebel force practically at Sherman's mercy.

The importance of this final achievement of Sherman's great campaign cannot well be overestimated. No other point in the South is so favorable to the rebels for concentration and defense. Atlanta is the centre of the great lines of railroads which radiate thence to all the principal cities in the cotton States. From its railroad facilities it was selected to be the great arsenal, foundry, and manufacturing depot of the Confederacy, and as such has grown to be a place of immense importance. Its possession opens to us the back door to Charleston, Savannah and Mobile, and renders inevitable the dismemberment of the whole rebellious empire. There now remains no efficient line of communication between the southeastern states and Virginia; Alabama, Georgia and Mississippi are completely isolated, and cannot long resist the progress of our arms, while Virginia and the Carolinas, deprived of the great granary which has hitherto supplied them with cereals, and shut off from their supplies of beef, except such only as they may be able to procure from Florida, must very soon experience as they have never done before the pains and hardships

of a land as well as a water blockage.

The campaign which has reached this glorious climax, has been, confessedly, one of the greatest on record, and must elevate Gen. Sherman to a place among the first Generals of his age. Sherman began the forward march for Atlanta on the 6th of May. Since then he has successfully captured and occupied Dalton. Tilton, Resaca, Rome, Calhoun, Adairsville, Kingston, Cass, Cartersville, Etowa, Alatoona, Ackworth, Big Shanty, Marietta, Decatur, and Atlanta, making a March of 188 miles in all, right through the heart of the enemy's country. From first to last a hard common sense has characterized all the movements of this commander. A few instances of this may be properly recited, now that the objective of all his efforts is reached: At Dalton, the rebel army held the mountain fastnesses, constituting it a grouphold which it would have been the sheerest madness to assault. There fore, careful of the lives of his men. Sherman threatened Johnston in the front and assaulted him in the rear. When Johnston massed his force at Resecs, he found in his front General Sherman had strongly intrenched in Sugar Valley. Here was a display of the simplest him Sherman was coming. The chain of hills stretching from Dallas towards Ackworth of fered a position sufficiently strong to check an ordinary invading fos ... Johnston cocupied and

or ox, the property of the resident of the Confederate states, which should bell justs our hands.

If, therefore, the privipees of international law and the laws of war used in this discussion are correctly stated, then it would seem that the deduction logic ally flows therefrom, in patural sequence, that the Confederate states can have no claim upon the negro soldiers captured by them from the armies of the United states, because the correct product of the former ownership offsher by their clissens of subjects, and only claim such as result hunder the law of war, from their captor merely. To the Confederate states can have more product the granular of the claim their subjects, and only claim such as results under the law of war, from their captor merely. To the Confederate states of saim our afters fought against under the law of saim our afters fought against under Hailfulge and Decatur, which set up by the Barhary Powers, on the Northern shore of Africa, about the year-1800, and in 1864 their children will hardly yield it spon their own soil.

This point I will not pursue further, because I understand you the induce the idea that you will reduce free in the saves because of capture in war, and that you give the idea that you will reduce tree in the saves because of capture in war, and that you give the idea that you will reduce tree in the saves because of capture in war, and that you give the idea that you war, when you have been captured by you upon the "jus post limin," or that principle you upon the "jus post limin," or that principle you upon the saves because I under this principle you upon the property it has the you will reduce the save shader the class that you give a same that you give a s

pated by Gen. Sherman's official dispatch, dated twenty-six miles south of Atlanta, at 6 o'clock on Saturday morning. The successes achieved by our forces appear to have been even more decisive than was at first reported.

Gen. Sherman reports as follows: "As already reported, the army withdrev from about Atlanta, and on the 30th had made a break on the East Point road, and reached a good position from which to strike the Macon road-the right (Howard) near Jouesboro; the left (Schofield) near Rough and Ready, and the centre (Thomas) at Couch.s. "Howard found the enemy in force at Jones

boro, and intrenched his troops, the salient within half a mile of the railroad The enemy attacked him at 8 P. M., but was easily repulsed, leaving his dead and wounded Finding strong opposition on the road, I a lyanced the left and center rapidly to the railroad, made a good lodgement, and broke it all the way from Rough-and-ready down to Howard's left, near Jonesboro, and by the same movement, I interposed my whole army be tween Atlanta and the part of the enemy in-trenched in and around Jonesboro.

"We made a general attack on the enemy at Jonesboro, on the first of September, the Fourteenth Corps, Gen. Jeff. C. Davis, carrying the works handsomely, with ten guns and about a thousand prisoners.

"In the night the enemy retreated south, and we have followed him to another of his hastily constructed lines near Lovejoy's Station. Hood at Atlanta, finding me on his road, the only one that could supply him, and between him and a considerable part of his army blew up his magazines in Atlanta, and left in Atlanta is ours, and fairly won.

"Since the 5th of May we have been in one constant battle or skirmish, and need rest.-Our losses will not exceed twelve hundred, and we have possession of over three hundred rebel dead, two hundred and fifty wounded, and over fifteen hundred well."

A later despatch from Gen. Slocum, dated at Atlanta on Saturday night, states that the enemy destroyed seven locomotives and eighty-oncars loaded with ammunition small arms and stores, and left fourteen pieces of artillery, most of them uninjured, and a large number of small arms. Deserters are constantly coming into our lines.

The position of Hood's army, broken and dis pirited as it undoubtedly is, must be perilous in the extreme. Even if compact and united, it would be inferior to Sherman's in number. Dating from the 20th of July, Hood has sustained an aggregate loss of about 25,000 killed captured—an army of itself greater than that which Gen. Scott penetrated to the heart of Mexico, and planted his standard in the gates of its capital. The militia with which Hood has replenished his ranks can only be depended upon for garrison duty, and will not stand a moment before our veterans in the field. Doubtless an effort will we made to resist our advance toward the seaboard, but it is simply impossible that any such attempt should long delay the march of our victorious

His Staff and one Gun Captured. CINCINNATI, September 6 .- The Commercial publishes the following despatch:

Knonville, September 5.—The following official telegram from General Gilven was received early this evening :--

Bull's Gap, Tennessee, September 4 .- To General Tillison -I surprised, defeated, and illed John Morgan at Greenville this morning. The killed are scattered for miles, and have not yet been counted. They probably number fifty or one hundred. About seventy-five prisoners were captured, and among them were Morgan's staff. Also one piece of artillery and a caisson. The enemy's force outnumbered mine, but the surprise was complete (Signed) ALVEN C. GILVEN.

### the city on Friday morning at ten o clock. In this battle, the rebel Gen. Hardee was killed. THE PIRATE "GEORGIA" SEIZED OFF LISBON.

New York, Sept. 5 .- The steamer City of Washington, from Liverpool, with dates to the 25th, arrived at this port this morning. The fellowing is the latest despatch telegraphed to

London, August 26 .- The United States frigate Niagra seized the rebel pirate Georgia, twenty miles off Lisbon, put a prize crew en board, and sent her to New York. The Niagra landed the captain and crew of the Georgia at Dover.

The Georgia when seized was under the British flag, and her captain entered a protest against the seizure.

The event has excited much controversy. It is rumored that the capture was effected under consent of the British Government. There is much difference of opinion as to the legality of the capture, but general satisfaction is expressed.

 $\mathbf{DIED}.$ 

At Deerfield. on the 8th of August. WILLIAM SHULL of Cedarville, in the 34th year of his age. The subject of this brief obituary notice has been a resident of Cedarville for four years, and was on a visit in Deerfield at the time of

the night-time, when the Twentieth Corps, his decease. The announcement of his death Gen. Slocum, took possession of the place. So was received by his many friends in Cedarville, with profound sorrow His gentlemanly de-meanor, affable manners, and christian deportment had won the respect and confidence of the entire community. Several years ago, during a revival of religion, he became a sul ject of converting grace, and connected himself with the Presbyterian Church of Deerfield; since which time he has ceased not continually both in public and private, to "witness a good confession." The circumstances of his death were peculiar and distressing, but the Savior leaves not his chosen ones to try the dark val-

ley alone. His rod comforts and sustains. The deceased, in addition to a large circle of relatives and friends, leaves a widow, in delicate health, to mourn his early death .--But God has promised to he the "father of the fatherless, and a judge of the widows."-How sweet to lean on the breast of the Savier and feel that his hand of love prepares even the bitter draught of affliction and sorrow .-After the night of tears cometh the morning of joy and peace. French Breakfast and Dinner COFT

Owing to the very high to and the great on, and reliable article our customers by the could be supposed from first hands. It was the intention of THE GREAT AMERICAN TEA COMPANY THE GREAT AMERICAN TEA COMPANY to do a strictly Tea busines, but as we have had some customers living at a distance that have relied upon us to supply them exclusively with Tea and Coffee, it being convenient for them to come to New York, The Great Tea And Coffee, Expositive of this country—and as our Tea Taster was possessed of information relating to a Coffee that could be furnished at a moderate price, and give universal satisfaction, and at the same time afford the retailer a handsome profit—we have been compelled to supply those parties.—THIS COFFEE HAS BECOME SO POPULAR with our customers and their sales have increased to such an extent that we have been compelled to make large additions to our machinery, which will enable us to supply a few more customers with it. We will therefore send it to those who may order.

It is Fast Superseding all other Coffees. It is Fast Superseding all other Coffees.

This Coffee has been used for more than a century in Paris, and since its introduction into this country it has been in use by some of the leading French Restaurants here. The Parisians are said to be the best judges of coffee; and the great favor in which it is held by them is the best recommendation that can be produced for its fine flavor and healthy effects upon the human system. human system.

We put up but one grade of this Coffee, and that is of a quality that our customers have found from experience will give perfect satisfaction and meet all the demands of their trade. It is the lowest price that we can recommend.

We do all our business on the most extensive scale; buy by the cargo and sell at only two cents per pound profit.

We put up this Coffee in Barrels only, of 125 Pounds each. This method of putting it up saves from 2 to 5 cents per pound to the consumer, and by its being in a large quantity it retains its fine flavor much longer in this form than in any other. We send with each harrel Show-Cards, Circulars and Posters, to assist the dealer to introduce it to his customers. We hope our customers will take pains to have them well posted up and distributed, as it will be to their advantage to do so. up and distributed, as it will be to their advantages of osc.

This Coffee we warrant to give perfect satisfaction, and if it does not please, the purchaser has the privilege of returning the whole or any part of it within 60 days, and having his money refinded together with all the expenses of transportation both ways.

We issue a Price Circular of our Teas and Coppes, which we are glae to send free to all who may wish it, Consumers of Coffee should enquire for the Frence Berag-part and distributed by the consumers of the Coffee should enquire for the Frence purchased of the

BAUGH'S RAW BONE SUPER-PHOSPHATE OF LIME.

BAUGH & SONS, SOLE MANUPACTURERS, , 30, South Delaware Avenue, PHILADELPHIA.

This article has for many years enjoyed a high reputation as a manure of great efficiency and of unequalled permanence, and we scarcely deem it important in our semi-annual advertisement to say more than merely call the attention of buyers to it. But we will also state to farmers and Dealers in Fertilizers that it has been our constant aim to render our Raw Bone Phosphate more and more worthy of the full confidence of farmers, by the use of overy facility at command and the aid of scientific skill, in essentially improving its qualities, and we have never allowed this purpose to be interfered with by the great and steady advance in the cost of all matters pertaining to our business throughout the past two years.

DENTAL CREAM,

PENTAL CREAM,
For Cleansing, Whitening and Preserving the Teeth
This article is prepared with the greatest care upon scientific principles, and warranted not to contain anything in the slightest degree deleterious to the teeth or gums. Some of our most eminent dental surgons have given their sanction to, and cheerfully recommend it as a preparation of superior qualities for Cleansing, Whitening and Preserving the teeth; it cleans them readily, rendering them beautifully white and pearly, without the slightest injury to the enamel. It is healing to the gums where they are ulceraced and sore. It is also an excellent disinfector for old decayed teeth, which are often very offensive. It gives a rich and creamy taste to the mouth, cleansing it thoroughly, and imparting a delightful fragrance to the breath.

TESTIMONIALS.

The following opinion of Dr. White, as to the high esteem in which he holds the Dental Cream, must be sufficient evidence of its value; to quote other testimonials in detail is needless, conetnting ourselves by simply giving the names and addresses of persons who speak of its excellency for the teeth.

Having carefully examined A. Hawley's "Solidified Dental Cream," I hereby cheerfully recommend it to the public generally. It is an excellent preparation for cleansing and preserving the teeth, and can be used by all persons with the utmost confidence, as tts properties are perfectly harmless. Besides preserving the teeth, it promotes a healthy action to the gums and imparts a pleasantness to the breath.

We can present a mass of evidence in proof of our assertions, that CANNOT BE DISCREDITED.

The Rev. Jacob Sechler. Well known and much respected among the German population in this country, makes the following statement for the benefit of the afflic-

ted: HANOVER, Pa., Feb. 16, 1859. Dear Sirs:-Having realized in my family important benefits from the useof your valuable preparation—Wistar's Balsam of Wild Cher-ny—it affords me pleasure to recommend it to the public. Some eight years ago one of my daughters seemed to be in a decline, and little hopes of her recovery were entertained. I then procured a bottle of your excellent Balsam, and before she had taken the whole of the contents of the bottle there was a great improvement in her health. I have, in my individual case,

Just published, a new edition of Dr. CULVER-WELL'S CELEBRATED ESSAY on the radical cure (without medicine) of SPERMATORRIGA, or seminal Weakness, Involuntary Seminal Losses, Importney, Mental and Physical Incapacity, Impediment to Marriage, etc.; also, Consumption, Epilersy, and Firs; induced by self-indulgence or sexual extravagance.

Price, in a sealed envelope, only six cents.

The celebrated author in this admirable essay clearly demonstrates, from a thirty years successful practice, that the alarming consequence of self-abuse may be radically cured without the dangers of internal medicine or the application of the knife—pointing out a mode of cure, at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This Lecture should be in the hands of every youth and every man in the land.

An Interesting History DR, SCHENCK'S OWN CASE,

WHILE LABORING UNDER CONSUMPTION. And how his Pulmonic Syrup, Seaweed Tonto and Mandrake Pills act on the System, in Curing that Disease, and the

GREAT SUCCESS ATTENDING IT

The above is a correct likeness of Dr. Schenck taken many years ago, after he had recovered from Consumption by a course of his "Schenck's Palmonic Syrup." The likeness, although it is does not represent him anything like as bad as he was at the worst, yet it is in strong contrast with the hale and vigorous looks of the portrait below, which is the true likeness of him at the present time. The contrast between these two portraits is so great that many would not believe them to be the same person. Yet there are hundreds of persons in and around Philadelphia, who will recognize both portraits to be true representations. When the first was taken he weighed 107 pounds; at the present time his weight is 220 pounds.

Thirty years ago I was in the last stages of Pulm nary Consumption, and given up to die. I resided in Philadelphia, and Dr. Josedh Parrish, then of this city, ordered me to Moorestown, N. J., a distance of city, ordered me to Moorestown, N. J., a distance of nine miles, which took me two days to get there.—
On my arrival I was put to bed, and I there laid for many weeks. This was my native place, where all my tamily lived and had died of consumption. Dr. Thornton, who attended my father in his last illness, was called, and gave me one week to fix up my aftairs. He had seen all my family go that way, and thought I was to go, too. Then I heard of the remedies I now offer to the public, which cured me. It seemed to me that I could feel them penetrating my whole system.

They soon ripered the matter on my lungs, and I would spit off more than a pint of offensive yellow

seemed to me that I could leet them penetrating my whole system.

They soon ripered the matter on my lungs, and I would spit off more than a pint of offensive yellow matter every morning. As soon as that began to subside, my cough, fever, pain, night sweats—all began to leave me, and my appetite became so great hat it was with difficulty I could keep from eating too much. I soon gained my strength, and I have been growing in flesh ever since. For many years I have enjoyed uninterrupted good health, keeping the liver and stomach healthy with the Seaweed Tonic and Mandrake Pills, as I am of a bilious temperament. My weight is two hundred and twenty pounds. On my recovery people would send for me far and near, to see if their cases were like mine. For this purpose I pay professional visits in the large cities. The consumptives wish to see the one that makes these medicines, and who was cured of consumption by them. To make new lungs is impossible; but cavities in the lungs and chronic ulcerations of the bronchial tubes can be healed. Such cases are dying hourly under the ordinary treatment of physicians, and just such are cure 1 by the proper use of Schenek's Pulmonic Syrup. Seaweed Tonic, and Mandrake Pills. I am now a healthy man, with a large cavity in the middle lobe of the right lung, the lower lobe very much hepatized and complete adhesion of the pleura. The left lung is sound, and the upper lobe of the right lungs in a tolerably healthy condition. The great reason why physicians do not cure consumption is they try to do too much; they give medicines to stop the cough, to stop chill, to stop night sweats, hectic fever, and by so doing, they derange the whole digestive powers, locking up the secretions and eventually the patient dies. After I make a careful examination of the patient with the Respirometer, and find lungs enough left to cure, I direct the patient low to use the three remedies. Remove the Glassboro' Pitstown, Newkirk. eventually the patient dies. After I make a careful examination of the patient with the Respirometer, and find lungs enough left to cure, I direct the patient how to use the three remedies. Remove the cause and they will all stop of their wm accord. No one can be cured of consumption, liver complaint dyspepsia, estarth, canker, nicerated throat, unless the liver and stomach are made healthy. In New England this canker, chronic catarth, ulcerated throat, elongation of uvula, is more prevalent than in any other section of the country. This is frequently caused by a foul stomach. You may burn it out with caustic time and again, and all they will get is temporary relief. Correct the stomach and liver, and they will heal up themselves.

Good nutriton is the remedy. If you have any disease in any part of the body, it will remain there and decay more and more until you can get the stomach in the condition to digest food, and make new blood to take the place of the diseased matter. This is the only way to heal cavities in the lungs and ulcerated bronchial tubes. Correct the stomach and liver, and nature will do the heading. Many persons have an idea that certain medicines are great purifiers of the blood. When blood is once diseased it cannot be purified; it is diseased the same as the diseased matter in the system; but get the apparatus in order, the liver and stomach, and give it pienty of nurshing food it will make new blood, which will take the place of the diseased.
