A DOG IN CHURCH. Last Sunday morning the gravity of the worshippers at one of our churches was somewhat disturbed by the entrance of a dog, which walked sedately up the aisle, ascended the pulpit stairs, and taking his seat on the cushion by the side of the minister, put himself in the attitude of listening to the music of the choir. The minister, who occupied the pulpit by exchange, feeling that, for the time, he had control of the desk, expelled his visitor from his seat. He went reluctantly down among the congregation, and, as no one was polite enough to offer him a seat, he passed to the other side of the pulpit, and ascended to his former position. Danvers Wizard. The Kearsarge and her Commander. The Kearsarge has done other service to the country besides sinking the Alabama. When Semmes first turned pirate, he sailed on his plundering career in the Sumpter, and put into Gibralter after a successful cruise. The Kearsarge, Captain Pickering, was despatched to capture her, and so effectually blookaded her that she was sold to British parties. During this time, two hundred and ninety British neutrality-loving merchants were building a vessel, in the ship-yard of the Lairds, which was subsequently sent off on a "trial trip"—gentlemen and even ladies countenancing a deception by which she escaped from the Mer-

NEWSPAPER PRICES .- The newspaper proprieters throughout the country are advancing their prices in consequence of the enormous advance in the cost of paper, laber, and all the materials used by them. The New York mourning papers, which used to charge six dollars, now charge ten. The Evening Post goes to twelve dollars a year, and the Commercial Advertiser to eleven, both being five cents for sin-

gle copies.

The Boston and Pittsburg papers have followed the example and advanced their rates from 20 to 50 per cent, the latter having more than doubled the price to weekly subscribers.
The necessity for this advance is readily understood, when the fact is stated that the white paper now costs more than they have been furnishing it for printed, and labor and material have also advanced correspondingly. The publishers are therefore left only two courses— either to stop entirely or advance their rates to a living point, which they have scarcely

Our Voyunteers Appreciated. The gallantry and endurance of our armies are beginning to be appreciated abroad, extorting admiration even from our enemies. The London Times in a recent article on the American War, remarks : "The whole of this dreadful fighting has been done by volunteers, and by volunteers without as much training as our

THE WEST JERSEY RAILROAD. Notwithstanding the enormously high price of every article of consumption, and of ordinary use, we are pleased to

learn that the affairs of the railroad are in a highly prosperous condition. The transportation and trade are steadily increasing and taxes the capacity of the rolling stock of the road to its fullest extent. The average receipts during the past year have exceeded forty thousand dollars per month. Though the cost of locomotives and cars is more than double that charged at the time of the completion of the road, and other expences have increased in proportion, yet the rate of travel has not been increased, showing a liberal desire on the part of the company to accommodate the public. By the completion of the marl railroad the business of the company has been very largely extended. Farmers, in the vicinity of the line, are availing themselves of the facilities for delivering marl on or near their farms, and the work of improving the soil, which, but for the advantages offered by the road, must have been delayed for years, is now going rapidly forward. Though thousands of tons are delivered monthly, the demand far exceeds the supply. The difficulty in getting cars made, owing to the scarcity of mechanical labor, and the wants of government, interferes seriously with the business of the company. By the erection of extensive wharves on Timber Creek, about four miles below Camden, and the construction of a branch road to them, facilities are afforded for landing coal, lumber, and other heavy material from which it can at all times be delivered at any point along the road, or its branches. This wharf is nearly opposite the mouth of the Schuylkill, making it a convenient point of deposit for the many articles of universal consumption produced along the valley of that river. There are perhaps but few purely local roads in the country that afford greater conveniences to the in-

habitants along its route, or that aid more

earnestly in the development of the re-

sources of the country. And while

through passengers sometimes complain of

the frequent stoppings at the stations

The transactions amount to millions of dollars, yet so carefully are the accounts kept in a complete series of books of different kinds that a complete synopsis of the financial condition of the company can be obtained at any moment It is to the active energy of Judge Yorke at the first inception of the road no less than to the care and ability in the management of the accounts, the prosperity of the company is attained.

The Confederate Remedy.

Dombey should not be able to make that effort successfully, then a crisis might arise which we should all deplore." This is the actual condition of the Rebels. A vigorous effort must be made, and if that is followed by failure the end draweth nigh, the crisis has come.

The committee on Rules reported by their chairman, Hon. Thomas P. Carpenter, for the government of the convention those of the last convention.

The committee on credentials reported properly represented.

The committee on Resolutions by their the following resolutions, which were un-

animously adopted with much enthusiasm:

Resolved, That the friends of Union and Liberty of the First Congressional District of New Jersey, in Congressional Convention assembled, to cordially endorse the nomination of those true and tried patriots and statesmen. Abraham Lincoln and Andrew Johnson, for the Presidency and Vice Presidency of the United States; that we accept the resolutions adopted by the Convention which nominated these candidates as our platform of principles; and as an earnest e nuciation of patriotic sentiments of no doubtful meaning.

Resolved, That we recognize as the only true basis of a speedy and permanent peace, no compromise with traitors until they shall first lay down their arms and submit to the Consti tution and laws of the Union: that we have implicit reliance in our Peace Commissioners. Grant, Sherman, Sheridan, Farragut and their brave comrades to command negotiations for a greatest value to the country and rigion permanent peace.

Resolved. That an armistice at this time, means as it was intended by the Chicago Convention. it was designed to benefit. For ourselves, although we are as impatient of delays as a convertly and discrepted currender to a heate foe; would be an insult to the memory of the horoic dead who have fallen in defence of our country, and a slander upon those still battling ed. As business cannot be prosperous that for its perpetuity and integrity. Revolved, That we have no unmeaning words

of "sympathy" for the brave beroes fighting our battles at the front, but tender them our heartfelt thanks for what they have done in behalf of the Union, and our prayers for their continued succes.

Resolved, That we pledge our best endeavors for the triumphant election of the nominee of this Convention, and the entire Union ticket, resolving that with the help of God-that New Jersey shall at the coming election be redeemed from Democratic misrule, and shall once more, at home, like our brave soldiers in the field keep step to the music of the Union.

The Convention then proceeded to nominate candidates for Congress. The following gentlemen were placed in nemina-

For the West Jersey Pioneer. LANDS ABOUT BRIDGETON.

I often wonder why it is that the can italists of Bridgeton do not profit by the example given by Vineland, in land speculation. There is most certainly a chance for investment unsurpassed, I believe, in the great west even, in the immediate vicinity and country around Brilgeton.

Lying between Bridgeton and Millville and on both sides of the turnpike, are extensive tracts of non-paying forests; I say non-paying for they only pay about three per cent, interspersed with swamps of various sizes, and some rivulets, bound, ed on the north by the excellent swamps of Lebanon, and south with what is called the and exempts hastily gathered up in Town swamps, another cedar swamp which runs from the head of Clark's or Stew ard's mill poud, to a distance of several all the townships in the District fully and miles in an easterly direction. Both these made preparations for an attack on the The soil of this section of country and its chairman, Hon. John T. N. xon, reported adaptations, would bear scientific invesigation and comparison without detri ment, for by far the larger portion is a light clay loam, extremely easy to till about three feet in depth, excepting in the swamps, which is mostly clay itself I find many people have a wrong idea of this section and are inclined to call it sandy, especially our neighbors of Salem who, no doubt, are thinking of the "bar

The War News.

The Situation in Virginia. The real import of Gen. Grant's movenents in the vicinity of Richmond, is still undeveloped. It is impossible, with our present information, to determine, which of the movements is the main out, that which menaces Richmond, or that which threatens Petersburg and its communications with the South. It is certain, however, that the positions already secured by our troops are of the greatest value, their oss adding largely to the difficulties of the rebel situation. Three desperate efforts-were made by the enemy on Friday to recapture the works on Chapin's Bluff which were taken on Thursday by the Tenth and Eighteenth corps, but they were driven back at each assault with heavy loss, and finally abandoned the field, caving the ground covered with their killed and wounded. The fighting, both otheer townships are all worthy of a notice on Thursday and Friday, was of the most desperate character, but the valor of our troops was more than a match for the formidable works of the enemy, which they carried with the most impetuous daring The negro troops are said to have fought with conspicuous bravery. At one time on Thursday, our cavalry were in sight f the rebel capital, and a column of infantry was sent to assist in holding the idvanced position, but both cavalry and infantry were subsequently withdrawn for prudential reasons. Gen. Lee is said to nive commanded the rebels in person in the fight of Thursday.

Letters from the armies before Richmond represent that there were no im-

portant movements on Sunday, owing to he storm which prevailed during; the vhole day. On Sunday evening our forces held all the ground they had wrest d from the enemy southwest of Petersburg and were strongly entrenched. The army of the James, under Gen. Butler, also held its position within six miles of the rebel capital, and it is believed it cannot be dislodged, by any force the enemy can bring against them, from the works which the men have erected The reconnoitering party sent out by Gen Birney penetrated to within two miles of the city, and drove the enemy into its inner defences .-Though these were found to be very strong as they were only garrisoned by raw milithe streets, our men were confident that they could have marched into the city without much difficulty. During the progress of this reconnoissance the rebels swamps furnish rails of the best quailty. left of the Tenth corps; but, discovering this movement towards their capital, and another further on the right, which was merely a feint, they retired without exeeuting their design. About five hundred of the rebels were captured by our men in their unsuccessful assault of Friday on the Tenth and Eighteenth corps.

Another victory has been achieved in East Tennessee by the Federal troops under Gen Gillen, who fought a rebel force. on the 1st instant, at Cair's Station ou the East Tennessee and Virginia Railroad, putting them to flight and capturing their forts. Subsequently Gen. Gillen burned the bridge over the Holston River and destroyed the railroad for several miles, in order to prevent the transportation of supplies from East Tennessee for the sup port of the rebellion in Virginia. Wc learn also, in this connection, that the salt works near Ab ngdon, Virginia, some fifty miles from the Tennessee line, have been

NO. 604 MARKET STR., PHILADELPHIA.

Jones' policy which has proved of such great satisfaction both to his friends and the public, has demonstrated the fact, that ONE PRICE is the proper basis on which to do business. Many persons who are not able to judge of the value of any article, are glad to avail themselves of the opportunity of purchasing where they can secure what they want at the same price as their neighbors. Others, not liking to ask the dealers to take less, are often obliged to pay too much for an article. To meet this want Jones one price Store has been established, and having worked well for fifteen years, has gained many triends.

Strangers visiting Philadelphia would do well to call, as they will find one of the best stocks of ready made Clothing in the city; while those wishing their garments made to order can secure them at the

F. HOOVER respectfully informs his friends and the public generally of West and South Jersey, in want of FURNITURE, that they will find it greatly to their advantage to purchase, at Ins. Warehouse, where they will find a large stock of the modern styles to select from.

The subscriber begs to say that his facilities for manufacturing, and buying his materials for cach—having no apprentices, but employing the best workmen—enables him to offer great inducements to those in want of really good Furniture at low prices, as he much prefers the "nimble sixpence" to the "slow shilling."

All goods bought at his Warehouse will be warranted, and if intended for the country will be packed with care and dispatched.

BAUGH'S RAW BONE SUPER-PHOSPHATE OF LIME. BAUGH & SONS,

SOLE MANUPACTURERS, Store No. 20, South Delaware Avenue, This article has for many years enjoyed a high reputation as a manure of great efficiency and of unequalied permanence, and we scarcely deem it important in our semi-annual advertisement to say more than merely call the attention of buyers to it. But we will also state to farmers and Dealers in Fertilizers that it has been our constant aim to render our Raw Bone Phosphate more and more worthy of the fall confidence of farmers by the use of every facility at command and the aid of scientific skill, in essentially improving its qualities, and we have never allowed this purpose to be interfered with by the great and steady advance in the cost of all matters pertaining to our business throughout the past two years.

No extra charge for Bars or Barrels. PHILADELPHIA. No extra charge for Bags or Barrels.

The Raw Bone Phosphate may be had of any regular dealer in Fortilizers (to whom we advise farmers to make the or of the month of the same to come the same to be supplied to the same to the same to be supplied to the same to be

HAWLEY'S SOLIDIFIED DENTAL CREAM,

For Cleansing, Whitening and Preserving the Teeth This article is prepared with the greatest care upon scientific principles, and warranted not to contain anything in the slightest degree deleterious to the teeth or gums. Some of our most eminent dental surgons have given their sanction to, and cheerfully recommend it as a preparation of superior qualities for Cleansing, Whitening and Proserving the teeth; it cleans them readily, rendering them beautifully white and pearly, without the slightest injury to the onamel. It is healing to the gums where they are ulcerated and sore. It is also an excellent disinfector for old decayed teeth, which are often very offensive. It gives a rich and creamy taste to the mouth, cleansing it thoroughly, and imparting a delightful tragrance to the breath.

PREPARED ONLY BY A. HAWLEY, & CO., N. W. Corner 10th & Lombard streets, Philadelphia And sold by all Druggists. PRICE 38 CENTS.

TESTIMONIALS.

The following opinion of Dr. White, as to the high esteem in which he holds the Dental Cream, must be sufficient evidence of its value; to quote other testimonials in detail is needless, concenting ourselves by simply giving the names and addresses of persons who speak of its excellency for the teeth.

Philadelphia, April 16th, 1863.
Haviag carefully examined A. Hawley's "Solidified Dental Cream," I hereby cheerfully recommend it to the public generally. It is an excellent preparation for cleansing and preserving the teeth, and can be used by all persons with the utmost confidence, as its properties are perfectly harmless. Besides preserving the teeth, it promotes a healthy action to the gums and imparts a pleasuntness to the breath.

An Interesting History

DR. SCHENCK'S OWN CASE, WHILE LABORING UNDER CONSUMPTION, And how his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills act on the System, in Curing that Disease, and the

GREAT SUCCESS ATTENDING IT!

The above is a correct likeness of Dr. Schenck taken many years ago, after he had recovered from Consumption, by a course of his "Schenck's Pulmonie Syrup." The likeness, although it is does not represent him anything like as bad as he was at the worst, yet it is in strong contrast with the hale and vigorous boks of the portrait below, which is the true likeness of him at the present time. The contrast between these two portraits is so great that many would not believe them to be the same person. Yet there are hundreds of persons in and around Philadelphia, who will recognize both portraits to be true representations. When the first was taken he weighed 167 pounds; at the present time his weight is 220 pounds.

Thirty years ago I was in the last stages of Pulm Thirty years ago I was in the last stages of Pulmonary Consumption, and given up to die. I resided in Philadelphia, and Dr. Josedh Parrish, then of this city, ordered me to Moorestown, N. J., a distance of nine miles, which took me two days to get there.—On my arrival I was put to bed, and I there laid for many weeks. This was ny native place, where all my family lived and had died of consumption. Dr. Thornton, who attended my father in his last illness, was called, and gave me one week to fix up my affairs. He had seen all my family go that way, and thought I was to go, too. Then I heard of the remedies I now offer to the public, which cured me. It seemed to me that I could feel them penetrating my whole system.

dies I now offer to the public, which cured me. It seemed to me that I could feel them penetrating my whole system.

They soon ripered the matter on my lungs, and I would spit off more than a pint of offensive yellow matter every morning. As soon as that began to subside, my cough, fever, pain, night sweats—all began to leave me, and my appetite became so great hat it was with difficulty I could keep from eating too mutch. I soon gained my strength, and I have been growing in flesh ever since. For many years I have enjoyed uninterrupted good health, keeping the liver and stomach healthy with the Seaweed Tonic and Mandrake Pills, as I am of a bilious temperament. My weight is two hundred and twenty pounds. On my recovery people would send for me far and near, to see if their cases were like mine. For this nurpose I pay professional visits in the large cities. The consumptives wish to see the one that makes these medicines, and who was cured of consumption by them To make new lungs is impossible; but cavities in the lungs and chronic ulcerations of the bronchial tubes can be healed. Such cases are dying hourly under the ordinary treatment of physicians, and just such are cure by the proper use of Schenck's Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills. I am now a healthy man, with a large cavity in the middle lobe of the right lung, the lower lobe very much heartized and connected and connected on the legan. and just such are cure by the proper use of Schenck's Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills. I am now a healthy man, with a large cavity in the middle lobe of the right lung, the lower lobe very much hepatized and complete adhesion of the pleura. The left lung is sound, and the upper lobe of the right lung is in a tolerably healthy condition. The great reason why physicians do not cure consumption is they try to do too much; they give medicines to stop the cough to stop chill, to stop night sweats, hectic fever, and by so doing, they derange the whole digestive powers, locking up the secretions and eventually the patient dies. After I make a careful examination of the patient with the Respirometer, and find lungs enough left to cure, I direct the patient how to use the three remedies. Remove the cause and they will all stop of their awn accord. No one can be cured of consumption, liver complaint, dyspepsia, catarrh, canker, ulcerated throat, unless the liver and stomach are made healthy. In New England this canker, chronic catarrh, ulcerated throat, clongation of twala, is more prevalent than in any other section of the country. This is frequently caused by a foul stomach. You may burn it out with caustic time and again, and all they will get is temporary rollef. Correct the stomach and liver, and they will head up themselves.

Good nutriton is the remedy. If you have any disease in any part of the body, it will remain there and to take the place of the diseased matter. This is the only way to heal cavities in the lungs and ulcerated broncinal tubes. Correct the stomach and liver, and in the condition to digest food, and make new blood to take the place of the diseased matter. This is the only way to heal cavities in the lungs and ulcerated broncinal tubes. Correct the stomach and liver, and in the condition to digest food, and make new blood to take the place of the diseased. When blood is once diseased it cannot be purified; it is diseased the same as the diseased matter in the system; but get the

hiver and stomach, and give it plenty of nurshing 100d it will make new blood, which will take the place of the diseased.

Schenck's Palmonic syrup is one of the best preparations of iron in use, it is a powerful tonic of itself, and when the Scawced Tonic disselves the mucus in the stomach, and it is carried off by the aid of the Mandrake Pills, the Pulmonic Syrup is made into blood. This is the culy way to cure consumption.

If I cannot get a good appetite, and food does not digest, I cannot cure the patient. Never mind the cough; remove the cause and it will stop of itself. This is the most trouble I have with my patients in my room. They say, "Doctor, I feel stronger; I can the cause and the cough will stop of itself. Schenck's Seawed creates a good appetite in about nine days, when there is no lung disease, unless the liver is so congested that the Mandrake Pills cannot unlock the ducts of the gall bladder in that short space of time, in order to allow the stale bile to pass off. Keep the liver and stomach healthy and there is less danger of consumption or any other disease. It is hard to take cold when those organs are healthy. Those that are billiors, low spirited, dreary, feeling stupid coated tongue, poor appetite, nervours, stomach full of wind, every thing that is eaten lies heavy, loss of memory, try one bottle of SCHENCK'S SEAWEED TONIC and one box of SCHENCK'S MANDRAKE PILLS. It is only a cost of one dollar and twenty five cents, with full directions. This is sufficient, in many

that are billiors, low spirited, dreary, feeling stupid coated tongue, poor sphetite, nervours, stomach full of wind, every thing that is eaten lies heavy, loss of memory, try one bottle of SCHENCK, SMANDRAKE PILLS. It is only a cost of one dollar and twenty five cents, with full directions. This is sufficient, in many cases, to satisfy what the medicines are. Frequently one bottle makes a great change in the system. Any person that enjoys ordinary health, by usiny the Seaweed Tonic and Mandrake pills occasionally, must get the digestive organs in such a healthy condition that they become fleshy. I can produce a number of my old consumptive patients now enjoying good health, weighing nearly 200 pounds. I will conclude by relating three cures I have made in New York, and which are ail different, and wish any who feels any interest in the matter to visit them. First is Mrs. Farlow, residing then at No. 107 Houston street. Her husband called upon me at my room, 32 Bond street, and wished me to call and see her. He sand I could do no good; that he had had all the best medical sumplion to be cured; but all the continuous and fearld of some symptom to be cured; but and easier to gratify her wishes. I called and from the leving confined to her bed thout doubt mass have died soon. I examined her ling, found both bronchial tubes very much affected but no cavities had formed, her cough was very severe, her spit box was half full of thick pus. Pulse 140, legs swollen very much: and worse than all, she had chronic diarrhoa. Her bowels had been moved eleven times that day. I told her that she had lungs enough te becured, but that this diarrhoa has been of long s'anding, and her stomach was in such a utcrated condition that I was afraid nothing could be done. She insisted I should try and do what I could for her, observing that she could not hask her Pills, and the tonic and syrup freely. That was on Tuesday, and by the next Sunday the diarrhoa was carried off, her appetite had returned and she could in the condition she was

think will leave her before June. I should think would be of great interest to some unprejudiced physician tov isit these cases, particularly Miss Boofield, or any of them who have been cured by my medicines. They are numerous in New York; but the above three all differ from each other and if my medicines are doing what I represent they are, they should have the credit and the afflicted know where and how they be cured.
