

Bridgeton, October 29, 1864.

THE PIONEER HAS A LARGER CIRCULATION THAN ANY COUNTY PAPER IN THIS STATE.

Only \$2.00 per Year in Advance! JAMES B. FERGUSON, Editor.

REMOVAL.

The Pioneer Office has been removed to Albion's New Building, opposite the former location.

England's Position.

Look at in the light of her official manifestoes and proclamations, England is neutral in regard to our war.

England is a great nation and has a great many grades of society. From Lords down to Peasants.

There are not all who favor the South. There is another class, second only in power to these, the great manufacturing merchants of the west side of Manchester, and Liverpool and the like.

Another class still is against us; the shipbuilders of the island. Such men as Laird, by whose means millions of dollars worth of property have been swept from the sea.

BRUTALITY OF THE REBELS. Last week we recorded the death of Azor E. Swinney, a youthful and brave soldier of this county, who, after having two horses shot from under him in previous engagements, was wounded while fighting in the front at the battle of Winchester, Va., on the 19th ult.

Rev. Mr. Challis will preach at the Alms House next Sunday, at 3 P. M.

AGRICULTURAL SOCIETIES.

The prosperity of these "Institutions" depends upon the manner in which they are conducted. It is not our intention at this time to denounce in any way the management of the Cumberland, or any other Society, but simply to throw out a few suggestions for the consideration of those interested.

In looking at other Societies much older than ours, we find them in a prosperous condition and increasing in interest every year, and we see no reason why Cumberland, with her productiveness and resources, should not equal, if not surpass in more respects than she now does, those of other Counties.

The Cumberland County Society has almost invariably been favored with pleasant weather on the day of exhibition, but that is no reason why it will always be so, and we think some provision should be made in the future to avoid such a calamity as occurred on the day of the last exhibition.

In looking over the Burlington County list of premiums awarded at their last Fair, we find that they amount to over thirteen hundred dollars in addition to many valuable special premiums—silver butter knives, diplomas, &c., while our County Society premiums this year amount to only about four hundred and fifty dollars including the special premiums.

THE EFFECTS OF WAR.

In looking at war in any point of view, it is to be deplored, and more especially a civil war like our own. First it is debasing, and makes a nation continually engaged in it callous to crime of any kind. That this is so, in our own case, events as they run will prove.

A single story, which we know to be true, to illustrate the savage earnestness of this war. A man named Robinson, of the 4th Virginia, (Union) after the battle of Winchester, No. 1, came up to a comrade, and pointing out upon the bloody field, said, "Look, Jimmie, there is my brother out yonder, fallen in his tracks, a cursed rebel," and with an oath, "he ought to have been dead years ago."

QUAKER CITY BUSINESS CO.

This popular and eminently useful Institution, where students are qualified in the most effective manner, to enter at once upon the duties of the Counting House, or any sphere of usefulness in active business life.

EXCELLENT CLOTHING.—We direct attention to the advertisement of Messrs. Wannamaker and Brown, South east corner Sixth and Market streets, Philadelphia.

These gentlemen have constantly on hand every description of the choicest, best, and most durable clothing, at fair and reasonable prices. The affinity with which they attend to their customers has created it the central attraction of all the Clothing Emporiums in the city.

A Sensible View. The prices of most articles of consumption are now very high and likely to remain so for a time. The most rigid economy is needed by many families to keep their "heads above water."

Sheridan's Last Victory. It is stated that Sheridan's captures in prisoners amount already to 5,600 and our cavalry are picking up more every day.

D. F. Garrison & Son have reduced the price of Groceries, Provisions, &c., as will be seen in their advertisement in another part of the Pioneer.

THE TIME FOR ACTION.

The time has at last arrived when decided and united action is imperative—when every effort that can be honorably employed should be put forth in the cause of our country.

This is a matter of no small importance, and the British authorities owe it to themselves to take immediate steps for the punishment of the offenders, and the prevention of similar outrages in the future.

Hon. John F. Starr. The renomination by the Convention at Bridgeton, of Hon. John F. Starr as the candidate of the people of this Congressional District clearly indicates the unflinching confidence reposed in him by the National Union Party.

ATTENTION! TO STUBBORN FACTS. Finlay is selling his immense stock of Hats and Caps for men, boys and infants, and all goods.

AN EMBARRASSING CASE.—When the war first broke out a young married man of Staunton, Ohio, volunteered. He was reported killed at Perryville, and subsequently his wife received a metallic coffin which purported to be the body of her husband.

The War News.

The latest despatches from Missouri represent that our cavalry were still hanging on the rear of Price's army; doing him much damage. Price has struck into Kansas, instead of moving directly south towards Arkansas; but his force is represented to be rapidly decreasing, from desertions and the assaults of Pleasanton's troops.

Information from the Shenandoah is to the effect that affairs in Sheridan's camp have settled down into comparative quiet, though parties of his cavalry are still out in various directions, picking up rebel stragglers.
