LADIES' FURS. The largest assortment at Charles Oakford & Son's, Con inentallHetel, Philadelphia.

For the West Jersey Pioneer.

The Practical Relation of Science to Agriculture. In no part of the productions of labor has science so prominent and benificent a position as in agriculture; and no branches of study furnish so practical results to the farmer as scientific study; and yet, I believe, no class is so universally destitute of a knowledge of its various branches as the agricultural. My intention, therefore, is simply to impress an idea of the great amount of knowledge existing, which bears immediately on the art of the farmer, and to show that farmers should not, either for their individual benefit, or for the benefit of the community or country in which they live, be less intelligent or less instructed in general and special knowledge than other classes are. I do not intend to give a hand-book of science for the practical farmer, although such a BROWN& BLEACHED MUSLINS. thing is really needed, but to point out some of the most obvious facts of relationship between some of the branches of sci ence and practical agriculture. I shall also endeavor to convey the idea that natural science has not only a direct money bearing on the pocket of the farmer, but

> to human development. To say that Physical Geography, Mineralogy, Botany, Vegetable Physiology, Zoology, Meterology and Chemistry are all intimately and practically connected with rural economy is no more than any school boy might know, for such a knowledge is conveyed, in general terms, to the ordinary student; but to distinguish of the reach of the farmer.

also presents to his view the natural capa-

bilities of countries and their adaptation

Next to descriptive geography is physieal geography; for, as descriptive geography shows the different localities, &c., of places and countries, phyiscal geography. points out their particular phenomena. It is not necessary that I should give in geography, for it is a branch which explaines itself, but one or two items may be noused with advantage in this connection. First, that Latitude very much influences the adaptation of a place to the growth of plants, -as an explanation I refer to the sugar cane, wheat, rye and barley. Experience shows that the sugar cane will thrive where the mean temperature is from 64° to 67° of Fahrenheit, and may be successfully cultivated where the temperature is from 67° to 68°, but it grows most luxuriously where the mean temperature

ranges from 70° to 77°. Such is the temperature of Cuba and northern Brazil, but the grains alluded to require the temperature of the Canadas Kelly of Salem. to become the most luxuriant or profitable. That latitude effects the growth of plants is true of the whole breadth of the country (certain modifications of temperature exvery materially modifies the kind of culture it is necessary to adopt for the grow-

ing of crops. It is not necessary for me here to give examples of the dejections and elevations of lands, the distribution of water, &c., as affecting agriculture; for, from these hints I think the uses of physical geography may be seen. MORE ANON.

Frightful Murder of Federal Officers. A scene of the vilest turpitude occurred at or near Greenton, Lafayette Co, Missouri, on the evening of the 1st instant, the fiendish murder of three federal officers. As the 89th regiment Indiana volunteer infantry, 1st brigade, 3d division, Sixteenth Army Corps, marched through the place en route for Glasgow, three officers, Major Samuel Henry, Assistant Surgeon John P. Porter, and Lieutenant Harles Ashley, Quartermaster, all of the 89th regiment, halted at a house near the road and asked for dinner. * The lady told them that she had nothing cooked, but if they could wait she would soon have a warm dinner gotten for them. The officers conpired in preparing the dinner, during which time the command had marched on and had got well nigh out of sight, when these officers had finished their meal, left the house for their horses, hitched at the fence near by, where they had, upon going into the house, left their arms hanging to the pommel of their saddles. Before they reached their horses, three men in federal uniform dashed up attention of our people here to any extent. on horseback between them and their horses and arms, ordering them to sur- admire. It is an absence of loaferism. heads, they too late discovered that they even in the day time, toasting out what ingtons and Franklins of a coming gener-were at the mercy of fiends, whose bands little brains they have, heating their ation. No work can be drudgery that pregarments were fringed with white men's mers. These abominations one sees not in

From the Patespalen.

SOUTH JERSEY.
The West Jersey Railroad and the spurs running from that line, which are tending to the rapid development of a hitherto comparatively undeveloped section of our State, are changing the face of the New Jersey peninsula from a forest to a garden. Three years ago the trees waved their boughs over much of the ground now tilled by thriving farmers, along the line of Railroad between Glass boro and Millville-a distance of twenty two miles—an entire section of which (Vineland) is now "opened quit with broad streets and wide avenues, and dotted by comfortable dwellings of frame or concrete, and all evincing the progressive spirit, much of which is attributable to the emigration of Yankee families from the Eastern States, the thrift of which is needed among the go-easy old folks of that region, who believed nothing but trees and bushes would row away from the banks of the crain and rivers, and who left the vast inland andy tracts as hunting grounds or the per swamps, little dreaming that the iron herse would one day cut off the forests! clear up the land, carry off the timber, till the soil, and populate the whole region roundabout.

A peach orchard of seventy thousand trees, planted right amongst the stumps, may be seen between Bridgeton and the Salem junction. Fields of eight hundred thousand hills of sweet potatoes are not accounted more than ordinary efforts, which can but astonish the denizen of East Jersey who has learned from the old geographies of the sand region of our State, and takes it for granted that all below Camden on either side coastwise, was a vast barren plain, save the skirtings of a few creeks and rivers.

Not only along the line of the West Jersey Road and its branches are the lands being subdued; but along the Deland designate these relations is mostly out aware river much of the low ground is being reclaimed and made to teem with rich harvests where once the water flowed

over at every tide.

Judge Kelly of Salem, has by the erection of dams and banks secured a tract which this last season retured him a profit of \$300 per acre. Only think of that, and out of the common potatoes. His land is located in Gloucester just where stances or examples to draw attention to that county lines Salem, upon the Delathis fact, or any other fact in physical ware. We saw at Judge Kerly's house ter they had been lying out for ten days in a heap, where they lost partians three or four pounds. These potatoes were of the peachblow variety and were planted without manure. In fact no fertilizer had ever been applied to the ground. When Judge Kelly first began to reclaim the marsh land his neighbors prophecied his ruin. His reclaimed land now pays for itself twice every year. He cuts two crops of hay evey year from the part in grass, and without impoverishing the land in the least, as by overflowing it during certain season, he enriches it without any wash, and at low tide can drain it thoroughly whenever he likes. There are thousands of acres which could be made just as productive, were the owners as energetic and as enterprising as Judge

Millville, on the Maurice River, is improving even faster than Paterson, of which it seems a counterpart. Since our last visit in May last, two immense glass mills for the manufacture of window glass, cepted), hence, it clearly follows that it have been erected, and also a factory for The glass works are kept going at extra the furnaces lighten up the atmosphere for a great distance. The workmen frequently relieve the tedium of labor by ongs-those we heard were Methodist hymns, and the chorus as it sounded forth from a score of men around each furnace, was calculated to fill the mind of a stranger with a respect for the workmen, who flagging not in their active work, kept up the melody in wonderful harmony considering the fact that the voices were continually breaking off and chiming in, as every a part of the time and the rest of the time as instantly when the workmen stopped went out to join for a brief instant in the song of praise to his redeemer.

The Canning Factory is conduct/ Furman L. Mulferd, one of our Presidenbeen busied all the season through hither her home, and feels that she is a part of so-exception in your case, sir."
to with fruits and meats. In fact every-ciety. thing eatable is canned. There are some half dozen factories of this kind in the Southern section of the State, but the enterprise we believe has not engaged the There is one thing about Millville we

render. The officers at first regarded it The stores of the village are quite free as a joke, in which the doctor, still puff- from squatters who, in Bridgeton, Salem, ing his pipe, attempted to join; but upon Paterson, and other places, settle about cocked revolvers being presented to their stoves in our dry goods and grocery stores, help to fill its future pages with the Washwere stained with human blood and whose knees, and making remarks about custoscalps. After their surrender, they were Millville. In fact, a man to live in this taken to the woods, a short distance from model South Jersey town whereof we the road, where they were most fright speak, must not only move, but he must fully murdered and robbed. They were drive ahead at something. A man with fully murdered and robbed. They were drive sheed at something. A man with to suppose that another's lot is more far anothe

ing like the rose. Even the soil for garenvies Mrs. Jones—her neat white farm dens has to be gathered as mud from the house in the country, with autor and

place is destined to be the most important | dren. She will be so glad when her husn South Jersey. The West Jersey Road with its branch- the country and live independently as a es, under the supervision of Judge Yorke farmer. a most extraordinary impetus to the fect happiness of condition for mortals, growth of the principal towns. New vilings, and houses going up, are to be seen along each line of the Railroad. The

Marl Railroad, enables the whole district opened up by the three lines to become one vast garden. Formerly all the produce of the section was consumed by burdens will grow lighter as we accept Philadelphia. The past two years steamers laden with fruit and vegetables, potatoes, &c., proceed directly to New York, and the market of that great metropolis is being fairly monopolized by Jersey farmers and truck men. In fact, without home. The merchant nine times out of New Jersey, New York might starve to ten fails in business and his splendor is death. Only think of that, ye New York short lived. The farmer's home, however elanderers of good old Jersey. We have induced several persons to

settle along the line of the West Jersey Railroad. We can assure others that it is far better than going out West. The land can be made rich with marl, it is near the great markets, the climate is mild and beautiful, and the creeks and rivers abound with fish and cysters.— Peaches, sweet potatoes, in fact nearly everything can be grown in South Jersey and altogether it is as desirable a place to live as men can desire. Land is cheap and a trip to the vicinity will almost force a man to "buy himself a farm."

IN SEARCH OF A FARMER'S WIFE. I have been in search of a farmer for

article. I now purpose to turn the light ample opportunity for her to make the of my lantern inside of the house, and most of herself as a wife and mother, and search for a farmer's wife. I have alass a woman. It is something to fill these ready had glimpses of this personage in happiness and comfort of a household. my journeyings, but the pretenders ar quite as numerous as among the men. Nothing is more common than to find as respectable, and as good in its influence iscentent in the farmer's kitchen and parlor, where there happens to be a par-

lor to be occupied. This apartment is ofyard. If it gets opened twice a year for airing and cleaning, it is very genteel doings. Madam mourns over her hard lot. thinks she works harder and sees less of the world than any mechanic's wife, and, in fact, is not much better off than the wife of a hired man who helps her husband on the farm. Bridget works all the while, and she is obliged to do no less.— Bridget walks to meeting, while she rides, and that is about all the difference between them.

There had been a very great change in woman's condition since I dealt in the the flesh. The wife of the Greek peasant who tilled the soil, was little better than a slave, and the plainest log cabin, or dwelling of modern times, is a palace in comparison with her home. She not only canning fruit and meats, giving employ- had the drudgery of the household upon ment to a goodly number of people, whilst her, but very often the toil of the field all the old works are filled like hives. - also. There was no poetry in yoking a woman with an ass, and sending her forth hours and after dark the red glare from to draw the plow and the cart. If I could but impart to some of the good housewives who complain of their lot, a little of my observation in the olden time, I am quite sure they would cease their murmuring. Between the Greek and the American woman, there is a long reach upward, that it is difficult for the present generation to comprehend, because they have no practical acquaintance with a different state of society. In this favored age and country, woman is no more doomed to the coarse toil of the fields, the companion of individual singer was blowing the glass brutes. She is the wife and companion of man, generally of the man who appreoining in the hallelujah song. There ciates her worth, and makes her the miswas little breath tost around that furnace, tress of his home and of his affections. -She is no more an unlettered drudge, with blowing for his laborious art, his breath no thought beyond the present day and scene of her activity. She has had the been living at Atlanta for nearly seven advantage of schools, and the world of years-have accumulated considerable by letters with all its joys is open to her. - property here, and as I see that you have sented to wait. A half hour or more ex- Sharp, the former whilem assistant clerk or every week to her home, than all that exception in my case. I fear if I leave, in the Assembly and the latter an Ex- a Greek woman read, or heard read, in my property will be destroyed." Senator. They are now canning oysters her life time. She is linked by a though Gen. S.—"What kind of property do by the hundred thousand bushels, having sand ties with the great world outside of you own, sir? Perhaps I will make an

She has far more elevated hopes for three dwellings, a plantation two miles herself and for her children. The schools out of town and a foundry." are theirs, and the humblest mother upon the free acres of this favored land has as cheering prospects for her children, as the most favored. There is no barrier of caste for them to break through. She knows that a farmer's home has nurtured the proudest names upon the pages of the history of the country, and she may

No error is more common, I find, than door." to suppose that another's lot is more fat Citizen - But, General, can't I go

And so this barren white sandy desert and no such lot of clothes to wash every upon which Millville stands, is blossom- week. Mrs. Smith, on the other hand,

lages are springing up everywhere, and our lot, whatever it may be, is more new stations surrounded by new build- nearly perfect than our neighbor's. It is have fallen to us, considering our characters. It we look at it rightly, there is The caution it gives is worthy of being much in it to be thankful for, and its

> them, and make them our own. In the single fact of independence which belongs pre-eminently to farm life, there is ample compensation for all its ills The mechanic too often does not own his humble, is his own, and all the broad acres are the possession of his family for life, unless they choose to alienate them. I was much happier in my tub, than Alexander in his palace, for the king and his home belonged to the nation, though he, unhappy monarch, labored under the delusion, his life long, that the Greeks belonged to him. The tuo was mine and all the sunshine that fell upon it; if in any way the sunshine got obstructed, it was easy to move my habitation to where

light was plenty. The first element of success in the life of a farmer's wife is, that she accept her lot as the kindest thing that could have been ordered for her, that she magnify her office, and make the most of it. If there be in her a willing mind, she will many months without finding any thing find in her position and in her routine of that answers exactly to my ideal of that As a means of livelihood this business is

upon the mind and heart, as any other. Cooking is a philosophic art, and she knows much who learns to do it well .-ten found in the house, but in many cases | The making of butter and cheese require ten found in the nouse, but in many cases
it is visited as unfrequently as a grave
tact and skill, and contributes something
to the well being of society. It is more than the gift of a cup of water, which has its reward. These and kindred arts of the good housewife contribute to the thrift and prosperity of the farmer. They help make a substantial and comfortable livelihood which is the material basis out of which grow all domestic virtues and graces. She who would shine as something more than a farmer's wife or dairy maid, should first shine in these capaci-

ties. Shining milk pans, pails, and cheese tubs, a neat kitchen and table, the clean bright faces of happy children are good omens for brilliancy in other quarters. So think the Diogenes.

A STORY OF GEN. SHERMAN. The Baltimore Clipper tells the follow-

ing story: A distinguished official lately at the headquarters of General Sherman, gives us the following anecdote of the latter, in the necessity under which he lay of sitting in judgement on a certain class of men in Atlanta, when that place was evacuated by the citizens. Writing us, our friend says:

"Let me give you a little incident which took place in my presence at Sherman's headquarters. Atlanta.

You will remember that an order was promulgated, directing all civilians to leave Atlanta, (North or South) within "twelve days." The day of its issue a gentleman entered Sherman's office and enquired for the General. The latter answered in his way, very promptly, "I him; and consequently; he thought it am Gen. Sherman."—The colloquy was judicious to stay till none were left to slanvery nearly as follows:

Čitizen-"General, I am a Northern man, from the State of Connecticut: have There is more to quicken thought in a ordered all citizens to leave within twelve tial electors, and by Messrs. BEWARE OF TREE PEDDLERS.

As a general thing, they are tricky, irresponsible, and totally unworthy of confidence. They are able to sell low becreeks, and planted on the white sand, yards and orchards, and acres of green cause they buy low, and sell a worthless whilst clay from abroad covers the streets grass and Summer flowers, her inex- article. They purchased by wholesale to prevent the sinking of the wheels. And hustible patch of strawberries, and her the refuse stock of nursery men, and the yet upon this barren spot are now facto- sweet cream and irreproachable butter, all trees and vines they offer are either not ries, stores, dwellings and gardens as beau- without money and price. She does wish true to name, or are such dwarfed, sickly tiful as anywhere, and as a town this she could have such a range for her chil- and spindling specimens as only to cumber the ground. No really good trees or vines band has made money enough to go into can be produced and sold for nothing. and it is by far the truest economy to pay a fair price to some reputable and responof Salem, has helped in the development Every man knows more of his own lot sible dealer and nurseryman, and get not only of the agricultural districts of than of his neighbor's, and, of course, trees, vines, and flowers true to name, sible dealer and nurseryman, and get the New Jersey Peninsula, but has given feels more its evils. But there is no per- with numerous and vigorous roots, healthy and thrifty in every part. Then plant with care, and with God's blessing, your will soon have trees that are really beautiful to look upon, and fruit which you will be proud to offer to your family, your neighbors, and your visitors.

The above is from an exchange paper. heeded. There have been a great many trees and plants sold in this county by these agents, and many disappointments have been the consequence. But even if this were not so, why go abroad for these articles when they can be purchased more safely and economically at home! We have now in our county and vicinity a number of excellent nurseries whose proprietors are reliable, intelligent nurserymen, and whose stock are more suitable for this locality. Every year for some time past large quantities of tree, &c., from northern nurseries have been sent here and distributed all over the county, costing a considerable sum, which have been better supplied from our home nurseries, the profits of which would have gone to reward home industry and enterprise and increased the general wealth.-The displays which are annually made at the county fairs by Gibson & Son, Barnes, Brown, Griscom, Parry, Perkins and others, show so great a variety and superiority of fruits, vines, plants and shrubs, as to leave nothing more desirable. Why then run the risk of buying from unreliable and unknown parties? - Woodbury Constitution.

Aggregate Labor of Mankind.

Along with the compensation that is excited by listening to a tale of want, there is apt to arise, at that time, a feeling of astonishment that such a thing should be the land like this. Perhaps, however that want is not universal. One half of the world die before they have contributed an iota to the world's sustenance or their own. One half of those who survive the period of childhood are women, who do not, as a general thing, contribute directly to the production of wealth. Of the men many are sick, many are old, many are lazy, many are idle, many are wasteful, many are parasites. Those who do work, and live to the age of three-score years and ten, spend one third of their lives in bed, one-twentieth at the table, one sixth in recreation. Much of their time is wasted in mistakes. Much of what they succeed in producing is swept away by fire and flood. During half of the year nature sleeps. One harvest in five produces a failure. Only a traction of the earth's surface is capable of cultivation. A large part of the general labor is absorbed in the production of luxuries, in repairing the damages of war, in preparing for future conflicts, in the transportations of produce, and in journeys.-Probably not more than one-tenth of the whole amount of human force is expended in earning the world's daily bread. The standing marvel, therefore, of society is, not that any should suffer want, but that there should be any who do not.

An honest fellow/was introduced into the most fashionable circle of a country village; though he was neither learned nor brilliant, yet he passed off very well. But he had one incorrigible fault; he always stayed so as to be the last person who left the room. At length he was asked categorically why he always stayed so long. He roplied with great good nature and simplicity, that as soon as a man was gone they all began to talk about him; and consequently; he thought it

A young lady at a ball was asked by a lover of serious poetry, whether she had seen Crabbe's Tales? "Why, no," she answered, "I did not know crabs had tails." "I beg your pardon, miss," said he, "I mean have you read Crabbe's Tales?" "And I assure you, sir, I did not know that red crabs, or any other, had tails."

Among the ingenious contributions to the Sailors' Fair in Boston, by the State Prison convicts, is a small house, so contrived that upon opening the door a figure of Jeff. Davis suspended to a gibbet comes up through a chimney, and from the other chimney a black man comes up to look at him.

The general impression that the late Stephen A. Douglas died insolvent, turns out to be incorrect. On Monday of last week the executor presented receipts to the County Court at Chicago showing that he had paid over \$7,500 to Mrs. Douglas. and over \$7,000 to the two children, after liquidating all demands against the estate.

acles himself with the reflection that his loved one is married to a lawyer, has ten

Only \$2.00 per Year in Advance!

JAMES B. FRRGUSON, Editor.

The President's Message, which we publish in full this week, compels us to omit the usual variety of reading matter. Nothing of special importance has transpired in Congress, now in session.

Hon. Salmon P. Chase was on Tuesday last confirmed by the Senate as Chief Justice of the Supreme Court of the United States. The appointment appears to give very general satisfaction in Washington among those best able to judge, and is warmly commended by the leading journals in New York and else-

Ladies' and Children's Hats. Latest styles at Charles Oakford & Sou's Continer

The Movement in Georgia.

It seems to be admitted, in the latest rebel accounts, that General Sherman has engountered but feeble opposition from the rebel forces in his advance through Georgia, and that he will undoubtedly reach the sea-coast with comparatively little loss. The Richmond papers of the 1st instant, state that a Federal umn has occupied Millen, a point south-east of Augusta, at the junction of the railroads leading from Augusta to Savanuah and from Macon to Savannah. It is possible that the Federal prisoners at that place had been released, although there is no evidence of the fact in the rebel despatches. A cavalry fight between Kilpatrick and Wheeler took place on the Savannah River last Tuesday, in which the rebels claim to have repulsed our forces and captured the hat of Kilpatrick, but the affair does not seem to have delayed our progress.-The Richmond Whig of the 3d says it is evident that so far Gen. Sherman has been enabled to live upon the country, and denounces with great bitterness the policy which has opened up the State of Georgia to his ravages. So sorely are the rebels pressed for men that the Governor of Georgia has pardoned all the convicts in the penitentiary, put arms in their hands and sent them to the front, except those imprisoned for life, whom he could not reprieve according to law.

The details of Gen. Sherman's progress, as

furnished in the rebel journals, show that he is devastating the entire country through which he marches. He appears to have found supplies so abundant, that great quantities of corn, wheat, potatoes, &c., were burned, while horses, cows, mules, sheep, swine, poultry, &c., were killed by the wholesale and left lying along the roads and fields.

THE PRESIDENT'S MESSAGE.

Fellow-Citizens of the Senate and House of Rep-Again the blessings of health and an abundant harvest claim our profoundest gratitude to Almighty God.

The condition of our foreign affairs is reasonably satisfactory.

Juan and the port Sano f Juan.

amicably adjusted, and that there is a good prospect that the route will soon be reopened with an increase of capacity and adaptation.—
We could not exaggerate either the commercial or the political importance of that great im-

It would be doing injustice to an important South American State not to acknowledge the directness, frankness, and cordiality with which the United States of Columbia have entered into intimate relations with this Government. A Claims Convention has been constituted to complete the unfinished work of the one which closed its session in 1861.

The new liberal constitution of Venezuela

having gone into effect, with the universal acquiescence of the people, the Government under it has been recognized, and diplomatic inter-course has been opened with friendly spirit. The long-deferred Aresis land claim has been satisfactorily paid and discharged. Mutual payments have been made of the claims awarded by the late joint commission for the settle-

ment of claims between the United States and An earnest and cordial friendship continues to exist between the two countries, and such efforts as were in my power have been used to remove misunderstandings and avert a threatened war between Peru and Spain. Our re lations are of the most friendly nature with Chili, the Argentine Republic, Bolivia, Costa Rica, Paraguay, San Salvador, and Hayri. During the past year no differences of any kind have arisen with any of those Republics, and on the other hand their sympathics with

the United States are constantly expressed with cordiality and earnestness. The claims arising from the seizure of the cargo of the brig Macedonia, in 1821, have been paid in full by the Government of Chili. Civil war continues in the Spanish part of

San Domingo, apparently without any prospect of an early close. Cfficial correspondence has been freely opened with Liberia, and it gives us a pleasing view of social and political progress in that Republic. It may be expected to drive new vigor from

American influence, improved by the rapid disappearance of slavery in the United States.—
I solicit your authority to furnish to the Republic a gunboat of moderate cost, to be reimbursed to the United States by instalments .--Such a vessel is needed for the safety of that State against the native African races, and in Liberian hands it would be more effective in arresting the African slave trade than a squadron in our own hands. The possession of the least organized naval force would stimulate a generous ambition in the Republic, and the confidence which we should manifest by furnish. ing it would win forbearance and favor towards the Colony from all civilized nations.

The proposed Overland Telegraph between America and Europe, by the way of Behring's Straits and Asiatic Russia, which was sanctioned by Congress, has been undertaken under very favorable circumstances by an association of American citizens, with the cordial goodwill and support as well of this Government as of

with the Government and people of that vast empire.
China seems to be accepting with hearty

good will the conventional laws which regulate commercial and social intercourse among the western nations. Owing to the peculiar situation of Japan, and

the anomalous form of its government, the action of the Empire in performing treaty stipula-tions is inconstant and capricious. Neverthe-less good progress has been effected by the Western Powers moving with enlightened con-Our own prountary claims have been allowed

or put in course of settlement, and the inland sea has been reopened to commerce. There is reason to believe that these proceedings have ncreased rather than diminished the friendship f Japan towards the United States.

The ports of Norfolk, Fernandina and Pen-

sacola, have been opened by proclamation. It is hoped that foreign merchants will now consider whether it is not safer or more profitable to themselves, as well as just to the United States, to report to these and other open ports, than it is to pursue, through many hazards, at vast cost, a contraband trade with other ports which are closed, if not by actual military oc-cupation, at least by a lawful and effective lockade. For myself, I have no doubt of the power and duty of the Executive, under the law of Nations, to exclude enemies of the human race from any asylum in the United States .-If Congress should think that the proceedings in such cases lack the authority of law, or ought to be further regulated by it, I recom-mend that provision be made for effectually preventing foreign slave traders from acquiring domicile and facilities for their criminal occupation in our country. It is possible that if it were a new and open question, the maritime powers, with the rights they now enjoy, would not concede the privileges of a naval belliger-ent to the insurgents of the United States, destitute as they are, and always have been, equally of ships of war and of ports and har-bors. Disloyal emissaries have been neither less assiduous nor more successful during the last year than they were before that time in their efforts, under favor of that privilege, to embroil our country in foreign war. The desire and determination of the government of the maritime seats to defeat that design are believed to be as sincere, and cannot be more earnest than our own. Nevertheless unforeseen political difficulties have arisen, especially in Brazilian and British ports, and on the Northern boundary of the United States, which have required and are likely to continue to require, the practice of constant vigilance and a

just conciliatory spirit on the part of the United States, as well as of the nations con cerned and their governments.

Commissioners have been appointed under the treaty with Great Britain on the adjustment of the claims of the Hudson's Bay and Puget's Sound Agricultural Companies, in oregon, and now proceeding to the execution of the trusts assigned to them.

In view of the uncertainty of life and property in the region adjacent to the Canadian border, by reason of recent assaults and doppredations committed by inimical and desporate persons who are harbored there, it has been thought proper to give notice that, after the expiration of six months, the period cenditionally stipulated in the existing arrangement with Great Britain, the United States must hold themselves at liberty to increase their naval arrangement with Great Britain, the United States must hold themselves at liberty to increase their naval arrangement with Great Britain, the United States must hold themselves at liberty to increase their naval arrangement with Great Britain, the United States, as well as the regulation of modifying the rights of transit from Canada through the United States, as well as the regulation of imposts which were temporarily established by the reciprocity treaty of June 5th 1894.

I desire, however, to be understood while making this statement, that the colonial authorities of Canada are not deemed to be unjust or unfriendly towards the United States, but on the contrary, there is every reason to expect that, with the approval of the Imperial Government, they will take the necessary measures to prevent new incursions across the border.

The act passed at the last session for the encouragement of emigration has, so far as possible, been put into operation. It seems to need amen iment, which will enable officers of the government to prevent the practice of frauds against the emigrants while on their way and on their arrival in the porte, so as to secure them here a free choice of avocation and places of settlement. A l United States, as well as of the nations con

ust conciliatory spirit on the part of the

Mexico continues to be a thentre of civil war.

Mexico continues to be a thentre of civil war.

While our political relations with that country have undergone no change, we have at the same time strictly maintained a neutrality between the belligerents.

At the request of the States of Costa Rica and Nicaragua, a competent Engineer has been authorized to make a survey of the river San Juan and the port Sano f Juan.

Juan and the port Sano f Juan.

Juan and the port Sano f Juan.

It is a source of much satisfaction that the difficulties which for a moment excited some political apprehensions, and caused a closing of the inter oceanic transit route, have been possing increased taxation.

The legislation of the last session of Congress has beneficially effected the revenues, although sufficient time has not yet elapsed to experience the full effect of several of the provisions of the acts of Congress imposing increased taxation.

The receipts during the last year.

The legislation of the last session of Congress has beneficially effected the revenues, although sufficient time has not yet elapsed to experience the full effect of several of the provisions of the acts of Congress imposing increased taxation.

The receipts during the last year.

The legislation of the last session of Congress has beneficially effected the revenues, although sufficient mothers of those who have fallen in battle, or died of disease contracted, or of wounds received in the service of their country have been dilligantly administered.

The receipts during the last year.

of several of the provisions of the acts of Congress imposing increased taxation.

The receipts during the year from all sources upon the basist of warrants signed by the Secretary of the Treasury including loans and the balance in the treasury as shown by warrant of \$96,259,005.73. Deduct from these amounts the amount of the principal of the public debt redecaged and the amount of issues in substitution thereof, and the actual cash operations of the treasury were, receipts, \$884,076,646.57; disbursements, \$865,244,087.86, which leaves a cash balance in the treasury of \$18,842,558.71. Of the receipts there were derived from customs \$102.316.52.99. from lands \$385,233.29; from direct taxes \$475,648.90; from internal revenue \$109.741,134 10; from miscellaneous sources \$17,511,448 10, and from loans applied to actual expensitures, including former balance, \$623,443.929 13. There were disbursed for the cycle service. \$27,508,509 46; for pensions and indians, \$7,517,930 97, for the War Department \$56,733,29277; for interest on the public debt \$553,685,42169, inaking an aggregate of \$365,224, 558 71, as before stated, for the actual receipts and disbursements for the three remaining quarters of the treasury of the Treasury. I concur with him in the opinion that the proportion of moneys required to meet the expenses consequent upon the war, derived from taxation, should be still further increased, and carnestly invite your attention to this subject, to the end that there may be such additional legislation as shall be required to meet the just expectations of the Secretary.

The public debt on the first of July last, as appears

shall be required to meet the just expectations of the Secretary.

The public debt on the first of July last, as appears by the books of the Treasury, amounted to one billion seven hundred and ninety thousand, four hundred and eighty nine dollars and forty nine cents. Probably, should the war continue for another year, that amount will be increased by not far from five hundred million. Held, as it is for the most part, by our own people, at has become a substantial branch of national, though private, property. For obvious reasons, the more nearly this property can be distributed among all the p-ople the better. To favor such general distribution greater inducements to become owners might, perhaps, with good effect, and without injury, be presented to persons of limited means.

With this view, I suggest whether it might not be both competent and expedient for Congress to provide that a limited amount of some future issue of public securities might be held by any bona fide purchaser exempt from taxation and from seizure for deet, under such restrictions and limitations as might be necessary to guard against abuse of so important a privilege. This would enable every person to set aside a small amunity against a possible day of want. Privileges like these would render the possession of such securities, to the amount limited, most desirable to every person of small means who might be able to every person of small means who might be able to every person of small means who might be able to every person of small means who might be able to every first that they cannot be much oppressed by a debt which they own to themselves.

The public debt on the first day of July last, although somewhat exceeding the estimate of the Secretary of the Treasury made to Congress at the commencement of last session, falls short of the secretary of the Treasury made to Congress at the commencement of last session, falls short of the secretary of the Depth of the poperations of the treasury.

The National Banking system is proving to be acc The public debt on the first of July last, as appear

nature for our ships, to which reference was made in my last annual message.

Your attention is also invited to the views expressed in the report in relation to the legislation of Congress at its last session in respect to prises

in our inland waters. I cordially concur in the recommendation of the Secretary as to the property of creating the rank of Vice Admiral in ur naval service.
Your attention is invited to the report of the Postmaster General for a detailed account of the operations and financial condition of the Dest office Department. The postal revenues for the year ending June 30, 1864, amounted to \$12.138. 253 78, and the expenditures to \$12,644,786 20. The excess of expenditures over receipts being

The views presented by the Postmaster General on the subject of special grants by the govera-ment in aid of the establishment of new lines of ocean mail steamships, and the policy he recommends for the development of increased commer-cial intercourse with adaptent and neighboring countries should receive the careful consideration of Congress. It is of noteworthy interest that the steady expansion of population, imporvement and governmental itstitutions over the new and moscupied portions of our country have scarcely been checked, much less impeded or destroyed by our great civil war, which at the first glance would seem to have measurbed almost the entire en-

rgies of the nation.

The organisation and admission of the State of Nevada has been completed in conformity with law, and thus our excellent system is firmly es-tablished in the mountains which ence seemed a barren and uninhabitable waste between the At-lantic States and those which have grown up on the Pacific ocean.

The territories of the Union are generally in a

condition of prosperity and rapid growth. Idaho and Montana, by reasen of their great distance and the interruption of communication with them by Indian hostilities, have been only partly or-ganised, but it is understood that these difficulties are about to disappear, which will permit their governments, like those of the others, to go into

peedy and full operation.

As int mately connected with and promotive of this material growth of the nation, I ask the attention of Congress to the valuable information and important recommendations relating to the public lands, Indian affairs, Pacific Railroad and mineral discoveries contained in the report of the Secretary of the Interior, which is herewith transmitted, and which report also embraces the sub-jects of patents, pensions and other topics of public interest pertaining to his department.
The quantity of public land disposed of during

the five quarters ending on the 30th of September last, was 4.221,342 acres, of which 1,538,614 acres were entered under the homestead law. The remainder was located with military land warrants, agricultural scrip, certified to States for railroads and sold for cash. The cash received from sales and location fees, war \$1,019,446. The income from sales during the fiscal year ending June 30th, 1864, was \$678,007 21, against \$136.077 95 received during the preceding year. The aggregate number of acres surveyed during the year has been equal to the quantity disposed of and there is open to settlement about 133,800,000 acres of surveyed land.

The great enterprise of connecting the Atlantic with the Pacific States by railways and telegraph lines has been entered upon with a vigor that gives assurance of success, notwithstanding the embarrassments arising from the prevailing high prices of materials and labor. The route of the main line of the road has been definitely located for one hundred miles westward from the initial point at Omeha City, Nebracks, and a pecuniary unction of the Pacific Railroad of California has peen made from Sacramento enstward to the Great Bend of the Truckee river in Nevada. Numerous discoveries of gold, silver and cincebar mines have been added to the many heretofore known and the country occupied by the Sierra Nevada and the Rocky Mountains and the subordinate ranges now teems with enterprising labor which is richly remunerative. It is believed that the product of the mines of precious metals in that region has, during the year, reached, if not exceeded, one hundred millions in value.

It was recommended in my last annual message that our Indian system be remodeled, Congress in its last session, acting upon the recommendation did provide for the organizing of the system in in California, and it is believed that under the present organization, the managements of the Ineians there will be attended with reasonable sucfor the proper government of the Indians in other parts of the country, to render it secure for the advancing settlers, and to provide for the Indians. The Secretary reiterates bis reccommendations, and to them the attention of Congress is

The liberal provisions made by Congress for paying pensions to invalid seldiers and sailors of the Republic, and to the widows, orphans and

diligently administered.

There has been added to the There has been added to the pension rolls dur-ing the year ending the 30th day of June last, the names of 16,770 invalid soldiers, and of 271 dis-abled seamen, making the present number of ar-my invalid pensioners 22,767, and of navy invalid pensioners 712. Of widows, orphans and mo-thers 12,998 have been placed on the army pension rolls, and 248 on the navy roll. The present number of army pensioners of this class is 25.433 and of navy pensioners 793. At the beginning of thelyesr the number of revolutionary pensioners was 1,430, only twelve of these were soldiers, of was 1,430, only twelve of those were soldiers, or whom seven have since died. The remainder are those who, under the laws, received rensions because of relationship to revolut onary soldiers. During the year ending 30th of June 1864, \$45,

045,014,92 have been paid to pensioners of all I cheerfully commend to your continued pa-tronage the benevolent institutions of the District Columbis, which have hitherto been established or fostered by Congress, and respectfully refer for information concerning them, and in relation to the Washington aqueduct, the capitol, and other matters of local interest, to the report of the

Secretary.
The Agricultural Department, under the supervision of its present energetic and faithful head, is rapidly commending itself to the great and vital interest it was created to advance is peculiarly the People's Department, in which they feel more directly concerned than in any other. I commend it to the continued attention

and fostering care of Congress. and iostering care of Congress.

The war continues. Since the last annual message all the important lines and positions then occupied by our forces have been maintained, and our arms have been stendily advanced, thus liberating the regions left in the rear, so that Missouri, Kentucky, Tennesser, and parts of other States have again produced reasonably fair

crops. The most remarkable features in the military operations of the year is General Sherman's at tempted march of three hundred miles directly through the insurgent region. It tends to show a great increase of our relative strength that our General in Chiefshould feel able to confront and hold in sheck every active force of the enemy and yet to detach a well appointed large army to move on such an expedition. The result not yet being known, conjecture in regard to it is not here indulged.

Important movements have also occurred during the year to the effect of moulding society for the durability of the Union. Although short of complete success, it is much in the right direction that twelve thousand citizens in each of the States of Arkansas and Louisiana have organized local State governments with free Constitutions and are earnestly struggling to maintain and administer them.

The movements in the same direction, more extensive though less definite fin Missouri, Kentucky and Tennessee, should not be overlooked; but Maryland presents the example of complete success. Maryland is secure to liberty and Union

encess. Maryland is secure to liberty and Union for all the future. The genius of rehelion will no more claim Maryland. Like another foul spirit, being driven out, it may seek to tear her, but it will woo her no more.

At the last session of Congress a proposed amendment of the Constitution abolishing slavery throughout the United States passed the Senate; but failed for want of the requisite two thirds vote in the House of Representatives. Although the in the House of Representatives. Although the present is the same Congress and nearly the same members, and without questioning the wisdom or patriotism of those who stood in opposition, I venture to recommend the freconsideration and

of American citizens, with the cordial goodwill and support as well of this Government as of those of Great Britain and Russia.

Assurances have been received from most of American States of their appreciation of the enterprise and their readiness to co-operate in constructing lines tributary to that world encircling communication. I learn with much satisfaction that the noble design of a tolegraphic communication between the enterprise and their readiness to complishment.

That it is hoped with the return of domestic peace the country will be able to resume with energy and advantage its former career of commerce and civilization.

Our very popular and estimable representatives and teleration which arose between the temporary into much of the Santa and teleration which arose between the temporary into much of the Santa and teleration which arose between the temporary into much the Barbary powers, are entirely anticatory.

The robellion which has been so long raging in China has been suppressed, with the compression of the other western consuments and of the Barbary powers, are entirely satisfactory.

The robellion which has been so long raging in China has been suppressed, with the compression of the other western consuments and confidence of the compression of the confidence of the conf

repair of iron vessels and the machinery and ap- voters commingled at the polls, gave atrong assurance of this. Not only all those who supported the Union tiesest, so called, but a great majority of the opposing party also may be fairly claimed to entertain and to be actuated by the same purpose. It is an unanswerable argument to this effect, that no capdidate for any office, however high or low, her ventured to seek votes on the high or low, her ventured to seek voice on the avowal that he was for giving up the Union. There have been much impugning of motives and much heated controversy as to the proper means and best mode of advancing the Union cause, but en the distinct issue of Union or ne Union, the peliticisms have shown the instinctive knowledge that there is no diversity among the people. In affording to the people the fair opportunity of showing one to another and to the world this firmness and mention of purpose, the election has been of vast value to the national cause.

The election has exhibited another fact not leas

The election has exhibited another fact not les valuable to be known—the fact that we do not approach exhaustion in the most important branch of national resources—that of living mon. While it is melancholy to reflect that the war has filled so many graves, and carried mourning to so many hearts, it is some relief to know that, com-pared with the surviving, the fallen have been so few. While corps and divisions, and brigades and regiments have formed and fought and dwindled and gone out of existence, a great majority of the men who composed them are still living.— The same is true of the naval service. The elec-tion returns prove this. So many voters could not else be found. The States regularly holding elections, both now and four years ago, to wit: California, Connecticut, Delaware, Illinois, Indians, Iows, Kentucky, Maine, Maryland, Mass-achusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, Ohic, Oregon, Pennsylvania, Bhode Island, Vermont; West Virginia and Wiscousin, cast 3,982,011 votes now, against 3,879,222 cast then, showing an aggregate now of 3,982,011. To this is to be added 33,762 east now in the new States of Kansars and Avenda which States did not vote in 1860; thus swelling

east now in the new States of Kaness and A'evada which States did not vote in 1860; thus swelling the three years and a half war to 145.551. A table is appended showing rarticulars, To this again should be added the number of soldiers in the field from Massachusetts, Rhode island, New Jersey, Delaware, Indiana, Illinois and California, who, by the laws of those States, could not vote away from their homes, and while in unimer cannot be less than 20.000. Nor yet is this all. The number in the organized Territories is a trifle now to what it was four years ago, while thousands, white and black, join us as the national arms press back the insurgent lines. So much is shewn, affirmatively and negatively, by the election. It is not meterial to inquire how the increase has been produced, or to show that it would have been greater but for the war, which is probably true. The important fact remains demonstrated that we have more men now than we had when the war began, that we are not exhausted, nor in process of exhaustion. That we are gaining strength, and may, fi used be maintain the contest indefinitely. This is to men. Material resources are now more complete and abundant than agrer. The natural resources then are unexhausted, agree, or careful consideration of all the evidence accessible, it seems to me that no attempt at negotiation with the insurgent leader could result in any good. He would accept nothing short of severance of the Union—precisely what we will not and cannot give. His declarations to this effect are explicit and oft-repeated. He does not attempt to deceive us; he offers us no excuse to deceive ourselves. He cannot voluntarily re-accept the him and us the issue is distinct, single and infiexible. It is an issue which can only be tried by war and decided by victory. If we yield, we are beaten. If the Southern people fail him, he is teaten. Watte tried how who

mg war.
What is true, however, of him who heads the in

Either way it would be the victory and defeat following war.

What is trie, however, of him who heads the insurgent cause is not necessarily true of those who follow. Although he cannot re-accept the Union, they can. Some of them, we know, already desire peace and re-union. The number of such may increase. They can at any time have peace simply by laying down their arms and submitting to the national authority under the Constitution. After so much, the Government could not, if it would, maintain war against them.

The loyal people would not sustain or allow it. If questions should remain we would adjust them by the peacful means of legislation conferences, courts and votes, operating only in constitutional and lawful channels. Some certain and other possible questions are and would be beyond the Executive power to adjust, as for instance, the admission of members into Congress and whatever might require the appropriation of money.

The executive power itself would be greatly diminished by the cessation of actual war. Pardons and remissions of forfeiture, however, would still be within Executive control. In what spirit and temper this control would be exercised can be fairly judged of by the past. A year agos general pardon and amnesty upon specified terms were offered to all except certain designated classes, and it was at the same time made known that the excepted classes were still further in contemplation of special clemency. During the year many availed themselves of the general provision, and many more would only that the signs of had faith in some led to such precess less easy and certain. During the same time also special pardons have been granted to individuals of the accepted classes, and so voluntary application has been denied. Thus practically the door has been for a full year open to all, except such as were not in condition to make free choice—that is, such as were in custody or under constraint. It is still so open to all. But the time may come when puttled duty sited temment that it be closed, a

public duty shall demand that it be closed, and that no lieu more vigoreus measures than heretofore shall he adopted.

In presenting the abandonment of armed resistance to the national authority on the part of the insurgents as the only indispensable condition to ending the war on the part of the Government, I retract nothing heretofore said as to slavery. I repeat the declaration made a year ago, that while I remain in my present position, shall not attempt to retract or modify the Emancipation proclamation, nor shall I return to slavery any person who is free by the terms of that proclamation or by any of the acts of Congress.

ougress.

If the people should, by whatever mode or means, nake it an executive duty to re-enslave such perons, another, and not I, must be their instrument to In stating a single condition of peace. I mean simply to say that the war will cease on the part of the Gvernment whenever it shall have ceased on the part of those who began it. ABRAHAM LINCOLN.

(Signed) December 6th, 1864. LADIES' FURS.

Purchasers may rely upon getting the vest furs at Charles Oakford and Sons, Continental Hotel, Phila-delphia.

It is a well established fact that no preparation has ever been placed before the public, that, as a remedial agent for the safe and speedy cure of Coughs, Colds, Croup, Influenza, Hoarseness, Tickling in the Throat, Soreness of the Chest and Lungs, and the relief of Consumptive Cough, is equal to COE'S COUGH BALSAM. Although not known in the Western States until the fall of 1863, over 800,000 bottles of it were sold and used by the people; its immense popularity being the result of its undoubted merit. The proprietors, Messis. C. G. Clark & Co., of New Haven. Conn., who are among the most reliable of the eastern drug houses, have offered to any man who would produce an article that would gure any Lung or Throat affections as quick as Coe's Cough Balsam, a reward of \$100, and are without any taker, although the offer has been made public over two years. The bottle compares favorabty in size with any of the 65 cent preparations, and its etrength is second to none, making it not only the best, but the cheapest remedy in the world. We have the united testi mony of such houses as Lord a Smith; Fuller, Finch, a Fuller; Burnham & Van Schaack; J. H. Reed a Co., and H. Scovill, all heavy druggists in the city of Chicago, together with the assurance of wholesale and retail druggists in all points of the Northwest, that they are selling more of this preparation, and that it is within the r-acn of all, the price being only 40 cents. In time of health prepare for disease.—Cuto.—Cut FACTS FOR THE PEOPLE.

LADIES' AND CHILDREN'S HATS. Lateststyles at Charles Oakford & Sons, Continental Hotel, Philadelphia.

STATE OF NEW JERSEY Executive Department, Trenton, Nov. 28, 1864.

The Provost Marshal General has informed me that elforts are being made to perfect the enrollment lists, in order that correct quotas may be determined in the event of future calls; and has requested my co-operation by inducing State minent and influential citizens, to assist in securing course or in the lists.

minent and influential citizens, to assist in securing accuracy in the lists.

This is a very important subject, not only to every man liable to military du y, but to every tax-payer.—
Heretofore the local authorities, in many instances, delayed action until it was found very difficult and sometimes impossible to have errors corrected.

I call upon the citizens of this State, and especially upon the authorities of counties, cities and townships, to appear without delay before the Boards of Enrollment in their respective districts, to point out errors in the lists, and give such information as may ad in the correction of the same. The Boards of Enrollment have been instructed by the Provost Marshal General to have copies of the lists open to the examination of the public at all proper times.

In revising the enrollment lists the following classes of persons should be added thereto:

1. Those who, since the last enrollment, have attained the age of twenty years.

ist. Those who, since the last enrollment, have attained the age of twenty years.

2d. Those who have declared their intention to become citizens, or exercised the privileges of citizens.

3d. Those discharged from the military or naval service of the United States, who have not been in such service two years during the present war.

There should be stricken from the lists the names of those who are exempt on occount of,

1st Alienage.

2d. Non residence.

3d. Over or under age.

4th. Permanent physical disability, of such a degree as to render the person not a proper subject for enrollment under the law and regulations.

5th. Having served in the military or naval service two years during the present war, and been honorably discharged,

6th. Being now in the military or naval service of

bly discharged, 6th. Being now in the military or naval service of the United States. oth. Being now in the military or naval service of the United States.

It is desired that the local authorities and citizens will also communicate with the deputies of the Provost Marshal and special agents, who may be appointed to revise the enrollment in the several substricts, giving them special facilities for the examination of the several poll books, &c.

Should difficulties arise, or obstacles be interposed, so as to interfere with the proper correction of the enrollment, a statement of the facts should be made to me in writing, by the county, city or township authorities.

thorities.

I hope that the public journals throughout the State will frequently call the attention of the people to this subject, as it deeply concerns the welfare of all classes. Prompt action is important.

JUEL PAKKER.

CEDARVILLE FAIR.

CRDARVILLE FAIR.

The Ladies of the First Presbyterian Church, Cedarville, will open a Fair for the sale of fincy articles in Bateman's Hall, on Friday evening, 23d inst., at 7 o'clock, and will continue the same on Saturday, and Saturday evening, 24th inst. Tickets of admission for adults and children ten cents.

In connection with the Fair a dinner will be provided at the house of Joseph D. Newcomb, on Saturday, the 24th, from 12 until 3 o'clock.

As the entire proceeds of the fair and dinner are to be expended in the repair of the First Presbyterian Church it is hoped that there will be a large attendance. A most cordial invitation is extended to all.

The Discontented Youth. BY THE BARD OF TOWER HALL

"Tell me, ye vexing powers of fate,"
He cried in tones of woe,
"Why many have been born so great,
While I am placed so low!
If mine were rank and lofty birth,

I'd prize them more than they
Who have them, yet know not their worth
Of titles which they sway!" of titles which they sway!"

"Cease, boy," his sire did thus command,

"To moirn your destined state;
Your birth has chanced within a land
Where any may be great.

Here you need not your boasts maintain
On what your race have done.

For all the glories which you gain
Shall by yourself be won.

"Nature no meaner gifts reveals,
Of body or of mind,
In us than in the prince who feels
Contempt for all his kind.
The proudest noble that does view
Himsell am mirrors tall,
Looks not superior to you,
In clothes from Tower Hall!"

We are selling ready-made clothing equal in every respect—style, fit, material, and workmanskip—to any made to measure, at 25 to 50 per cent. lower prices. 32, and adjoins heirs of John Stille.

No 34 is a small farm of about 37 acres near the old Baptist Church at West Creek known as camp place, adjoining William Carlisle.

No 35 is 280 arres of timber and bush land, crossed by Millville and Cape May Railroad, and adjoining Samuel Townsend and heirs of Joseph Compton.

No 36 is 134 82 100 acres of timber land near Ewing's Neck, adjoining John Chambers and George Heisler.

No 37 is about 28 acres of farm and bush land, in Leesburg, adjoining F. Biggs and William Carlisle.

No 38 is about 25 acres of farm land, in Leesburg, adjoining Wm Carlisle, Z. Chance and others, knewn as Chamber's Farm.

Being the real estate whereof James Ward, late of said county of Cumberland died seized, I have nominated James L. Smith, Andrew Heisler and Samuel Wills, commissioners, to divide the said messuages and tracts of land into twelve equal shares or parts, and unless proper objections are stated to me at my office in Bridgeton, on the seventh day of January next, the said James L. Smith, Andrew Heisler and Samuel Wills will then be appointed commissioners to make partition of the said land, pursuant to an act entitled "An act for the more easy partition of lands held by coparceners, joint tenauts and tenants in common"

Given under my hand this fifth day of December,

jewelers, as Watches, Chains, Bracelets, Pins and other ornamental Jewelry afford appropriate mementos of love and friendship, and are always acceptable gifts. Among the many who are engaged in the above business, Mr. Eli Holden, No. 708 Market street, whose brilliant goods attract the admiration of all who pass his store. Content with small profits, he has rendered his place celebrated for low charges.

Twenty Dollars Reward! Left his home in October last, a SMALL BOY, 14 years of age, quite small for that age, wore a light blue suit, pink shade, light felt hat, also took with him a black felt hat, is of light complexion, his left wrist recently injured by a fall. Was last seen at English's Ferry, Camden, N. J., on the 15th of October. It is supposed he will seek a place on a farm.—Any farmer or other person to whom he may apply will confer a favor on his distressed parents and receive the above reward by giving information of his will conier a layor on his distressed parents and receive the above reward by giving information of his present whereabouts to J. A. RITER, nov 26 3tjcac 610 North 10th street, Philadelphia. Henderson's Capitol Clothing Store. 510 MARKET STREET,

First Clothing Store above Fifth. By our National Poet, Dr. George Allen Spangler THE SPIRIT MAKES THE MAN.

A youth, devoid of spirit bold, None of life's beauties to unfold, Is like a being chained to earth— To friends or self of little worth. Not only to himself a blank, Left with the idle for to rank, The bane to every one he knew, The boy with downcast look and hue. 'Tis mostly caused in boyhood's hour, Which, in the bud, makes spirit cower, Attempts to sway by domineering— A vain attempt at children's rearing. So, if you would advance your sons, Go rig them out at HENDERSON'S, Their downcast spirits he'll uplift. In Market street, first door from Fifth.

WHO SAYS They can hardly live at the high prices now raging? Nobody, when they go to a certain store in this town where they have reduced coffee 16 per cent, sugar 8, and everything accordingly. Go there and you will be rejoied to find that you can yot afford to buy every the total control of the control of th thing good to eat in the grocery and provision line. at

Jones' Old Established Onc-Price Clothing Estab. lishment.

NO. 604 MARKET STR., PHILADELPHIA. Jones' policy which has proved of such great sat isfaction both to his friends and the public, has demonstrated the fact, that ONE PRICE is the proper basis on which to do business. Many persons who are not able to judge of the value of any article, are glad to avail themselves of the opportunity of purhasing where they can secure what they want at the same price as their neighbors. Others, not liking to tak the dealers to take less, are often obliged to pay too much for an article. To meet this want Jones' ne price Store has been established, and having worked well for fifteen years, has gained many friends. Strangers visiting Philadelphia would do well to all, as they will find one of the best stocks of readynade Clothing in the city; while those wishing their raments made to order can secure them at the Jones' Old Established One Price Clothing House. THE SINGER SEWING MACHINES. THE SINGER SEWING MACHINES.

Our LETTER A FAMILY SEWING MACHINE is fast gaining a world-wide reputation. It is beyond doubt thet best, cheapest, and mos beautiful of all Family Sewing Machines yet offered to the public.—
No other Family Sewing Machine has so many useful appliances for Hemming, Binding, Felling, Tucking, the sewing Machine has so much capacity for a great variety of work. It will sew all kinds of cloth, and with all kinds of thread. Great and recent improvements make our Family Sewing Machine most reliable, and most durable, and most certain in action at all rates of speed. It makes the interlocked stitch, which is the best stitch known.—
Any one, even of the most ordinary capacity, can see, at a glance, how to use the letter A Family Sewing Machine. Our Family Sewing Machines are finished in chaste and exquisite style.

The Folding Case of the Family Machine is a piece of cunning workmanship of the mest useful kind. It protects the machine when not in use, and when about to be operated may be opened as a specious and substituting table to sustain the work. While some of the o be operated may be opened as a specious and subtantial table to sustain the work. While some of the Cases, made out of the choicest woods, are finished in the simplest and chastest manner possible, others are adorned and embellished in the most costly and su

erb manuer. It is absolutely necessary to see the Family Machine n operation, so as to judge of its great capacity and enuty. It is fast becoming as popular for family sewing as ur Manufacturing machines are for manufacturing ourposes. The Branch Offices are well supplied with silk, twist The Branch Omces are well supplied with silk, twist thread, needles, oil, &c., of the very best quality.

CLOTHING! CLOTHING! Now is the time to take advantage of the present decline in prices, as goods are sure to advance again. Grosscup's is the place to buy at the lowest figure. We are selling our goods at the lowest price, in accordance with the fall of gold, and if you have any conductive terms and would sell the service of the conductive terms. we are selling our goods at the lowest pices, in accordance with the fall of gold, and if you have any gold or silver on nand, bring it along, and we will allow you the full premium as reported in the city papers, in exchange for clothing, and you will find that you can buy more goods than you could with the same money four years ago. For gold, I will sell a twenty dollar coat for nine or ten dollars, a pair of twelve dollar pants for five or six, a fifty dollar coat for about twenty two, and all other goods in proportion. So come along, bring your gold or your greenbacks, all the same to me; would as soon have the greenbacks at the gold; the only difference is the price. But take my advice, and buy before goods advance again. All Cassimeres and Satinetts for men and boys wear, by the yard, cheap. Ladies' Cloaking Cloths in great variety, very cheap, at GROSSCUP'S.

Opposite Davis' Hotel, Bridgeton.

Further particulars are unnecessary, as persons wishing to know terms and price will call on the subscriber, owner, near Woodbury, or D. M. Woodruft, Bridgeton.

JAMES LEE.

HAWLEY'S DENTAL CREAM, For Cleansing, Whitening and Preserving the Teeth This article is prepared with the greatest care upon scientific principles, and warranted not to contain anything in the slightest degree deleterious to the teeth or gums. Some of our most eminent dental surgons have given their sanction to, and cheerfully recommend it as a preparation of superior qualities for Cleansing, Whitening and Preserving the teeth; it cleans them readily, rendering them beathtifully white and pearly, with cut the slightest injury to the enamel. It is healing to the gums where they are ulceraced and sore. It is also an excellent disinfector for old decayed teeth, which are often very oftensive. It gives a rich and creamy taste to the mouth, cleansing it thoroughly, and imparting a delightful fragrance to the breath.

PREPARED ONLY BY

PREPARED ONLY BY
A. HAWLEY & CO., N. W. Corner 10th & Lombard streets, Philadelphia And sold by all Druggists. PRICE 38 CENTS. TESTIMONIALS.

TESTIMONIALS.

The following opinion of Dr. White, as to the high estdem in which he holds the Dental Cream, must be sufficient evidence of its value; to quote other testimonials in detail is needless, conetnting ourselves by simply giving the names and addresses of persons who speak of its excellency for the teeth.

Having carefully examined A. Hawley's "Solidified Dental Cream," I hereby cheerfully recommend it to the public generally. It is an excellent preparation for cleansing and preserving the teeth, and can be used by all persons with the utmost confidence, as its properties are perfectly harmless. Besides preserving the teeth, it promotes a healthy action to the gums and imparts a pleasantness to the breath.

An Interesting History

DR. SCHENCK'S OWN CASE, WHILE LABORING UNDER CONSUMPTION, And how his Pulmonic Syrup, Senweed Tonic, and Mandrake Pills act on the System, in Curing that Disease, and the

GREAT SUCCESS ATTENDING IT

The above is a correct likeness of Dr. Schenck taken many years ago, after he had recovered from Consumption, by a course of his "Schenck's Pulmonic Syrup." The likeness, although it is does not represent him anything like as bad as he was at the worst, yet it is in strong contrast with the hale and vigorous looks of the portrait below, which is the true likeness of him at the present time. The contrast between these two portraits is so great that many would not believe them to be the same person. Yet there are hundreds of persons in and around Philadelphia, who will recognize both portraits to be true representations. When the first was taken he weighted 107 pounds; at the present time his weight is 220 pounds.

New York, Wednesday, March 30, 1864. TO THE PUBLIC. New York, Wednesday, March 30, 1804.

TO THE PUBLIC.

Thirty years ago I was in the last stages of Pulmo nary Consumption, and civen up to die. I resided in Philadelphia, and Dr. Josedh Parrish, then of this city, ordered me to Moorestown, N. J., a distance of nine miles, which took me two days to get there.—On my arrival I was put to bed, and I there laid for many weeks. This was my native place, where all my family lived and had died of consumption. Dr. Thornton, who attended my father in his last illness, was called, and gave me one yeek to fix up my affairs. He had seen all my family go that way, and thought I was to go, too. Then I heard of the remedies I now offer to the public, which cured me. It seemed to me that I could feel them penetrating my whole system.

They soon ripered the matter on my lungs, and I would spit off more than a pint of offensive yellow matter every morning. As soon as that began to subside, my cough, fever, pain, night sweats—all began to leave me, and my appetite became so great hat it was with difficulty I could keep from eating too much. I soon gained my strength, and I have been growing in flesh ever since. For many years I have enjoved uninterrupted good health, keeping the liver and stomach healthy with the Seaweed Tonic and Mandrake Pills, as I am of a bilious tempera ment. My weight is two hundred and twenty pounds On my recovery people would send for me far and near, to see if their cases were like mine. For this purpose I pay professional visits in the large cities. The consumptives wish to see the one that makes near, to see if their cases were like mine. For this purpose I pay professional visits in the large cities. The consumptives wish to see the one that makes these medicines, and who was cured of consumption by them. To make new lungs is impossible; but cavities in the lungs and chronic ulcerations of the bronchial tubes can be healed. Such cases are dying hourly under the ordinary treatment of physicians and just such are cure by the proper use of Schenck's Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills. I am now a healthy man, with a large cavity in the middle lobe of the right lung, the lower lobe very much hepatized and complete adhesion of the pleura. The left lung is sound, and the upper lobe of the right lung is in a tolerably healthy condition. The great reason why physicians do not cure consumption is they try to do too much; they give medicines to stop the cough, to stop chill, to stop night sweats, bettic fever, and hy so design they deronge the whole

great reason why physicians do not cure consumption is they try to do too much; they give medicines to stop the cough, to stop chill, to stop night sweats, heetic fever, and by so doing, they derange the whole digestive powers, locking up the secretions and eventually the patient dies. After I make a careful examination of the patient with the Respirometer, and find lungs enough left to cure, I direct the patient how to use the three remedies. Remove the cause and they will all stop of their awn accord. No one can be cured of consumption, liver complaint dyspepsia, catarrh, canker, ulcerated throat, unless the liver and stomach are made healthy. In New England this canker, chronic catarrh, ulcerated throat, elongation of uvula, is more prevalent than ir any other section of the country. This is frequently caused by a foul stomach. You may burn it out with caustic time and again, and all they will get is temporary relief. Correct the stomach and hver, and they will heal up themselves.

Good nurriton is the remedy. If you have any disease in any part of the body, it will remain there and decay more and more untu you can get the stomach in the condition to digest food, and make new blood to take the place of the diseased matter. This is the only way to heal cavities in the lungs and ulcerated bronchal tubes. Correct the stomach and liver, and nature will do the healing. Many persons have an idea that certain medicines are great purifiers of the blood. When blood is once diseased it cannot be purified; it is diseased the same as the diseased matter in the system; but get the apparatus in order, the liver and stomach, and giveit plenty of unrishing lood it will make new blood, which will take the place of the diseased. think will leave her before June. I should think it think will leave her before June. I should think it would be of great interest to some unprejudiced physician tov isit these cases, particularly Miss Scofield, or any of them who have been cured by my medicines. They are numerous in New York; but the above three all differ from each other; and if my medicines are doing what I represent they are, they should have the credit and the afflicted know where and how they be cured.

be cured.

L. LYONS' PURE OHIO

SPARKLING CATAWBA WINES,

January 25, 1358.

I have analyzed "L. Lyons' Fure Catawba Brandy," with reference to its composition and character, being the same as that produced in past years. A sample taken from ten casks afforded the same results with regard to purity: a slightly increased amount of the principle on which its flavor depends was determined by comparison with former samples.

The indications of analysis show that this brandy is produced by the same process as most of the im-

Matiner, Consulting Chemists, Chicago, all of whom have analyzed our Catawba Brandy, and commend it in the hignest terms for medical use. Analysis of the Massachusetts State Assaver.

January 25, 1358.

When evaporated through clean lineu it left no oil or ollensive matter. In every respect it is a pure spirituous liquor. The oil which gives to this brandy its flavor and aroma, is wholly unl ke fusil or grain oil. Its odor partakes of both the fruit and oil of grapes. With acids, it produces ethers of a high fragrance. The substitution of this brandy fer Cognac Brandy will do away with the manufacture of fictitious spirits, sold under this name both at home and abroad. Respectfully,
