DR. J. H. SCHENCK,

T. S. SHELDON. Dr. Schenck—Dear Sir:—About two years ago I was taken with a very troublesome cough and a pain in my breast; seven or eight months passed away without my doing anything for myself. Then I applied to a physician, who attended me for about three months without rendering me any service. I also obtained the advice and treatment of a physician in one of our hospitals, and also had the advice and treatment of two other physicians, but all to no purpose. During this long space of time I was nearly dead; several times my friends came to see me aid witness my exit into the spirit-world. I was confined to my hed two months at one time. My breathing, was execedingly short. I gave up several times all hope of getting better; and as regarded getting weil, that was entirely out of the question. And to think this day I am well and hearty! I was advised by some of my friends to try Dr. Schenck's Medicines. I accordingly bought bottle after bottle, until I reached the ninth; then I found a decided change in my cough for the better. I suffered from palpitation of the heart, and two weeksafter I commenced taking your medicine this difficulty ceased.

When I first went to Dr. Schenck's office it was with difficulty that I could get up into his reception room, I was so week and so swelled; my skin was as sallow as though I had the jaundice; I felt dull, heavy and sleepless. Dr. Schenck, after examining mo, said both my lungs were affected, and gave me but little hope; but his medicines in about two weeks, took right hold of me; it seemed to go right through my whole system. The Pulmonic Syrup, Sea-weed Tonic, and Mandrake Pills all took right hold in the right place. The Pills brought away great quantities of bile and sline; the Syrup loosened the matter in my lungs, which came off very free; the Sea-Weed Tonic gave me an appetite, and everything seemed to taste good.

To show what great power the medicines have in purifying my system, and to show how bad I was diseased, beside all the bile that passed my bowels, and the great quan Dr. Schenck-Dear Sir:-About two years ago I was

He says: "I see you were somewhat astonished, as well as myself, at the exorbitant price asked for the Boston Bone Flour. Bone dust reached such a price this spring, that I was forced to try and find a substitute, and have just ordered quite a large quantity of manure from Chicago, made from the carcasses of animals, that die in the cars and otherwise, which, after being tried out, are ground up, flesh and bone together. This is mixed with at equal quantity made from blood and haslets obtained from the large packing houses.

My own impression is, that it will prove a very valuable manure, though probably not as lasting as pure bones, but quicker in its action. I remember to have seen some wonderful effects in England from the use of blood manure, and do not see

It costs me delivered less than The manufacturers of Bone Flour say, the reason why they have to charge so much for their manure is, that they have to pay \$36 per ton for bones. The agent told me that they get their bones principally from Africa and from the Southern States. The question with farmers is not what the bones cost the manufacturers, but whether they can afford to use the manure made from them. The price is higher now than a year or two ago, while farm produce is much lower. We cannot afford to pay as much for manures now as we could a year ago, and it is certainly very unreasonable to ask us to pay more.

"Who is your father?" inquired the gentleman still more interested. "My father was a rich merchant of this sity, but he became bondsman for a friend who soon failed, and he was entirely ruined. He could not live long after this loss, and in one month he died of grief, and his death was more dreadful than any of our trouble. My mother, my little brother and myself soon sank into the lowest depths of poverty. My mother has, until now, managed to support herself and my little brother by her labor, and I have earned what I could by shoveling snow and other work that I could find to do. Henry's eyes flashed with gratitude; he received the money with a stammering and almost inaudible voice but with a look of the warmest gratitude he vanished.

THE RECONSTRUCTIVE POLICY. The Amendments to our National Constitution which have just passed Congress and which now require the ratification of two-thirds of the Legislatures of the States, is, probably, the most satisfactory plan that could have been devised under the contingency. It is not too radical nor proscriptive. It deals fairly and justly with all, and awards to the rebellious States prerogatives and privilges more liberal than the enormity of their crimes could have entitled them to. When the late rebellion is taken into due consideration, and the horrible consequences resulting from that animus is weighed

- when the fullest extent of the great crime of treason becomes properly explained—when the loss of human life. and the maining of thousands of true and patriotic men are taken into the account -the liberal provisions made by Congress in the terms of reconstruction cannot fail to cicatrize the wounds of Southern pride, as well as to gratify the demands of patriotism and those principles of justice which were insisted upon and claimed by the loyal citizens and statesmen of the North. Here, then, the two conflicting political elements of the country have come together stripped of all partisan coloring—the one idea notions of President Johnson, and the proscriptive views of the Radicals are all baptized into the conservative policy of Congress for reconstructing and admitting into the Union those States which forfeited their rights to participation in the Government by their own causeless and wilful armed resistance to the Federal authority. Without pro vocation they lifted their bloody hands against the life of the Nation, and for no reason whatever set armies in the field to pillage, destroy and kill. They failed in accomplishing their purpose, and thereby properly disenfranchised themselves from all national attributes save such as Congress in its merciful forbearance may deem prudent and safe to continue to them. These attributes are plainly and emphatically laid down in the Amendments to the Constitution under discussion, and are as follows, which ought to be committed to memory by every citizen:

ARTICLE—Section 1. All persons born of naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States. FOURTH OF JULY.

All over the country the echoes of the old spirit of independence are being heard except in the South. It is not probable that there will be much of that feeling among its people and it would be expecting too much just at this time to look for it. There is still too much soreness over the results of the recent conflict, too much desolation and poverty-too much bitterness over the defeat, and to little real love for the Union there to expect them to participate in a ceremony which recalls so bitterly the fact that they are members perforce of a Union which they have spent five years in endeavoring to sever. The fourth of July must plant itself afresh there, and trust to time and the developments of freedom to awaken the enthusiasm with which we regard

The colored people also will take an interest in the celebration far beyond anything in the past. The strides of events have been rapid and wide in the last two years, and they are awakening to the idea of the fact that they are participants in the Union to an extect beyond the wildest hopes of two years ago. They have also their record, humble as it may be to inspire them. While we do not see that they accomplished anything at all comparable with the white troops in the war as their number was too small in comparison with the res of the army, yet their record is one which will live on the historic pages for ever and will no doubt be appropriately remembered in the are making large preparations. Philadelphia is to have a "Battle flag celebration," and other large places are to follow the example, while elsewhere orations and addresses calculated to inspire the spirit of patriotism will be the order of the day. Vicksburg and Gettysburg, the two great events which made Vicksburg and

Southern success impossible, will stand prominent as objects for special gratulation. Church will hold a festival where a part of the

The war gloud over the water continues to blacken. So hopeless have all the great powers outside of the belligerents become that the pened June 4th. There are over one idea of their peace conference has been abandoned and the parties left to proceed without age attendance of from 70 to 80. The interference. We do not see how a collision is greater part of these boys are connected to be avoided. Austria has 800,000 men unwith the factories and are at work all der arms. Prussia has an equal namber. day, and unable to get an education in Italy has 500,000, and France about as many any other way. They seem eager to who are to act as an army of observation, learn, and we have no doubt will richly ready, of course, to take advantage of any circumstance that may occur to forward the interests of France. The Prussians have issued for sympathy and also the material aid a manifesto which cannot, we think, otherwise necessary to carry on these schools success- than be considered as a declaration of war, fully. There are those among us whose and by the time our readers are perusing this hearts are, ever open to the cry of the the clash of arms may be resounding all over

> All this, too, is about a matter which we on this side could settle in a town meeting. A simple question of whether a little piece of conquered territory shall be governed by one party or another; neither of which parties have any right to govern it at all. The war wil probably be a bloody and expensive one, and will probably change again the map of Europe.

> THE CHOLERA. However unwelcome may be the fact, it is, nevertheless, undeniable that the Cholera is an actual fact in the City of New York; and also that it cannot be traced to any communication with the infected vessels in the harbor reported, but from three to five deaths a day are frequently annnounced, and these of the worst and most malignant types of the Asiatic forms of that disease. The most singular feature connected with the matter is that as yet the authorities there have done little or nothing to prevent its introduction, while the want of suitable accommedation for those unfortunates who lie sweltering in the shins is making the name of New York synonymous with brutality all over the world. As yet, the privilege of landing on the most

sterile and desolate portions of her islands or coast is denied, and the poor patients perish in large numbers if common humanity animated the Governors of that city. The Cholera will probably revenge itself sooner or later communicating its accumulated viurs, and in attacks of this kind the mortality will be

The ceremonies attendant upon the installation of Rev. Mr. Beadle, pastor of the Second Presbyterian Church of this city, took place on Wednesday evening last. Rev. Mr. Wood of Blackwoodtown, presided, Rev. Mr. Would of Blackwoodtown, presided, Rev. Mr. Would of Machine of Absecon Presched the sermon with the Merchant Tailor Trade, both here and in Philadelphia. He will be pleased to hear from his old friends, and all orders sent him will be attended to with promptness and fidelity.

WANAMAKER & BROWN,

WANAMAKER & COUNTY, HOUSE McMullen, of Absecon, preached the sermon, Rev. Dr. Beadle, of Philadelphia, father of the incumbent, delivered a solemn charge to the pastor, and Rev. Mr. Shields, of Pittsgrove, the charge to the people. There is no doubt but that these impressive services will form a strong bond between the pastor and the Church.

A New Broom Sweeps Clean. The truthfulness of the above adage was demonstrated in our sanctum a few days since. The dust and dirt had accumulated until it was evident that an application of a broom was needed, and about that time Mr. C. Tyler. agent for "Powers' Patent Broom," made his appearance with one of those useful inventions which should be in possession of every

one who has occasion to use them. It is equal in every respect to the best old style broom and has several advantages which are fully set forth in an advertisement which will be found in another column. ICE CREAM. Many of our Bridgeton readers are no

aware that Mrs. Andopher is selling Ice Crean at her residence on Pearl, Street, nearly opposite the old Baptist Church. She has room fitted up for a saloon, and is prepared to supply customers in almost any quantity with an excellent article of cream. Those who patronize Mrs. Andopher will not only get the full worth of their money but will be aiding a very worthy woman.

DEATH OF GEN. CASS. Gen. Lewis Cass, a name which is an integral part of American history, died at Detroit on Sabbath last at the advanced age of eightythree years. He was an able lawyer, had a reputation for both gallantry and ability as a soldier, was distinguished in the war of 1812, had been Governor of Michigan and Senator of the United States, and also Secretary of war under Gen. Jackson, and State Secretary under Buchanan. He was the Democratic nomine for President at the election of Gen. Taylor .-The act for which he will live longest in American history is his resignation of his cabinet position rather than act with the traitors with whom he was associated, an act which first made the American people feel the imminency of their danger.

DESCRIPTION—A cone of polished brass receives the corn, which is held fast by a double row of teeth made of malleable iron, and drawn into the cone by means of an iron nut in the handle, which is strengthened by a brass band. A brass wire secured in the cone gives shape and steadiness to the broom.

Any one can make their own broom in five or ten minutes, and have it light or heavy, as they please. After the first outlay, ten or fifteen cents will furnish you a new broom, and if you can raise your own broom corn, even this expense is obviated.

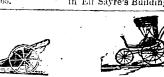

For further particulars concerning it, buy one and try it. It is the intention of the proprietor of the patent for this county to give all interested throughout the county a chance to see it for themselves.

From the best authority on Fashions in the U. States.

Since the beginning of Spring, we have received numberless letters from subscribers, particularly from those residing at a distance from the metropolis, as to whether the reign of crinoline may be considered permanent for This season, and, if so, what is the most approved style and shape for hoops. The subject is a much more serious one than at first appears, for the most expensive and tasteful dress, in spite of the utmost efforts of the most skilfull dressmakers, will be wanting in elegance and style if wore over an ill shapen or unfashionable hoop. In view of this, we have given the subject of crinoline our special attention; and after comparing, and fully entering into the respective merits of each and all of the claimants to public favor, we have concluded that Branley's New "Empress Trail" Duplex Elliptic Skirt, (of which we give an illustration.) is the style, of all others, best adapted to the present fashions of the ladies, and also the Most graceful, styles, called the "Pride of the Most graceful, styles, called the "Pride of the Most graceful, styles, called the "Pride of the Rober's most pobular styles, called the "Pride of the Rober's most pobular styles, called the "Pride of the former in regard to flexibility, durabili-

BRIDGETON FOUNDRY AND MACHINE WORKS

We would call the attention of the public to our establishment, and our various manufactures. We are building a SORGHUM CRUSHER AND CANE Which for simplicity, effective power, strength of material and workmanship, cannot be surpassed, and we are offering them at prices that we know to be less than a machine of the same strength and capacity can be bought for elsewhere. We are building three sizes. For a more extended description send for circular. Evaporators furnished to order. We are also manufacturing Circular Saw Mills, for sawing either large or small logs, to which we would invite the attention of mill ewners and lumbermen.—They are built under the supervision of one who has had many years' experience in building and running mills, and lumbering generally, and he flatters himself that he knows what millers want. We also furnish to order MILL.
