THE NEW SCHOOL LAW.

We observed in these columns some months ago, when the present school law passed the Legislature, that some of its features were so inconsistent with plain good sense, and the spirit of our institutions, that it was doubtful if all its provisions would receive the hearty co-operation of the people, and doubted whether, so far as it lay in their power, they would not repudiate it altogether.

A DELICIOUS TREAT.

On Friday last we received a most excellent treat of Ice Cream, from the establishment of Mr. Atkinson, of this city. The quality was superior and the quantity abundant to supply all our force and a couple of friends who happened in about that time, all of whom pronounced it superb.

Beef, Veal, Lamb, Mutton.

Now that the season for fresh shad, oysters, &c., is pretty well over, our citizens begin to enquire for the more substantial articles of food.

STRAWBERRIES.

The Strawberry crop has been unusually large this year, and prices have been very low. The Agriculturist seems to be the most popular variety, although there are many others which are greatly in demand.

FAIRS AND FESTIVALS.

Most of the Fairs and Festivals announced for the present season have already taken place, and are so far as we have learned, they have been successful.

SENSATIONAL LITERATURE.

The taste of the American people in literature, at least of its more youthful portion, seems to be built upon the model of the sons of la belle France.

CAPE ISLAND.

For the West Jersey Pioneer. Cape Island, N. J., June 9, 1867. Mr. Editor:—There is an old maxim, applied to the juvenile world, that "children should be seen and not heard," but as the case is the opposite with me, I can't omit to say a few words.

THE MILLVILLE TRAPPER!

GENERAL LEE.

Mr. Swinton, the popular correspondent of the New York Times, who is at present making a tour in Northern Virginia, thus describes an interview with the fallen chieftain of the rebellion:

"Having made a somewhat close study of the campaigns of Gen. Lee, and having followed with interest his movements on the actual field of battle, I had long been desirous of learning by personal sight and converse what manner of man he was.

By the putting off the harness of war, Lee had shed all concern with the war and its thoughts, reminiscences and passions, and is devoting himself exclusively to the study of the history of the war.
