SOMETHING NEW Worthy of All Farmers At-

EXCELSIOR

PHOSPHATE Made Upon Strictly Scien-

tific Principles. 32 This article is entirely different from any other ever phosphate should contain ingredients that would be cheap for wheat, at any given price, it is absurd to think that the same phosphate would be equally cheap, at the same price for another crop, whose constituents are entirely different. It cannot commin ingredients for two articles of an entirely different nature in such proportions as to be equally cheap for one as the other. I am confident that there is a great deal of money thrown away for phosphates of different kinds, from the fact that they do not contain what the desired crop needed; and in many cases the crop would have been better without not all, while if the same article had been used for other crops, of a different inture it would have doubly paid for its cost. I have been carefully experimenting for several years, and any one who will take the trouble to visit my farm, near Elfisburg, N. J., five miles from Camden, where I am constantly experimenting, may see where I produce a growth udon Peace and Pear trees of six feet six inches in one season, and rui apon the same, assailly large and fine while treating the phosphate on them, dained grow one foot in the same time, and produced no fruit stall. I will be a fepaired to turnish, an short notice, a phosphate for any kind of fruit vine or tree truit, and all ordinary plants or crops that are grown in this country, such as wheat, tye, corn, grass, and all kinds of yegenables.

The reader all please hear in mind that in sending orders the article for which it is intended to be used must be mentioned, and kind of soil also if you wish the worth of your money. NEW JERSEY LEGISLATURE. While there has been but little business that s of special value to our section of the state at work upon bills, whose provisions have been needed by the sections from which they came. Among those which come near to us, is the passage of an act incorporating the Auburn Marl Company. This Company owns a large tract of the most valuable mari lands in the state, and a bill has also been introduced which imposes a heavy fine upon any person who vends medicines not compounded by a regular practitioner of medicine. It also imposes a Dany of the nostrums which tend to encourage vice in females, and extends the penalty to all newspapers which may publish such adverisements, and a bill has also been passed for the more effectual organization of the militia. This is something very much needed, as our militia system is notoriously incompetent.

The tax bill has again been postponed, and no one seems to be able to prognosticate its fate, though we believe that it will not pass without important modifications.

Mr. Cobb has introduced a bill which we for girls. This bill, if carried out, will open a wide door for the reformation of girls whose

THE SFIRM MAKE THE MAN. By our National Poet in George Alier Spangler A youth devoid of spirit hold. None of life's beauties to unfold, is like a being channel to earth— To france or self of little worth. Not only to himself a blank, Left with the idle for to rank. The bane of every one lekklew. The boy of downcastlook and hue. Tis mostly caused in beylood's hour, Which in the 1nd, makes spirit cower, Attempts to sway by commer ring-A yam attempt at children's rearing. Or making them go shabby dressed, Spurned by the good you'll find them pressed, While envying other lads well clad, The lost companions of the bad.

The lost companions of the load.
So, it you would advance your sons,
Go rig them out at Henderson's;
Their downeant spirits he'll midfit.
