NUMBER THERE.—Joint Resolution relative to the salary of the late Samuel Fowler, member from the county of Sussex.

1. Be it resolved by the Senate and General Assembly of the State of New Jersey. That the salary of the late Samuel Fowler, who at the time of his decease represented the county of Sussex in the general assembly of New Jersey, which would have a cerued to him had he filled that position during the legislative session, is hereby ordered to be paid to the widow of the said member of the general assembly, and that the treasurer of this state be authorized to pay, upon the warrant of the comptroller, the amount of such salary, as ascertained and determined by the law governing and regulating the pay of members of the legislature. 2. And be it resolved That in addition to the above salary the treasurer of this state be directed to pay to the widow of the said Samuel Fowler the sum of (\$200) two hundred dollars. Approved March 25, 1868.

Number Four.—Joint Resolution withdrawing the consent of this State to the proposed Ameadment to the Constitution of the United States, entitled article fourteen, and rescinding the Joint Resolution approved September eleventh, anno domini eighteen hundred and sixty-six, whereby it was resolved that said proposed appending type ratified by the

een hundred and sixty-six, whereby it was resolved that said proposed amendment was ratified by the legislature of this state.

The legislature of the state of New Jersey having seriously and deliberately considered the present situation of the United States, do declare and make known: That the hasis of all government is the consent of the governed; and all constitutions are contracts between the parties bound thereby; that until any proposition to alter the fundamental law, to which all the states have consented, has beer ratified by such number of the states as by the federal constitution makes it binding upon all, any one that has assented is at liberty to withdraw that assent, and it becomes its duty to do so, when, upon mature consideration, such withdrawal seems to be necessary to the safety and happiness of all; prudence dictates that a consent once given should not be recalled for light and transient causes; but the right is a natural

constitutional right of the state of the first of the searcher of all Hearts for the rectitude of our intentions; and under the conviction that the origin and objects of said proposed amendment were unseemly and unjust, and that the necessary result of its adoption must be the disturbance of the harmony, the destruction, of our system of self-governments. if not the destruction, of our system of self-government and that it is our duty to ourselves and our sister states to expose the same, do further declare:

That it being necessary by the constitution, that every amendment to the same should be proposed by two-thirds of both houses of congress, the authors of said proposition, for the purpose of securing the assent of the requisite majority, determined to, and iid, exclude from the said two houses eighty representatives from eleven states of the union, upon the pretence that there were no such states in the union but, finding that two-thirds of the remainder of said houses 2011 on to be brought to assent to the said proposition, they deliberately formed and carried out the design of mutilating the integrity of the United States senate, and without any pretext or justification other than the possession of the power, without the right, and in palpable violation of the constitution, ejected a member of their own body, representing this state, and thus practically denied to New Jersey its equal suffrage in the senate, and thereby nominally ecured the vote of two-thirds of the said houses. The object of dismembering the highest representative assembly in the nation, and humiliating a state of the union, faithful at all times, to all its obligations, and the object of said amendment were one: to place new and unheard of powers in the lands of a faction, that it might absorb to itself all executive, judicial and legislative power necessary to secure for itself immunity for the unconstitutional acts it had already committed, and those it has since inflicted on a too patient people.

The absequent usurpations of these once national if not the destruction, of our system of self-govern ment and that it is our duty to ourselves and our sis

committed, and those it has since inflicted on a too patient people.

The subsequent usurpations of these once national assemblies, in passing pretended laws for the establishment, in ten states, of martial law, which is nothing but the will of the military commander, and therefore inconsistent with the very nature of all law, for the purpose of reducing to slavery men of their own race in those states, or compelling them, contrary to their own convictions, to exercise the elective franchise in chedience to the dictation of a faction in those: "blies; the attempt to commit to one man arbitrary and uncontrollable power, which they have found necessary to exercise to force the people of those states into compliance with their will; the authority given to the secretary of war, to use the name of the president, to countermand the president's orof the president, to countermand the president's or-ders, and to certify military orders to be "by the direcders, and to certify military orders to be "by the direction of the president," when they are notoriously known to be contrary to the president's direction, thus keeping up the forms of the constitution to which the people are accustomed, but practically deposing the president from his office of commander-in-chief, and suppressing one of the great departments of the government, that of the executive: the attempt to withdraw from the supreme judicial tribunal of the nation, the jurisdiction to examine and decide upon the conformity of their pretended laws to the constitution, which was the chief furction of that august tribunal, as organized by the fathers of the republic all are but amplified explanations of the power they hoped to acquire by the adoption of the

the republic; all are but amplified explanations of the said amendment.

To conceal from the people the immense alterations of the fundamental law they intended to accomplish by the said amendment they gilded the same with propositions of justice, drawn from the state constitutions; but like all the essays of unlawful power to commend its designs to popular favor it is marked by the most absurd and incoherent provisions.

It proposes to make it a part of the constitution of the United States, that naturalized citizens of the United States shall be citizens of the United States; as if that were not so, without such absurd declara-It lodges with the legislative branch of the government the power of pardon, which properly belongs, by our system, to the executive.

It denounces, and inflicts punishment for past offences, by constitutional provision, and thus would make the whole people of this great nation, in their most solemn and sovereign act, guilty of violating a cardinal principle of American liberty; that no punishment can be inflicted for any offence, unless it is provided by law before the commission of the offence. It usurps the power of punishment, which, in any coherent system of government; belongs to the judiciary, and commits it to the people in their sovereign capacity.

capacity.

It degrades the nation, by proclaiming to the world that no confidence can be placed in its honesty or morality.

It appeals to the fears of the public creditors by publishing a libel on the American people, and fixing it forever in the national constitution, as a stigma upon the present generation, that there must be constitutional guards against a repudiation of the public debt; as if it were possible that a people who were so corrupt as to disregard such an obligation would be bound by any contract, constitutional or otherwise.

It imposes new prohibitions upon the power of the state to pass laws, and interdicts the execution of such parts of the common law as the national judiciary may esteem inconsistent with the vague provisions of the said amendment, made vague for the purpose of facilitating encroachments upon the lives, liberties and property of the people.

It enlarges the judicial power of the United States so as to bring every law passed by the state, and every principle of the common law, relating to life, liberty, or property within the jurisdiction of the federal tribunals, and charges those tribunals with duties, to the due performance of which they, from their nature and organization, and their distance from the people, are unequal. nature and organization, and their distance from the people, are unequal.

It makes a new apportionment of representation, in the national councils, for no other reason than thereof to secure to a faction a sufficient number of the voces of a servile and ignorant race to outweigh the intelligent voices of their own.

It sets up a standard of suffrage dependent entirely upon citizenship, inajority, inhabitancy and man hood, and any interference whatever by the state imposing any other reasonable qualifications, as it me of inhabitancy, causes a reduction of the state's representation.

epresentation.

But the demand of the supporters of this amendment in this state, that concress should compet the people of New Jersey to adopt what is called "impar-ial suffrage," makes it apparent that this section was tial suffrage," makes it apparent that this section was intended to transfer to congress the whole control of the right of suffrage in the state, and to deprive the state of a free representation by destroying the power of regulating suffrage within its own limits, a power which they have never been willing to surrender to the general government, and which was reserved to the states as the fundamental principle on which the constitution itself was constructed, the principle of self-government.

This section, as well as all others of the amendment, is couched in ambiguous, vague and obscure language, the uniform resort of those who seek to encroach upon public liberty; strictly construed it dispesses entirely with a house of representatives, unless the states shall abrogate every qualification, and es-

It is true at ciple of union, and it is hardly a wild prediction now to say that in less than half a century the Anglo Saxon language all over the which in many cases is not only used, but, world will be united under one government .-Nowhere is this principle more apparent than in the late centralization of the churches .-Years ago, the Methodist Episcopal Church separated the colored portion of her members, lars, would rent in New York annually for and formed them into a distinct organization. At the last session of its general conference, propositions for a re-union were formally leaving, rents and properties are much lower made to the conference, and a committee appointed to prepare a plan. Numerous small bodies, assuming different names, left at different times her communion, because they would not tolerate a church that tolerated slavery, but in the last two years a large portion of them have come back, and proposals are seriously considered by both parties, in reference to the rest of them. The Methodist Protestant Church drew off from the main body, principally upon the question of Lay Delegation, but as that is now likely to be admitted as a part of the working economy of the Church, the leading papers of that organization talk openly of a union. At the late session of the general conference to which we have alluded, a number of clergymen of the Protestant Episcopal Church, who affiliated with the sentiments of Dr. Tyng, made formal proposals for a basis of union with the Methodist Episcopal Church. In the Southern Methodist Episcopal Church, steps are already taken to absorb the colored people, so far as they uffiliate with Southern sentiment into their own church organization, and when once the bitterness of the war feeling is over, and loyalty to the government is the prevailing motto of the nation, we can see no reason why the Northern and Southern divisions of that church, who are now different in no one sentiment of doctrine, and scarcely so in any point of practice, should not naturally come together again. The old and new School branches of the Presbyterian Church have lately taken steps which make their re-union

This basis accepts the old ecclesiastical stanheretofore, to the feeling of particular churches and ministers. All the ministers and churches of both bodies hold the same standing. Churches that are wrongly organized are to change their constitutions. No churches except those that are thoroughly Presbyterian are hereafter to be received—the boundaries of the synods and Presbyteries are to be adjusted by the general assembly-no rule is to be of any authoriy until re-established, corporate rights are to be consolidated, as also the permanent committees and Boards, the publictions are to be revised, so as to exclude all offensive ideas growing out of the separation, the different theological seminaries are to be transferred to the care of the adjacent synods, and all their people are urged to avoid all offensive references to the causes which in the past divided them.

almost a matter of certainty. The basis has

been prepared and agreed upon by the gener-

left to do is its ratification by the Presbyter-

meetings.

We have no doubt but that the union will be effected, and believe also that with this union, the entire Presbyterian church, whose past record is one whose influence for good can hardly be over-estimated, will be a yet greater instrument of power in the morals and religion of the country, than even in the glorious record of the past.

## COMMISSIONER ROLLINS.

Quite a sharp correspondence has taken place between Internal Commissioner Rollins and Mr. McCuiloch, Secretary of the Treasury. Mr. Rollins sent in a letter of resignation, basing it on the ground that ever since the Johnson Convention in Philadelphia, which fizzled out so funnily, many bad and incompetent men have been appointed to the various offices in the department, either without consulting the commissioner or even his protest. and that in no case has his opinions as to the fitness of men been regarded. He further states that the enormous frauds by which the income of the government has been so largely reduced, are attributable to this plan of appointing, and also that the heads of affairs in Washington are perfectly cognizant of the fact and yet continue it. He adds that he has only continued in office at the urgent request of leading men in the country in the hope that some evil at least might be thus prevented .-That now all such hope is gone, and he cannot be considered as consenting any longer to the wholesale robbery of government which is practiced by the government officials. Mr. McCulloch returned the letter with the general remark that it was disrespectful to the President and that the letter was untrue. Mr. Rollins replied that it was true and defied the Secretary to show a single point in which it was false, and told him plainly that unless he did so it would be plain that other reasons than the one given dictated the return of the

MINISTER TO ENGLAND. Hon. Reverdy Johnson has been nominated by the President and confirmed by the Senate as minister to England in the place of Mr. Charles Francis Adams. The President first nominated Gen. McClellan, but the Senate promptly rejected it, having apparently no more confidence in him now than during the war. The confirmation of Reverdy Johnson by the Senate shows how a personal character of undoubted honor tells even upon political opponents. Senator Johnson was in opposition to most of the views of the present congress, but his record was that of a man governed by the highest principles of probity and honor. When his name was presented to the Senate they at once confirmed him, and it is no mean compliment to the present Congress that they sunk all political predilections in favor of a man who in himself was well qualified to discharge the duties of the position.

## WHEAT.

So far as we are able to judge, the prospects for a splendid crop of wheat, in this section, were never better than now. It was feared that the late storm would damage it seriously, but there is very little of it down, and what has fallen is righting itself again. There is no rust, and the heading is apparently of the most perfect character. A few days more of the delightful weather of the last week, and the crop will be both assured and plentiful.

The Vineland people have passed a town as beautiful as possible. Quite a num-ber of sober, respectable emigrants from England are settling there now in preference to the West. As most of these people are practical gardeners, their presence among us in that desirable locality will be fully welcomed. We can see no reason why a person with a little capital should go West when the unoccupied lands of our state would certainly pay them as well for cultivation, if not indeed a great deal better. We are always glad to receive such a class of persons into our state, and hope that they will only be the advance of a numerous population of the same kind.

In Bridgeton the number of houses papered and painted by Scull & Sons are almost countless. Many of our largest and most costly private residences have been beautified by this enterprising firm, and they have had the contracts for papering and painting a goodly portion of the public buildings and other important places in this city. It is almost impossible for any one to be in business so many years as has Mr. Soull, without having fault years as has Mr. Scull, without having fault ruptcy. ## DEMOCRATIC DELEGATES.

The Democratic convention for the appointnent of delegates to the national convention o be held in New York in July, was held in Trenton, on Wednesday of last week. Hon. W. H. Alexander was chosen President, and after some discussion a class of resolutions in which devotion to the Constitution and the right of the states to settle the question of suffrage was asserted, the Republican party and Congress denounced; all forms of repudiation of the national debt repudiated; the administration of Ex-governor Parker approved, and the Ex-governor recommended as a proper Presi-Wortendyke, of Hudson, Richard F. As we journey on through life

Cedarville, New Jersey, on the 15th of May DAVID HARRIS, in the 65th year of his age.
For nearly half a century, Mr. Harris was a consistent and happy believer in Jesus. The child of many prayers, and the subject of careini religious training, prayers, and the subject of careful religious training, it was his blessed privilege to become a partaker of divine grace in his early years. Devoting himself with an earnest zeal to every good work, and delighting in the means of grace, he grewing a strong, steadast, lively and useful christian. The Sabbath School work tound in him a joyful and fauthful laborer. It enlisted the warm sympathies of his loving heart, and the glowing energies of his earlier and later years. We cannot recall his fidelity and love in this work—a fidelity and love which carried him to his class as long as his waning strength, would permit—without the glowing energies of his earlier and later years we cannot recall his fidelity and love in this work—a fidelity and love which carried him to his class as long as his waning strength would permit—without the most delightual and thrilling emotions. It was his great love to Jesus and to Jesus' work which made him remain, like a soldier at his post, faithful unto the end—weak in body. but patient and happy in spirit. For nearly thirty years he was a Ruling Eider in the First Presbyterian church, of Cedarville and one most highly esteemed for his practical wisdom; his hearity co-operation in the cause of chiritan beneticence, 2a well as in everything pertaining to the interests of the church, and for his thorough acquaintance with the measures of church government. These traits of character; together with his clear and decided convictions as to the path of duty, and his desire to promote the glory of God, made him a useful and valued member of the session.—

s urged upon the attention and trial of sufferers Is urged upon the attention and trial of sufferers from this most horrible of all diseases. Dyspepsia shows its ravages in a thousand different forms, in fact, all disorders of the Stomach and Bowels, with all their complaints such as Sick Headache, Heathburn, Depression, general sense of uneasiness and feeling that you are not well. Food distresses you, rises and sours on your stomach; breath is tad; skin at times flushed and hot; don't feel as if you could move or -tir about, and worst of all, Indigestion or Costipation, are nothing more or less than Dyspepsia. Thousands and thousands suffer and die this way, and neither themselves or physicians know what alls them except that they are surely dying. lying. Reader, we-repeat it, this is all Dyspepsia. If you would have proof of our statement, if you would say would have proof of our statement, if you would save yourselves and children from an early grave, if you would have health and energy and strength, again we beg you try one bottle of

COE'S DYSPEPSIA CURE. You will see how soon it will dispel your bad feel ings and gloomy foreboting. How soon it will chase away any species of Dyspepsia. How soon it will give you new life and vigor, and how soon it will make a well man or woman of you. For your own sake, for the sake of everybody suffering, we beg, we entrest you to try it.

For Liver Complaint and Bilious Derangements, It is a sovereign remedy, while for Fever and Ague, and all those diseases which are generated in miasmatte climate, it is a certain preventive and cure. That its wonderful medicinal virtues may not standalone upon our statement, we append a few unsolicited testimonials from those whose position in society and reputation as citizens will place their evidence beyond all question, and carry with them strength and conviction to the most incredulous.

Both myself and wife have used Coe's Dyspepsia
Cure, and it has proved perfectly satisfactory as a
remedy. I have no hesitation in saying that we have
received great benefit from its use.

Very respectfully,

Messes. Strong & Armstrong,
Gentlemen—It gives me great pleasure to state
that my wife has derived great benefit from the use
of Coe's Dyspepsia Cure. She has been for a number of years greatly troubled with Dyspepsia, accompanied with violent paroxysms of constipation
which so prostrated her that she was all the while,
for months, unable to do anything. She took, at
your instance, Coe's Dyspepsia Cure, and has derived
great benefit from it, and is now comparatively weil.
She regards this medicine as a great blessing.

Truly yours,

L. F. WARD.

GENTS:—Being anxious, from the great benefits derived, to assist in spreading the fame of Coe's Dyspepsia Cure, I would state my case. Something over a year ago, I had a violent attack of Diarrhoa, which lasted eight weeks, during which time I employed three physicians, but without relief, until I tried Coe's Dyspepsia Cure. The first dose helped me: I took it three times a day for a week and was entirely cured; and I believe to-day that it saved my life. Being attacked in a similar way this season, I took one dose, which put me all right. I would advise every family to keep it on hand ready for immediate use, in case of Summer or Bowel Complaints

Sir:—I take great pleasure in stating that, after having suffered from dyspepsia for about fifteen years, at some periods much more than others, I have been entirely cured by the use of Coe's Dyspepsis. Cure. My friends know that of late years my case has been an extreme one. I had great suffering from eating any kind of food, and on an average would vomit about one third of my meals, in a sour indigestible mass. When the severe attacks would come, I would lose all strength and be utterly help-less. Some of the attacks would be so severe that for days together I would not retain anything on my less. Some of the attacks would be so severe that for days together I would not retain anything on mystomach, save a little dry toast and tea. For years I knew not what it was to pass five consecutive hours without intense pain. From the time I took the first dose of this medicine I ceased vomiting; graiually all soreness passed away, and flesh and strength returned, and ever since I have been able to eat any kind of food set upon the table. Six months have now passed without any symptoms of the return of the disease. My case was considered by all, even physicians so marvelous, that for a time it was feared it might be fictitious; but I am now so well convinced, that I have been not merely reheved but permanently cured, that I can conscientiously recommend Coe's Dyspepsia Cure to all victims of dyspepsia. By using Tomlinson & Co's (Lincoln England) Celebrated Sutter Powder. By the use of this inexpensive Powder, churning of hours is reduced to minutes, and is applicable to the making of Butter at all seasons of the year. A small quantity added to the milk or cream at the time of churning will produce Butter in much less time, in larger quantity, and of a superior quality, lavor and consistency. It removes the unpleasant flavor caused by the cowsfeeding on turnips, garlic, weeds, &c.: and prevents all rancidity peculiar to butter; also makes it firmer and sweeter even in the hottest weather.

This Powder, now being introduced into this country, has long been in use throughout Europe and the Canadas, and Butter made with it has invariably taken the prize at all Agricultural Shows whenever exhibited. AMMONIATED PHOSPHATE. UNSURPASSED FOR ALL KINDS OF CROPS QUALITY WARRANTED UNIFORM. JARRETTOWN, MONTGOMERY COUNTY, PA., Near Fort Washington, N. P. R. R. 9th Month 15th 1867.

The above goods are being sold Lower than in the Philadelphia Market.

BUY EARLY.

To William Ellis, Philadelphia:

RESPECTED FRIEND:—I have used Ellis' Fertilizer, Ammoniated Phosphate, on several crops this season and upon all with satisfaction. I consider my use of it as establishing in my own mind its superiority.

ON CORN.—I found its effect on this crop better than good compost, and nearly as good as manure and compost together side by side. On the ground where the Fertilizer was used there was no manure.

ON POTATOES.—I found it better than any other Fertilizer used, not excepting barnyard manure. I had larger and finer potatoes, and more of them.

ON GRASS.—For top-dressing grass I used No. 1 Peruvian Guano and Ellis' Fertilizer side by side, at the rate of 300 ibs. each to the acre, and I think that the grass was quite as good, if not better, where the latter was put.

ON STRAWBERRIES.—There was no other manure used, and a finer crop I never saw. They

manure used, and a finer crop I never saw. They were of the Agriculturist variety. I think some hills had near 200 berries on, some of which measured from 5 to 5½ inches in circumference, the largest ay round.
FOR CABBAGE.—I consider it better for this crop ton tabbage.—I consider to better for this crop than barnyard manure, having tried it this summer I can recommend it as cheaper, its cost per acre being something less than half that of barnyard manure. I am using it on wheat this fall, and recommending it to my neighbors. R. C. SHOEMAKER.

August 1st, 1867.
To Mr. William Ellis.

Dear Sir—I have used your "Ammoniated Phosphate" the present season, on Grass, Corn, and Potatoes, with marked success, and can recommend it to the public as a cheap and valuable Fertilizer. On Peach Trees, I found it equally successful, preventing the grub from attacking the tree.

GOOD NEWS! NEW GOODS

MORE OF THEM! The Fall campaign having now fully commenced CLOTHING CHEAP. and having made our selections from some of the choicest Goods that the Philadelphia markets afford we are now read to offer them to our trade at a very LOW FIGURE.

Our Cloth's and Cassimers are very good, and we have good workmen that can mrke them up RIGHT. Our stock of Furnishing Goods is also very large, and consists of Fine Shirts, Under Shirts, Dravers. Collars, Neck Ties, Stockings, Gloves, Suspenders, Fancy Overshirts, White and Dark Undershirts, Knit Jackets, Double and single Light and Grown Collars, and a line of Farniseing

Goods that will suit the people generally. Our stoc Ready-Made Clothing is also very good, and mostly of our own Manufa ture, and we will sell them very cheap, as we do not intend to be undersold this Fall, either by dew or Gentile, so come along with your greenbacks, and get the worth of your money at the old established

I sing "The Singer," the best in the land, The pride of all iouseholds—useful and grand, 'Tis the friend of the poor man, and saught by the Rich. Because it relieves them of many a stitch. I sing of "The Singer," in beauty and grace It bears off the pain, and holds the first place; It is simple in movement, uncrying though swift, And what is e sen ial, it is easy to fitt. It does hemming and braiding, will cord, tuck and

Rind. In fact it does all things, to suit every mind, You can work in the finest of fabrics with case, And then on materials as course as you please, If the proof of the pudding, in enting consists, Then ive men trial, examine my lists, I ask but the trial, I know the result. You'll never again, other agent consult. There are other machines, very good it is true, That advertise freely, saying what they will do, We do not dispute they will do what they say, But we hold that run strong is better than they.
