The leaves are loosening from the trees, And gently down are tumbling; We hear the chilly autumn breeze,

Amid the forest rumbling; The shivery equinoctial storm, Like distant thunder's mumbling, And folks who like to have it warm, Because of cold are grumbling.

The leaves that linger on the trees Are twining red and yellow, The peak and apples, if you please, Are getting ripe and mellow. We sing our pleasant autumn tunes, Of frost, and of umbrellas,

Of autumn Coats and Pantaloons, To comfort clever fellows. The leaves while gently tumbling down Fall lessons calmly teaching, Just tell us, when we go to town, (It's just "as true as preaching,")

TALKS WITH WOMEN. BY JENNIE JUNE.

MARRIAGE AS A PARTNERSHIP. place within the past few years, the loss of men by the war, the increased cost of living, the rapid growth of luxury, and the necessities resulting from the crowded state of the great cities, have contributed to a very material alteration in the social condition of the women of this country, and to the advancement of many theories calculated to relieve men of the burden

of exclusive maintenance, and charge it partly upon women. This idea is repugnant to the generous and chivalric tone of the American character, but is beginning to find currency from the pressure of the times, the admiration felt for English literature and English ideas, and the controlling influence which the presence of a great foreign element of less liberal habits and opinions

exerts among us. America has heretofore, and to some extent truly, been called the "paradise" of women. Here they have generally received not only courteous and considerate treatment, but a certain deferential homage, all the more graceful on the part of those who paid it, because it was a tribute to weaknes, instead of being exacted by

FROM GERMANY, in 1835. HOOFLAND'S GERMAN BITTERS. HOOFLAND'S GERMAN TONIC, PREPARED BY DR. C. M. JACKSON,

PHILADELPHIA, PA.

The greatest known remedies for Liver Complaint, DYSPEPSIA, Nervous Debility, JAUNDICE, Diseases of the Kidneys, ERUPTIONS of the SKIN, and all Diseases arising from a Disordered Liver, Stomach, or

IMPURITY OF THE BLOOD.

Read the following symptoms, and if you find that your system is affected by any of them, you may rest assured that disease has commenced its attack on the most important organs of your body, and unless soom checked by the use of powerful remedies, a miscrable life, soon terminating in death, will be the result.

Constipation, Flatulence, Inward Piles, Fulness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations, Sinking of Fluttering at the Pit of the Stomach, Swimming of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suifocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the Sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and Great Depression of Spirits.

All these indicate disease of the Liver or Digestive Organs, combined with impure blood.

Goofland's German Bitters

is entirely vegetable, and contains no liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made are gathered in Germany. All the medicinal virtues are extracted from them by a scientific chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable. Goofland's German Conic is a combination of all the ingredients of the Bitters, with vow. Sania Crux Rom, Orange, etc. It is used for the same diseases as the Bitters, in eases where some pure abcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoclions of rum in some form. The TONIC is decidedly one of the most pleasant and agreeable remedies ever oftered to the public. Its taste is equisible. It is a pleasure to take it, while its life-giving, exhibavating, and medicinal qualities have caused it to be known as the greatest of all tonics.

CONSUMPTION. Thousands of cases, when the patient supposed he was afflicted with this terrible disease, have been cured by the use of these remedies. Extreme emaciation, debility, and cough are the usual attendants upon severe cases of dyspepsia or disease of the digestive organs. Even in cases of genuine Consumption, these remedies will be found of the greatest benefit, strengthening and invigorating

There is no medicine equal to Hoofland's German Bitters or Tomic in bases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause an enjoyment of the food, enable the stomach to digest it, purify the bhood, give a good sound, healthy complexion, eracticate the yellow tinge from the eye, impart a bloom to the checks, and change the patient from a short-breathed, enactated, weak and nervous invalid, to a full-fuced, stout, and vigor Weak and Delicate Children

Ladies who wish a fair skin and good complexion, free from a yellowish tinge and all other disfigurement, should use these remedies occasionally. The Liver in perfect order, and the blood pure, will result in sparkling eyes and blooming cheeks.

Thousands of letters have been received, testifying to the virtue of these remedies. READ THE RECOMMENDATIONS. FROM HON. GEO W. WOODWARD. Chief Justice of the Supreme Court of Pennsylvania PHILADELPHIA, MARCH 16th, 1887.

PHILADELPHIA, APRIL 28th, 1866. I consider "Hoofand's German Bit-ters" a valuable medicine in case of at-tacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect, JAMES THOMPSON.

TORCH LIGHT PROCESSIONS. Latterly, the sages of the respective contestants for political honor and power, have hit upon the plan of illuminating the dull perceptions of their opponents as to what is political truth, by the flaming flare of long lines of waving torches. Years ago, intellectual illumination was accomplished through intellectual processes of speeches and dissertations and discussions, both printed and written, but now even a speech fails of its intended effect, except it be delivered under the inspiration of petroleum, and even then petroleum attracts more attention than the speech. Possibly there may be a philosophy in all this, for it may be that the questions of political economy in which we are half inclined to believe, will brighten into positiveness under the brilliance of the torches, or at least a fuller perception will be gathered of the merits of the respective candidates from the mottoes connected with their names, which stand out in the most vivid or behind. Some of these transparencies are ter of a candidate, others thrill with the line rage upon national fame receives its allusion. In themselves these torch light processions are in the night time upon the sensitive nerves day, the excitement attending their demonides, but their numbers and spirit give toler respective claims to the official representation of the people of the country. The dresses, too, are almost always suggestive. Capes, caps, and variegated apparel, all connect with some dominant idea of the party, and probably do more to enforce that idea upon the impressible feelings of the younger voters, than would an hour's lucid explanation by the most accomplished casuist. We cannot exactly explain it, but the fact is

none the less certain that there is an immense amount of enthusiasm generated by long lines of light, when that light is connected with a cause in which we feel an interest. Almost every one is sensible of the magnetic difference of feeling in a religious congregation in a dim room and a brilliantly lighted one, and the same fact is as true in politics as it is in religion. It is a little amusing to listen to the cries of hard times and starvation which come from the mouths of our politicians, and at the same time see the immerse amounts they spend just in this one way for political success. Still, so far as that successs is concernthough whether in all cases the success is worth the cost, is another question which it

might be more difficult to answer. Our good people of Bridgeton bave been intilities began. Besides those which we here brilliant affair, and was probably the largest together here. First there was the "Grant New Jersey has reason to feel so proud, numbering seventy-five men, and the Grant and by right divine, may be tumbled from their Colfax Guards, numbering one hundred, and thrones. Twenty years will probably witness the procession was brought up in the rear by a complete overturn in the entire mode by fifty of the young Grant Zouaves, probably which Europe is at present governed not quite old enough to vote, apparelled in a very neat Zouave uniform, making the whole number about five hundred. There were several bands of music, who all did credit to tories, and very few of the offensive slurs that occasions. A ranner which would have commanded admiration for its beauty anywhere, had been prepared by Republican Bridgeton ladies, and was presented to the Boys in Blue" in their behalf, in his own graceful from Millville, one hundred and fifty from Vineland, eighty in the Clayton company, beilluminated, which gave the town a brillian, and beautiful appearance. While the procession was moving through the streets, Hon. A. G. Cattell, our U. S. Senator, was delivering way. The speech was one in which the and gentlemanly manner, and yet with a pleas ant humor, that, while it offended nobody, kept the crowd in a state of genial hilarity .--The "Buckeye Blacksmith" also talked from the same place, and judging from the rapidly ing, the procession filed into Grosscup's Hall,

pared, and more than that, they succumbed thoroughly to the temptation. It is to be lamented that when the excursion train was moving out of the depot, on its return to Millville, a band of ruffians armed with stones and brickbats, who had been hidden in the woodsheds of the depot, made an attack upon the train, smashing the glass and wounding several persons. One man from Clayton was severely injured in the head, and others in different parts of the person. A more cowardly outrage it would be difficult to con ceive, and it is with feelings of shame that we record its occurrence in Bridgeton. The disgraceful occurrence is condemned alike by both Democrats and Republicans, and we believe that both parties would be equally glad to assist in bringing the scoundrels to justice. We often feel sontiments of pity when a law breaker receives a sentence to the State prison, but we confess that it would be beyond our

and one from Deerfield marched next in succession, then the Millville band at the head of one hundred and fifty men from Millville, and the cortege was closed, as in the case of the other procession, with a company of young zouaves. The number in the procession was estimated at eight hundred. These figures on ooth sides have been carefully gathered by us, for each procession, from authorative sources in each of the parties, and are likely to be as nearly correct as any that may be given. The Democrats claimed a larger number of cavalry, and the Republicans a fuller representation of nfantry, in which both are probably correct. In the Democratic procession there were the usual transparencies and mottoes, two wagons filled with young ladies was largely cheered, and the houses of their adherents were illuminated, as were those of their opponents on Thursday evening.

SPAIN. The revolution in this country, to which we the eyes of the royalties of Europe, appeared to be sleeping as quietly as Vesuvius a month with a power that destroyed the existing order of things altogether. For more than a century past, Spain has been so quiescent under what appeared to be voluntary chains, that the hopeless degredation of both her national distinctness upon the transparencies and ban- and private character was accepted as a settled ners, as they are lit up with extra oil within fact, and she assumed a level in their estimation somewhere between the African and the intensely interesting, as they suggest some Frenchman. The princely rulers were always ridiculous or unfortunate phase of the character of the most infamous character, and even Napoleon Bonaparte, when placing princes of or two which identifies the man with a nation's his own family upon the thrones of Europe fame, and others excite the soul, as some out gave the most imbecile and worthless of his family, the thict Joseph, as a ruler good enough for Spain. So licencious has been exciting from the very fact of the lights glare | the character of her royal family, that for generations past, there has not been an occupant of the optics, and when connected as they are of the throne whose legitimacy was not doubtwith the political issues and contests of the ed, and in some cases more than doubted. The prime minister not only governed the kingdom stration is extreme. They then become not over the will of one effete prince, but generonly a procession in honor of some particular ally occupied that position as a paramour of the Queen. The present Queen is no excepably fair indications of what may be expected tion to the usual royal morals, and her lapses on the day when the elections shall decide the | have been both open and shameless. But as the Spaniards did not seem to care about the matter, nobody else thought it of much consequence, and so Queen Isabella was supposed to enjoy the probabilities of a long and peaceful reign. Under all this outward apathy, however, the Spanish heart was seething under its sense of disgrace, and in the practice of their habitual silence were preparing the way for a revolution which should be effectual when once it came. The country was sadly

misgoverned, and the patriots did little to attempt its correction, and so the world was dewere struck with such efficiency as to make the revolution nearly bloodless. The whole face of the government was changed as if by magic. The Queen was deposed and banished from the kingdom, with a corporal's guard of and the leaders at once favored a provisional junta for the organization of a permanent government. These leaders favored a limited monarchy, but the revolutionary ideas had ed, we do not deem the money unwisely spent, some kind of Republic would satisfy the asment is accordingly being formed. Already the most formidable obstacle to this, which was found in the community of the Jesuits dulging themselves quite largely in this luxury has been put out of the way, by the suppres since the vigorous prosecution of political hos- sion of the order, and a plan for perfect religious toleration is being perfected. The tofore have chronicled, the Republicans had American minister, Mr. Hale, was the first to one last Thursday evening which was really a recognize the new order of things, as it was fitting that he should, and there seems from which up to that time had ever been gathered | this to be but litle doubt that the new government is permanent. CAMDEN & AMBOY. The Camden & Amboy Railroad Co. are rapidly completing their arrangements of their through line from New York to Washington. These arrangements are of the most perfect and elegant character, and seem to reach the acme of Railroad comfort, speed and safety. Through conductors are appointed who accompany the train from New York to Washington. Reserved seats are provided for passengers who go through. New cars of the most finished models are replacing the ones formerly in use. Those first class sleeping cars on the "Silver palace" model are connected with the train. A drawing room car for the exclusive use of families is also to accompany it. The cars are to be heated by a process which dispenses with stoves; the system of ventilation is so arranged as to carry off the dust and at the same time introduce a current of fresh air.

The Company appear to be determined to prevent all competition by making their arrangements so perfect as make competition mpossible. IMPORTANT TO FARMERS.—It finfimportant fo farmers to know what really constitutes a good manure. It should contain all the elements of plant food in a condition in which they may be readily assimilated by growing crops. It should, moreover, have these elements adjusted in proper proportions, so that neither the one nor the other should preponderate. If the forcing power predominares, exhaustion of the soil follows as a matter of course. This is exemplified in the continued use of Foruvian Guano If the seed forming power is in too large proportion, plants cannot readily appropriate it, owing to the absence of the healthy stimulation necessary to enable them to assimilate and digest such elements as are indispensable to promote a vigorous growth.

In WHANN'S RAW BONE SUPER-PHOSPHATE these essential elements of fertility are so adjusted as to insure a healthy development of crops. Years of constant use have demonstrated the truth of this assertion. Every season adds to the reputation of this Great Fertilizer, and the best evidence of itry value is the fact that every succeeding year its sales largely increase. Farmers who are in doubt as to what manure is the best, are solicited to give it a trial. Send for pamphlet.

This long tried and popular Remedy is again called to the attention of the public. As often as the year rolls around, the proprietors annually make their bow to the people, and remind them that amongst the many things required for the health, comfort and sustenance of the family, through the long and tedious months of winter, Coe's Cough Balsam should not be forgotten. For years it has been a household medicine—and mothers anxious for the safety of their children, and all who suffer from any disease of the throat, chest and lungs, cannot afford to be without it. In addition to the ordinary four ounce so long in market, we now furnish our mammoth family size bottles, which will, in common with the other size, be found at all Drug Stores. Cultivated and For Sale by JOHN S. BARNES, CLOVERDALE NURSERIES Near Woodstown, New Jersey. Standard Apples, 15 cents each; \$12 per hundred. Standard Peaches, 10 cents each; \$9 per hundred Standard Pears, 60 cents each. Dwarf Pears, 46 cents each. Cherries, 50 cents each. Plums, 75 cents each. Apricots, 40 cents each. Quinces, 50 ceats each. Wilson's Early Blackberry Plants, \$2 50 per doz., 15 per 100.

FOR CROUP. The Balsam will be found invaluable, and may always be relied upon in the most extreme cases.

GOE'S COUGH BALSAM!

WHOOPING COUGH.

The testimony of all who have used it for this errible disease during the last ten years, is, that it uvariably relieves and cures it.

SORE THROAT.

Keep your throat wet with the Balsam—taking ittle and often—and you will very soon find relief.

HARD COLDS AND COUGHS

Yield at once to a steady use of this great remedy. It will succeed in giving relief where all other remedies have failed.

SORENESS OF THE THROAT, CHEST AND LUNGS.

Do not delay procuring and immedialely taking Coe's Cough Balsam, when troubled with any of the above named difficulties. They are all premonitory symptoms of Consumption, and if not arrested, will sooner or later sweep you away into the valley shadows from which none can ever return.

Many a care-worn sufferer has found relief and to-day rejoices that her life has been made easy and prolonged by the use of Coe's Cough Balsam.

IN CONSUMPTION.

The subscriber would take this opportunity to return his sincere thanks for the liberal patronage bestowed upon him in the past. The flattering success which has attended his constant efforts to meet the wishes of his patrons, has induced him to erect a beautiful and capacious Store and Factory, on Commerce Street, next to the Fire Insurance Company, to meet the requirements of his extended business; to be known as Bisho/'s Excelsior Saddle & Harness Store. Desiring to measure up fully to the expectations of the people, he has associated his son with him in the business, who is a practical workman, hoping by strict attendance to business to merit and secure a liberal share of custom from a discriminating public. IN SHORT.

The people know the article, and it needs no comment from us. It is for sale by every Druggist and Dealer in Medicines in the United States

ceived by Mr. Browning. Scores of others testifying to the superiority of this phosphate might be given if necessary.

Bridgeville, Del. June 2d, 1868.

Mr. Grogae L. Browning.

Dear Sir:—The phosphate I bought of you last fall for wheat, has exceeded my highest expectation.— upon it for fifteen years, beside it has had corn upon it for fifteen years, beside it has had corn upon it almost every year, and it is what we term land worn out, and also the wheat was sewn last October 24th and 25th.

Persons living here all their days say they never thought wheat would have grown so handsomely with such a small quantity of super phosphate as 200 days of his life, (and his father an old citizen who is Baughs', Rhoads', Wahnns' and other fertilizers,) put the grain in for me, and he says he never used and your super phosphate act better nor produce what your super phosphate act better nor produce what who has known this farm for 40 years, informed me that without the phosphate I would not have had grain more than six to eight inches high, now it is three feet high, and all out in head. As for garden truck, I would not be without it at five times the price. I have used what little I had left over from iast fall, and the barrel has been opened all winter; and it is romarked every day by a gentleman here, that he never saw things grow so rapid; I never did in my life, and all owing to the phosphate. My daughter plauted cumber seed last Friday evening, May 29th, and this morning, June 3d. all were up so much for your phosphate opened ever since last October. I would sooner do without almost anything than farm without phosphate.

Respectfully Yours.
