DB. Jackson—Dear Sir. — I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofand's German Bitters, I depart for none from my usual course, to express my full conviction that for general debility of the system, and especially for liver Complaint, it is a safe and valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes.

Yours, very respectfully,

is entirely vegetable, and contains no liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made are gathered in Germany. All the medicinal virtues are extracted from them by a scientific chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stfinulants are not advisable.

is a combination of all the ingredients of the Bitters, with Punk Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in cases where some pure alcoholic stimulus is reguired. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the disease named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The TONIC is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its hife-giving, exhibitating, and medicinal qualities have caused it to be known as the greatest of all tonics.

There is no medicine equal to Hoofland's German Bilters or Tonic in cases of Debility. They import a tone and vigor to the vehole system, strengthen the appetite, cause an injoyment of the food, enable the stomach to digest it, purify the blood, give a good, sound, healthy complexion, enabled the yellow ting from the eye, impart a bloom to the chests, and change the patient from a short-breathed, emaciated, weak and nervous invalid, to a full-fueed, stout, and vigor our person.

THE MANUFACTURER, GEORGE L. BROWNING, No. 20 Market Street, Camden, N. J. The following is a copy of an orginized letter re-ceived by Mr. Browning. Scores of others testifying to the superiority of this phosphate might be given Bridgeville, Del. June 2d, 1868. MR. Gronge L. Browning,
Dear Sir:—The phosphate I bought of you last fall for wheat, has exceeded my highest expectation.—The ground that it was put upon has had no manure man it for fifteen years, beside it has had corn upon

trainest every year, and it is what we term land worn out, and also the wheat was sown last October 24th and 25th.

Persons living here all their days say they never thought wheat would have grown so handsomely with such a small quantity of super phosphate as 200 lbs. to the acre. A gentleman living here all the days of his life, (and his father an old citizen who is a farmer of 600 acres, having used Moro Philips', Coes', Baughs', Rhoads', Wahnus' and other fertilizers, put the grain in for me, and he says he never used and saw super phosphate act better nor produce what your super phosphate has done. An old citizen who has known this farm for 40 years, informed me that without the phosphate I would not have had grain more than six to eight inches high, now it is three feet high, and all out in head. As for garden truck, I would not be without it at five times the price. I have used what little I had left over from last fall, and the barrel has been opened all winter; price. We think that complaints of this kind arise from not understanding the true character of the journal which we print. We have never professed to be a neutral journal. We do not now profess to be a neutral journal, nor do we ever expect to become a neutral journal. We have opinions, and decided ones, upon all the great questions that agitate the political world, and expect in corteous terms, and with becoming respect for the opinions of those who differ from us, to express them. But the Pioneer is not a partisan journal. It is not pledged to the Republicans or Democrats, or any other organization, nor is it likely to be. We have always felt as if we could not work in party harness, and there is no probability that we shall change. But we do profess to be independent, and it is just here where the friends who send us the articles to which we have referred. and who call upon and censure us, make their tween themselves and their political opponents. and we do not mean to be any such thing, but on the contrary, exactly opposite. Our paper has been built up to its present popularity upon this basis of independence, and our subscribers include many members of both political faiths who like to see matters looked at

What we published in favor of the Republicans did not suit the Democratic extremists, nor do the articles which commend Democrats their way into market, and find an ever-ready Klux Klans will disband very rapidly. In our judgment, it has been the extremists of trouble between the different sections of the course will be condemned, and the extreme and impracticable, often revolutionary views they present, will receive our opposition whether they be uttered by Republican or Democrat. In defining our position for the present and future, in reference to the authority that is to rule us, we only say that our future must be judged by our past. We believed Mr. Lincoln to be patriotic and wise, and so we said. We believed Mr. Johnson to be neither, and we have not scrupled to say so in the fullest terms which courtesy allows .-Members of Congress were direlect to duty and our view of it was freely expressed, and so in all the questions down to the election of a constable, we have condemned or approved according as the reasons for either course could be made apparent. It is not possible that in the practice of such a course all men pleased with us, but we do expect that all manly thinkers of either side will like the paper all the better for it. We have no faith have no belief in it as a part of a gentleman's vocabulary and so do not expect to indulge in it. But while we exercise the freest possible scrutiny into public acts and advocate whatever we judge will aid the public good, and oppose all else; we expect to do it in language gentlemen, and in no other. But once more of cheese. we reiterate, we are not neutral, not neutral on any question, and we cannot conceive the use of a journal that is so. Free, outspoken, that we think of sufficient importance to present to the public, without the least care as to upon that line as long as we edit the Pioneer.

At the last session of the New Jersey Conference, the few members of the church residing there were placed under connected with the church at Hancock's Bridge. There were no church accommodations in the place, and a small house of worship two or three miles away which had stood unused for some time past, was purchased, taken down, removed to Quinton's Bridge where it is being reconstructed, enlarged and modernized, and will make a neat and tasteful church edifice. A large part of the necessary cost is already subscribed, and it is likely that the house will be completed without encumbrance. The pastor, Rev. Mr. Gaskill, has labored with unceasing and intelligent energy in accomplishing this result, and deserves, as he receives, the appreciation of the

WHEERAS, The Board of Directors of the West Jersey
Railrond Con:pany having received since their last
meeting, tidings of the accesse of their venerated
colleague Edwin A. Stovens, desire to express their
protound sense of the loss which they have thereby
sustained and their grateful appreciation of his high
character and inestimphic services. West Jersey Railroad Company deplore the loss of one of the fathers of their enterprise, to whose large minded sagacity and desire for the improvement of West Jersey we are indebted for that well spring of prosperity which is rapidly fertilizing this most secluded and heretofore most uncultivated section of

cluded and heretofore most uncultivated section of the State.

RESOLVED. That while we remember the social characteristics of Mr. Stevens. his generous and noble characteristics of Mr. Stevens. his generous and noble nature, his kindness and liberality, his stern probity and fidelity in the discharge of every dury, private and public, we recall with pride and entisfaction those eminent abilities exerted with the wisdom of the statesman and the devotion of the patriot for the benefit of New Jersey.

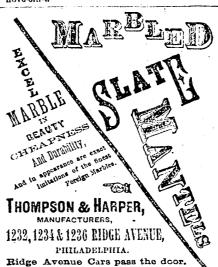

Resolved, That although the talents and services of Mr. Stevens were employed in promoting the welfare of his native State, yet the construction under his direction of a Railroad which was the Pionezh of that wast system of similar works which is now spreading over all parts of the United States from the Atlantic to the Pacific; entitle him forever to the glory of being one of the most useful and distinguished of national benefactors.

The most popular Monthly in the world,—New York Observer.
We must refer in terms of eulogy to the high tone and varied excellencies of Harper's Magazine—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the culture of the American people; and the popularity it has acquired is merited. Each number contain 141 pages of reading matter, appropriately illustrated with good wood-cuts and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best teatures of the daily journal.
